Year In Review 172

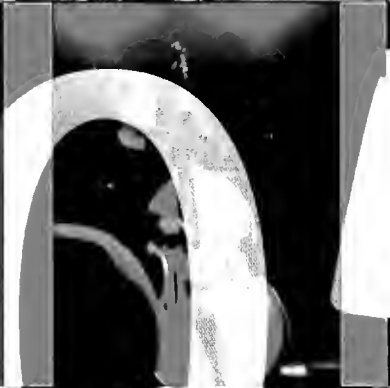

This past year, the '80s really came back into style. From frilly short skirts to legwarmers, the re-emergence of '80s stars like Motley Crue and Duran Duran, and even George Jr. in the White House, this year has really brought back the feel of the 1980s. That is why we chose a retro theme for the yearbook. Here is a throwback to what some would argue was one of the best decades.

What happened then...

1980

Ronald Reagan and George Bush are elected president and vice president over Jimmy Carter and Walter Mondale.

Movies: Airplane, The Empire Strikes Back, Caddyshack, Coal Miner's Daughter, Flash Gordon, Friday the 13th, Herbie Goes Bananas, Mad Max, Ordinary People, Private Benjamin, The Blue Lagoon, The Shining, Urban Cowboy, Superman II, 9 To 5, Stir Crazy

At the biggest naturalization ceremony ever held, 9700 immigrants are sworn in as United States citizens at Los Angeles Memorial Coliseum.

President Reagan orders reinstatement of the U.S. military draft registration for 18 year olds.

1982

The Equal Rights Amendment to the United States constitution is defeated as only 35 of the required 38 states approve it.

Chile's government lifts the "state emergency" that had been in effect since 1978.

President Carter signs Crude Oil Windfall Profits Tax, possibly the largest tax ever imposed on an industry.

Arkansas federal judge rules it unconstitutional to require schools to teach "creationism" if they teach the theory of evolution.

Movies: E.T. - The Extra-Terrestrial, Tootsie, An Officer and a Gentleman, Rocky III, The Best Little Whorehouse in Texas, Star Trek: The Wrath of Khan, 48 hrs, Airplane 2 - The Sequel, Conan the Barbarian, Creepshow, Deathtrap, Diner, Fast Times at Ridgemont High, Gandhi, Poltergeist, Quest for Fire, The Road Warrior, The Verdict

U.S. and South America banks lend Argentina \$500 million to help pay its debts.

President Reagan was shot and seriously wounded. His assassin John W. Hinckley, Jr. is found not guilty by reason of insanity.

Harold Washington becomes the first black man elected as Mayor of Chicago.

Movies: Return of the Jedi, Terms of Endearment, Flashdance, Trading Places, WarGames, A Christmas Story, Blue Thunder, Cheech and Chong's Still Smokin', Educating Rita, Mr. Mom, National Lampoon's Vacation, Risky Business, Silkwood, Staying Alive, Sudden Impact, The Big Chill, The Dead Zone, The Right Stuff, The Year of Living Dangerously

Sandra Day O'Connor begins her term as the first woman justice on the U.S. Supreme Court.

About 1 million illegal aliens cross the southern U.S. border during the year.

Bishop Jean Marie Lustiger is named Archbishop of Paris, the first convert from Judaism to Roman Catholic to hold that post.

The birthday of Martin Luther King, Jr. is declared a national holiday to be observed on the third Monday of January.

Mikhail Gorbachev succeeds Konstantin Chernenko as Chairman of the Soviet Union's Communist Party.

Pope John Paul II is shot and seriously wounded.

1981

Philippine opposition leader Benigno Aquino is gunned down at Manila's airport.

The United States Supreme Court bars "a moment of silence" in public schools.

The United States becomes the world's largest debtor nation owing foreigners \$130 billion.

Movies: Raiders of the Lost Ark, On Golden Pond, Porky's, Arthur, Stripes, Absence of Malice, Body Heat, Chariots of Fire, Clash of the Titans, Escape From New York, Fame, Gallipoli, My Dinner with Andre, Ragtime, Reds, The Cannonball Run, Time Bandits

United States Marines and Army Rangers invade and subdue the tiny island nation of Grenada.

1983

The Gramm-Rudman Bill, requiring a balanced federal budget by 1991, becomes a law.

1984

The United States Supreme Court rules that those seeing refuge in the United States for political asylum must show clear probability of persecution in their

1988

Movies: Beverly Hills Cop, Ghostbusters, Indiana Jones and the Temple of Doom, Gremlins, The Karate Kid, A Christmas Carol, A Nightmare on Elm Street, A Soldier's Story, Footloose, Missing in Action, Red Dawn, Repo Man, Romancing the Stone, Sixteen Candles, Splash, The Killing Fields, The Natural, The River, The Terminator

The space shuttle Challenger explodes 74 seconds after liftoff.

Benazir Bhutto becomes the Prime Minister of Pakistan, the first woman to rule a modern Muslim nation.

The eight year Iran-Iraq War ends.

Movies: Rain Man, Who Framed Roger Rabbit?, Coming to America, Big, Twins, Crocodile Dundee II, Bloodsport, Die Hard, Major League, Red Heat, Tequila Sunrise, The Great Outdoors, The Naked Gun, Working Girl, Young Guns

1986

President Reagan gives legal status to immigrants who settle in the U.S. before 1982.

Movies: Top Gun, Crocodile Dundee, Platoon, The Karate Kid Part II, Star Trek IV: The Voyage Home, 9 1/2 Weeks, Aliens, Delta Force, F/X, Ferris Bueller's Day Off, Poltergeist 2 - The Other Side, Pretty in Pink, St. Elmo's Fire, Stand by Me, The Color of Money, The Golden Child, The Money Pit, Youngblood

Dr. Kathryn Sullivan in a mission on the space shuttle Challenger becomes the first woman from the United States to walk in space.

Vice President George Bush is elected 41st president.

Movies: Back to the Future, Rambo: First Blood Part 2, Rocky IV, The Color Purple, Out of Africa, Cocoon, Code of Silence, Commando, Desperately Seeking Susan, National Lampoon's European Vacation, Fletch, Mad Max Beyond Thunderdome, Prizzi's Honor, Silverado, Spies Like Us, St. Elmo's Fire, The Breakfast Club, The Goonies, The Jagged Edge, The Jewel of the Nile, Volunteers, Weird Science, Witness

1987

President Reagan and Mikhail Gorbachev sign a treaty to eliminate short and medium range nuclear weapons.

The United States Supreme Court declares that the Constitution protects the right of protestors to burn the United States flag.

1989

President Bush signs a law authorizing a bailout of troubled United States savings and loan institutions.

1985

The Regan administration proposes the government's first trillion-dollar budget.

The Dow Jones industrial average plunges 508 points on "Black Monday", by far the largest one-day loss in history.

The Berlin Wall is breached.

The Exxon-Valdez oil spill off the Alaskan coast is the largest oil spill in United States history.

Movies: Three Men and a Cradle, Fatal Attraction, Beverly Hills Cop 2, Good Morning, Vietnam, Moonstruck, Baby Boom, Broadcast News, Dirty Dancing, Empire of the Sun, Full Metal Jacket, No Way Out, Planes, Trains & Automobiles, Predator, Robocop, Stakeout, The Lost Boys, The Running Man, The Untouchables, The Witches of Eastwick, Wall Street

Movies: Batman, Indiana Jones and the Last Crusade, Lethal Weapon 2, Look Who's Talking, Honey, I Shrunk the Kids, Back to the Future II, Ghostbusters II, The Little Mermaid, Driving Miss Daisy, Parenthood, Born on the Fourth of July, National Lampoon's Christmas Vacation, Dead Poet's Society, Field of Dreams, Fletch Lives, Glory, Pet Sematary, Say Anything, Sex Lies and Videotape, Steel Magnolias, Tango & Cash, The Abyss, Uncle Buck, When Harry Met Sally

On Sept. 19, 1985, at 7:19 a.m., an earthquake lasted for three minutes off the Pacific coast of Mexico. Its magnitude was 8.1.

The odds of someone winning a lottery twice in four months is about one in 17 trillion. But Evelyn Marie Adams won the New Jersey lottery twice during a four month period in 1985-86.

In 1984, Dr. Kathryn D. Sullivan became the first woman astronaut to walk in space.

Dwight Gooden was 20 years and 11 months old when he won the National League Cy Young Award for New York in 1985, becoming the youngest pitcher to win the prestigious award.

On Feb. 22, 1985, San Francisco's Golden Gate Bridge was crossed by its one billionth car.

The first domain name ever registered was Symbolics.com. The domain name was registered March 15, 1985 by Symbolics Technology, Inc. Seven of the first ten domain names registered went to Universities.

The Associated Press reported in December 1985, in Eugene, Ore., a 6-month-old kitten set a Christmas tree on fire while batting at the lighted bulbs. The heat of the fire cracked a nearby fishbowl, and water from the bowl doused some of the fire. Firefighters arrived within minutes of the fire starting and put out the fire, which had spread to the carpet. A goldfish named Clyde was found lying prone in the cracked bowl, and when put into another bowl with water, was quickly revived and survived the ordeal. The water in Clyde's bowl had prevented the fire from getting out of control.

Despite being 24 years old, Michael J. Fox starred as high school student Marty McFly in the hit science-fiction comedy "Back to the Future" in 1985.

According to a 1984 study, the average consumer is exposed to 1,600 ads a day.

In 1985, Jimmy Stewart was awarded the Medal of Freedom by the United States government, the nation's highest civilian honor.

For many years, the globe on the NBC Nightly News spun in the wrong direction. Jan. 2, 1984, NBC finally set the world spinning back in the right direction.

The first female athlete to appear in a Wheaties "Breakfast of Champions" television commercial was Mary Lou Retton, shortly after her gold medal win at the 1984 summer Olympics.

Motley Crue was kicked out of the entire country of Germany in 1984. Their offense? Throwing mattresses out of hotel windows and watching them bounce off cars.

In 1985 cassette sales peaked at 41 million units but as the 20th century drew to a close, music lovers were buying less than 8 million a year. CD sales, meanwhile, have more than doubled since 1992.

Diana Ross managed to offend the entire population of Rome in October of 1985, when she told the media that no one should be permitted to wear jeans to her concerts. She asked the Romans to wear formal clothing to set the proper mood.

New Wave band Duran Duran got their name from the 1968 film, Barbarella.

The most famous 1980s quote was said Aug. 19, 1988: George H.W. Bush said: "Read my lips; NO NEW TAXES".

The second most famous '80s quote was from first lady Nancy Reagan: "Just Say No!"

In 1984, Miss America, Vanessa Williams becomes even more well known when she becomes the first Miss America to resign after old nude photos of her appeared in "Penthouse" magazine. That particular issue is also noted for being the first issue with a man on the cover (George Burns), and an underage Traci Lords is the nude centerfold. It is illegal to own, or even look at, this issue in most countries, including the United States.

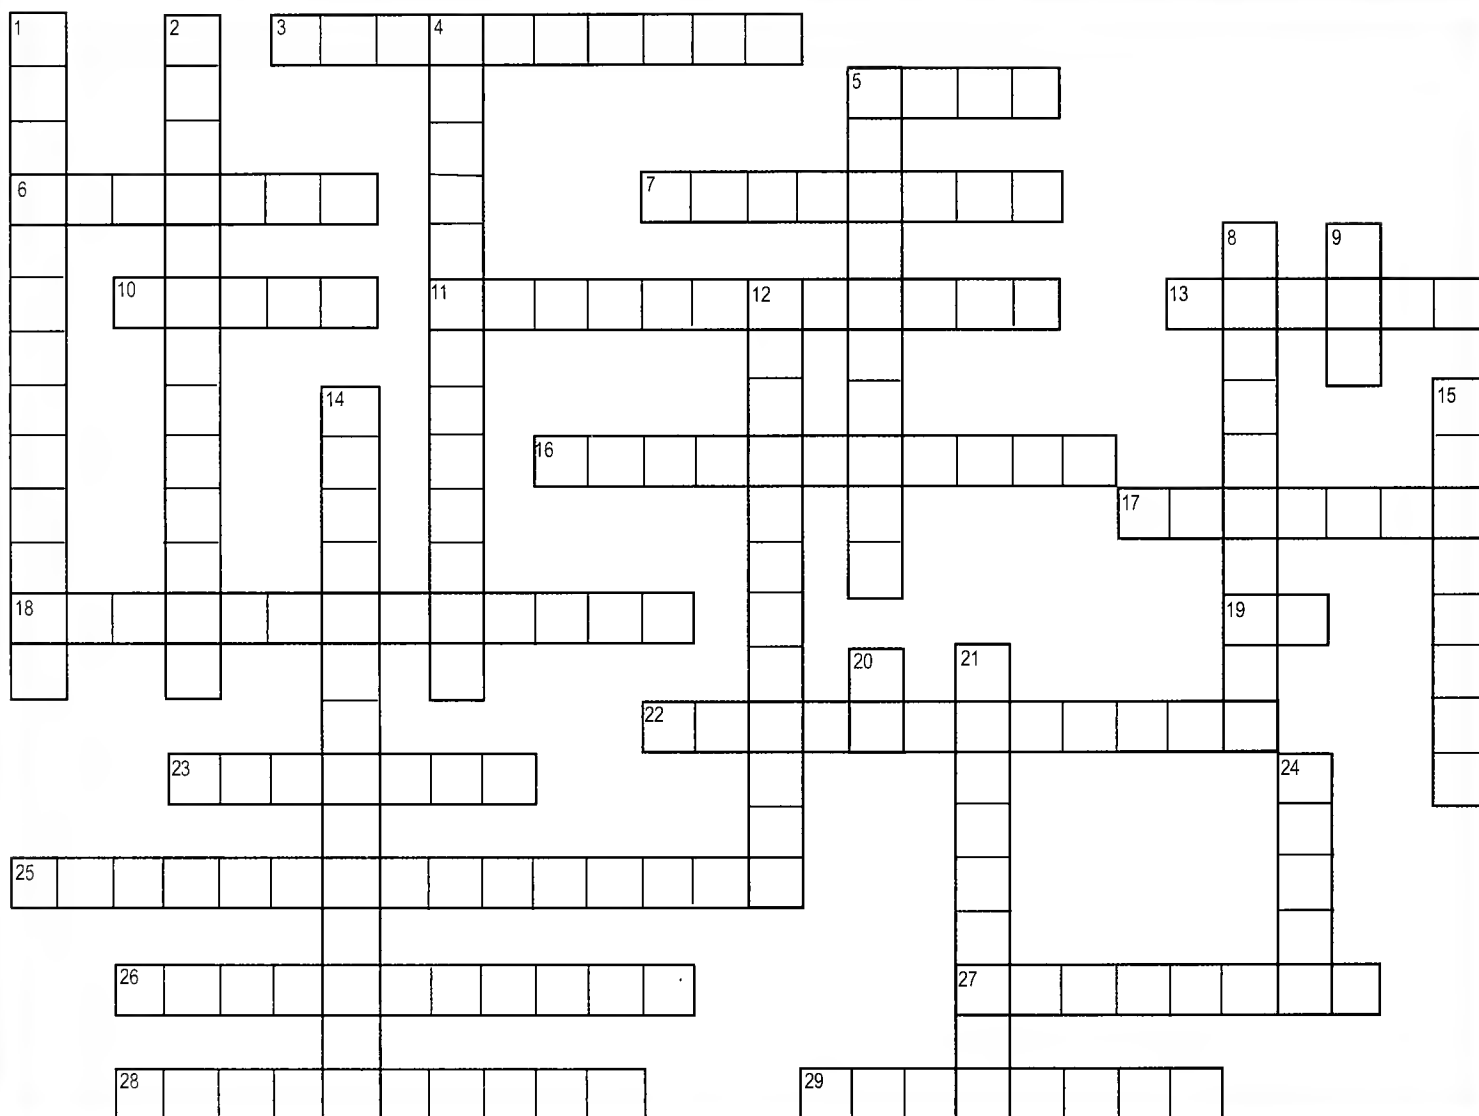

Top 25 Songs Of The 1980s

1. Physical - Olivia Newton John
2. Bette Davis Eyes - Kim Carnes
3. Endless Love - Diana Ross & Lionel Richie
4. Every Breath You Take - The Police
5. I Love Rock n Roll - Joan Jett and the Blackhearts
6. Ebony and Ivory - Paul McCartney & Stevie Wonder
7. Billie Jean - Michael Jackson
8. Eye Of The Tiger - Survivor
9. Flashdance (What a Feeling) - Irene Cara
10. Lady - Kenny Rogers
11. Say Say Say - Paul McCartney and Michael Jackson
12. Centerfold - J. Geils Band
13. Call Me - Blondie
14. Like A Virgin - Madonna
15. (Just Like) Starting Over - John Lennon
16. When Doves Cry - Prince
17. Jump - Van Halen
18. Upside Down - Diana Ross
19. All Night Long (All Night) - Lionel Richie
20. Maneater - Hall and Oates
21. Another Brick In The Wall (part II) - Pink Floyd
22. Crazy Little Thing Called Love - Queen
23. Total Eclipse of The Heart - Bonnie Tyler
24. Down Under - Men at Work
25. That's What Friends are For - Dionne Warwick and Friends

We asked the students, "Are these Hot? Or Not?" You answered.

Leg Warmers made a comeback, as well as some other fashion trends. Aerosmith and Metallica are still favored artists, as well as Michael Jackson's music, even if the man has issues. "W", the new mailroom, Bruff and the Bubble are not as favored, as well as the over-partying Paris and company. Fortunately for all of us, large, teased hair has not come back into style.

Scattered around and on these rectangles are numerous small squares with a black and white checkerboard pattern. The title 'Student Life' is printed in a large, bold, black serif font across the upper portion of the page.

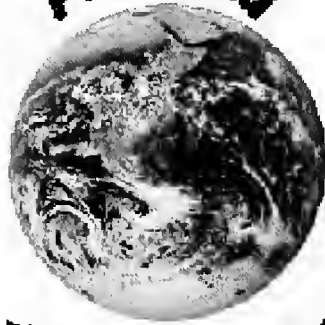

Student Life

The Student Life section shows things that happened this past year that affected us as students, and gives an idea of what students can do outside of their Greek or other organizations, athletic and academic clubs.

Tulane Unites Students From

Around

The World

At approximately 9 a.m. Saturday, Aug. 21, New Student Orientation at Tulane University commenced. Hundreds of nervous and excited freshmen moved into their dorms, met their roommates and experienced their first taste of independence. They were bombarded with the arduous tasks of learning their way around the campus, meeting new people and remembering to keep their IDs with them at all times. With the help of their Orientation Coordinators, Resident Advisors and respective colleges, these new students managed to get to know Tulane and have a great time all at once.

New Student Orientation was organized by the Office of the Vice President for Student Affairs, and more specifically, the Director of New Student Programs, Billye Potts. Even with the threat of rain hanging overhead and the fact that the University Center was under construction, Orientation went quite smoothly in this "year of displacement."

During the four days devoted to Orientation, students were able to explore and learn more about Tulane through many informative and interesting programs. Some of the most popular activities were the presentation given by world-famous hypnotist Kevin Stone in McAlister Auditorium, Reily Rocks! and the Natchez Mississippi Riverboat Cruise. All of these programs, and countless more, encouraged students to meet new friends and classmates, get to know New Orleans and get involved at and excited about Tulane University. Many of the lectures and programs sponsored by Tulane during Orientation were also geared towards teaching the new New Orleans residents about both on and off-campus safety. Many conscientious students attended the Newcomb and Tulane College sponsored lecture "No Means No – What is Consensual Sex?" Also, because many students tended to go off campus at night, many lectures were geared towards alcohol and drug awareness.

Orientation was also an enlightening academic experience for many of the students. Throughout the initial weeks of school students discussed their summer reading book, *The Color of Water*, with a Tulane professor and their hallmates, experiencing their first college "classroom discussion." The author, James McBride, was a guest lecturer for the student body later in the fall semester. Students also took placement tests, met with their academic advisors and took tours of the campus to learn where their classrooms were in anticipation of the beginning of classes on Wednesday.

Just as Orientation encouraged students to become more comfortable with their new surroundings, it encouraged parents to discover how to let go of their newly self-governing children as well. Many of the programs were directed towards parents and "learning to let go." The President of Tulane University, Scott Cowen, held a reception for the parents, and some of the more well-liked programs for parents were the Parents as Partners series and the Letting Go Program for Parents. As a result of these programs, many of the parents left their children at the end of the weekend with more confidence in their children and Tulane University, coupled with less anxiety about leaving.

By the start of classes, Orientation had allowed most of the new students to become confident and more comfortable with their new home for the next four years, leaving them ready to enjoy what was the beginning of what they hoped would be the best years of their lives.

By. K. Barkley Rafferty

Residence halls provide a secure environment for individual growth

All summer long each incoming freshman eagerly awaited their housing assignment coming to them in the mail. Who would be their roommate? What building would they be in? "It was really nerve-racking," shared Julie Wallack (fr., Newcomb).

Tulane's uptown campus had six underclassman dormitories, each dorm having its perks. Monroe Hall just underwent renovations; Sharp Hall had a bustling lobby; Butler House provided a great study environment; Warren Hall had a busy rooftop hang-out. "The roof was our home away from home," said Lauren Klein (fr., Newcomb). Josephine Louise Hall had great space with in-room sinks and walk-in closets. Patterson House was substance free. If you asked any freshman which dorm was the best they would have been sure to claim their own.

The biggest change this year in freshman housing was the renovation of Monroe Hall. Over one summer, the equivalent of three years of construction was completed. There was new carpet, ceiling tile and furniture. "The new mattresses were so comfortable," said Julie DeNeufville (fr., Newcomb). Those freshmen who requested Sharp Hall after hearing from upperclassmen that it was the nicer of the two, had some remorse. "I heard that Sharp was nice and Monroe was old, but Monroe was really nice and new," said Daniel Berke (fr., Tulane). But the good outweighed the bad: "Sharp had an awesome community though," said Berke.

A unique living option was all-female housing, available in both Warren and Josephine Louise Hall. The girls that lived there loved it: "It was a really peaceful living environment," said Klein. Despite having slightly more rules about visitors, particularly males, the girls ended up forming close, familial relationships with one another.

A pivotal characteristic of all freshmen living experiences was the Resident Advisors, upperclassmen who gave their time and sacrificed their living conditions to aid and guide incoming students. "My RA was a great resource; she always kept us informed about the best places to shop, eat and just have a good time," explained Megan Repine (fr., Newcomb).

Dorm life was a key aspect of the freshman experience. It was where new students made many of their friends. No matter where each person ended up living, they had a great introduction to Tulane living, truly proving that every experience is what you make it.

Annual Activities Expo Gathers New Support For Student Organizations

An annual event, the Tulane Activities Expo was held in August on Newcomb Quad in an effort to get the freshmen involved in the Tulane community early. Although geared towards new students, the Expo provided opportunities for all students to become active in extracurricular activities. Sororities, fraternities, clubs, sports and other teams were all represented on the quad.

One of the many club sports represented at the Activities Expo was Tulane Rowing. They had a table set up as well as members of the current team approaching people and promoting their sport. "I signed up on a whim, along with a hundred other clubs that seemed like fun. There is definitely something to be said for pushing your limits and having a sense of accomplishment for your day before most of the sane world is awake," said Mary DiPasquale (fr., Newcomb), commenting on the team's early practice times.

Tulane showed its political side at the Expo as both the College Democrats and College Republicans were well represented. Members were recruited and political events began with a vengeance early in the fall. Evan Wolf, president of the Tulane Democrats, said, "We had a great time at the Expo. We registered people to vote, signed up 581 people for our mailing list, gave away ice cream and made sure people knew that Tulane is still a strong, liberal campus." MOSAIC, Tulane's Lesbian-Gay-Bisexual-Transgender Alliance Group had one of the most interesting tables at the Activities Expo. Club members passed out brown paper bags full of LGBT information, condoms and candy. The club served multiple purposes on campus, including forming a comfortable environment and educating others about alternate views of sexuality.

Religious life was also highly acknowledged at the Expo by having numerous tables with information and several religious community leaders present to answer questions and give guidance. Yvetta Surovec (fr., Engineering) explained, "I started going to InterVarsity Christian Fellowship's Friday night worship services and freshman bible study and it's been awesome. It's great to be able to spend time with people that are so full of love and faith, and I'm amazed at how welcoming and friendly the Christian community is here to newcomers."

Overall, this year's Activities Expo was an overwhelming success, with hundreds of new members for all the clubs and organizations and massive exposure for those that are lesser known. The Tulane community can rest assured that its students are well involved within the university and the city of New Orleans.

Outreach Tulane

Outreach Tulane is a one-day volunteer community service event for incoming and returning Tulane students as well as faculty, staff, alumni, and their families. Through Outreach Tulane, we seek to build a stronger Tulane community by working together to provide needed assistance to local non-profit and community organizations. In addition, we hope to instill a deeper awareness of our surroundings and a lifelong commitment to service both individually and collectively within this university. Outreach Tulane is the Tulane community's largest annual community service event.

Hurricane Ivan Blows

Interstate 10 stands in a traffic jam for hours, as people desperately try to leave the city. After the mayor of New Orleans announced a voluntary evacuation as a result of the impending weather issues, traffic and other methods of transportation out of the city were in high demand. The interstate stood at a stand-still for hours, creeping forward almost unnoticeably. Some students reported it taking over 10 hours just to drive out of the city, let alone the state.

*Photo Courtesy of the Times-Picayune
Caption by Karen Reed*

Some took the evacuation as more of a business opportunity, trying to lure those who remained to their establishments with cheaper prices and special offers. Signs throughout the street clearly illustrated the resilient and light-hearted nature of those in the Big Easy.

*Photo Courtesy of the Times-Picayune
Caption by Karen Reed*

With the arrival of the hurricane, tropical storm conditions plagued the New Orleans area. Rising waters and rain created flood conditions for some portions of the city, while providing a free water park at Lake Ponchartrain for the younger children. The winds provided crashing waves, amusing the natives, as they had not experienced hurricane weather in a long time.

*Photo Courtesy of the Times-Picayune
Caption by Karen Reed*

Downtown New Orleans resembles a ghost town as the town evacuates as quickly as possible to avoid the wrath of Hurricane Ivan. An odd sight, even during the day, Bourbon Street was seen to be devoid of activity. Many storeowners seized the opportunity to travel to safety, leaving the town quiet and empty for the first time in a long while.

*Photo Courtesy of the Times-Picayune
Caption by Karen Reed*

Through the Fall Semester

The fifth official hurricane to develop in the Atlantic Ocean during the 2004 hurricane season, Ivan was a Category 5 Hurricane projected to hit Cuba and turn east back into the Atlantic Ocean. It did hit the western tip of Cuba, but because the majority of the hurricane didn't pass over land, Ivan was able to pass through the Yucatan Channel into the Gulf of Mexico. Once in the Gulf, Ivan downgraded to a Category 3 as it headed north, eventually making landfall in Gulf Shores, Ala. Sept. 16, 2004. All local schools were closed.

Reactions from students new to the severe weather experience were mixed. Marissa Novak (fr., Newcomb) said, "It was kind of annoying and a nuisance because I was worried about my travel plans." On the other hand, Melinda Rubenstein (fr., Newcomb) said, "[It was] euphoria—no school." When evacuation from the school became mandatory excitement was felt through the entire student body. Marissa continued, "I went home because it was too long a time to stay here." Most felt the administration handled the situation well. "It was an interesting experience," concluded Marissa, whereas Melinda felt "the whole situation was a joke—nothing happened."

Many students left school but didn't return home; most students who chose this alternative were among the most excited at the news of the evacuation. Kate Sheerin (fr., Newcomb) shared, "I got really hyper because there was no school." However, Kelly Wiggs (fr. University College) said, "I was angry; I already had all my homework done." Both girls choose to take a road trip to Austin while Drake Cardwell voyaged to Mandeville, La. "They should have cancelled school earlier," complained Cardwell, although all agreed that it was frustrating that the evacuation was futile in the end.

Risking the weather, some students chose to stay in the city of New Orleans with family members. Melissa Gurdian (fr., Newcomb) was a native of the town and her initial reaction was rather apathetic: "Another hurricane." When asked why she chose the risky option of remaining the town, she responded, "We're not the evacuating type. We've never evacuated. Even though Tulane acted at the last minute, hurricanes are last minute events, so the administration did what they could."

Despite frustration felt from the lack of notice and difficult travel experiences, it appears a consensus that the school's actions were appropriate and, although scary, the hurricane evacuation was thoroughly enjoyed by all.

By Samantha Clark

A woman heads towards the Superdome, a safe evacuation point within the city, with her four young children in tow. As a result of the late notice that the town was to be evacuated, many families were unable to leave before the hurricane was scheduled to hit New Orleans. The Superdome was marked as a safe-point for those families uncomfortable staying in the own homes. Evacuation became a serious problem when the highways suffered severe traffic jams and were eventually closed, making the Superdome a number one choice for safety.

Photo Courtesy of the Times-Picayune
Caption by Karen Reed

Men work diligently to protect their homes and apartments from potential weather damage. Having a hurricane threaten the city of New Orleans so directly was rare, thus the town took protecting their property seriously. Windows were boarded up, sand bags laid down and various other measures were taken to prevent potential damage from wind, rain and flooding. Because the town is 11ft under sea level, the possibility of a flood from the Mississippi River was high, resulting in tense preparations.

Wave Front Week

Tulane's running back, Matt Forte, number 95, makes a run down the field during the Homecoming game against the University of Alabama-Birmingham Blazers in Tad Gormley Stadium on Saturday, October 23. Tulane reached a new single-game record with their six touchdown passes and 417 passing yards during the game, ending in a Green Wave victory with a score of 59-55. The game set a new record for Tulane with a combined score of 114 points.

*Photo Courtesy of Tulane Publications
Caption by Karen Reed*

Meeting and greeting children in the crowd, Tulane's mascot, Riptide, worked to excite the group and keep the momentum going. Riptide, a pelican, was the result of a change to the mascot in 1998. While always maintaining the title of the Riptides, the mascot used to be dubbed "Gumby," and there was an upset when the mascot was changed to Riptide; however, since then he has been a heartfelt part of Tulane sports games.

*Photo Courtesy of Tulane Publications
Caption by Karen Reed*

Standing tall on stage at Homecoming Village, the Homecoming Court anxiously awaits the announcement of who won the title of Homecoming King and Queen. Anne Morgan (sr., Newcomb), Jessi Leavitt (sr., Newcomb), Elaine Hume (sr., Newcomb), Jena Hellman (sr., Freeman), Kate Dochen (sr., Newcomb), Rob Fineman (sr., engineering), Chase Hahn (sr., engineering), Brent Rosen (sr., Tulane), Jeff Schiffman (sr., Freeman), and Jacky Wu (grad., Freeman) were all honored to be selected as representatives for their senior class and were proud to claim the title.

*Photo Courtesy of Tulane Publications
Caption by Karen Reed*

end: Tulane Reigns

The crowd stays on their feet and roots for the team until the very end with such a close game. High energy emanated as Homecoming was our chance to prove our strength as a sports team.

Elaborate chalk decorations dot the campus on Homecoming Weekend, like this colorful riptide display in front of McAlister Auditorium. The artwork was part of a campus-wide event during the week: the Sidewalk Art Show. The art show was sponsored by the Tulane Art Department as an opportunity for the art students to fine-tune their techniques while brightening up the campus for the parents' arrival that weekend.

Riding down the street for all to see, President Scott Cowen shows his Tulane pride during the traditional Homecoming parade. The Homecoming theme was "Tulane Reigns," giving students a chance to express their love and support for Tulane and all the school stands for. This year's parade highlighted marching bands, various floats and the introduction of the Homecoming Court. The Homecoming parade wound around the suburbs of New Orleans, eventually passing through Homecoming Village, an event fitted with food, drink, live music, games for children and merchandise, finally reaching its destination: Tad Gormley Stadium where the spectators witnessed a victory.

Bush Celebrates Victory As The Nation Divides

President George W. Bush prepares for his second term after securing the election with 51 percent of the popular vote over Senator John Kerry

The presidential election of 2004 was one of the most heated in history. America was clearly divided, as Democrats and Republicans intensely campaigned to sway the votes of crucial, undecided voters. As the election grew closer, we saw the emergence of numerous organizations and campaigns targeting young people and encouraging them to use their power to participate and cast their vote in this all-important election. Celebrities, such as Ben Affleck, Leonardo DiCaprio, the cast of the Fox show "The O.C." and, of course, P. Diddy joined the campaign effort telling young voters to, in the words of P. Diddy's campaign, "Vote or Die." MTV's "Choose or Lose" campaign set out to have 20 million people between the ages of 18 and 24 register and vote in the 2004 election. Based on the size of our generation, young people had the power to decide who our next president would be: incumbent George W. Bush or John Kerry.

Like the election of 2000, all experts predicted that this election would be very close and the winner would be determined by just one or two swing states. As the countdown to election day began, the presidential candidates participated in a series of three debates to present their positions directly to the American public. The debates focused on such issues as gay marriage, the economy, health care and the war in Iraq, the topic invoking the most heated discussions. With both candidates taking extremely different positions on important issues, voters were forced to make tough choices.

On Nov. 2 the race stayed close as each state's votes began to be counted. Both candidates continued to campaign, encouraging Americans to get out and vote. "This is a solemn and unique moment when the American people get to decide... This is your chance to hold George Bush accountable for the last four years," John Kerry stated during one of his many speeches that day. Kerry's comments did not seem to worry the president, as he told reporters, "We're coming down the homestretch, and I feel great." As the night wore on, President Bush held a slight lead over John Kerry, and all attention was focused on Ohio, the state that would determine the winner. Because of provisional and absentee ballots that could potentially have been cast for Kerry but could not be counted until several days after the election, it seemed as though America would not have a president-elect for several weeks, just as in 2000.

With 120 million Americans casting their votes, representing 60 percent of the total registered voters and setting records with the highest voter turnout since 1968, President Bush was declared the winner, receiving 51 percent of the votes, making him the first president since his father to receive more than half of the nation's popular vote. Along with a Republican president remaining in office, Congress also became predominantly Republican, with 36 filling seats in the Senate and 231 in the House of Representatives. Even with the war in Iraq, high unemployment and a battered economy, moral issues stoked the fire in the hearts of many Americans, winning the election for President Bush according to some. In addition to becoming a conservatively-dominated nation, 11 states approved an amendment to their state constitutions banning gay marriage, making this election year truly historic.

Max Stein

The Book Giving Tree

Could you give us a brief overview of the project and what it entails?

Our goal this year is to donate over 1,000 books to local New Orleans children and record at least 500 of these books on tape. Literacy is an ongoing problem in the state of Louisiana, especially in New Orleans. Support from Tulane's campaign will help promote literacy proficiency within the New Orleans school system.

How do you feel the project will benefit society, New Orleans and our community?

Literacy is an enormous problem. Children who do not have access to literature will not be able to fully develop reading skills. We attempt to bring these children resources to overcome illiteracy.

What obstacles did you come across during your work and how did you overcome them?

We lost all of our supplies and a tree this year. Money was a real problem until the Newcomb Life Grant was given to the Book Giving Tree.

How has the Book Giving Tree project met or exceeded your expectations?

Far and above so far.

How do you feel the Tulane community responded to the project?

I feel that this project could grow and become bigger and better but the community response this year has impressed me.

What was your biggest accomplishment during this project and how did it affect you?

Just seeing an entire room full of books and so many of them being wrapped in one day makes me feel like my work has paid off. It was hard to get this project back on its feet after we lost so much in the move from the UC. I can't wait to make the Book giving Tree even bigger and better next year!

Do you hope to see this project continued and for what reasons?

I should hope that this project would be continued. I believe that the campaign for childhood literacy is extremely important. The more Tulane students can support this cause, the higher the literacy rates in schools surrounding the Tulane community will become.

Interview with Rachel Zegas by Karen Reed

Having successfully collected over 1,000 children's books, the program used a spare closet in the Howard-Tilton library to store the books before delivering them to the educational programs and schools awaiting them. Each book was individually wrapped and labeled for individual students, personalizing the program's efforts.

Photo and Caption by Karen Reed

Putting the finishing touches on her package, Sarah Graham tapes up the end of her book. Organizer Rachel Zegas was particularly proud of her 35 volunteers and their efforts when they wrapped 323 books in one afternoon.

Photo and Caption by Karen Reed

Lucy Killen (sr, Freeman) picks a book to read for the recorder. The goal of the project was to provide access to literature to help children overcome illiteracy.

Photo and Caption by Karen Reed

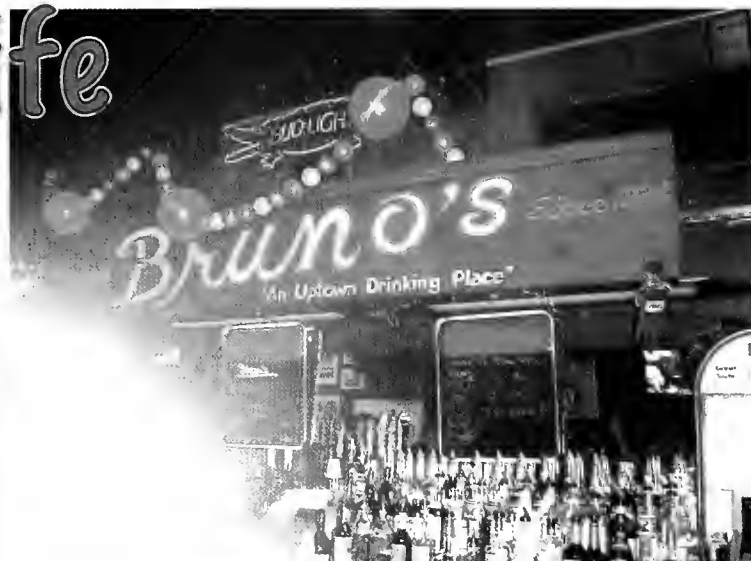

Finding a quiet spot, Sierra Tolbert (so., Newcomb) reads her book aloud to a tape recorder. Students created books on tape of almost 500 books to aid students having trouble learning how to read, or who didn't have the adult presence in their lives to help teach the skill.

Howard-Tilton Memorial Library

"I went there one time." Don't worry, that is not a normal response to the library. Besides the incredible selection of books one can choose from in the main library or one of the eleven different libraries within Howard-Tilton Memorial Library, it is a great place to study and get some serious homework done. Finding at least one person in your class at the library is an easy task, especially during midterms and finals. Some students do choose to study in other locations; however they still use the different services the library provides, such as the 250 free pages of printing a semester. Although many students do use the library for its great resources and study spots, the occasional girl will head there to "check out the frat study hours."

Working Hard in the Big Easy: The Reily Center

Here's a snapshot from last fall representing entrances at Reily for a period of one week:

Opening to Noon – 3,973

Early Afternoon to 4 p.m. – 4,142

4 - 7:30 p.m. – 4,287

7:30 p.m. to close – 1,802

Even in the middle of the day, there is always a wait for the step machines. Living in a city recently named one of the top ten fattest cities in the United States, it speaks highly of our generation to have students so fitness-focused.

Photo and Caption by Karen Reed

One of the most-prized features of the on-campus recreation center is the indoor swimming pool. Sitting at 50 meters by 25 yards, the pool is used to teach water fitness classes to students and the New Orleans community, as well as for relaxation and general exercise.

Photo and Caption by Karen Reed

Working hard on the treadmills, students and local residents get their daily exercise at the gym. Each of the machines available for use at Reily are suited with televisions with independent controls, allowing each member their own viewing experience while working out.

Photo and Caption by Karen Reed

Situated near Claiborne Avenue, the Reily Student Recreation Center is a cornerstone of Tulane society. Features of the center include a 7,000 square foot weight room, a variety of exercise machines, an indoor track, basketball and racquetball courts and an outdoor social area. Reily offers many different kinds of classes teaching new skills from spinning to African-Caribbean dancing.

Photo and Caption by Karen Reed

Highest usage by day of the week for same one-week period of time as above:

Monday: 2,145 entrances

Tuesday: 2,014 entrances

Wednesday: 2,081 entrances

Thursday: 1,755 entrances

Friday: 1,525 entrances

Saturday: 1,039 entrances

Sunday: 1,023 entrances

Total one-week entrances: 11,582

Construction

Construction on the University Center has been under way since January 2004, and things are starting to look different. The construction of the new University Center is supposed to be complete by Spring of 2006.

On-Campus

PJ's Coffee, located by Willow houses and underneath Stern, supplies students with their necessary caffeine intake. The coffee shop served a popular place to have meetings, meet friends or study.

Photo and Caption by Karen Reed

Mardi

Tips on How to Survive Mardi Gras:

Mardi Gras Fun Facts

What do the colors **purple**, **green** and **gold** represent?

purple = justice; **green** = faith; **gold** = power

When does Mardi Gras occur each year?

Mardi Gras occurs 40 days before Easter. Also called "Fat Tuesday", the day signifies the beginning of Lent, a religious tradition of sacrificing a personal vice to represent Jesus' withdrawal into the desert for 40 days.

What's the king cake all about?

King cake is a round, frosted cake with a plastic baby hidden inside; whoever gets the piece with the baby has to provide the king cake on the next occasion.

Who are the flambeaux carriers in the parade?

Otherwise known as flambeaux, the men carry lit kerosene torches, performing tricks to earn coins from the watchful crowd. In the past, the flambeaux were used to light the floats, which are now self lit.

Spectators beg for beads from the Fourth of July float at the Krewe of Iris parade. Each parade has a different theme, this particular one being world holidays including Valentine's Day, Christmas and St. Patrick's Day.

Photo and Caption by Karen Reed

(Above) A float rider scans the awaiting crowd and prepares her throws. Riders provide their own throws, usually spending hundreds of dollars.

Photo and Caption by Karen Reed

(Left) Three parade riders toss beads at the parade goers from their decorated float. It is tradition for all float riders to wear masks over their eyes, concealing their identities while adding a decorative flair to their outfits.

Waiting for the parade to resume moving, the North Carolina State University Navy and Marine ROTC stand at attention. The United States Army, Marines and Navy were proud to represent themselves in full uniform throughout the duration of the festivities.

Photo and Caption by Karen Reed

4: Don't get arrested on Saturday because you won't be released until Wednesday.

Giving a menacing look, Cupid points his arrow at the oncoming crowds. Most floats had impressive decorations and depictions of well-known characters in society, such as Dr. Evil from Austin Powers and the leprechauns of St. Patrick's Day.

*Photo Courtesy of Claire Anderson
Caption by Karen Reed*

Sitting proudly atop his outhouse throne, the King of Tucks waves at his kingdom as he rides down the road. Commonly known as the "joke" parade, the Tucks parade had floats designed more towards children, such as Yoda, ET and Austin Powers.

Photo and Caption by Karen Reed

Glistering in the sun, the marching band's brass section marches proudly along. Marching bands from Louisiana middle and high schools, as well as from states around the nation, came to march in parades, often participating in more than one.

Photo and Caption by Karen Reed

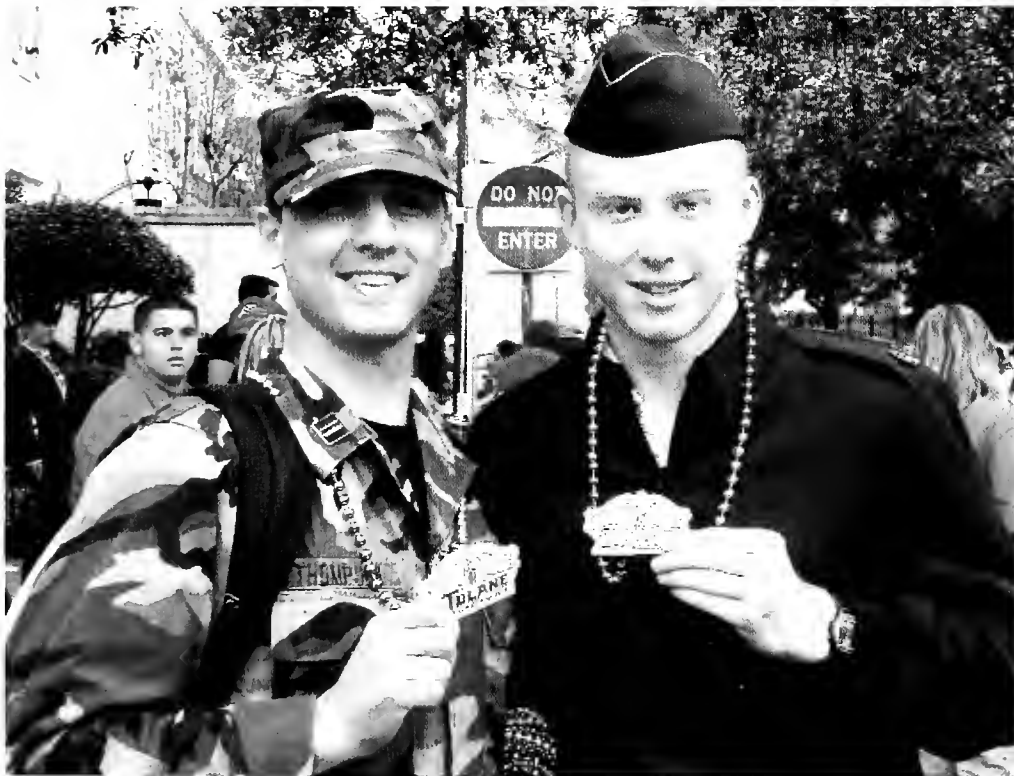

Girls adorned in bright blue taunt the crowds at the Zulu parade with their beads. The Zulu parade is widely acclaimed as one of the most famous, known for the hand-painted coconuts yearned after but that few parade goers ever receive.

*Photo Courtesy of Claire Anderson
Caption by Karen Reed*

5: Sure fire way to get arrested: Urinate in public.

Mardi Gras: Tulane Style

Okay, so it's St. Patrick's Day parade, not Mardi Gras, but the throws were just as good.

With over 250 student organizations at Tulane, there is something for everyone. This section lists and describes just some of the clubs at Tulane.

Associated Student Body

PRESIDENT

Melody Baham

UNDERGRADUATE CHIEF OF STAFF

Chris Johnson

SECRETARY

Carrie Mitchell

PARLIAMENTARIAN

Rob Judd

DIRECTOR OF TECHNOLOGY

Tony Vanky

The Tulane University Student Council was first organized in March 1915, and was composed of the President of the various student bodies of the University. The President of the Student Council served as the general student body President. Student government later evolved as the Associated Student Body and provided for the campus wide election of a President and Vice President.

Revisions to the ASB Constitution in 1966 established two Vice Presidents - Vice President for Administration and Vice President for Finance. In 1972 constitutional amendments added to the student government a Vice President for University Affairs. In 1980 constitutional amendments added a Vice President for Academic Affairs. In 1990 a Vice President for Student Life was added and in 1996 the Vice President for Administration was changed to the Executive Vice President.

In 1998 the Associated Student Body split into two houses, the Graduate and Professional Student Association and the Undergraduate Student Government. Each house was granted an executive cabinet, eliminating the Associated Student Body Vice Presidents. The Associated Student Body President remains as the only student government official elected by the entire student body. This record was initially compiled and displayed in August 1979. This electronic version was compiled in and displayed in 2003. Its purpose is to recognize the individuals who have distinguished themselves as student government leaders at Tulane University.

Information Courtesy of the ASB Website

Undergraduate Student Government

The Undergraduate Student Government (USG) is the governing body for all undergraduate organizations at Tulane. The USG was formed to give students an active voice at the university, and to address students' concerns regarding the university, its administration, and issues effecting the quality of education and life here at Tulane. All USG meetings are open to the public, and are held bi-weekly. The USG Senate consists of three parts. First, each undergraduate college elects a number of senators to represent it at USG meetings. Second, the chairs of the various organization councils (Association of Liberal Arts and Pre-Professional Organizations, Associations of Programming and Performance Organizations, Association of Service and Education Organizations, Club Sports, Media Board, Multicultural Council, Political Action League, and Tulane Council of Campus Religious Organizations) speak on issues affecting the groups under their jurisdiction. Finally, an Executive Council, consisting of a President and five Vice-Presidents, presides over the Senate meetings and represents the student body before the administration. The USG invites students with any issues or concerns to come and speak during the Student Forum of a USG meeting or to contact the USG.

Newcomb Senate

Newcomb Senate had another successful year representing the interests of Newcomb students and maintaining the standards of academic excellence, preserving the tradition and fostering the atmosphere and identity of the H. Sophie Newcomb Memorial College through programs, activities and proposed legislation. This year, the group sponsored a host of activities for Newcomb students such as Celebrate Newcomb Week, with weeklong activities such as an ice cream social with Dean Lowenthal, a Toast to Newcomb at the home of the dean and an election watch in the JL lounge. Newcomb Activities Expo was also held during this week, and at the end of the fall semester Newcomb Senate again sponsored the Book Giving Tree, which donated books to New Orleans children. Newcomb Senior and Senate President Beth Sundstrom said, "I feel that the Newcomb College Senate fosters the existence of a Newcomb community and provides an opportunity for students to develop confidence and leadership skills in a nurturing environment. As a student government, we also tackle important campus concerns and strive to increase awareness regarding issues relevant to women in our university and community. We actively strive to perpetuate the values of Newcomb College through campus events, speakers and community outreach programs."

Tulane Senate

As the student government body of Tulane College, the College Senate conveys the concerns of students to the College and University administrations. Throughout the course of the year, the Senate also organizes academic and social programming for Tulane College students. Among the annual Senate-sponsored events are the "What's My Major?" forum, featuring faculty from departments of the Faculty of the Liberal Arts and Sciences; "Day at the Diamond," a Senate-sponsored Tulane baseball game; and the "Big Brother Program," which welcomes incoming freshman to Tulane College.

Additional activities include significant community service involvement and the production of a bi-annual newsletter. Tulane College Senators also serve as marshals at the College's annual commencement ceremony.

Through its activities, the Senate seeks to further the sense of tradition and pride in Tulane College. All programs are intended to benefit the students of Tulane College.

Information Courtesy of Tulane Senate Website

University College Student Government

Each year during the spring semester, University College students elect a president, vice-president (full-time student), vice-president (part-time student), secretary, treasurer and senators-at-large. These officials function as the University College Student Government. Additionally, the president of the college government appoints (generally from among the elected officials) two representatives to the university-wide Associated Student Body Senate.

Student government is funded by a mandatory student fee. Part of the income goes to Tulane University student organizations and activities, and part is retained by the University College Student Government Association. Student activity fees are distributed by the Associated Student Body, which organizes campus activities. The University College Student Government Association requests its budget from that body.

Information Courtesy of the University College Student Government Website

Freeman Student Government

The Freeman Student Government is the formal organization of students enrolled in the BSM program. All BSM students are automatically members of Freeman Student Government. The Freeman Student Government influences many of the curricular and extracurricular activities of the Freeman School of Business. Students play a role in modifying the curriculum, in evaluating courses, in hearings of academic integrity, in planning academically related activities, in selecting faculty for special honors, and in organizing a schedule of social events. BSM students are encouraged to take a leadership role in Freeman Student Government and to support the activities sponsored by Freeman Student Government.

Information Courtesy of the Freeman Student Government Website

Meditation Club

The Tulane Meditation Club is a non-sectarian, obligation-free community organization open to Tulane students, faculty, staff, and friends.

The purpose of the club is to provide an avenue for members to experience the benefits of any or all of the following:

- 1) Meditation and Self Inquiry;
- 2) Group Inquiry and Reflection;
- 3) Engaging in good works.

The Tulane Meditation Club encourages people to employ meditation, mindfulness, and meditative philosophical insights to consciously and conscientiously develop their own personal, moral, and spiritual values -- and to live through those values for the benefit of all of the sentient beings who might benefit from such efforts.

To this end, the TMC invites you to:

- 1) participate in our meetings where we can collectively explore different kinds of meditation;
- 2) cultivate greater self-knowledge, mindfulness, happiness, morality, and integrity;
- 3) discuss meditative philosophy and insight in a non-sectarian environment;
- 4) engage in enlightened activism and collective community service;
- 5) convene with like-minded people in an open setting.

Information Courtesy of the Tulane Meditation Club Website

Tulane Anime and Manga Society (TAMS)

TAMS meets to watch Anime and Manga.

Information Courtesy of the Anime and Manga Website

International Game Developers Club (IGDA)

The purpose of this organization is to provide a network of people and resources to start, work, and complete game projects and have fun doing so. Additionally the organization will work to increase awareness of the field of gaming and Tulane University as a resource in that field.

Information Courtesy of the International Game Developers Club Website

TURBO

The purpose of this organization is to fund, organize, and operate the TURBO competition. Additionally, the TURBO Club will increase awareness of the field of robotics on campus.

Information Courtesy of the TURBO Website

The Governor's Program of Abstinence

The purpose of this organization shall be to spread the abstinence message to Tulane students to prevent the epidemic of sexually transmitted diseases on our campus. Membership shall be open to any Tulane student who makes a conscious decision to remain sexually pure until marriage regardless of what they have done in the past as long as they uphold their new commitment. Membership can be denied to any student in the club who actively has sex out of marriage.

Information Courtesy of the Governor's Program of Abstinence Website

Feminist Majority Leadership Alliance (FMLA)

The purposes of the Feminist Majority Leadership Alliance of Tulane University will be: 1. To establish a broad constituency to work in pursuit of feminist ideals -- social, political, and economic equality for women and men, girls and boys. 2. To study and take action on national, campus, and local feminist issues and concerns. 3. To provide leadership and career building opportunities for feminist students. 4. To educate the college/university community about feminist issues. 5. To enhance feminist community on campus.

Information Courtesy of the FMLA Website

Amnesty International

The Tulane University chapter of Amnesty International works under the guidance of the general organization of Amnesty International. As an organization, Amnesty works to uphold human rights worldwide. The procedure for urging countries to maintain humanity for the treatment of their citizens is based on the signed contract by most countries to respect the International Declaration of Human Rights. Amnesty is a non-partisan organization that does not try to change politics but urges political leaders to obey the declaration to which they have already agreed.

Current campaigns include: Stop Torture, Stop Violence against Women, Global Corporate Accountability for Worker's Rights, Abolish the Death Penalty.

Information and Photos Courtesy of Andrea Schklar

Amnesty President Andrea Schklar and Vice President Sarah Miller.

American Society of Civil Engineers

ASCE is a pre-professional organization that provides opportunities for civil engineering students to learn more about their field and to make professional contacts.

Information Courtesy of the American Society of Civil Engineers Website

American Institute of Chemical Engineers

We are an organization that brings together the chemical engineering community at Tulane. The AIChE provides numerous services and activities to chemical engineers at Tulane, including mentoring program, panel discussions, and presentations.

Information Courtesy of the American Institute of Chemical Engineers Website

American Society of Mechanical Engineers

The purpose of the American Society of Mechanical Engineers is to integrate the experience of practicing engineers with students pursuing a degree in mechanical engineering.

Information Courtesy of the American Society of Mechanical Engineers Website

Audio Engineering Society

The purpose of the Audio Engineering Society is to increase educational and scientific knowledge in audio engineering, to promote and advance this science and its allied arts in both theoretical and practical application. The Audio Engineering Society also hopes to stimulate interest in audio engineering, to encourage interchange and intercourse of ideas among its members and to promote and maintain high professional standards among its members.

Information Courtesy of the Audio Engineering Society Website

Society of Automotive Engineers

The Society of Automotive Engineers has more than 380 collegiate chapters at universities worldwide. Through the guidance of SAE faculty advisors, over 15,000 student members participate in hands-on engineering projects, attend free section meetings and benefit from free technical papers and Special Publications. Many students build vehicles to compete in SAE's annual Collegiate Design Competitions, which include Mini Baja®, Formula SAE®, Aero Design®, Supermileage®, Walking Machine Challenge™, and Clean Snowmobile Challenge™.

Information Courtesy of the Society of Automotive Engineers Website

Tulane University Slavic Association (TUSA)

The purpose of this organization is to

- a) increase understanding of various Slavic cultures
- b) differentiate between Slavic cultures
- c) provide a forum for discussion of all relevant topics
- d) host speakers and events alone or in conjunction with other Tulane organizations on relevant topics.

Information Courtesy of the Tulane University Slavic Association Website

National Society of Black Engineers

The Tulane Chapter of the National Society of Black Engineers (NSBE) strove this year to uphold the society's mission of increasing the number of culturally responsible black engineers who excel academically, succeed professionally and positively impact the community. Last year Tulane teamed up with fellow NSBE school Xavier University to work together in achieving their organization's goals. This year the partnership continued with joint social events such as the Tulane/Xavier Skating Night. In addition to this valuable union, the NSBE attended their fall Regional Conference and spring National Conference. These conventions included valuable workshops and career fairs.

To show high school students what it means to study to become an engineer, the NSBE held Pre-College Initiative Conferences with students from McDonough 35 Sr. High. Students also volunteered in the Christmas in October community service program. In addition to all these accomplishments, Tulane Chapter students earned first and second place in the Oratorical Contest and participated in the African-American Quiz Bowl.

Photo by Ariel Baverman

The African-American Congress of Tulane, ACT, was established in 1969 as the first African-American organization on the Tulane campus. The purpose of the organization is serving the needs of the African-American population of the university. ACT promotes cultural, academic, social, and political growth and awareness of issues and problems relevant to the Black community, encourages a positive image of African Americans to support its members in achieving their educational goals, strives for academic excellence among their members through the use of study groups, mentoring programs, tutorial programs, and one of the largest test, book, and workbook files on campus.

President: Courtney Ordono

Vice President: Jeremy Rose

VP of Black Arts Festival: Ashley Mayes

Secretary: Christin Taylor

Treasurer: Gerard Randolph

Parliamentarian: Amanda McRee

Minority Affairs Chair: Kristin Lynch

Intramurals Coordinator: Rene Baptiste

Pre-Law Society

The purpose of the Pre-Law Society is to inform students about law school and the practice of law.

Information Courtesy of the Pre-Law Society Website

Anthropology Student Union

The purpose of this organization is to provide solidarity among students interested in Anthropology, and to provide academic enrichment for those students in the form of gathered information on programs, scholarships, fellowships, and current events in the field of Anthropology.

Information Courtesy of the Anthropology Student Union Website

Tulane-Israel Public Affairs Committee

The Tulane-Israel Public Affairs Committee (TIPAC) put the "Israel Dimension" into student political activism. This year TIPAC participated in the "Dude, Where's My Party?" activities expo to help students sitting on the fence decide who their vote would go for in the November presidential election. TIPAC also held an Israel Advocacy Training Day in October with the goals of recruiting and training pro-Israel students and giving them the skills and resources necessary to become an advocate for Israel. This all-day affair included guest speakers, discussions, a marketing information session, dinner and a concert. Although TIPAC does advocate political activism and strong U.S.-Israel relations, they are a bipartisan and nondenominational organization. All that is required to get involved with the Tulane-Israel Public Affairs Committee is a shared belief that it is necessary for the United States to have a strong relationship with Israel.

By Eileen Linnabery

College Republicans

In a year with a heated presidential campaign and election, the political organizations on campus had a lot to say. Tulane College Republicans, a group that existed to actively campaign for Republican candidates in all elections, worked this year to bring a conservative message to campus through carefully chosen speakers and discussions. College Republicans hosted such speakers as Louisiana state Sen. Walter Boasso and congressional candidate Art Schwertz to help foster intellectual debate on campus. For the 2004 election, College Republicans participated in the "Get Out and Vote" effort for David Vitter in the Senate race in Louisiana. Members of the group phone banked, did door-to-door canvassing, and sign-waved for Vitter and Bush. With rumors that some voters faced opposition at the polls this year, President of College Republicans Thomas Thompson (sr., Tulane) commented on the opposition that many College Republicans faced on the Tulane campus, saying, "Difficulties when voting? Well, I have not heard of any when voting, but there has been an extreme bias on campus that led to many CRs being afraid to state they are Republican on this campus." The Tulane College Republicans hope that in the future their political views will be accepted and respected on campus.

College Democrats

President: Chris Stow-Serge

Vice President: Jason Happ

Treasurer: John Caddel

Secretary: Dave Friedman

Community Service: Emily Rothschild

Public Relations: Lucia Marker-Moore

Technology Director: Devin Hendricks

Freshman Representative: Tim Steinhelfer

Social Chair: Andrea Dube

This year the Tulane College Democrats have become a leader among College Democrats chapters in Louisiana. They worked hard on the Kerry campaign sponsoring trips to Florida, as well as local canvassing and visibility efforts. The result was that Tulane's precinct turned out 46% more democratic voters than in 2000 and the Democrats won the precinct by 230%! After Kerry's November 2nd loss, the Tulane College Democrats kept working hard for run-off Congressional candidate Charlie Melancon. The Election Day phone calls for Melancon outnumbered his margin of victory. In the second semester, secretary David Friedman headed up the creation of "The Smart Ass", the newsletter of the Tulane College Democrats. The Smart Ass runs commentary on current political issues such as the fight to preserve Social Security and Republican bankruptcy legislation. The Dems continued the tradition of Social Justice Week, partnering with other campus organizations to raise awareness of progressive issues. In March they sponsored a trip to a campaign training session and in April brought more people than all the other schools combined to the Louisiana College Democrats state-wide convention. While we have had our rough moments as a party this year, the Tulane College Democrats continue to push forward with effective advocacy.

Tulane University Linguistic Folk

The purpose of the Tulane University Linguistic Folk is to further the field of linguistic study, increase on-campus awareness of Linguistics, and provide a common grouping for linguistics for both recreation and academic pursuits.

Information Courtesy of the Linguistic Folk Website

American Marketing Association

Open to all students, Tulane's collegiate chapter of the American Marketing Association presented members with the opportunity to learn from real-world marketing professionals. Many guest speakers came with valuable lessons and tools to teach members about marketing to certain demographics and how to network with executives. "The AMA offers a great supplement to Tulane's classroom experience and provides its members with the competitive advantage necessary to succeed in today's marketing field," said president Todd Exler, School of Business senior. This year, in addition to monthly chapter meetings and networking luncheons, the AMA attended the Intercollegiate Conference in April. They participated in a marketing research focus group for the House of Blues and also created and marketed a 'Tulane Day' at a local New Orleans Voodoo arena football game.

Business and Law Society

The purpose of the Business and Law Society is to provide members with information on legal and business related topics. The organization strives to provide members with practical interaction and experiences with members of the business and legal communities. The primary purpose of the Business and Law Society is to provide exposure to contemporary issues involving the interactions of business and law and to educate members on professional opportunities in business law. Additionally, the Business and Law Society facilitates educating members on law school admission related issues.

Information Courtesy of the Business and Law Society Website

Freeman Consulting Group

The purpose of the Freeman Consulting Group is to provide business consulting to local organizations on a non-fee basis. FCG has been in existence for over six years through the support of the TABA and the Levy-Rosenblum Institute for Entrepreneurship.

Information Courtesy of the Freeman Consulting Group Website

Psychology Club

The purpose of the Psychology Club is three-fold. One, the psychology club aims to increase awareness of the opportunities of psychology for students at Tulane University. Second, it aims to create a forum for those people interested in learning more about psychology, to gather information, and to participate in the field. Thirdly, the Psychology club serves to facilitate involvement in psychological issues through participation in relevant community service projects, in leadership roles in this organization, and in lectures, films, etc., relevant to this field.

Chelsea Motter
Sarah Moser
Laura Brown
Megan Strauss

The Tulane Exercise and Sports Science Society, a new club that emerged onto the extra curricular scene this year, proved to be an important new addition for students and faculty alike. Affiliation with Exercise and Sports Science, a University College major program, was not a requirement for this new club but rather just an interest in general wellness. TESSS welcomed students from all colleges to participate in the organization. Vice President Cecily Lehman, University College Senior, explained the purpose of the club as, "to provide education and services that promote wellness and performance enhancement through social interaction, academic and career opportunities, and community service." At meetings every other Wednesday in the Reily Center students gathered to discuss and learn about topics ranging from what they can do with their Exercise and Sports Science degree to their personal body fat percentages. In its first year, the club has gained recognition and will be a part of the Tulane community for years to come.

By Eileen Linnabery

Women in Science

The Women in Science Club has been a Newcomb tradition for years. This year, the organization brought an old tradition to life by reinstating the Faculty Member of the Year Award. They gave this award to any professor, male or female, that they feel made a significant contribution to science. The recipient of the award received a plaque that was hung in Newcomb Hall. In addition to the revival of the Faculty Member of the Year Award, Women in Science implemented many other interesting activities this year. Students put on science and magic shows for local children. Other volunteer projects that WIS participated in included walking in the MS Walk with CACTUS and working with TUNA on Brain Week activities. The group also organized a Medical Panel with medical students and doctors to discuss the medical field with members. Women in Science played an active role on campus and in the community this year.

By Eileen Linnabery

Residence Hall Association (RHA)

The Tulane University Residence Hall Association is a representative body comprised of all students who live in the residence halls. The Residence Hall Association is the student voice on campus. The organization's goal is to provide students with the opportunity and desire to become involved in their residential experience.

Information Courtesy of the RHA Website*

Tulane University Latin American Studies Organization

TULASO was founded to bring together undergraduates who share an interest in Latin America, ranging from career opportunities to cultural experiences to academic study.

Information Courtesy of the Tulane University Latin American Studies Organization Website

Philosophy Club

The Tulane Philosophy Society had a busy fall semester for the first time in a long time. The club has been inactive for a few years but it has made an eventful come back. They brought in several guest lecturers to talk to students about philosophical debates taking place in the world today. One of the lecturers was from as far away as Australia. Topics included overpopulation, copy write laws and voting. Some of the lectures were given by Tulane graduate students which allowed students in the society to learn more about the philosophy department at Tulane. All of the lectures were followed by a discussion. Students debated each other and the speaker, bringing in their many different viewpoints.

The club members were not just philosophy majors. In fact people from all the different grades and colleges regularly attended club meetings. Newcomb college freshman Melissa Kimbler described the society as "a great forum for discussion" and later added "we get free pizza". The Tulane Philosophy Society is a good place to go if you are interested in philosophy or just to hear a good argument.

By Hannah Humphrey

Tulane University Neuroscience Association (TUNA)

Officers for 2004-2005 :

President : Grant Williams
Vice President : Ryan Chamberlain
Treasurer : Greg Starr
Secretary : Sanmati Rao
Advertising : Stacey Des Marais
Synapse : Kris Day
Volunteer Chair : Elena Ivanina
Social Chair : Brittany Copp
Academic Chair : Vishnu Cuddapah

TUNA's first president, Ardalan Minokadeh said TUNA intends to serve many purposes including:

- inviting speakers to the campus for seminars and discussions
- to expose the Tulane community and Greater New Orleans to neuroscience and issues of the brain
- to expose majors or those interested to possible future careers or educational opportunities in the field
- let Neuroscience majors meet each other
- provide academic, social, or other support for the growing number of Neuroscience majors on campus

Information Courtesy of the TUNA Website

Tulane University Paralegal Association (TUPA)

The purposes for which the organization is formed are those set forth in the following provisions:

- (1) Promote and maintain high standards in the paralegal profession.
- (2) To unite a body of the Students, Alumni, Faculty and Staff of the Colleges or Schools of Tulane University in order to promote and further in every proper way the mutual interests of those persons interested in legal matters and the University.
- (3) Provide a forum for meeting, exchanging ideas, and furthering continuing legal education.
- (4) Gain recognition for the organization and the paralegal program at Tulane University among the student population, Tulane Law School, and those working in the field of law.
- (5) Assist the Tulane University College paralegal students in realizing their career and educational goals.

Information Courtesy of the Paralegal Association Website

C.A.C.T.U.S.

The Community Action Council of Tulane University Students (CACTUS) aimed, through its work, to create a world where CACTUS was no longer necessary. The organization was designed to expose students to the social crises facing urban centers like New Orleans and to build two-way learning relationships. CACTUS helped the Tulane community lessen the gap between themselves and the broader community.

Every year CACTUS sponsored Outreach Tulane, the university's single largest day of community service. Nearly 1,000 members of the Tulane community gathered at sites all across the city in various projects to help beautify and improve the New Orleans community. "The Annual Paint Rally for New Orleans Public Schools, sponsored by CACTUS, is growing larger each year," stated President Chase Billing (sr., Tulane). "This is a project based upon the principle that children learn more effectively in an appealing and inviting environment."

Other great projects sponsored by the group included the annual and ever-popular CACTUS Halloween Day, where children from New Orleans public schools came to campus to trick-or-treat in dorms, play games and take part in exciting activities on Tulane's quads.

"There are countless dedicated volunteers involved in CACTUS," according to Billings. "About half of them work with children and schools, and the other half perform diverse services, from visiting hospital patients to serving food in a soup kitchen, spending time with the elderly and building with Habitat for Humanity." CACTUS helped others help themselves.

By Meredith Swain

Circle K

The New Orleans community at large was in great need of community service, and Circle K, an international service organization which focused on the improving the future of children, jumped at the opportunity to make great changes. "Circle K is more than a community service organization, it's a community in which the members become a family," Circle K President Kea Turner (jr., Newcomb) happily stated. "Circle K is an international club that works closely with other Circle K, Kiwanis and Key Clubs throughout New Orleans, Louisiana, Mississippi and Tennessee. We work with organizations such as Habitat for Humanity and Rebuilding Together to help build and refurbish houses in underdeveloped areas of the city."

Other notable groups Circle K worked with included the Ronald McDonald House, the local Children's Hospital, Bethlehem Children's Residential Treatment Center and Belle Reve, a home for AIDS patients located in the French Quarter. Members also volunteered at the Louisiana SPCA animal shelter, both socializing with the animals and assisting in animal adoptions. The list of annual events Circle K participated in included the NO-AIDS Walk, Making Strides for Breast Cancer and Light the Night Walk, all of which raised money for research and disease prevention. More events included Boo at the Zoo, Take Back the Night, Angel Tree, March of Dimes and Relay for Life.

By Meredith Swain

Green Club

The Green Club was founded in 1988 by a group of students who wanted to initiate a recycling program on campus. The University has since adopted such practices. The Green Club also initiated many other environmental projects such as Earth Day festivals and community service outings. The community service work that Green Club did throughout New Orleans this year was a great help to the city's environmental problems.

By Eileen Linnabery and Rachel Andersen

Tulane Men Against Rape

Tulane Men Against Rape was an organization of men and women from the Tulane community that was dedicated to educating the Tulane community and the surrounding areas on the problem of sexual abuse/violence in our community. TMAR sponsored the R.A.D. (Rape Aggression Defense) Program, which is a nationally recognized self-defense program. TMAR also participated in Take Back The Night, which was a citywide march against violence. The rally was designed to bring awareness and empowerment to individuals and to inspire action that will bring an end to violence against women. TMAR provided vital support to the campus and community through their educational programs and dedication to stopping violence and sexual abuse against women.

By Eileen Linnabery and Rachel Andersen

Stand For Children

Stand For Children is a grassroots advocacy organization that works to promote the rights of children at a local and national level. At Tulane we focus on issues that effect the Tulane community and the greater New Orleans community.

Information Courtesy of the Stand For Children Website

Town Students Association

Composed of primarily native New Orleanians and commuter students, this organization provides information, services, fellowship, and various programs that will help integrate town students into campus life.

Information Courtesy of the Student Affairs Website

Students Organized Against Racism

This organization has been in existence since March of 2000. The purpose of SOAR is to strive to actively work to eliminate racism and prejudice on our campus and to promote understanding and social justice among all members of our community. SOAR members worked closely with the office of Multicultural Affairs to try and reach these goals.

By Eileen Linnabery and Rachel Andersen

MOSAIC

MOSAIC is a gay-straight alliance intended to promote understanding and acceptance of different sexualities within the Tulane community as a whole.

Information Courtesy of the MOSAIC Website

Newcomb Assets

Assets plays a special role for Newcomb, primarily providing support and service for Newcomb events. Assets members organize and participate in community service projects throughout the year. Rising Newcomb sophomores are selected for Assets on the basis of their contributions to Newcomb during their freshman year.

Information Courtesy of the Newcomb Assets Website

Tulane Politics Club

The Tulane Politics Club was an organization which took on many important issues this year. In the past year they have been a voice against the war in Iraq. They have held several protests in order "to mobilize students in support of various liberation struggles" as stated by the president of the club Jay Arena, a graduate school student who expects to graduate in 2006. They marched with other anti-war groups in the Martin Luther King Day parade. They also work with groups in the local community that promote justice. In November they organized a lecture on racism in the New Orleans public schools. A woman who worked in those public schools for three decades came to talk to Tulane students about this issue and what Tulane's role has been and should be in the struggle to end racism in New Orleans.

This club has been dedicated to bringing a new perspective to the Tulane campus. They wanted to make sure that the students here are not forced to choose between the Democrats and Republicans to find their political identity. These students believed that a third option is necessary. The president of Politics Club described their ideology as "anti-capitalist, anti-racist, pro-working class."

This is a dynamic organization that has been serious about making a difference locally and nationally. For students interested in activism that does not fit into the two-party system, they have found a home in the Tulane Politics Club.

The Tulane Hullabaloo is the eyes and ears of the Tulane community. It is the primary source of campus information for the students faculty, staff, alumni and friends of Tulane University. Each issue contains the news events, student achievements and general interests issues that affect the reader's daily campus life.

It is the duty of every Hullabaloo staff member to contribute as best they can to the weekly portrait of the university this organization accurately and completely paints.

The Tulane Hullabaloo is published every Friday of the academic year except for holidays.

The eyes and ears of the Tulane Community

Media Board

Media Board is comprised of the heads of all the Media Organizations and one other member. Media Board is responsible for bringing Media Week to campus.

This year, they brought writer and novelist Mike Sager, and news anchor Yve Marie Jones.

Writer Mike Sager reads excerpts from his book "Scary Monsters and Super Freaks: Stories of Sex, Drugs, Rock & Roll, and Murder" to an intrigued and intimate audience. One member of this audience was student Mike Sager, a kicker on the Tulane football team, who was a subject in a later work by Sager which appeared in *Esquire Magazine*.

It's a dirty job... but they love doing it!

The Tulane community's dedication to the safety and well-being of students could be seen through the broad spectrum of student organizations dedicated to this cause. Tulane Emergency Medical Service (TEMS), Rape Emergency Awareness and Coping Hotline (REACH) and Peer Health Advocates of Tulane (PHAT) were three of these associations. All these groups trained their volunteers to provide Tulane students with information, care and compassion. TEMS educated their members and nationally registered them as certified emergency medical technicians, while REACH trained their students to provide counseling to rape, sexual assault and sexual harassment victims via their 24-hour hotline. PHAT volunteers gave programs to students and organizations on college health issues such as alcohol, nutrition, safer sex practices, and STIs. Training and education was a crucial element of the functioning of TEMS, REACH and PHAT.

T.E.M.S.

Along with providing expert emergency medical care to students, faculty and staff, Tulane Emergency Medical Service also educated the rest of the Tulane community by providing CPR classes on Saturday mornings and an EMT class each semester. These courses were open to anyone and provided valuable information and experience even if students did not plan on getting involved in the health sciences. In fact, a significant portion of TEMS volunteers were not pre-med students but simply enjoyed the experience TEMS offered them. It may seem like a lot of work for a volunteer organization, but when asked about the commitment, member Laura Brown (jr., Newcomb) responded, "It's the best experience I've ever had. I would probably pay to do it if need be." For members interested in the field of medicine, TEMS gave them an impressive background and knowledge that not many people get while still undergraduates. "My expectations [for TEMS] were surpassed by far once I joined. I thought it sounded like the greatest opportunity, and I was right," commented Brown.

Stefanie Rader (sr., Newcomb) removes a backboard from the ambulance to stabilize a patient who has fallen. Laura Brown prepares to take her pulse and vitals.

Photo and Caption by Eileen Linnabery

TEMS member Laura Brown practices administering oxygen to "patient" and Lauren Hartford (jr., Newcomb) while Stefanie Rader checks her pulse. Daniel Wiltshire (sr., Tulane) takes her vitals as Andrew Jahier (jr., Business) and Katharine Modisette (jr., Newcomb) observe.

Photo and Caption by Eileen Linnabery

P.H.A.T.

Peer Health Advocates worked with student health center employees to educate people about health issues that affect college students. PHAT provided workshops and interactive presentations that gave reliable and important information to students who participated in programs. The group also had an extensive video collection that addressed crucial issues. Another form of PHAT workshops, these videos could be viewed by groups and accompanied by a guided discussion. "Giving workshops is a lot of fun for us and the students that we present to. As PHATs, we always want to keep up with changing trends so we continually update the information in our programs to keep the students up to date. There are a lot of health related myths that we try to abolish by giving reliable information in our programs," stated new member Leslie Moses (jr., Newcomb). The Peer Health Advocates of Tulane continually strove to inform the community and discuss with everyone health issues that affect college students.

Tulane Emergency Medical Service, Rape Emergency Awareness and Coping Hotline and Peer Health Advocates of Tulane were all an integral piece in the puzzle of the Tulane Community. The dedication of these organizations to provide education, support and services continually improved campus life.

By Eileen Linnabery

R.E.A.C.H.

Rape Emergency Awareness and Coping Hotline was dedicated to preventing rape. They provided educational presentations to students and the community on preventing rape, what to do if you are a victim of rape and other issues. Through the 24-hour hotline, rape victims could anonymously speak to someone who has been trained to deal with this sort of crisis and arrange to be taken to the hospital for a rape kit. The hotline could also refer students to medical professionals, professional counselors and the NOPD sex crimes office. REACH also had a pager so that someone can be contacted at all times. Through commitment and perseverance, REACH assisted students and the community in their time of need.

By Eileen Linnabery

Green Wave Ambassadors: They do more than just walk backwards

Green Wave Ambassadors acted as student recruiters for future Tulane freshmen. They worked closely with the admissions office to extend their knowledge of campus life to prospective students. GWA members gave campus tours daily to students visiting Tulane and their parents. Members also took high school students that had been accepted to Tulane into their rooms for a night to make sure they received a broad view of campus life by experiencing it first hand. Other activities that GWA held for prospective students included student question and answer panels, running registration check-in and check-out and attending Bruff lunches with faculty to help high school and transfer students learn more about Tulane in a casual setting.

Green Wave Ambassadors were very enthusiastic about their experiences at Tulane and liked to share them with others. "Hosting prospective students is a lot of fun," commented Karen Kriger (jr., Newcomb). "My roommate and I are both Green Wave Ambassadors. We like to host students together so the girls feel more comfortable and we all have fun." Deciding which college to go to is an important decision and GWA members were a great resource for students that were considering going to Tulane. Michael Pinsky (jr., Tulane), Assistant VP of Tours, stated, "Being a member of GWA allows me to show prospective students and their families what a great school Tulane is, and it is a great way to meet new people." GWA was a valuable program at Tulane, and the members' enthusiasm for their work could be seen by the growing number of freshmen that decided to come to Tulane each year.

By Eileen Linaberry

Student Alumni Ambassadors

It is not everyday that students thought about the future of Tulane and what their roll would be as an alumni, unless they were Student Alumni Ambassadors. The SAA was an organization composed of dedicated students who stove to improve Tulane by getting their fellow students to recognize that we all played a roll in expanding the community of our university. The Student Alumni Ambassadors worked closely with Tulane's alumni to increase student involvement in Tulane's future. In the fall the Student Alumni Ambassador officers went to Portland, Oregon for a convention where they interacted with students from similar organizations throughout the country.

Student Alumni Ambassadors organized their programs based on their goal to strengthen each student's bond with the Tulane community. The organization attempted to promote class identity and intensify school spirit and pride. They also held programs that encouraged current students and alumni to interact and socialize, such as homecoming programs and luncheons at the Alumni House. Treasurer Lory Cenac (sr., Business) stated, "SAA is a great club to be involved in. People don't even realize how prominent we are on campus." The voice of SAA members could be heard all over campus because in addition to the mentioned activities, Student Alumni Ambassadors were involved in events and organizations that reach beyond the campus. Through their commitment and enthusiasm, Student Alumni Ambassadors continually worked to improve life at Tulane in the present and for future students.

By Eileen Linaberry

World Affairs Forum

The World Affairs Forum at Tulane (WAFT) is a not-for-profit group founded by undergraduate and graduate Tulane students. WAFT is dedicated to promoting and encouraging among its members a better awareness and understanding of international activities surrounding the 21st century. These ambitions are promoted by the WAFT student board and faculty advisors, who produce on-campus events, such as open forums featuring domestic and international policy-makers, consultants, and analysts. Our Four Foundations: The World Affairs Forum at Tulane University is a student-administered, private, non-partisan, membership organization with a four-fold mission to:

1. Expand and deepen awareness of international activities
2. Bring informative and knowledgeable guest speakers to Tulane University.
3. Promote activities to enhance Tulane's image as a world-class university.
4. Serve as a catalyst for building relationships between the Tulane community and the rest of the world.

Information Courtesy of the WAFT Website

Forensics Team

The Forensics Team provides collegiate student orators with opportunities to participate in speech and debate on various topics and promote the oratory arts in competition.

Green Envy

Green Envy, the oldest a cappella group on campus, released their fifth CD this year. Its members arranged all the songs that Green Envy sang and the titles encompass a large variety of styles. This year, Green Envy participated in Take Back the Night and Celebrate Newcomb Week. They also performed frequently at public and private events such as Homecoming and dinners at President Cowen's home. Adding to their repertoire and helping Tulane students get through a busy day, Green Envy performed their "Music at Midday" in the Rogers Chapel. This well respected campus jewel definitely has reason to make other colleges' a cappella groups green with envy.

Eileen Linnabery

Green Envy members belt out a tune at their Parents Weekend Concert in October. This was one of the group's first events with this year's new members. Soundwave

The mission of Soundwave is to serve as the pep band of Tulane University. As such, Soundwave performs at all home basketball games, both Men's and Women's, outside of official university holidays and study periods. In the spring semester, Soundwave travels to at least one of the Conference USA basketball tournaments and performs at all of Tulane's games in the tournaments. Soundwave also travels with either team that advances to the NCAA basketball tournament and performs at all of Tulane's games in the tournaments.

Information Courtesy of the Soundwave Website

Tulane University Campus Programming

Tulane University Campus Programming (TUCP) is charged with providing educational entertainment, multicultural, social, and recreational programs for the Tulane Community. In existence since 1959, TUCP has presented movies, comedy shows, concerts, quad shows, lectures, and a plethora of other types of events. In years past, they have brought such big names as Adam Sandler, Jimmy Fallon, Live, Dave Chapelle, Kevin Smith, Colin Quinn, The Roots, and Howard Dean, to speak or perform. In addition, TUCP provided weekly movies, periodic quad shows with local or regional bands, and smaller types of entertainment. Recently, TUCP has added to their repertoire the annual viewing of The Rocky Horror Picture Show with an all-student cast, the midnight before Halloween. Always looking to reach out and participate in the wider Tulane Community, Campus Programming co-sponsored events in every aspect of their programming, from comedy to lectures to films. TUCP's most important goal, however, is to constantly strive to bring the best programs for our campus.

InterVarsity Christian Fellowship

InterVarsity Christian Fellowship(IV) at Tulane is place for Christians from all denominations to gather together to worship, pray, have fellowship, and have fun.

Information Courtesy of the Intersvarsity Christian Fellowship Website

Chabad House

Chabad House provides Jewish Life for students at Tulane and at other local universities. Chabad is a worldwide movement that spreads Jewish awareness to all Jews whether male or female, old or young. Its roots are in White Russia in a small town by the name of Lubavitch. The word Chabad is an acronym for Chachmah, Binah, Daas, which means wisdom, understanding, and knowledge. The idea is to turn intellect into action. Simply put, Chabad's message is "don't just think it, do it". This is exactly what Chabad does. Chabad Houses can be found in every part of the world such as, Tasmania, Russia, Hawaii, and Bangkok and in each one of those places Chabad is doing everything it can to help Jews be Jewish.

Information Courtesy of the Chabad House Website

Men of Color

The Men of Color has been established in order to create an atmosphere of unity not only for all students, faculty, and staff of Tulane University, but also for the New Orleans community. We exist to encourage a positive image of African Americans and to support its members in achieving their educational goals, while striving for academic excellence and cultural awareness among our members.

Information Courtesy of the Men of Color Website

African Student Association

The African Student Association has nine goals.

1. To create a viable African Student Association at Tulane University;
2. To promote and strengthen unity and solidarity among African students;
3. To assist members in reaching outstanding academic achievement;
4. To assist need-based members (financially) within the resources of the association;
5. To serve as a forum for welcoming incoming members to Tulane University, and for facilitating their adaptation to the social, cultural and academic environments;
6. To promote and support activities leading to a better knowledge of African cultures;
7. To create a forum for discussing fundamental issues affecting the African continent;
8. To establish, maintain and encourage good relations with student bodies and organizations on and off campus;
9. To organize graduation party for graduating members, establish a network of alumni members, and maintain contacts with them.

Information Courtesy of the African Student Association Website

Chi Alpha Christian Fellowship

Chi Alpha Christian Fellowship seeks to develop faith, community and action. Faith is strengthened by weekly prayer meetings. Weekly Satellite Groups serve to deepen our faith and also to develop a strong sense of community by forming friendships. And action is taken by having regular community service and outreach events. Through this we seek to promote the spiritual and social life of students and to provide opportunities for worship, fellowship, leadership training and evangelism for students in the New Orleans area.

Information Courtesy of the Chi Alpha Christian Fellowship Website

Latin American Student Association

The Latin and American Student Association of Tulane University is the largest multicultural organization on campus. The purpose of this organization is to promote social and cultural activities as a medium to enhance American and Latin American relations. Such events include Latin American Week, the International Food Festival, intramural sports, speakers and lectures and parties.

Any person of the Tulane University community can become a member of this organization.

The India Association of Tulane University is student organization dedicated to sharing the cultural experience of India with the Tulane community. As the largest multicultural organization in Tulane, IATU works to create an atmosphere where students of diverse backgrounds can come together to celebrate Indian traditions. IATU sponsors numerous activities throughout the school year

Dinners: IATU sponsors dinners throughout the semester for such events as welcoming students to school and celebration of Republic Day.

KARMA: These parties occur once or twice a semester, where students can dance all night to the latest hip-hop and Indian music.

India Week: A week of events celebrating India. Events include guest speakers, Indian Food Night, Bollywood movie screenings, and Henna in the Park.

Diwali/Masala: These cultural shows occur once a semester, and include singing, dancing, and skits. Each is followed by a delicious dinner catered by an Indian restaurant in the area.

Holi: A recent addition to the list of events IATU puts on each year, IATU celebrates it with having fun in the park with colors, and having a good time with everyone.

Intramural Sports: IATU sponsors many intramural sports throughout the year such as basketball. Also throughout the year, you may find many IATU members playing cricket on campus.

Information Courtesy of the IATU Website

Taiwan Chinese Student Association

Since 1972 the Taiwan Chinese Student Association (TCSA) has welcomed all students who come from Taiwan or friends to join their organization. With around seventy-five members, their goals were to help new students adapt to the new learning and living environments at Tulane and in New Orleans, establish a communications network for members and alumni as well as fill a meaningful role with other university organizations. In addition to the regular cultural and recreational activities that include the Full Moon Festival, the Chinese Lunar New Year and the Farewell Party, professional seminars were held in order to promote interaction among members. The group encouraged all students to have a pleasant learning experience at Tulane University and enjoy the rich and diverse cultural life in New Orleans.

Information Courtesy of TCSA

This photo was taken of the group at a picnic.

Tulane University Vietnamese Association (TUVA)

The Tulane University Vietnamese Association (TUVA) is a student organization committed to exposing and promoting the rich Vietnamese culture to the diverse community of Tulane University. The fundamental mission of the association is to establish a network of individuals who are interested in understanding the Vietnamese heritage, have a sincere appreciation for Vietnamese traditions and beliefs, and are dedicated to the preservation of the Vietnamese way of life. This longstanding purpose of TUVA is intended to expand the horizon of cultural diversity and to enhance the learning experiences for students who select Tulane as their temporary home.

TUVA fulfills its mission of cultural awareness by coordinating programs and activities that expose people to the uniqueness of the Vietnamese culture, such as the annual Tet Celebration, screenings of Vietnamese movies, and Vietnamese arts and entertainment performances. Through collaborative involvements with the Tulane Office of Multicultural Affairs (OMA), the Asian-American Students Intercollegiate Association (AASIA), and the local Vietnamese community, TUVA is able to provide a more extensive network for which appreciation for this kind of cultural diversity can be achieved.

TUVA fosters and sustains a close relationship with its community, and, therefore, places great emphasis on community service and charity. TUVA frequently donates proceeds to charitable organizations and its members have contributed countless hours participating in numerous volunteering projects. While TUVA supports awareness of the Vietnamese culture, the organization is not exclusive for Vietnamese students—TUVA encourages involvement and support from students of all ethnic and social backgrounds.

The TCSSA focuses on helping exchange students acclimate to Tulane and the New Orleans community. They offer seminars and sponsor programs, events, and festivals to teach others about Chinese culture and to help Chinese students gather in a social environment or learn valuable information. Some seminars in the past have been "How to find a job as an Asian student" or "Immigration related law for China students". They also host the Annual Chinese Spring Festival Celebration.

Alpha Lambda Delta Honors Society

Alpha Lambda Delta (ALD), an honor society that invited freshmen women to join if they achieved a 3.5 GPA, was a group of superior women who remained active ALD members through their sophomore year. Alpha Lambda Delta promoted intelligent living and a continued high standard of learning and assisted women in recognizing and developing meaningful goals for their roles in society through a variety of activities and volunteer projects. Through ALD, Newcomb encouraged academic excellence among students in their first year. With the help of ALD, members were given support and resources to maintain their outstanding GPA until graduation.

By Eileen Linnabery

Phi Alpha Theta

Tulane University's chapter of Phi Alpha Theta, the International Honor Society for History is the Alpha Omega chapter. Phi Alpha Theta was organized at the University of Arkansas on March 17, 1921. Since that time it has grown to over six hundred and fifty chapters in fifty states, Puerto Rico, Canada, and the Philippine Islands.

Phi Alpha Theta has the most chapters out of the accredited honor societies holding membership in the Association of College Honor Societies. It was one of the original three honor societies admitted to the association at its founding in 1945. Nationally, there are more than 150,000 initiates since 1921.

Chapter President: Alice Newhall

Information Courtesy of the Phi Alpha Theta Website

Psi Chi

Psi Chi is the National Honor Society in Psychology, founded in 1929 for the purposes of encouraging, stimulating, and maintaining excellence in scholarship, and advancing the science of psychology. Membership is open to graduate and undergraduate men and women who are making the study of psychology one of their major interests, and who meet the minimum qualifications. Psi Chi is a member of the Association of College Honor Societies and is an affiliate of the American Psychological Association (APA) and the American Psychological Society (APS). Psi Chi's sister honor society is Psi Beta, the national honor society in psychology for community and junior colleges.

Information Courtesy of the Psi Chi Website

Alpha Omega Alpha

Alpha Omega Alpha is the only national honor medical society in the world. Its purpose is to recognize and perpetuate excellence in the medical profession.

Omega Delta Kappa

Founded in 1914, Omicron Delta Kappa (ODK), the National Leadership Honor Society, recognizes and encourages superior scholarship, leadership and exemplary character. Membership in ODK is a mark of highest distinction and honor. The ODK Circle at Tulane University was installed in 1930.

Membership in ODK is as much an obligation and responsibility in leadership as it is a mark of highest distinction and honor. Membership is awarded to undergraduate junior and senior students; to graduate and professional students; to faculty, staff, administration and alumni; and to persons qualifying for membership "honoris causa."

The Society recognizes achievement in:

- scholarship
- athletics
- campus and community service, social and religious activities, and student government
- journalism, speech, and the mass media
- creative and performing arts

Information Courtesy of the Omega Delta Kappa National Website

Navy ROTC

Fast Facts:

- 5th oldest ROTC unit in the nation at 67 years old, 3rd largest in the nation.
- Scholarships can include up to \$80,000 for a four-year education for academically strong students.
- Tulane provides a Room and Board waiver for ROTC scholarship winners. This can increase the value of an ROTC scholarship to \$110,000.

Air Force ROTC

The Tulane University Air Force ROTC program.

Detachment 320 serves a total of eight universities including Xavier University, Delgado Community College, Dillard University, the University of New Orleans, the Southern University of New Orleans, Our Lady of the Holy Cross College, Loyola University, and Tulane University. It is located on the Tulane University campus.

The cadet corps currently consists of 60 cadets in four classes with various fields of study. The four classes are separated into two groups, the GMC and the POC. The General Military Course (GMC) consists of freshmen and sophomores. Cadets enter into the Professional Military Course (POC) after they have successfully completed field training, which they usually attend between their sophomore and junior years. The POC are cadet officers in charge of developing and running the cadet corps.

Alpha Epsilon Pi

The Tau Upsilon Chapter of Alpha Epsilon Pi was originally founded at Tulane University in 1951. Though AEPi shares a shaky history with the school, interest in Jewish fraternal life has kept AEPi a recognizable element in the Tulane community. The most recent colony was founded in Spring 2000, and moved into a new apartment complex in August of 2002. Tau Upsilon was additionally regranted its charter and chapter status nationally in a ceremony taking place on March 15, 2003.

Alpha Epsilon Pi is a national college fraternity. Our basic purpose is to provide the opportunity for a Jewish man to be able to join with other men into a Jewish organization whose purpose is not specifically religious, but rather social and cultural in nature. Alpha Epsilon Pi is a Jewish fraternity, though non-discriminatory and open to all who are willing to espouse its purpose and values. Tau Upsilon is the only officially Jewish fraternity on the Tulane campus.

Alpha Kappa Alpha

National History

Alpha Kappa Alpha Sorority, Inc. is the oldest Greek-letter organization established in America by Black college women. The record of its origin, growth and development, activities, evolving goals and accomplishments is more than an interesting chronicle of a colorful bit of college-based Americana. It is, rather, a significant and inspiring reflection of the development of a minority group in a changing culture.

In 1908, Alpha Kappa Alpha Sorority, Inc. became America's first Greek-letter organization established by and for Black women. Her roots date back to Howard University, Washington, DC, where the idea for formation was conceived by Ethel Hedgeman Lyle of St. Louis, Missouri. She viewed the Sorority as an instrument for enriching the social and intellectual aspects of college life by providing mental stimulation through interaction with friends and associates. Through the years, however, Alpha Kappa Alpha's functioning has become more complex. After her incorporation as a perpetual body in 1913, Alpha Kappa Alpha Sorority, Inc. gradually branched out and became the channel through which selected college-trained women improved the social and economic conditions in their city, state, nation and the world.

Today, that tradition has continued--internationally, nationally and locally. Alpha Kappa Alpha Sorority, Inc. cultivates and encourages high scholastic and ethical standards; promotes unity and friendship among college women; alleviates problems concerning girls and women; maintains a progressive interest in college life; and serves all mankind through a nucleus of more than 140,000 women in over 860 chapters.

Chapter History

The Omicron Psi Chapter of Alpha Kappa Alpha Sorority, Inc. was chartered on April 15, 1990, by twenty young ladies dedicated to service and sisterhood. "The Progressive Sisters of Tulane" committed themselves to community service and campus involvement by tutoring children, entertaining at hospitals and holding forums and socials. In addition to scholastic excellence, these lovely ladies helped organize Project L.O.Y.A.L., a mentoring program for students at Lafayette Elementary and Live Oak Middle School. Project L.O.Y.A.L. continues to be a C.A.C.T.U.S. program, in which past and present members of the Omicron Psi chapter participate.

Today, the ladies of Omicron Psi continue to initiate only the finest women who strive for excellence. The Omicron Psi Chapter of Alpha Kappa Alpha Sorority, Inc. is so much more than a social organization; it is a community service organization first and foremost.

Alpha Phi Alpha

(L. to R.): Vice President Koby Sackey, Avery Williams, Treasurer Robert Carter III, Alex Davis, and President Jonathan Stewart.

Alpha Phi Alpha fraternity is the oldest collegiate black fraternity, founded in 1906. The Rho Iota Chapter of the fraternity, here at Tulane University, was founded in 1989. The organization is dedicated to service in the community and the uplifting of mankind. Alpha Phi Alpha contributed to MLK Memorial Project, and provided three scholarships to worthy Tulane women through the Miss Black & Gold Scholarship Pageant. During the year, the organization participated in the March of Dimes and The Walk for Education.

Alpha Tau Omega

ATO was founded by Otis Allan Glazebrook, Erskine Mayo Ross and Alfred Marshall, at the Virginia Military Institute in 1865.

The ATO Foundation was officially recognized in June of 1935 at the 34th Congress in Memphis. The LeaderShape Institute, Inc. was created in 1986 by Alpha Tau Omega, and is considered one of the finest leadership skills training programs in the country.

ATO was honored by the Smithsonian Institute for innovative use of technology with an award for Information Technology in the field of Government and Non-Profit Organizations in June 1995. The award was given for ATO's innovative use of CompuServe as a communications tool.

ATO annually ranks among the top ten national fraternities for number of chapters and total number of members. ATO has more than 240 active and inactive chapters with more than 181,000 members and more than 6,500 undergraduate members.

The ATO Foundation provides more than \$150,000 in annual scholarships to members-including scholarships to attend the LeaderShape Institute, Inc.

Alpha Tau Omega is a participating member in the National Interfraternity Conference, the Fraternity Executives Association, the College Fraternity Editors Association, the Council for the Advancement and Support of Education, FIPG, Inc., and the Fraternal Risk Management Trust.

- ATO was the first national fraternity to start a chapter free of alcohol and tobacco on fraternity property.
- ATO was the first national fraternity to sponsor and conduct coeducational leadership conferences nationwide in 1992.
- ATO was the first fraternity to implement a spiritual development program.
- ATO was the first to develop and implement a member success initiative.

The ATO Badge was designed by Otis Allan Glazebrook in 1865 and is worn by the initiate. The Grand Seal was painted in 1872 by VMI Arts Instructor Richard N. Burke. The White Tea Rose became the ATO Flower in 1892. The Coat of Arms was redesigned and approved by committee in 1910. The ATO Flag was designed by William C. Smiley and approved in 1914.

- Colors: Azure and Gold.
- Nickname: Taus, Alpha Taus, ATOs

DELTA XI NU INITIATE NEW PLEDGE CLASS

Delta Xi Nu Multicultural Sorority Inc. initiated their pledge class of 2004 in December. The class, only the fourth to be initiated in Tulane's chapter, has been carefully selected by the pledge committee during the previous four months. "It's very exciting whenever it gets close to initiation, because it means our organization is getting bigger and bigger," said Carla Ball, president of the sorority.

To be initiated, the girls must go through all of the pledge activities and meet all the requirements, and pass a series of tests. The pledge class, consisting of 10 girls, has a wide range of demographics. The girls range from 18- to 21-year-olds, freshmen to seniors, with diverse racial backgrounds. Delta Xi Nu prides itself on its multiculturalism and diversity, and pledges during fall semester to differentiate itself from the other Tulane sororities.

Lauren Rios

Kappa Alpha Order

Kappa Alpha's philosophy of gentlemanly conduct and its unending quest for excellence are directly attributed to the example set by Robert E. Lee, our spiritual founder. As president of the college where KA was founded, Lee personified the traits of gentility and chivalry. KA strives to translate these timeless values into the mainstream of colleges and universities across the nation.

Kappa Alpha has existed since 1865 and is a proven support network for young men as they make the transition from high school or a community college to a four-year institution.

The Order seeks out the positive character of its members and provides many opportunities for enrichment and development.

Today

With 136 chapters and 125,000 initiated members, Kappa Alpha continues to be a leader among fraternities. KA is positioned to meet the challenges of an ever-changing society. Campuses have refocused their missions to meet the demands of information age careers and fluctuating demographics. In the same spirit, KA has developed new programs to compliment the undergraduate experience. The Crusade is Kappa Alpha's new four-year total membership education program, focusing on scholarship, campus and community involvement, leadership development, and career-building skills. In addition, every new member receives an interactive CD-ROM detailing KA's history, policies and opportunities. It is these important and progressive programs that will move KA into the future.

Phi Beta Sigma

Phi Beta Sigma Fraternity, Inc. was founded at Howard University in Washington, D.C., January 9, 1914, by three young African-American male students. The founders, Honorable A. Langston Taylor, Honorable Leonard F. Morse, and Honorable Charles I. Brown, wanted to organize a Greek letter fraternity that would truly exemplify the ideals of brotherhood, scholarship, and service.

The founders deeply wished to create an organization that viewed itself as “a part of” the general community rather than “apart from” the general community. They believed that each potential member should be judged by his own merits rather than his family background or affluence...without regard of race, nationality, skin tone or texture of hair. They wished and wanted their fraternity to exist as part of even a greater brotherhood which would be devoted to the “inclusive we” rather than the “exclusive we”.

From its inception, the Founders also conceived Phi Beta Sigma as a mechanism to deliver services to the general community. Rather than gaining skills to be utilized exclusively for themselves and their immediate families, the founders of Phi Beta Sigma held a deep conviction that they should return their newly acquired skills to the communities from which they had come. This deep conviction was mirrored in the Fraternity's motto, “Culture For Service and Service For Humanity”.

Today, 91 years later, Phi Beta Sigma has blossomed into an international organization of leaders. No longer a single entity, the Fraternity has now established the Phi Beta Sigma Educational Foundation, the Phi Beta Sigma Housing Foundation, the Phi Beta Sigma Federal Credit Union, and the Phi Beta Sigma Charitable Outreach Foundation. Zeta Phi Beta Sorority, Inc., founded in 1920 with the assistance of Phi Beta Sigma, is the sister organization. No other fraternity and sorority is constitutionally bound as Sigma and Zeta. We both enjoy and foster a mutually supportive relationship.

Information Courtesy of the Phi Beta Sigma National Website

Phi Gamma Delta - FIJI

Date of Founding: May 1, 1848

Location of Founding (college): Jefferson College

Date of Tulane Founding: April 3, 1982

Date of Tulane Recolonization: April 7, 2004

Nickname of Fraternity: Fiji

Number of Chapters Nationwide: 120

Rush Chairman: Richard Clark

President: Secret

Color: Royal Purple

Mascot: Snowy, white owl named "Gamma"

Flower: Purple Clematis

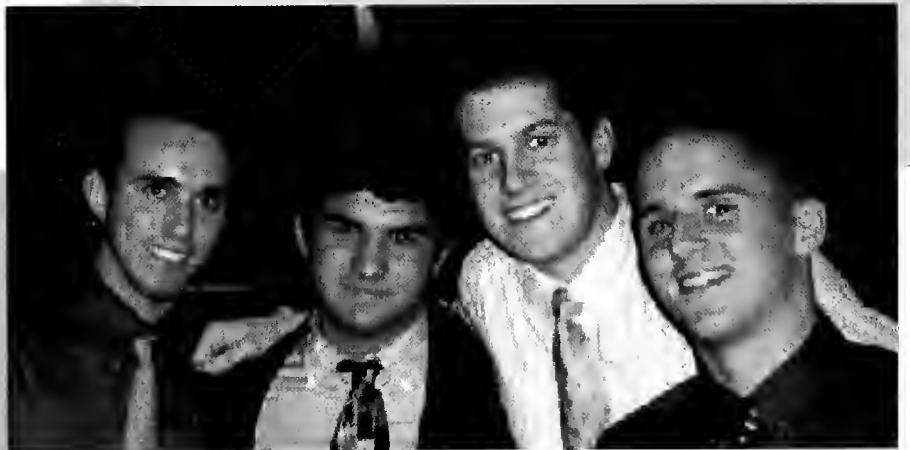

The Beta Class

The Phi Gamma Delta Colony at Tulane is less than a year old. The original brothers established a Colony at Tulane in 1980 and received a charter in 1982. By the early 1990s, Phi Gamma Delta was the largest fraternity on campus having started many of the traditions continued by other student organizations and fraternities to this day. Due to a series of unfortunate events, the Fiji chapter at Tulane surrendered its charter in May of 2000. Four years later, in April 2004, Phi Gamma Delta returned to Tulane with an initial membership of 35 and the highest fraternity GPA (3.2) on campus.

Casey Cahill - Sports Chair
Ian Haley - Social Chair
Reade Nossaman - Secretary
Ed Dindinger - Website/Alumni Relations

Official fraternity colors: Black and Old Gold

Nicknames: The "Skulls" or the "Phi Kaps"

Official flower: Yellow Chrysanthemum

Phi Kappa Sigma Fraternity was founded by Samuel Brown Wylie Mitchell at the University of Pennsylvania on August 16, 1850.

The Mu Chapter at Tulane was founded in 1858. It was the first fraternity on Tulane's Campus.

Phi Kappa Sigma 2005

Pi Beta Phi

Pi Beta Phi Fraternity was founded at Monmouth College in Monmouth, Illinois, on April 28, 1867, as I. C. Sorosis. Pi Beta Phi was the first national secret college society of women to be modeled after the Greek-letter fraternities of men. During a time when few women were admitted to colleges and universities, Pi Beta Phi created a feeling of unity among pioneering women.

Symbols are an important part of the understanding and appreciation of Pi Beta Phi. These symbols serve as outward signs of unspoken ideals that all Pi Phis share.

Flower: The Carnation

Symbol: The Angel

Colors and Motto: The colors of the Fraternity, wine and silver blue, and the first Greek Motto, Pi Beta Phi, were adopted at the convention in 1882.

Information and Images Courtesy of the Pi Beta Phi National Website

The Louisiana Alpha Chapter is located at 7014 Zimple.

The Pi Phi Badge

Pi Kappa Alpha

History of Pi Kappa Alpha

Pi Kappa Alpha International Fraternity is a Greek letter, secret, college, social fraternity. It is composed of men who share similar ideals of friendship, truth, honor, and loyalty. The Fraternity's ideals are expressed in the written words and symbols of a secret ritual. These ideals and members' ability to maintain the visions of the Fraternity's founders are the great moral legacy of Pi Kappa Alpha.

Pi Kappa Alpha was founded at the University of Virginia on March 1, 1868. At the time, the University of Virginia was the fifth largest school in the United States. Only Harvard, Yale, Cornell and Michigan were bigger. The University of Virginia is considered the first truly American state university because it was the first to be established totally free from religious control.

It all started in Room 47 West Range when Frederick Southgate Taylor turned to Littleton Waller Tazewell, his cousin and roommate, for help in starting a new fraternity. Also present was James Benjamin Sclater, Jr., a schoolmate of Tazewell, and Sclater's roommate Robertson Howard. Those four men voted to add a fifth to their group and chose Julian Edward Wood. Although history is unclear, William Alexander, probably a friend of Sclater, Jr., was proposed for membership and was admitted as a founder. The first initiate was Augustus Washington Knox.

The essence of the Founders' vision for Pi Kappa Alpha can be found in its Preamble. A committee was first suggested by Brother William Alexander "to draw up a statement of the origin and the organization of the Fraternity." The committee was composed of brothers Robertson Howard and Littleton Waller Tazewell. The resulting statement is now referred to as the Preamble.

"For the establishment of friendship on a firmer and more lasting basis; for the promotion of brotherly love and kind feeling; for the mutual benefit and advancement of the interests of those with whom we sympathize and deem worthy of our regard; We have resolved to form a fraternity, believing that, thus we can most successfully accomplish our object."

Information Courtesy of the Pi Kappa Alpha National Website

The Eta Chapter is located at 1036 Broadway.

Sigma Alpha Epsilon

President: Alex Lawler (ME '06)

Vice President: Aaron Miller (Hist '07)

Treasurer: Mark Kaufman (Business '06)

Secretary: Brad Kaufman (Hist '07)

House Manager: Alex Stern (Soc '07)

Social Chair: Chris Gismondi (Soc '06)

The Tulane chapter of SAE that resides at 1200 Broadway was founded in 1897 and has a current membership of 55 brothers. We have a longstanding tradition of balancing academics and service to community while maintaining a social presence. Our GPA was fourth among Tulane fraternities for the past school year. Our trademark community service project includes providing staff and safety personnel for the annual Lusher Elementary School Fundraiser and Crawfish Boil. The future looks promising as we look forward to major renovations on our house and expanding our membership.

Sigma Alpha Mu

Prior- Jordan Sachs
Vice Prior- Andy Herman
Ex-Chequer- Paul Gottheim
Recorder- Jon Sider

Sigma Alpha Mu was founded in 1909 at the college of the city of New York as a fraternity of Jewish men.

CREED

"To foster and maintain among its sons a spirit of fraternity, a spirit of mutual moral aid and support; to instill and maintain in the hearts of its sons love for and loyalty to Alma Mater and its ideals; to inculcate among its sons such ideals as will result in actions worthy of the highest precepts of true manhood, democracy, and humanity."

MISSION

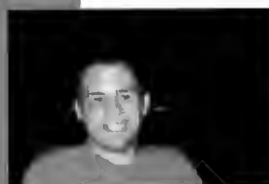

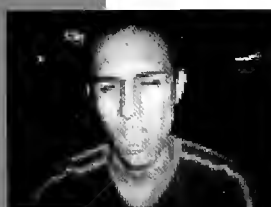

The mission of Sigma Alpha Mu is to guide each undergraduate member toward a more meaningful life, to prepare members for responsible fraternity and community involvement, and to create social and service opportunities for its alumni.

Academics

School of

Location: Richardson Memorial Hall, Uptown Campus, New Orleans

Founded: 1894

Enrollment: Approximately 325 students

Faculty: 21 full-time faculty and 19 adjunct or part-time faculty

The President's Award for Excellence in Teaching was established in the year 2000 and is given to full-time faculty members who have a sustained and compelling record of excellence in teaching and learning and an ongoing commitment to educational excellence. Each recipient receives a monetary award plus a medal designed by Professor Emeritus Franklin Adams. Two medals are awarded at the university commencement each May - one for undergraduate teaching and the other for graduate/professional teaching.

Architecture

The medal is designed to be worn by the recipient on formal academic occasions such as university commencements or whenever academic costumes are worn.

The medal bears a stylized rendering of the shield that is an integral part of the university coat of arms. The grouping of three towers represents the arms of the city of Tours in France which was the home of the Tulane family for years. The crescents with flanking stars are from the arms of Jean Baptiste Le Moyne, Sieur de Bienville, who founded the city of New Orleans. The quartering of these two arms on the shield signify the identification of the university with the city. The Latin motto, *Non Sibi Sed Suis*, is translated as “not for one’s self, but for one’s own”.

Ila Berman was awarded the 2005 President’s Award for Excellence in Teaching.

A. B. Freeman School of Business

The A. B. Freeman School of Business, one of 11 schools and colleges comprising Tulane University, was founded in 1914 by a group of New Orleans business people dedicated to the advancement of management education. Today, the Freeman School is recognized as one America's leading business institutions, consistently ranked among the nation's best by prestigious publications such as Business Week, Forbes and U.S. News & World Report.

The first and only nationally ranked business school in the Gulf South, the Freeman School offers undergraduate and graduate programs including a Bachelor of Science in Management (BSM) program, Masters programs in Finance and in Accounting, a full-time Master of Business Administration program, a part-time Professional MBA program, an accelerated Executive MBA program, and a PhD program in business. The school maintains facilities in New Orleans, Houston and Shanghai. In addition, with international partner institutions, the Freeman Schools offers executive and faculty development programs in Chile, China, Ecuador, Mexico, Peru, Taiwan and Venezuela.

Housed in a state-of-the-art complex including the newly built Goldring/Woldenberg Hall II, the Freeman School enrolls more than 1,300 full-time students and boasts an outstanding faculty noted for scholarship and teaching excellence in accounting and taxation, finance, information systems, international business, management, marketing, and organizational behavior. Through innovative curricula and offerings such as the nationally acclaimed Burkenroad Reports equities research program, the Levy-Rosenblum Institute for Entrepreneurship and the Goldring Institute of International Business, the Freeman School has built an exceptional reputation for meeting the needs of both students and the business community.

School of Engineering

The mission of the Tulane School of Engineering is to provide outstanding opportunities for learning and discovery in engineering and computer science and to foster an environment that is student focused, research intensive, entrepreneurial and responsive to the needs of the community.

The school offers degrees in biomedical engineering, chemical engineering, civil engineering, computer engineering, computer science, electrical engineering, environmental engineering, and mechanical engineering. An individually designed major option is also available.

Location: A seven-building complex on the Uptown New Orleans campus, that includes the Lindy Claiborne Boggs Center for Energy and Biotechnology, Stanley O. Thomas Hall, Walter E. Blessey Hall, and the Francis M. Taylor Laboratories.

Founded: 1894

Enrollment: Approximately 700 undergraduate students and 200 graduate students

Faculty: 61 full-time engineering faculty

ABOUT THE SCHOOL :: DEAN'S MESSAGE

The Tulane University School of Engineering was established in 1894 and its impact was immediate. Among the graduates of the late 1890's were Arsene Perrilliat who constructed the Mississippi River levees from Vicksburg to Baton Rouge, Albert Baldwin Wood who designed the pumping system that drains the city of New Orleans to this day, and William Monroe White who helped design and build many of the most important hydroelectric installations in the world including the one at Niagara Falls. That was only the beginning. For over a century, the Tulane University School of Engineering has consistently produced outstanding graduates at the bachelors, masters, and doctoral levels; graduates who have assumed leadership roles in industry, business, government, medicine, and education; graduates who have made a difference.

Today, Tulane University ranks among the top research universities in the world, yet its focus is still on producing outstanding graduates. In the Tulane University School of Engineering, undergraduate and graduate students enjoy the personal attention of some of the very best faculty in the world; faculty who are working at the forefront of engineering and computer science in such areas as advanced materials, bioengineering and biotechnology, energy and environment, and information technology and computational science. The rich tradition of excellence, the small student-faculty ratio, the intellectual environment of a highly ranked research university, and the setting in one of America's most unique cities all combine to make the Tulane University School of Engineering a truly exceptional experience.

Nicholas J. Altiero, Dean

Newcomb College

In 1886, Josephine Louise Newcomb wrote to the Tulane Board of Administrators about her long considered memorial to her "beloved Daughter, H. Sophie Newcomb." Sophie had died in 1870 at the age of 15, and since that time, Mrs. Newcomb had given much thought to what would make a lasting memorial to her daughter. A college for other young girls and women, a "work of the spirit" that would look "to the practical side of life as well as to literary excellence..." were her conclusions.

Her funds assured Newcomb College a secure foundation for its early years. Indeed, Newcomb's gift made the College the most secure of all Southern women's colleges. Newcomb's donation also brought about an unusual arrangement for the education of women with the creation of the first degree-granting college for women to be founded within a university in America. This model was later adopted by several colleges, including Barnard College of Columbia University.

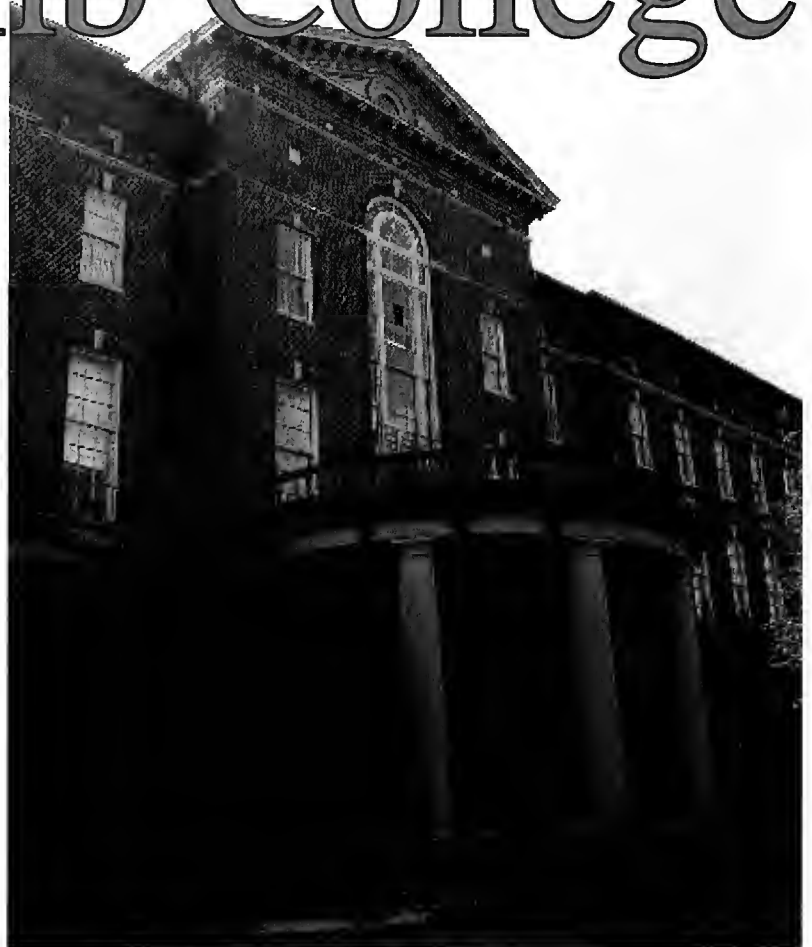

Perhaps most noteworthy was the success of the Newcomb Pottery, which had an overwhelming appeal to students. The Newcomb Pottery was an experiment, or model industry, to provide employment for women in a milieu where few opportunities existed.

Over 70,000 pieces of pottery were produced before the Pottery closed in 1939. The art program also was enlarged in these years to include many other arts and crafts. Examples can be found of illustrated bookplates; jewelry; embroidery; and hand bound books, often embossed leather covers and elaborate clasps—all of which were crafted and sold by Newcomb students and alumnae.

Newcomb moved to its Broadway campus in 1918 and emerged as a leader among Southern women's colleges. Acorns from the original oak trees of the Washington Avenue campus were transplanted to the new campus and traditions such as class ring ceremonies, the wearing of caps and gowns, Field Days and other rituals of the single sex campus were continued.

During these mid-century years, Newcomb raised its standards, implemented new programs, increased enrollment, and required College Entrance board exams for the first time. Programs such as the Newcomb Junior Year Abroad (established in 1954-55) that allowed male students during its second year of existence and Tulane's growing graduate program—these made the coordinate college a place with appeal to students from all over the U.S. Thus, Acting Dean Anna Many (1951-53) and Dean Jack Hubbard (1953-65) oversaw an increasingly diverse student body. In 1963, Newcomb admitted its first African American student.

During these years, Tulane and Newcomb students also responded to other changes in society and the political climate of the times. Newcomb students protested the incursion of American armed forces into Cambodia during the Vietnam War. Students also agitated for other concerns that would not have been thought possible in years past: coeducation housing, the elimination of curfews, the need for increased safety in an urban environment. Another important force of that era, the women's movement, also brought more varied campus opportunities to Newcomb students. Varsity athletics and Title IX funds brought nine athletic scholarships to Newcomb in 1976. In 1975, the Women's Center, later the Center for Research on Women developed to promote research into the

Photos by Ariel Baverman

lives of women and to maintain the College Archives. A single curriculum for Newcomb and the College of Arts and Sciences was adopted in 1979.

At graduation today, the Daisy Chain and the accomplished graduates both reflect on this dual mission. The Daisy Chain, a tradition since the early days of the college, consists of over 1,000 daisies assembled on commencement morning by outstanding Juniors. Earlier chains were made from clover, oleander, magnolia, or daisies, and were collected from campus gardens and neighbors yards. Newcomb has one of the few remaining chains in the country. Newcomb graduates themselves have led outstanding lives, receiving recognition in the many fields including art, law, medicine, and community service. The rich legacy of an education both literary and practical is found among these graduates.

Tulane College

Photo Courtesy of Tulane Publications

Founded in 1847 as Tulane University's original undergraduate division, Tulane College from its inception has been dedicated to liberal arts learning and service to society. The college enrolls men pursuing the bachelor's degree in the arts and sciences. It enjoys a coordinate relationship with Newcomb College, the university's liberal arts division for women; men and women attend classes together, taught by the Faculty of the Liberal Arts and Sciences. Students in both colleges enjoy the benefits of a small, historic liberal arts college as well as the resources of a world-class research institution.

University College

University College was founded in 1942 to make a high-quality Tulane University education available to everyone regardless of age or financial resources. Students may enroll on a full-time or part-time basis and classes are offered in a variety of locations in the New Orleans area and Biloxi, Mississippi.

Location: Main office, 125 Gibson Hall, Uptown Campus, New Orleans

Class locations: Uptown, Downtown, Elmwood and Biloxi, Miss.

Founded: 1942

Enrollment: 348 full-time and 1,491 part-time students

School of Law

SEPTEMBER - Tulane Law Professor Gary Roberts testified at a hearing of the Constitution Subcommittee of the House Judiciary Committee who was to determine whether the NCAA enforcement process is, or ought to be, subject to any outside due process requirements. This was the ninth time in the last 12 years that Roberts, a nationally known expert on sports law, testified before a congressional committee on some aspect of the sports industry.

OCTOBER - Tulane Law Professor Robert Force, founding director of the Maritime Law Center, was honored with an international colloquium. Some of the world's most respected maritime law experts traveled from five continents to deliver and discuss draft articles. Their essays were published in *Kluwer Law International* and dedicated to Professor Force in honor of his 70th birthday.

School of Social Work

The Tulane University School of Social Work uses New Orleans as a living laboratory, taking advantage of the city's unique characteristics to study and apply the vision, ethics, values, and purposes of the social work profession. Our mission is to conserve, communicate and advance knowledge to enhance the capacity of people to care for one another, to build communities, and thorough the profession of social work, to advance the ideals of a humane and just society.

Our Past

The Southern School of Social Sciences and Public Services was the first training program for social workers in the deep South. Under the sponsorship of the Kingsley Settlement House, a group of Tulane social science faculty offered the first classes in social welfare in 1914. Sponsored by grants from the American Red Cross, a formal one-year program was implemented in 1921.

By 1927, with funding from a Rockefeller grant, the school became a separate program with a two-year curriculum qualifying students for the Master of Arts. In 1935, the University established the degree of Master of Social Work. The School has awarded the Master of Social Work degree to more than 4,700 students from all 50 of the United States and over 30 other countries.

Since 1927, the first year of national accreditation, the School of Social Work has maintained full accreditation status. It is a charter member of the Council on Social Work Education, which is the standard-setting and accreditation body in the field of social work education. Tulane School of Social Work is accredited by the Council on Social Work Education (CSWE).

The School added a doctoral program with an advanced curriculum in 1961. This program, awarding a Doctor of Social Work degree, was designed for further development of social work researchers, teachers and policy consultants. This program was changed to allow students to achieve a Doctor of Philosophy in Social Work Degree in 1998. All students who have received a Doctor of Social Work Degree can apply to change the DSW to a Ph.D.

Our Present

There is no more exciting time to be a part of the renowned Tulane School of Social Work or of the intriguing city of New Orleans than now. Fully accredited by the Council of Social Work Education and ranked in the top 40 schools of social work in the country, Tulane offers a "clinical in community" curriculum based on relationship-centered practice. Your course of study is designed to offer the best of class in clinical and community training that addresses the unique needs of individuals, families, groups, organizations and communities. Students in the program enjoy a variety of learning experiences, including traditional and non-traditional class experiences. Team projects, problem-based learning, creative simulation, team teaching, field work, and electronic learning exchanges are just some of the enriching experiences our students enjoy while fulfilling the requirements for the Master of Social Work.

Information Courtesy of the School of Social Work Website

School of Public Health

Addresses by Nobel Laureates Andrew Schally of Tulane University and Louis Ignarro, formerly of Tulane University, kicked off a host of public events marking the 170th anniversary of Tulane University Health Sciences Center Sept. 30 and Oct. 1, 2004. The events included presentations on the latest innovations in eye care, the newest technologies in life support training and nearly every other aspect of the health sciences.

Tulane researchers received \$3.6 million from the Centers for Disease Control and Prevention for a five-year project to establish a Prevention Research Center.

The center is dedicated to understanding the environmental causes of obesity. The Tulane center is one of 28 nationwide, creating a network of researchers focused on increasing knowledge about preventing and controlling chronic diseases such as obesity.

"Obesity will soon overtake tobacco use as the leading cause of fatal chronic diseases such as heart disease," says principal investigator Thomas Farley, chair of the department of community health sciences at the Tulane University School of Public Health and Tropical Medicine.

Approximately 127 million adults in the U.S. are overweight, 60 million obese and nine million are severely obese, according to national statistics. Obesity increases the risk of chronic diseases such as diabetes, heart disease, stroke and certain cancers. The center will examine a variety of neighborhood factors, including the availability of neighborhood locations for physical activity, the impact of neighborhood safety on physical activity, and the neighborhood availability of healthy and unhealthy foods.

"We know that exercise and diet play important roles in preventing obesity, but we are interested in how the environment in which people live affects their ability to make healthy choices," Farley says.

and Tropical Medicine

Quick Facts

Special Collaborative Relationships

As part of the Tulane University Health Sciences Center, the school enjoys reciprocal relationships with other schools, research centers, and institutes.

- Tulane University School of Medicine
- Tulane Regional Primate Research Center
- Tulane Center for Infectious Diseases
- Tulane/Xavier Center for Bioenvironmental Research
- Tulane/Xavier Center for Excellence in Women's Health

Students

Over 1400 students enrolled

More than 60 countries represented

Faculty

100 full-time faculty

More than 300 adjunct faculty

Academics

- Only school of public health in the United States offering a degree in tropical medicine
- Seven academic departments including biostatistics, community health sciences, environmental health sciences, epidemiology, health systems management, international health and development, and tropical medicine

Degrees Offered

Master of public health, master of science in public health, master of health administration, master of public health and tropical medicine, master of medical management, doctor of public health, doctor of science in public health

Combined Degrees

The school offers joint programs with the schools of medicine, law, and social work. Joint-degree programs MD/MPH, MD/MPH&TM, MBA/MPH, JD/MPH, JD/MSPH, JD/MHA, LL.M/MSPH, BS/MSPH, or BS/MPH.

Liberal Arts

The Faculty of the Liberal Arts and Sciences is committed to a thorough and broad-ranging education, through which the student is steeped in the humanistic, social, and scientific cultures that underlie modern civilization and is challenged to develop critical thinking. Through study in concentrated disciplines and multidisciplinary areas, Liberal Arts and Sciences students gain facility with theoretical concepts and hone practical skills in writing, oral presentation, the arts, mathematics, science, foreign languages, and computing. These studies and skills are intended to prepare students for leadership and for full and effective participation in the modern world as contributing, responsible, and enlightened citizens.

& Sciences

SEPTEMBER - Renowned photographer Michael P. Smith was honored for his work documenting Mardi Gras Indians, spiritual churches, Jazz Fest and other New Orleans cultural traditions in a special event held in the Woldenberg Art Center's Freeman Auditorium.

The event included a slide presentation of Smith's work and a panel discussion among Smith and other distinguished photographers and historians including Herman Leonard, Steven Armbruster, Chandra McCormick and Keith Calhoun. Bruce Raeburn, curator of the Hogan Jazz Archive, moderated.

Harold Sylvester, known for his recurring role on "Married...With Children" and appearances in 17 feature films and more than 400 television shows, taught a new course at Tulane University in the spring 2005 semester in which students wrote, directed and produced a commercial film.

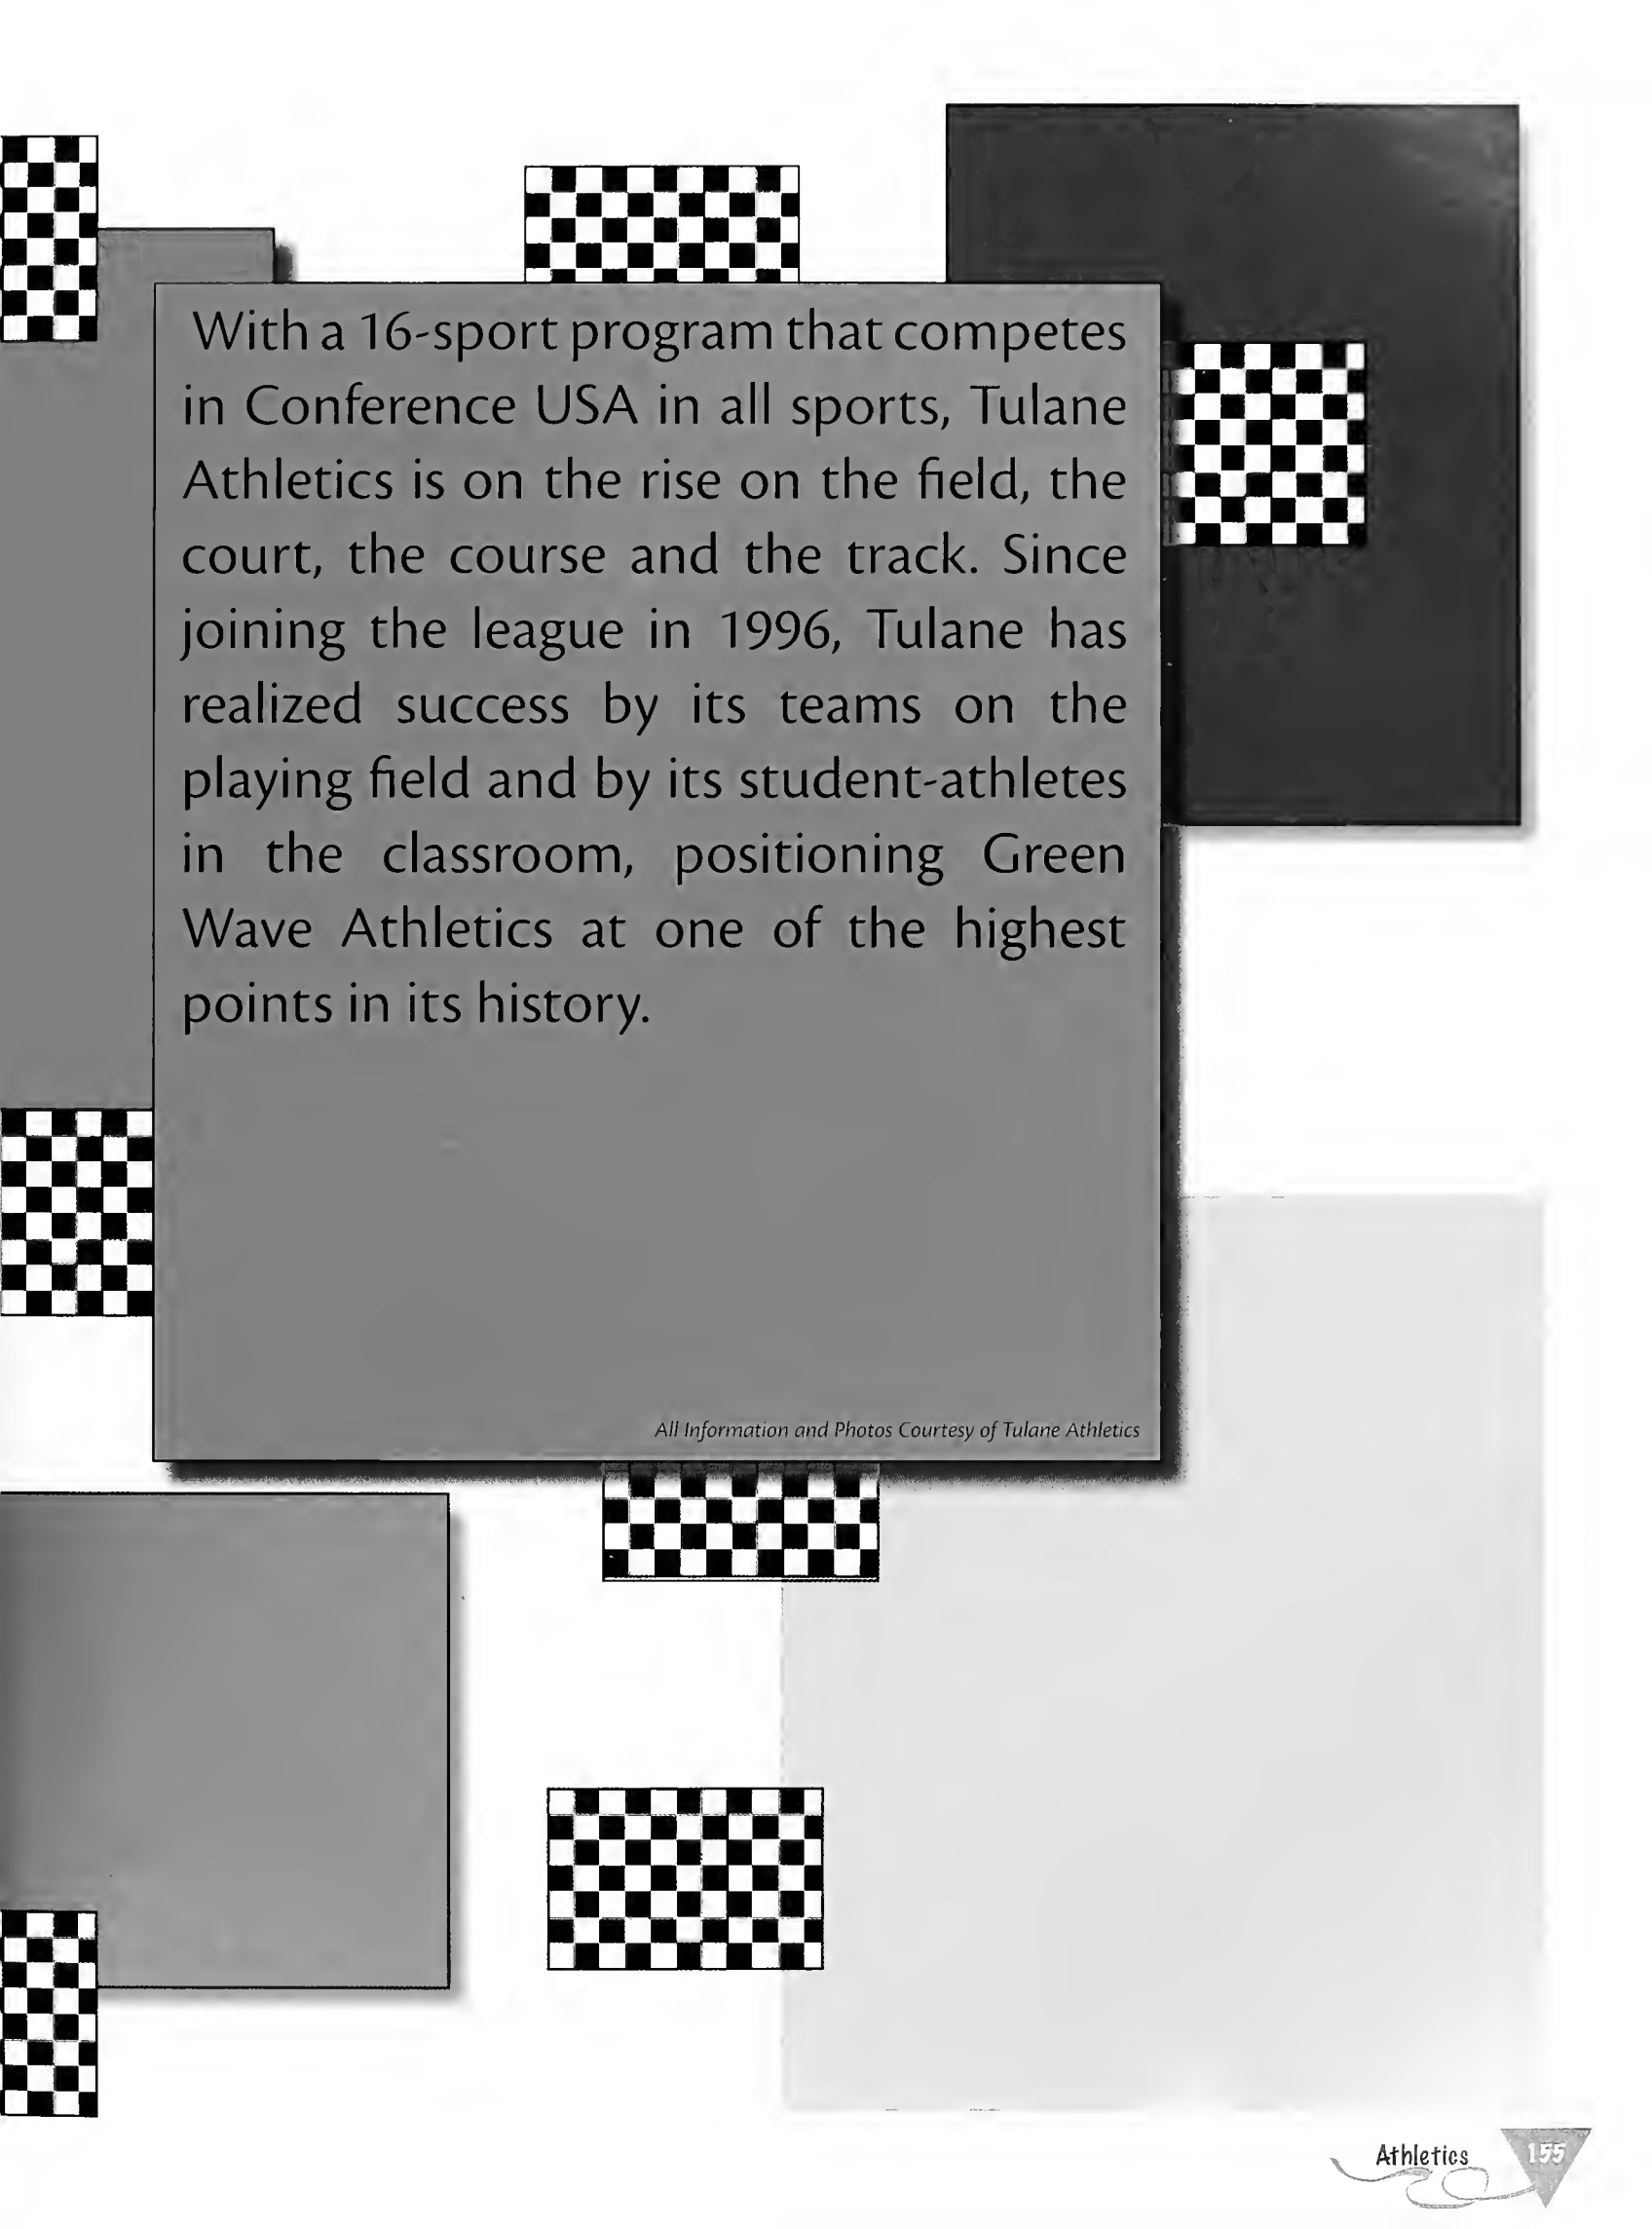

"This is how to make a movie hands-on. It's void of theory," said Sylvester, a Tulane graduate who was born and raised in New Orleans' Calliope housing development.

Twenty-five students were accepted for the course, which was taught through the theatre and dance department. In addition to Sylvester, course instructors included Tulane dance and theatre professors Ron Gural and James Fitzmorris.

Sylvester, who is also a successful screenwriter, says Hollywood is looking for non-traditional stories likely to emerge from the imaginations of a diverse group of students.

Athletics

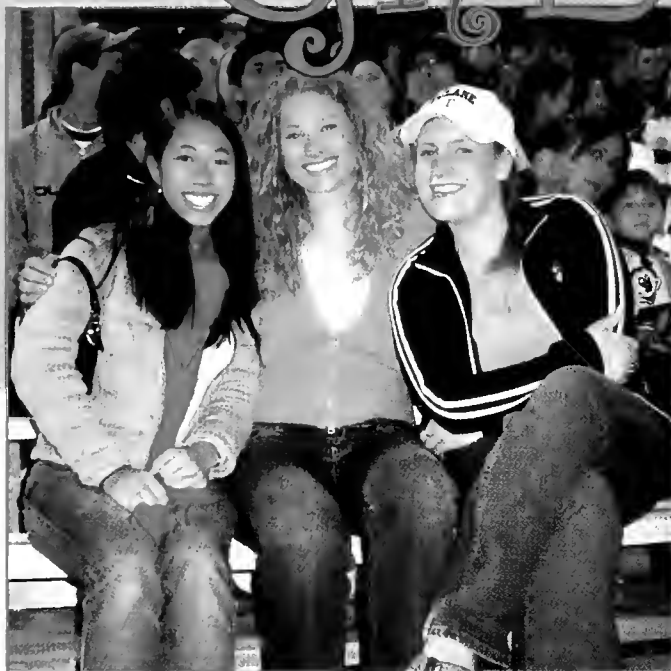

With a 16-sport program that competes in Conference USA in all sports, Tulane Athletics is on the rise on the field, the court, the course and the track. Since joining the league in 1996, Tulane has realized success by its teams on the playing field and by its student-athletes in the classroom, positioning Green Wave Athletics at one of the highest points in its history.

Volume 95, Issue 1

A NEW WAVE OF SELECTIVITY

Bryan Cole
news co-editor

As the college admissions process becomes more and more competitive, Tulane's Office of Undergraduate Admissions has produced another crop of record-setting incoming freshmen.

"There's no question that if you look at the student body at Tulane today versus the student body at Tulane in the 1980s, it's a markedly better prepared, more academically talented group of students today," Dave Davis, the associate dean of Tulane College, said.

More than 17,500 high school seniors applied for admission this year, the highest total ever. The middle 50 percent of those accepted boast SAT scores between 1280 and 1410, also a new high.

But the high number of applicants also meant a record low: only 44 percent of applicants received acceptance letters, the lowest percentage in the University's history.

"Tulane is simply getting better and its reputation is getting stronger," Richard Whiteside, dean of undergraduate admissions, said. "Because of that, we are experiencing more applications from more highly qualified students."

The estimated 1,600 incoming students that will make up Tulane's freshman class feature students from all 50 states, as well as 31 international students from around the globe.

In addition, two-thirds of the incoming students were in the top 10 percent of their class. Whiteside said the continued improvement among classes was due to an all-around effort by

the University.

"There is no single thing to identify as our cause of success," Whiteside said. "It's many people doing many good things correctly."

One contributing factor may have been the generous financial aid packages put together. Whiteside estimated Tulane gave out more than \$20 million between need and merit-based aid, meeting "99 percent of demonstrated need."

"With any private institution in our price range, if they don't believe price affects their enrollment, they're not telling you the truth," he said.

Whiteside also suggested the on-campus construction — seemingly a curse to many current students — may be a blessing to his office, helping lure prospective students.

"From a marketing standpoint, it's always good to have something being built," Whiteside said. "New buildings going up indicates that a place is on the move."

Tulane is also moving to target more minorities through the application process, an area that has been

A Green Wave Ambassador leads prospective freshmen on a tour of campus. An increase in the number of applicants has allowed the university to become more selective.

problematic in the past.

"If you're an African-American ... and you walk onto the Tulane cam-

pus, you say, 'Well, where's everyone who looks like me?'" Davis said. "I think it's an ongoing challenge—

and we're all aware of it—to have

UC services relocate around campus

Students browse through the bookstore, which has been relocated to The Pavilion.

Jaclyn Rosenson
editor-in-chief

Until last winter, the University Center served as the center of campus. Presently, vital student services are spread throughout campus due to the building's renovation.

The Pavilion at Bruff features the relocated Tulane University Bookstore as well as a food court now equipped with eight dining selections, four of which are new.

"We have gotten very positive responses about The Pavilion from people thus far," Assistant Vice President of Auxiliary Services Kelly Carroll said in a Jan. 16 issue of the "Hullabaloo."

"When people first walk into the food court, they're blown away. It's not at all what they imagined."

The four new dining selections are Einstein Brothers Bagelry, an Asian style cuisine venue along with Zia Juice, a Freshies smoothie bar concept, and Noodles, Etc. Sodexo

picked have been based on a zip code analysis we did called lifestyle survey," Charlebois said. "We studied the student groups, did focus groups and got a lot of feedback. We looked at what are students at Tulane like for dining options. We then placed that on a map and said that we had certain percentages of students in certain quadrants and we mapped where our dining locations best fit them. We found we had a lot of your traditional home and healthy type food, but we didn't have some of the trendier things, like Asian or Mediterranean food."

Another popular food option, the

PJ's Coffee and Tea has operated a coffee shop under Percival Stern since last spring.

late-night Der Rathskeller, relocated to the old home of the Bruff convenience store and deli. Once there,

Nine necessary names:

How Tulane's newsmakers see the coming year

Christopher Johnson
chief copy editor

The Tulane "Hullabaloo" interviewed nine public figures integral to the undergraduate community about their duties, goals and expectations for the 2004-2005 school year. The purpose was to both inform incoming freshmen of the most important people to know as well as get a preview of the year's big stories. Here's what they had to say:

Dr. Scott Cowen

Tulane University President
Cowen is the top academic and administrative official for the University. The President provides general direction to the University and its divisions. The President plays a critical role in fund-raising and public relations, and Cowen is a member of several corporate Boards of Directors. Cowen has recently received national attention for his efforts to reform intercollegiate athletics, a push which last year included testimony before the U.S. Senate Committee on the Judiciary.

In his words:

What will be news: "I think the two biggest stories for the year will be the public announcement of the University's fund-raising campaign, which will take place in March 2005, and the continuation of the impressive and well-documented achievements the University has realized in the last decade — academically as well as financially."

Goals: "My goals for the upcoming year are: A, continued success in implementing all aspects of the academic plan adopted four years ago; B, announcing and making progress on the fund-raising campaign; C, successful progress on all capital projects currently underway;

D, continued financial improvement for the University; and E, no unpleasant surprises!"

Dr. Lester Lefton
Senior Vice President for Academic Affairs and Provost

Lefton oversees all aspects of the academic program for the Uptown campus. This includes schools and deans as well as libraries, admissions, financial aid, student affairs and housing. All major decisions regarding academic policy and organization must go through the Office of the Provost. Initiatives of the Office of the Provost include the Tulane Interdisciplinary Experiences program, the Tulane University Reading Project and task forces on athletics and diversity. In recent years, the Office also proposed creating a Bachelor of Science in Public Health and a new College of Human and Urban Ecology. Lefton approved a new housing policy that altered the preferences given to each class in 2003 and this spring led the search for a new dean of the School of Architecture.

In his words:

What will be news this year: "This is a year of building: building on academic strengths, hiring new faculty and building buildings: the UC and two dormitories."

Goals: "One, continuing the institutionalization of Tulane's signature first-year programs [TIDES, Reading Project and Honors]; two, overseeing and monitoring the successful development of new or changed graduate and undergraduate programs; and three, continuing the development of new initiatives to increase Tulane's distinc-

tiveness, student and faculty satisfaction and effectiveness, diversity and research strength."

Melody Baham
Associated Student Body President

Baham represents the interests of all undergraduate, graduate and professional students at Tulane University. The ASB president is the only student who speaks for the entire student body, and must try to unify the undergraduate and graduate student governments. In addition, the ASB president is the lone student voice at meetings of the Board of Administrators. Baham's previous initiatives include the establishment of an off-campus housing website and the reform of Tulane SafeRides, a weekend downtown shuttle for students.

In her words:

What will be news: The Business School proposal, neighbor-

hood relations, Directions
Goals: "Homecoming: make it a dynamic event for all students; faculty and staff; communication: make sure that all students are unified and informed; Directions: I want to bring in a speaker that will attract all undergrads and graduates, one that will really impact the entire campus and fill McAlister [Auditorium]; make it a long-lasting, effective educational program, but a good social event as well."

Dr. Dan Nadler
Associate Vice President for Student Affairs

Nadler has a direct impact on the quality of student life at Tulane, particularly for the 3,400 undergraduates who live on campus. Nadler's areas of responsibility include housing, residence life, fra-

ternity and sorority programs, neighborhood relations, educational resources and counseling, and the Office of Student Affairs' emergency preparedness and crisis response. Nadler manages the dual challenges of running a department that operates continuously each day of the year and one that faces dramatic change due to several major construction efforts.

In his words:

Challenges for this year: construction and renovation "staying in the timeline; communicating openly and consistently with students — it's going to be a big challenge — but we're ready to accept it; getting past the daily routine ... having the big picture in sight; balance between here and now and the long-term interests of the University."

Goals: "Expanding leadership opportunities for students; working closely with facility services to 'improve and enhance,' particularly residence halls; continue planning two new residence halls; looking at quality and consistency of service; finding ways in which to ... establish a culture of service; looking at ways to continue to reach out, foster, create and enhance the educational aspect of what we do ... help students learn outside the classroom [so] when students are ready to leave Tulane ... they are well-prepared for what is in their future."

Brad Patout

Undergraduate Student Government President

Patout chairs meetings of the Undergraduate Student Government and heads the Executive Cabinet. The USG president plays the

SEE NAMES: PAGE 3

Vytautas Tatarunas

If the Olympics have taught us anything, we now know that the world has learned the game of basketball. Tulane, ahead of the learning curve, is looking forward to a breakout year from third-year European import Vytautas Tatarunas (6-foot-6, 237 lbs). If you're having trouble with the name, just refer to him as Vy - pronounced Vee - everyone else does.

Last season, despite limited minutes, Tatarunas was Tulane's fourth leading scorer with 9.3 points per game. More importantly he led the team with 7.2

boards a game, ranking him eighth in the stacked Conference USA. Playing a small forward/power forward combination, look for Tatarunas to intimidate opponents with his intense, physical play. He also brings deadly aim from beyond the arc and has no reservation about drilling home shots anywhere within 25 feet of the net.

He thinks of himself as a young Peja Stojakovic, but Fogelman fans know Tatarunas plays a much more physical inside game than his icon.

2. Nathan Southard

Nathan Southard started 28 games in his freshman season and batted a respectable .280. His nine multi-hit games and clutch performances (.429 with a home run in the 2003 Regionals) were the perfect prelude to his 2004 season.

As a sophomore, Southard battled through multiple injuries to hit .297 and start 50 of the team's 62 games. In addition to demonstrating an indomitable desire to play through adversity, Southard also showed glimpses of power with six home runs and 37 RBIs.

Last year Tulane went 41-21 and batted .314 as a team. As if Conference USA pitchers did not have enough trouble getting sleep before taking the mound at Turchi Field last year, the task becomes even more daunting if Southard has the breakthrough season he's been looking for and turns flashes of greatness into consistent success.

Jenny Kuhn

Tulane's women's tennis program finished last year ranked 11th in the nation, and it was largely thanks to an outstanding season by Jenny Kuhn. Kuhn, hailing from Leipzig, Germany, has won two C-USA player of the year awards in her first two seasons with the Green Wave.

In addition to being a stellar singles player, Kuhn teams with fellow junior Julie Smekodub to form what should be one of the top-ten doubles teams in the nation this year. The duo lost only twice last year in doubles play and have ambitions of pushing Tulane's streak to three C-USA championships.

Five names you need to know

Jason Lieser
Sports editor

—staff writer Lyle LeBlanc contributed to this article.

4. Tra Boger

If Green Wave football has gained any reputation in recent years, it has been the ability to put points on the board; Tulane has affectionately been dubbed "Quarterback U." after sending three gunslingers to the NFL over the last six seasons (another team well-known for its passing prowess, the Florida Gators, lays claim to only one current NFL quarterback).

Well, senior safety Tra Boger is tired of hearing about all this offense. In 2003, Boger was second-team All-C-USA while posting a career-high 133 tackles and forcing four fumbles (third in C-USA). For the week of Sept. 13, Boger was named conference player of the week after forcing a fumble, recovering a fumble and recording 12 tackles in a 31-28 home win over Mississippi State.

Now in 2004, Boger and teammate Roydell Williams take center stage as scouts and experts around country expect

both of them to make strong pitches for the 2005 NFL Draft. While the Tulane offense registered a respectable average of 28.1 points per game, the defense gave up a dreadful 35.3 points per game to opposition. If the Green Wave eradicate memories of last year's 5-7 record, it will likely be due to strong play from Boger and his fellow defenders.

5. Deva Fowler

Deva Fowler journeyed all the way from San Diego to be a part of Green Wave volleyball, and Head Coach Betsy Becker has been thankful for the Golden State girl ever since her arrival in 2001. As a freshman the 6-foot-2 middle blocker played in almost every match and led the team in solo blocks (22), block assists (84) and total blocks (106). In her sophomore season Fowler ranked third in C-USA with 1.15 blocks per game and posted a career-high 36 aces (second on the team).

Fowler's junior year was even better than her first two, leading to great expectations for this season. After gaining honorable-mention All-American honors and being named to the C-USA all-conference first-team (team-best 444 kills, 39 aces, 173 total blocks), Fowler was voted to the 2004 preseason C-USA all-conference team earlier this month.

Lindsay Norman and Katie Case join Fowler as returning starters for the Green Wave and the team is aiming for a C-USA championship. The preseason coaches' poll has Tulane ranked fourth in the conference, the highest preseason ranking in team history.

the basement

It's only going to be what we make it

Jason Lieser
sports editor

I'll get right to it. New Orleans is a wonderful place to live, and Tulane is a fine university, but this is not a sports school.

If athletics are your primary concern in selecting a university, withdraw your enrollment, drive down Claiborne, hang a right on Carrollton and take I-10 West toward Baton Rouge. There you'll find LSU, a school whose sports teams receive unconditional support and love from an enormous fan base.

However, if you're literate enough to read this article you don't belong at a school like LSU. I'll also assume that you have some of your teeth and can count to at least eight.

Athletics work a little differently here than they do in Baton Rouge. Hardly anyone that goes to Tulane grew up watching and cheering for the Green Wave. Perhaps you heard of our football team when the 1998 squad (led by Shaun King, now with the Arizona Cardinals) went undefeated. Maybe you were aware of our

recent quarterbacks Patrick Ramsey (Washington) and J.P. Losman (Buffalo) being drafted into the NFL. Other than that, I bet you rarely heard "Tulane" and "athletics" in the same breath.

Instead, I bet you grew up like I did. I was born and raised in the northwest suburbs of Chicago, and my favorite college teams were the Northwestern Wildcats, DePaul Blue Demons and Illinois Fighting Illini. Maybe you and your buddies grew up watching Syracuse basketball or Miami football. That's understandable. That's the school you lived near, and a lot of you and your friends probably had aspirations of attending those teams' games for four years (well, maybe five in some cases).

I know I sure did. I had all kinds of aspirations of spending four years as part of the Orange Knush student section at Assembly Hall in Champaign, Ill. In high school my friends and I seldom missed an Illini basketball game, either on TV or in person. Had U of I played against Tulane during my freshman year, I probably would have pulled for the Blue and Orange.

But then I realized something: I

do not go to the University of Illinois. That may have been the team I grew up watching, but I don't go there. I go to Tulane. A key reason student interest in Tulane is paltry is because a large percentage of the student body needs to come to terms with the fact that they don't attend Boston College, Texas or USC.

I don't know if you'll make it here academically, but for however long you stay at Tulane, your team is the Green Wave. There isn't much you can do about that. I haven't asked Athletic Director Rick Dickson, but I don't think we have any kind of negotiations in progress to lure the Huskies out of UConn. Tulane football, Tulane basketball, Tulane baseball, etc... these are your teams now.

And these teams can be great. Our students seem to be learning this. These teams are as great as we make them. After all, how can Chris Scelfo recruit top football players when they come to games at the Superdome and see 5,000 students either sleeping or sitting on their hands?

Did you know there's a former Tulane basketball player in the

NBA? Linton Johnson, a small forward who graduated in 2003, now gets minutes with the Chicago Bulls. Last year when the Bulls came down to play the Hornets, Johnson spent game day strolling Tulane's campus to say hi to some old friends and coaches.

Unrecognized. Only at Tulane could an NBA player walk the quads of his alma mater and go virtually unnoticed. Johnson and I had a good laugh about this in March, but when Ben Fisher, a correspondent of the Hullabaloo, asked him what he would tell Tulane students about supporting their sports teams, his tone turned despondent.

"I just wish the fans were more interactive with the sports," Johnson said. "They need to be. Put that in the paper: the students are not interactive with the sports teams."

At this point I have to amend my statement about Tulane not being a sports school. It's not a sports school unless you make it one. Our tennis teams and our baseball team are among the nation's best and with 65 slots to fill in both the NCAA men's and

women's basketball brackets, the question each year becomes, "Why not us?" Our football team has made two bowl appearances in the last six seasons and currently has nine alumni in the NFL in the last six seasons. There is at least some reason for hope every year.

And a word about the women's sports: they can play. I was prepared for the worst as I braced myself to cover the NCAA Women's Final Four at New Orleans Arena back in April, but all three games were superb. As I saw the tremendous outpour of fanaticism for the LSU Lady Tigers, I wondered if our student body is even aware of the fact that our women's basketball team has earned nine NCAA tournament berths in the last 10 seasons.

It's more than just X's and O's at Tulane, too. Our men's basketball team is full of drama and personality. Ever heard of The Finney Stomp? Oh, it gets good. Ever seen an ornery five-year-old who doesn't get his way? Picture that, but in a shirt and tie. There are several variations, but the usual is when Head Coach Shawn Finney crosses his arms, lifts both knees and then

pounds his feet on the ground while he screams. The people who do attend these games (which are all free by the way, the perfect price for those of us who mortgaged our house to afford tuition) find a lot to be intrigued by.

The unique thing about Tulane athletics is that success is not determined by the players or the coaches. If the football team goes undefeated this year, I honestly think it's pointless unless the students care enough to go watch the games. Conversely, if the team goes .500 but we pack the Superdome the best we can, that will speak volumes of our program. The responsibility of the Green Wave's success this year, in every sport, falls squarely on us, the fans.

Jason Lieser is a Tulane College junior majoring in political science. He's been practicing his own version of The Finney Stomp for two years now, but feels it still isn't ready to be released to the public yet. Questions or comments can be sent to jlieser@tulane.edu.

Volume 95, Issue 2

Orientation successful despite concerns over changes

Jaclyn Rosenson
editor-in-chief

Despite changes from last year, there has been a positive reaction to this year's orientation, most of which took place earlier this week.

Programs for the new students that still have not taken place are the Student Organizations Activities Expo on Newcomb Quad today from 4 to 6 p.m., the Welcome Party for international students on the Tate House Patio today at 6 p.m. and Outreach Tulane at Diboll Conference Center tomorrow at 9 a.m. Director for New Student Programs Billy Potts said all the events so far have gone very well.

"I have heard a lot of great things from parents," Potts said. "Parents know that they are leaving their children in good hands."

While Potts did not attend every event, she looked in on a lot of the events and roamed around the residence hall areas while freshmen were moving in. She talked to parents who were concerned prior to coming to Tulane. However, their apprehensions were relieved upon their arrival.

One of the biggest compliments Potts received pertained to the move-in process. A parent told Potts that she had two children at other schools, and of all three schools, Tulane had the most organized move-in day.

The football team, Navy ROTC, Army ROTC and other volunteers accented move-in day by helping freshmen and their families carry the loads of personal belongings to their

A new batch of Tulanians hit the ground running during an orientation campus tour.

rooms. The football Head Coach Chris Scelfo said, "It was a lot of hard work, but [the players] enjoyed it. They

sweated a lot but they got to meet new friends." He asked the players to volunteer and most seemed interested. Scelfo wanted the players to

be "more a part of the campus life" and for freshmen to meet them.

SEE SUCCESS: PAGE 2

Tulane receives record-breaking \$60 million gift

Ryan Anthony
contributing writer

Awash in cash as well as gratitude, Netscape co-founder Jim Clark and Yahoo co-founder David Filo announced their combined contributions of \$60 million to Tulane University July 29.

Lumping the two \$30 million gifts together makes the largest single as well as combined donation in the history of Tulane University.

Destined for the University's much-needed endowment – now nearly \$722 million – the donations are anticipated to finance the education of some 100 students, and gifts are to be awarded for academic merit. Both Clark and Filo attended Tulane University as undergraduates, and while Clark ultimately earned his bachelor's elsewhere, Louisiana native Filo earned a Bachelor of Science in computer engineering. He is also a member of the Board of Advisors for the School of Engineering.

"I attended Tulane's engineering school on a scholarship, so this is my way of showing my gratitude for the

wonderful education I received," Filo said. "I hope this will inspire others to support the School of Engineering and the University as a whole. Tulane is a great university with the potential to be second to none among the nation's most important educational and research institutions."

The announcement, with its financial and historical significance, elicited cheers of thanks from Tulane administrators. "These gifts which Jim and David made without fanfare or expectation of acclaim reflect an extraordinary commitment to our goals and vision and will impact our institution for years to come," Cathy Pierson, chair of the Board of Tulane, said.

"Their gifts indicate that, like us, they view Tulane as an outstanding university on the cusp of becoming one of the nation's premier institutions," Tulane University President Scott Cowen said, echoing Pierson's hopeful sentiment. Cowen places the enormous private contributions firmly within the framework of a 10-year development strategy devised in 1998, which includes increasing the University's endowment to \$1 billion by 2008.

Authority and pleasure do not mix

New policy prohibits relationships between employees and students

Amy Forsyth
writing and editing coach

The Tulane University Senate passed a new policy forbidding relationships between students and administrators, staff and faculty members at its final meeting of last year.

The Policy on Consensual Relationships prohibits University employees from having relationships with students "to whom they hold a position of authority."

The policy prohibits relationships where a Tulane employee is evaluating, supervising or giving benefits (financial aid is an example) to a student. If such a situation were to occur, "the person in authority shall immediately remove himself or herself from such a position of authority." If that fails to occur and a complaint is filed, the office of the dean responsible for the student has the right to remove the person from the position of authority. For example, the student may be transferred into another section of a class or have their thesis advisor changed. Former Undergraduate Student Representative to the University Senate and Undergraduate Student Government Vice President for Student Life Matt Coleman was a major proponent of the policy.

"We were one of the few institutions of higher learning that I came across that did not have a policy in place," Coleman said. "There was an unwritten rule, of course, saying that it shouldn't be done, but there was nothing written, nothing codified."

Coleman, who graduated from Tulane last spring, drafted and sponsored the proposal in the University Senate with David Clinton, associate professor of political science. Clinton acknowledged these situations had occurred in the past, but

just not something one ought to do."

The policy does not include any sanctions or censures against those involved in a consensual relationship other than the removal of a supervisory role. However, the plan does make punitive provisions for those who bring false allegations.

The charges are investigated by disciplinary measures outlined in the faculty handbook, staff handbook and student code of conduct. If guilty, a letter is put in the complainant's permanent file.

The Policy on Consensual Relationships also applies to graduate students who are teaching a class because of the position of power they hold over students in the class.

Coleman commented that the only way a consensual relationship may exist is if one person does not hold a position of authority over the other.

"If something is jeopardizing the sacred instructor-instructor relationship, then that relationship needs to be dissolved," he said.

The policy received support from numerous administrative offices and faculty members during the drafting stages. It was also heavily backed in the University Senate.

"I think most of the people who spoke in the discussion in the Senate were asking questions for information, rather than raising objections," Clinton said.

Despite concerns over whether the policy was repetitive of the University's policies on sexual harassment and nepotism, Clinton said the proposal was passed "almost unanimously."

"Engaging in a consensual relationship with someone whom they supervise is a conflict of interest and a breach of trust. It's just not something one ought to do."

MATT COLEMAN
FORMER UNDERGRADUATE STUDENT REPRESENTATIVE TO THE UNIVERSITY SENATE AND UNDERGRADUATE STUDENT GOVERNMENT VICE PRESIDENT FOR STUDENT LIFE

said that "it had been difficult to deal with in the absence of a codified policy."

"Engaging in a consensual relationship with someone whom they supervise is a conflict of interest and a breach of trust," Coleman said. "It's

Report shows increase in crime

Jordan Hadas
senior staff writer

Based on the "Annual Security Report for 2003" published in the Sept. 2004 issue of "Keeping Tulane Secure" by Tulane University's Department of Public Safety, crime affecting campus rose in the past year.

Broken down into 16 categories ranging from criminal homicide to disciplinary referrals, the crime report compares the past three years in order to view trends in crimes committed. Every group defined in the report experienced an increase last year except burglary, which was nearly cut in half.

Categories that saw a particularly large jump included motor vehicle theft, up by 175 percent; arrests for drug-related violations, up by 50 percent; and liquor law violations, up by 54 percent.

Addressing the sharp increase in drug-related incidents last year, Director of Public Safety Ken Dupaquier said the composition of the incoming class shapes what type of crimes are committed on and around campus.

"The fluctuation in types of crimes is indicative of the new class every year," Dupaquier said.

Concerning the surge in motor vehicle theft, Dupaquier explained that a stipulation recently passed requires officials to label unauthorized use of equipment as car theft. As a result, Tulane University Police Department was forced to add a considerable number of violations.

Unauthorized use of equipment applies to situations where a person without proper permission engages in the operation of a unit requiring permission by a Tulane organization.

Along with the slew of statistics is a detailed description of terms used within the report, as well as a brief paragraph explaining that Tulane Public Safety puts together the crime report using information gathered from both formal and informal reports.

The report includes a wealth of information on classes one can take to be safe, including "Preventing

assault," Rape Aggression Defense System and "Living in the Big Easy." Within the report there is also a reiteration of policies that most directly affect the student population, such as the drug and alcohol policies, and a note directed towards those who use illegal drugs.

New laws passed by the Louisiana Legislature over the summer are also mentioned in the report. These include requiring motorcyclists to wear helmets, prohibiting open alcohol containers in motor vehicles and altering freeway driving so that the left lane is for passing only. Dupaquier

"[TUPD], as a law enforcement agency, has not stopped many students on campus who were under the influence of alcohol," he said. Dupaquier also said careless behavior in the residence halls causes a large number of on-campus crimes. He strongly encourages students to take preventative measures such as locking one's door and not putting valuable possessions in highly visible places. He notes that there is a first line of defense in many residence halls: the front desk.

"We continue to have thefts in the residence halls," Dupaquier said.

Crime Statistics

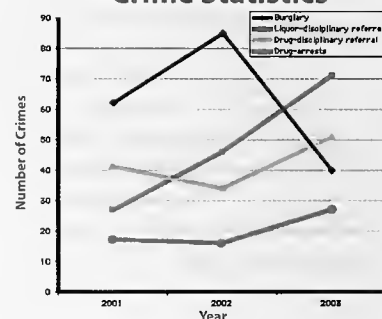

CHART DESIGNED BY SASHA REDMAN
The above chart shows some of the changes in crime at Tulane. For a full report, pick up "Keeping Tulane Secure" from the Department of Public Safety.

explained the changes to the open container law.

"Basically, the old law allowed the passengers to have an open container of alcohol," Dupaquier said. "The new law reads that no one in the vehicle may be in possession of an open container of alcohol."

The effect of this new law on campus will be negligible, Dupaquier predicted.

"That's not someone coming in from the outside."

Not only does the report cover safety tips, it also incorporates services offered by TUPD: officer escorts around campus and to cars, minor car repair service and some information about the off-campus patrols. The report is available in print at the Department of Public Safety.

Fowler looks to finish strong on court, in class

Senior seeks to outdo last year's breakthrough season

Jason Lieser
sports editor

When senior Deva Fowler first arrived in New Orleans, she was a little bewildered. After growing up in quiet San Diego, she was now in a city that rarely ever finds itself in the same sentence as the word quiet.

"I was really sheltered by my parents when I was growing up," Fowler said. "I needed to get up and get out of my comfort zone. New Orleans is a wild place, so I'm thankful for everything they taught me."

While Fowler was a bit wide-eyed at the New Orleans community, it did not take her long to get comfortable on the volleyball court. Perhaps more important than the individual accolades Fowler accumulated in high school is the fact that she learned how to win. She led San Diego's University City High School to a Division II state championship in 2000 and starred on the very successful Sun West Club for two seasons.

"She came in knowing how to win," Head Coach Betsy Becker said. "She knows she's a good player, and she strives to back it up on the court everyday."

Although she received an honorable mention for the All-American team last season, Fowler was not yet the complete player Becker knew she could be. The reason Fowler may not have been fully developed as a player quite yet was due to the fact that she did not start playing volleyball until her freshman year of high school. Most collegiate volleyball players, particularly those in the upper echelon, have been playing on club teams since they were very young.

"I actually wanted to be a cheerleader," Fowler said. "But the JV coach, Kelly Platt, said, 'We've got to get you on the volleyball court.' It was funny because I was always off away from the team and messing up drills. I was a little bit awkward; I didn't get it."

After struggling through the

learning process—particularly learning the rules—in her freshman year, Fowler made a big impact in her sophomore season. She was named the most improved player on her team and began to draw interest from club coaches.

"As a younger player she had a nice mix of size and athleticism, but now she's got the mental toughness as well," Becker said. "She's just a phenom now. She's become a leader."

A year later she began intriguing college scouts. Top California volleyball programs like Southern California, Pepperdine and Long Beach State all came calling, but Fowler knew it was time for a change of scenery.

"I'd just lived in California for too long," she said. "I was more interested in schools like Michigan, Wisconsin and Texas A&M than the California schools."

All of those schools showed interest in recruiting her, but Fowler really saw herself fitting in with the Tulane coaching staff and particularly with the city of New Orleans.

"Tulane was actually at the very end of my list; I didn't even know where it was at first," she said. "After meeting the coaching staff, though, it really seemed like they were committed to putting a winning team out there."

"I really liked the city too. San Diego is very separated; it has white neighborhoods and black neighborhoods, but not very many mixed areas. New Orleans is a melting pot of race and culture. I've learned a lot from living here."

In all likelihood, Fowler admits that this will probably be her last season of competitive volleyball. With that in mind, and with Tulane boasting what could possibly be the best squad in school history, Fowler is as motivated as she has ever been in her quest to finally lead Tulane to the NCAA tournament, a feat never

Volleyball anticipates best season in history

Teamwork is the most important aspect of the game to this year's squad.

After compiling a 45-19 record over the last two seasons, Head Coach Betsy Becker has her team ready to make the jump from good to great. Tulane was ranked fourth in Conference USA (the team's highest preseason ranking ever) by the preseason coaches' poll. The Green Wave brought in a talented group of freshmen and transfer students to mesh with a seasoned core of upperclassmen. Thus far, the assimilation has been a success.

"We have a lot of newcomers, but we've been able to meld and fuse the new personalities with the old ones," Becker said. "We've really stressed playing as a team."

In fact, Becker has been stressing teamwork since February, when the Green Wave began its six-week spring practice session. The NCAA allows Division-I women's volleyball teams to practice 20 hours a week for six weeks. Typically, Becker's spring session

is low-intensity and focuses on improving individual skills, but this year she took a different approach.

"It's usually been a lighter load in past spring practices, but this year we tightened it up and worked hard for all 20 hours each week," she said. "We were all business everyday. This year we also did absolutely no individual work. We did all 20 hours as a team."

One of the top new players on the team is sophomore Blair Moon, daughter of longtime NFL quarterback Warren Moon. Coming out of high school, Moon chose to sign with Georgia Tech and was named to the ACC freshman all-conference team. However, after some coaching changes and less playing time than she desired, Moon spent last year at Houston Junior College before transferring to Tulane this fall.

"Her athletic prowess is great," Becker said. "Her arm swing is amazing. It goes in hyper-speed."

Tulane also boasts talented outside hitters Lindsey Norman and

Iman Houston.

Additionally, the Green Wave returns with senior middle blocker Deva Fowler. Fowler received honorable-mention All-American last year when she led Tulane with 444 kills, 173 total blocks and 39 aces. In what could be her final season of competitive volleyball, Fowler's goal is to lead the Green Wave to its first NCAA tournament appearance in history.

"When I got here the coaches told us, 'You guys will be the pioneers,'" Fowler said. "This past spring was really a challenge for us. We got pushed to the highest level and we just couldn't wait for it to end, but looking back I'm glad we did it. We have a great opportunity this year."

Fowler and the other attackers will rely heavily on the ability of the team's pass defense and junior setter Katie Case.

"If you can pass, you can play at any level," Becker said. "We've certainly got to fill in a void now that Carlynn Daly is gone [due to graduation]. This team isn't as

strong as it was last year when we were the top defensive team in the conference, but it is capable of surpassing last year's performance."

With six days left before the Green Wave opens the season against Prairie View (Wednesday 6 p.m., Fogelman Arena), Becker is pleased with the effort in practice but insists that she has not yet seen her team play its best.

"We're making noise now, but by the time the season starts we want to be making music," Becker said. "Our core group of juniors and seniors feel it, though. They're sick of not being satisfied at the end of the season. Everyday we talk about making [the NCAA tournament]."

With the high rankings and high expectations, Becker figures on facing tougher opposition this year than in her previous five seasons as head coach.

"The X on your back gets a lot larger when you have such a high preseason ranking," she said. "Every team is going to bring its best game when they play us."

Depth, conditioning keys for women's soccer

Jason Lieser
sports editor

Coming off an 11-7-0 season, compared to 31-39-3 over the previous four seasons, the Green Wave has turned its sights toward a Conference USA championship.

While Tulane does have a fairly youthful soccer team this year (18 of the 26 players are freshmen and sophomores), it runs its top two offensive producers and its starting goalie.

"Recently we've been in a sort of rebuilding stage, but I told our team that I don't really think we're there anymore," Head Coach Betsy Anderson said. "People might look at our roster and say that we have a young team, but we have an experienced team in that last season we had six freshmen in our starting lineup at one point."

Sophomore midfielder Jackie Obert returns to the Green Wave after one of the most outstanding rookie campaigns in school history. She was the second leading scorer on the team with five goals and two assists and earned third-team all-conference and C-USA all-freshman honors.

"[Obert] just has such a presence on the field," Anderson said. "She's

a ball-winner. She sacrifices anything to come out with the ball on her side. She brings a lot of enthusiasm and intensity, not only in the games but in our training sessions as well."

As for Obert's health, she did come into the preseason with an injury, but Anderson expects her to be at full strength by the start of the season.

"She had a knee injury over the summer, but we got her cleared this week," Anderson said.

"She's looking strong now, and we anticipate her filling the same role she did for last year."

One of the most interesting off-season developments for the Green Wave was the hiring of goaltending expert Paul Rogers. Rogers comes

Jaclyn Benjamin (sliding) is one of just four seniors on this year's team.

FILE PHOTO BY LEE SAMPSON

She's been in a great situation with Rogers, who played at the professional level on the men's side. She's been trained by some excellent keepers, and this has been a great situation for her to be in."

Anderson is also excited about the possibilities of some of her new freshmen. Rookies Brianna Buffington (San Diego) and Megan Weinlein (Dallas) are both expected to compete for significant playing time.

"[Buffington] is the fastest player in our program; she's got to be in the top five in our conference as far as her speed is concerned," Anderson said. "Weinlein can play in the midfield and she can play in the back, so we anticipate that she'll be in there somewhere for us."

Just two days before the team's opening game, Anderson was still uncertain about her starting lineup. The team has so much depth that many positions will be shared by what she calls interchangeable parts.

"There are a couple players who have really locked up their spots, but one of the best things about this

Deva Fowler comes into the 2004 season with her eyes fixed on an NCAA tournament berth.

Outreach Tulane brings unprecedented numbers

Natalie Cox
senior staff writer

Nine-hundred five volunteers showed up to the 14th annual Outreach Tulane last Saturday.

Volunteers gave much-needed aid to various community organizations, while expanding their perspectives of the volunteer possibilities around the New Orleans area. Sites that hosted volunteers through

urday morning, registered for their sites, were given breakfast and heard opening remarks from Hamilton Simons-Jones, the director of Community Service Coordination.

"When everyone was all together in the morning, it was the first time in my career at Tulane that I've felt like a part of a unified student body," Daniel Barnes, a resident advisor who volunteered his time by cleaning gutters at the Arc of Greater New

doors and helped with minor repair in the school's rooms and hallways.

Scheduled for the first Saturday morning of the academic year, the event was expected to yield a high turnout. The participants were pleasantly surprised, however, at the variety of students who chose to attend. "The groups were well-mixed, and it turned out to be a great way to meet people," Ali said.

Through Outreach Tulane, host-

The Outreach Tulane program began 14 years ago and has grown substantially in the past years. Simons-Jones said his goal for this year was to get 1,000 people to volunteer, and that goal was missed by only 95 volunteers.

Senior RA Chase Hahn said he participated in the program this year partly because it was so well promoted.

"It was my first time to partici-

New alcohol policy put into effect on campus

Kate Dearing
staff writer

Approved by the Tulane University Senate last May, the new alcoholic beverage policy brings changes to the University's stance on alcohol consumption.

With more details and specifications for easier reading, the new policy modifies the University's approach to alcohol abuse. It also gives rules that comply with Louisiana state laws and guidelines for on-and-off-campus events that involve alcohol.

The biggest change deals with faculty and staff. They are required to follow the policy and cannot buy alcohol for students under 21 or consume alcohol if they are not 21 themselves. The consequences for these actions are now more severe as the University tries to make everyone in the Tulane community equally responsible for following the new rules.

"As an academic community, we have to set standards together," vice President for Student Affairs Cynthia Cherrey said, "and with that we

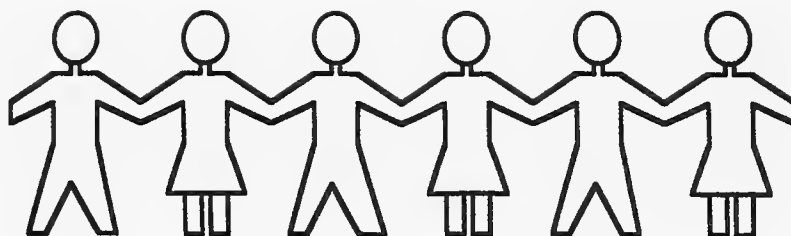

all have to be responsible together in order to create a strong and healthy environment."

Most of these rules have remained the same as in the previous policy. Some of the stipulations of the policy are that students who are under 21 cannot purchase or drink alcohol, students or persons over 21 cannot buy alcohol for someone under 21 unless they are the parent or guardian, and events that serve alcohol have to follow state laws as well as school policy.

The new policy includes a provision for the new Housing and Residence Life department called Alcohol Education Initiatives Program, which educates students about the alcohol policy on campus and organizes events for students who want an alternative to the social atmosphere that involves drinking.

The new policy also brings an end to the rule that in effect three years ago which stated that "consumption of alcohol in private resi-

Orleans site, said.

Nadia Ali, a sophomore RA who participated in the event said, "This was my first time going to Outreach Tulane. This was on a huge level; everyone pulled through."

Ali's group was assigned to John McDonough Senior High School, where they repainted entrances and

ing organizations were able to introduce students to the involvement opportunities and opportunities around the city as well as gain interest in volunteering throughout the rest of the year.

According to the Tulane University Community Service website, students perform over 40,000 hours of community service each year.

Students could register to volunteer at the site of their choice ahead of time, go with a residence group led by an RA, or come alone and be assigned a volunteer site.

Cactus lists over 20 volunteer programs on its website, all of which are hosted by student project coordinators.

"and it was a really good time. I wasn't sure what to expect, but it was great. I would definitely recommend that other students participate next year."

Student Affairs welcomes new administrators

Jaclyn Rosenson
editor-in-chief

The Division of Student Affairs has new faces helping out students.

The new additions include graduate intern Adrienne Mustful and Coordinator of Lesbian, Gay, Bisexual and Transgender Student Life Emily Chapuis to the Office of Student Programs. The Office of Student Affairs welcomed familiar face Billye Potts, director of New Student Programs, from her previous position in Newcomb College. Carolyn Barber-Pierre, assistant vice president for Student Affairs and director of Student Programs has stepped down as director of the Office of Multicultural Affairs and Luther Bure has been promoted to the position.

In the Office of Student Programs Adrienne Mustful has been hired for the fall semester to get hands-on experience with students and student organizations, and to assist in the pro-

grammatic side of the office; she will report to Laké Laosebikan-Bugbs, associate director of Student Programs. Mustful is currently a doctoral student at the University of New Orleans, and is working on a dissertation about the persistence of African-American males in four-year academic institutions.

Mustful said she is most looking forward to "interaction with students while they are here." A friend informed her about the opportunity of the internship, and she said she felt Tulane was different from any institution she had worked with.

She has "really enjoyed her stay...and everyone in the office of student programs has been willing to help [her] learn," Mustful said. She hopes to graduate from UNO in May and pursue a career in student affairs.

The position of director of Campus Programming and Special Projects is currently vacant. The previous director, Tom Stephens, was let

go during the summer.

"We are trying to move the department in a different direction, bring in some new vision and some new leadership to that position," Barber-Pierre said.

Bugbs, who previously held the position, will serve as advisor to the Association of Programming and Performance Organizations until the position is filled. The Office of Student Programs is currently advertising for the position and developing a search committee of students, faculty and staff. Barber-Pierre understands this is a hard time to recruit and said that they will not settle for a candidate just to get the position filled.

Another position moved within Student Programs is that of Tel Bailliet, director of Student Media and Publications. Bailliet is currently splitting her time between the Student Programs office in Central Building and the media organizations offices

in Monk Simons.

"We hate to split our staff, but stipulations of the [FCC] license [for WTUL] require her to be there," Barber-Pierre said.

An addition to the Office of Multicultural Affairs is Emily Chapuis, the coordinator of LGBT student life. Chapuis started in early August in a part-time capacity. The job is a permanent addition to the Office of Multicultural Affairs. Chapuis' job description includes advising MOSAIC, the gay-straight alliance, other LGBT students and helping Multicultural Affairs with celebratory weeks.

Chapuis' goals are to develop a faculty advisory board to review policies and create a safe zone project. She wants to create a safe zone so students know they have a community on campus and wants people to be aware of that community. She would eventually like to see a queer

Nader addresses Law School students

Bryan Cole
senior staff writer

Public interest lawyer and presidential candidate Ralph Nader made a campaign stop at the Tulane campus last Friday and spoke to a packed room in Weinhart Hall.

Nader first lectured to the students about his experience with the nation's law. During this time, Nader talked about being a student at Harvard Law School.

"There was a joke they used to tell," he said. "In the morning, they teach you how to contract the law of torts, and in the afternoon, they teach you to distort the law of contracts."

Nader urged the students to avoid corporate law, which he railed against often in his time in front of the group.

"When you work at a corporate

law firm, you leave your conscience at home," Nader said. "You don't do what the client wants you to do. You do what the client wants you to do."

By contrast, he urged his listeners to defend the rights of the poor in this country.

"Ask yourself, can poor people really use the legal system?" he said. "To what extent is the law a tool of oppression?"

Once his exhortations to the crowd

between the parties," he said, "but the similarities between them tower over

"Ask yourself, can poor people really use the legal system?" he said. "To what extent is the law a tool of oppression?"

RALPH NADER
INDEPENDENT CANDIDATE

the dwindling differences."

Nader did not hold back when discussing President George W. Bush.

"He's like a giant corporation residing in the White House disguised as a human being," he said. "He's the worst president we've had since Calvin Coolidge, and at least Coolidge kept his mouth shut."

But Nader did not throw his weight behind Democratic presidential nominee John Kerry either.

"As progressive as he was in the primaries, he's gone backwards in the past five weeks," he said. "[Bush] is so bad he pulls down Kerry's standards."

Nader also denied his campaign was receiving any sort of support from the Republican Party, a charge leveled against him by the

Democrats.

"We're not taking any organized support or money," he said. "The Republicans in Michigan paid for 500 signatures to get us on the ballot, and we're not taking any of them."

The crowd was comprised mostly of Tulane Law students, with campaign supporters from the area also in attendance.

"I figured the room would be filled, but I didn't count on the overflow," Wendy Scott, vice dean of Student Affairs in the Law School, said. "Given the short notice, I think we had a good audience."

Scott and others were forced to make hurried preparations and could not fully promote the event, as the visit was only finalized earlier in the week.

"We only had about three or four days," Scott said. "We tried to get the

word out to as many as possible in that time."

Nader's speech was not his first Tulane appearance. Scott said he had previously spoken during a Law School commencement and had given guest lectures at the school.

"We have had him speak to the students before as an attorney and I think that was pretty much the gist of his speech," Scott said. "The students might have expected him to give some type of election speech. That was probably refreshing, in a way, for them to hear him speak as a lawyer."

Nader, running as an independent this year, was the Green Party candidate for the presidency in 2000. Nader is also a renowned public interest lawyer, whose book "Unsafe at Any Speed" helped reform government controls on automobile safety during the 1960s.

Alcohol Education Initiatives Director Alicia Battle wears a T-shirt in support of her program which aims to promote alternatives to drinking.

Fall Football Preview 2004

Anything is possible for Wave in 2004

Nick Phillips
staff writer

At this time last year the expectations were high for the Green Wave coming off its 2002 Hawaii Bowl championship and campus was somewhat buzzing after the decision to stay a Division I school. The Wave hosted 25th ranked TCU on a Monday night ESPN affair in front of just under 30,000 fans. The home team nearly made an amazing 24-point

Tra Boger

comeback but ended up falling short 38-15. TCU would go on to be ranked in the top 10 in the country later that year. Tulane ended the season a disappointing 5-7 and just 3-5 in Conference USA play. Needless to say, the expectations are lower for the Wave coming into the 2004 season as they enter the season with a depth chart full of questions and possibilities. The most notable questions are:

1. Who will replace NFL first round pick J.P. Losman under center for 'Quarterback U.?'

There are four quarterbacks on the roster right now: Nick Cannon, Richard Irvin, Lester Ricard and Chris Dawson. While Cannon is the only one of the quartet with any college game experience, Head Coach Chris Scelfo recently announced that LSU transfer Lester Ricard will be the starter in the opener at Mississippi State tonight.

Ricard sat out all of last year as a transfer student, but was very highly rated coming out of high school including "Parade" All-American honors and ranked as high the fifth best quarterback in the nation by scouting services.

Cannon will more likely than not be the backup and will be ready to step in should Ricard falter. Cannon completed both passes he threw last year in the Navy game for 16 yards and a touchdown.

No matter who is taking the snaps, they will have a very talented veteran receiving corps led by seniors Roydell Williams, Chris Bush and Tristan Smith, which could lead to a lot of points being put on the board.

2. How will Jovon Jackson do replacing the most productive running back in Tulane history?

With Melville Moore at Minnesota Vikings training camp this summer, Jovon Jackson will take over as the Wave's feature back. Wave fans got a glimpse of Jackson at the end of last year when Moore suffered a season-ending injury and Jackson put on a tremendous performance, rushing for 205 yards on 61 carries with two touchdowns over the course of the final three games. Despite the fact that Jackson has not shown the same level of pass-catching ability as his predecessor, the offense should not be slowed down by this replacement.

3. Will the defense step up and improve upon last year's performance?

The Tulane defense was riddled with injuries all of last season, and it showed in the stats as the Green Wave

surrendered 35.3 points per game and an astounding 464.9 yards per game including 243.7 yards per game rushing. All of these numbers must be improved upon in order for the Wave to have a successful season.

There is plenty of reason for hope on the defensive side of the ball as the entire defense is healthy so far and will not feature offensive players playing out of position on defense. The defense returns eight starters as well as six players who received post-season honors or awards, including All-C-U-S-A

defensive backs Sean Lucas and Tra Boger. If all goes well, the defense could change from a weakness to a strength. The Green Wave has the potential to put together a solid season, and it would not be a big surprise to see them in a bowl game come December. It all starts at Mississippi State tomorrow, and the first chance to catch a Wave game in the Big Easy is Sept. 11 when they host Florida A&M in the last game before league play starts. The Wave will get two of the toughest conference foes out of the way early when Louisville and Southern Mississippi come to the Superdome to wrap up a three-game home stand.

2003 football season a disappointment

Blake Roter
staff writer

Last fall was a hopeful time for Wave Nation. Coming off a successful 8-5 campaign and an impressive bowl victory, hopes were high for the senior-dominated Tulane football squad about to embark on a new season. Quarterback J.P. Losman and running back Melville Moore, both seniors, were poised to finish their college careers by leading the Green Wave to a second consecutive winning season and a bowl appearance, but their hopes were unrealized, thanks to a rash of defensive injuries and inconsistent play.

The 2003 Wave squad finished the season at 5-7, a disappointing end to those lofty goals. While there were some high points including Moore's record-breaking performances and an upset over Mississippi State, its first victory over a SEC foe in 25 attempts, there were also some awful lows. A five-game losing streak hampered the middle stretch of the campaign and effectively ended all bowl hopes. That stretch included a heartbreaking homecoming loss to Houston in the gloom of Tad Hornley Stadium and a trashing at the hands of Texas.

The final blow to the already hopeless season came when the greatest running back in the history of the University, Melville

Moore, broke his hand in garbage time of a 35-17 loss to Navy, ending his season and Tulane career three games shorter than he should have. Moore is the all-time leading rusher and all-purpose yardage leader in Tulane history, and he holds 24 individual school records. He is one of only two

FILE PHOTOGRAPHY
The Green Wave's 45-42 Homecoming loss to Houston was one of many disappointments in 2003.

players in Division I-A history to gain 4,000 rushing yards and 2,000 receiving yards in a career. He ranks 11th in the Division I-A all-purpose yards list with 6,505 yards in his college tenure. Moore was selected in the third round of the NFL Draft by the Minnesota Vikings and is currently fighting

for a roster spot.

The season ended on a high note with a 28-18 victory over East Carolina in front of the home crowd. Quarterback J.P. Losman ended his college career by throwing four touchdown passes to finish the season with 33 and over 3,000 passing yards to lead Conference USA in both categories. He left Tulane ranked in the top four of every major passing and total offense category. Losman was drafted with the 22nd pick in the first round of the NFL Draft by the Buffalo Bills, becoming the highest drafted quarterback in school history. While working hard to become the Bills' backup quarterback, Losman recently fractured his leg, probably ending his season.

The 2003 season began with a near upset of eventual C-USA champion TCU before the Wave won three straight over Northwestern State, Mississippi State and Army. The five-game losing streak then set in with losses at Texas, Louisville and Navy to go along with home losses to Houston and Memphis. A win at UAB and a loss at Southern

Mississippi led to the final game of the season, a home win versus East Carolina. The squad scored 337 points on the 12-game campaign while allowing 424 points against. All seven losses came to bowl-bound teams. The Wave was 3-3 at home and 2-4 on the road.

Tulane vs. Miss State preview

Dan Jay
contributing writer

Tulane's first game against Mississippi State should be a good test of whether the team has been able to correct any of the problems they had last season. Tulane has a relatively young team, with only 12 seniors returning, while 60 underclassmen made the team.

This shouldn't be a problem if those seniors can provide a strong example for their younger teammates to live up to.

Look for the offense to have a big game tomorrow. While losing two big playmakers in quarterback

J.P. Losman and running back Melville Moore, they are still in a good position as the season starts.

Sophomore Lester Ricard might not have experience as a college quarterback, but his natural athleticism should hold him through.

Additionally, his receiving corps, led by Roydell Williams, is very strong and, against a young Mississippi St. secondary, should be counted on to come up with a couple of big plays.

The Tulane running attack should have a good game as well. Jovon Jackson showed

promise last year filling in for Moore while the latter was injured, and the entire starting line is returning for Tulane. Facing them will be a young group from Mississippi St.

The Bulldog line has had trouble in the past few years against both the pass and the run. This year does not look to be much different, at least until the younger players get some more experience.

Defensively, Tulane might have a more difficult time. While the secondary is set, with strong safety Tra Boger leading a group of potential all-stars, the line could be trouble. Last year injuries forced many of the veterans to sit games and inexperienced players to step up, with predictable results.

The outlook was better

this year; however, the loss of Burt Mattern is not what Tulane needed. Mattern was expected to be a leader on the line, and without him, they will have difficulty getting to the quarterback.

Mississippi St. is coming off a 2-10 record with a new coach, Sylvester Croom. Croom has a tough task ahead of him in trying to get his offense clicking. Over the final four games of last season, it averaged just 5.4 points a game.

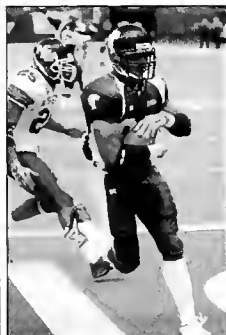

To fix this, Croom has chosen sophomore Omar Conner as his starting quarterback. While Conner played at that position in high school, he has spent his college career at wide receivers.

Tulane's experienced secondary should have a good game against Conner as he adjusts to college ball. His chances in plays might be limited, as Mississippi St. has no true star on offense. The running backs are nothing spectacular, and the wide receivers have limited playing experience going in to the game.

The Mississippi St. defense is similarly lacking in big-name players, though with seven returning starters they aren't to be counted out. All in all, prospects are good for Tulane to register its first win in Starkville in over a decade.

This game should be a nice tune-up for Scelfo, giving him an opportunity to make sure everything is clicking before heading into a tough conference schedule.

Look for Tulane to continue a recent trend, with the offense making big plays and scoring points, and the defense doing just enough to keep them in the game.

The eyes and ears of the Tulane community

Volume 95, Issue 4

Escaping Hurricane Ivan

Threat of Ivan forces University to close, campus to evacuate

Brad Nelson and Leah Barber
news co-editors

University officials cancelled classes and ordered the Tulane community to evacuate the campus Sept. 13 as Hurricane Ivan approached New Orleans from the Gulf of Mexico.

Many students, faculty and staff had their own evacuation plans, but some remained on campus in the Reilly Student Recreation Center while others were bused to Jackson State University.

This was the first year the University enacted a plan to evacuate students off campus. In years past, students had been relocated to Butler, Sharp and Monroe residence halls in the case of an emergency.

Yet Hurricane Ivan, the storm Jefferson Parish President Aaron Brussard said would either be "a punch in the mouth or a kick in the knee," brought only light rain.

Originally heading northwest in the Gulf of Mexico, Ivan veered back east, hitting the coast of Alabama, sparing New Orleans. The city felt only mild effects of the storm with heavy winds and scattered rain before the storm blew over midday Wednesday.

The residence halls reopened last Saturday at 2 p.m. to a campus that looked untouched. But students and faculty said they thought evacuation was the right decision.

"We'd rather be safe than sorry," Stacey McDowell, a fifth-year architecture student, said. "A storm has never come so close [to campus] since I've been here. It takes so long to get out of the city, if it did hit, we wouldn't be able to get out quickly. It had to be done."

As people left the city Sept. 14, traffic was backed up for hours, even after State Police put a "contraflow" plan into effect. The plan opened all lanes of I-10 to westbound traffic for a 13-mile stretch, starting at the outskirts of Jefferson Parish.

At Tulane, however, "the evacuation went incredibly well," Dr. Dan Nadler, associate vice president for student affairs, said.

Although four class days were canceled, there will be no makeup days added to the end of the semester or the school year.

"It's out of our control what happens with the weather," Newcomb junior Kaelyn Dillard said. "And a lot of professors have already adjusted their schedules to compensate."

"An emergency evacuation certainly breaks up the rhythm of classes and University programs, but a positive aspect of the evacuation was that it provided many opportunities

for cohesion and unity as everyone shared experiences and looked out for one another," Nadler said.

Some students said they used the opportunity to make an impromptu visit to a friend's place, either by themselves or in groups. Older students had the advantage of having a car to leave in, while many freshmen resorted to flying.

Ivan floods, blows apart Gulf Coast, killing at least 52 people

Gary Fineout and Martin Merzer
Knight Ridder Newspapers (Pensacola, Fla.)

Twenty died and thousands begged for help. Countless buildings were crushed or damaged, many by a roaring swarm of tornadoes. The Gulf of Mexico swept away beachfront homes and invaded downtown Pensacola.

Hurricane Ivan slowly loosened its grip last Thursday on the Gulf Coast, revealing a vista of sprawling

destruction. The storm's core punched the coast in Alabama but delivered its worst blows to an already battered Florida.

Hundreds of homes in the Florida Panhandle were damaged by at least 12 tornadoes, hundreds more were de-roofed by Ivan's powerful winds, and many others along the coast were swamped by its 10- to 16-foot storm surge, topped by thunderous waves. Power was knocked out to 345,000 homes and businesses in eight Florida counties and more than one million in other states. Most people in Pensacola and the rest of hardest-hit Escambia County also were without water, telephones or even reliable sewer service.

"It's the worst thing I've ever seen in my life," Escambia County Sheriff Ron McNesby said. "It's not as bad as Andrew, but it's a bad hurricane."

Damage assessments were inhibited by the storm's slow retreat and blocked roads, but some insurance experts issued estimates of \$3 billion to \$10 billion.

A 30-foot section of a bridge along Interstate 10 in Florida crumbled and fell into Escambia Bay, delaying desperately needed aid. The trailer portion of a tractor-trailer rested at the edge of the void, the tractor portion gone, the driver's fate unknown.

Florida Gov. Jeb Bush said: "Sadly, I think there will be more loss of life."

He said 2,000 National Guard troops were en route to Pensacola, as were search and rescue teams. "Help is on the way," Bush said.

Authorities said the storm killed at least 13 people in the Florida Panhandle, including four who died when a twister ripped into a mobile home park in Blountstown, 40 miles northeast of Panama City. The tornado lifted several trailers, driving them 40 yards across a field and smashing them into a stand of trees. Florida authorities said six of the 13 died or near Pensacola; at least two of them apparently drowned. Louisiana reported four hurricane-related deaths, Mississippi two and Georgia one. Ivan's toll in the United States and the Caribbean stands at 122, after the storm's remnants cruised slowly over the Southeast, dropping as much as 20 inches of rain and arousing concern about deadly floods. Inland flooding is the largest cause of hurricane-related deaths.

"I hate to think about what's going to happen inland," Max Mayfield, the director of the National Hurricane Center in West Miami-Dade County said. The situation in Alabama and farther west along the coast was considerably better than in Florida, but

Residences undergo renovations unseen in decades

Jaclyn Rosenson
editor-in-chief

Tulane is undergoing a major program of residence hall construction, renovating Monroe Hall this summer and continuing development for two new residence halls.

The \$6 million Monroe Hall project was originally scheduled to take three summers, but once Facilities Services and the Capital Projects and Real Estate Group realized it could be completed in one, they set out to get it done. The project included replacing all the windows and framing area, called the curtain wall, putting in a new heat ventilation air conditioning system, updating the electrical system, placing new carpet in the common rooms, refurbishing the bathrooms and renovations to all private rooms. The private rooms received new mattresses, desks, desk chairs, pedestal dressers that can be put into the closet, bunkable beds, new carpet and new blinds.

"There are still some things that are planned for next summer, a replacement of the glass front on the first floor and painting of the building that logistically couldn't be done

this summer," Dr. Dan Nadler, associate vice president for Student Affairs, who spearheaded this project, said.

"I am amazed. I have worked here 11 years, and I am amazed," Rob Hailey, associate vice president for Auxiliary Services and Student Centers, said when asked about the Monroe Hall project.

The residence halls involved in the reconstruction projects are Zemmurray and Doris, which are called Residence Hall 1 and Residence Hall 2 respectively. Zemmurray, or RH1, is to be completed in July or August 2005. The new dorm will be larger than the previous one and contain 265 beds and a faculty residence. The design for RH1 has been completed, and construction is currently taking place. The RH1 project is on a tight 13-month schedule for various reasons.

"We can't afford to extend the timeline because an increasing number of students want to live on campus," Nadler said.

"The construction workers are here on Saturdays; they were here during move-in," Hailey said, because the timeline will benefit the students and prevent extra costs.

The pressed schedule also has to

be met because construction on RH2, or Doris, cannot begin until they are sure RH1 will open on time. While RH2 is scheduled to break ground in January 2005, "It is a real balancing act. We have to be sensitive to the fact that things can happen, such as Ivan," Nadler said.

Zemmurray was taken offline first because it had the fewest number of beds. Once completed, the additional beds will allow for larger renovation to take place without displacement of many students.

RH2 is still in the construction document phase, but the design has been set. It will take the place of Old and New Doris. It will be much like RH1, including 265 beds in a suite style design and a faculty residence. Old Doris went offline during the summer. Some students wonder why more than one dorm on campus has been taken offline while there seems to be a shortage of housing on campus. Old Doris has not been used as a residence hall in over 12 years, so this summer was a convenient time to move all the items that had been stored in Old Doris.

University College looks to hit jackpot

Emily Hohenwarter
contributing writer

University College is offering courses in casino resort management this semester as it looks to fill the void of qualified managers in the region's burgeoning casino industry. This program is the first of its kind offered on the Gulf Coast and one of the few such programs in the country.

Courses are currently offered at University College's satellite campus in Biloxi, Miss. at Edgewater Mall, where students can earn an associate's degree, a minor or a post-baccalaureate certificate in the field. Next semester some basic courses will be offered at the Uptown campus as well.

Heading up the program for University College is Alan Silver, a veteran of the industry. Silver has taught and supervised casino management in the past and was selected for the job from a large applicant pool.

"I'm excited that our new program and the Mississippi Coast campus in general will benefit from Alan's experience and enthusiasm," Richard Marksbury, dean of University Col-

lege, said.

Silver said he was "tickled pink" to be in charge of the department and looks forward to a productive term.

The prominence of the casino industry in New Orleans, Biloxi and Mississippi as a whole — where it's the number one service industry — made the creation of such a curriculum necessary. For those that complete it, opportunities for jobs and promotions are almost guaranteed. Marksbury landed the new casino resort management program as "providing leadership and training for the number one industry in the region" and said that Tulane University would "take the lead" in educating those interested in the field. Silver said that such a program would "give people the tools needed to succeed, and to move up in the ranks."

Silver also noted that a school offering degrees in the casino industry, like Tulane's University College, will serve the needs of the community as a whole by providing residents with the skills needed to get better jobs.

"This program is for everyone. Those that are already in the busi-

ness can use University College classes to help advance in the field, and those searching for a career can get a degree from an excellent school and be competitive for the best and most needed casino jobs, the middle to upper level management positions," Silver said.

An associate's degree in casino resort management can be obtained in two years, with eight courses taken focusing intently on the field. A minor requires a simultaneous major and six courses, and a post-baccalaureate certificate calls for one year or eight courses. Courses range from Casino Resort Marketing to Gaming and Society to Cash Management and Casino Operations.

Harrah's casino recently endowed Tulane's University College with \$250,000 for use towards scholarships for minority students interested in pursuing degrees in casino management. Individual scholarships are in amounts of \$1,500 and allotted for use in the casino resort management program only. Currently, applications are being accepted for the spring semester and can be downloaded on the University College Web site: www.uc.tulane.edu.

Streaking Golden Eagles fly into town for pivotal game

Tulane, Southern Miss. each look to win second straight after cancellations

Jovon Jackson dives for a touchdown in Tulane's 39-19 win over Florida A&M. Jackson is fifth in Conference USA with 199 rushing yards.

Nick Phillips
staff writer

Tulane opens its Conference USA schedule against the defending conference champion, the Golden Eagles of Southern Miss (1-0), in what will assuredly be Tulane's biggest challenge so far this season. Both teams enter the game after missing a week due to Hurricane Ivan. The Eagles had to postpone their nationally televised ESPN Thursday night affair with No. 10 California, and the Wave pushed back its contest with No. 24 Louisville.

The Golden Eagles are flying high after their season opening 21-17 win over Nebraska in Lincoln, the first by a nonconference opponent since 1991, and will look to continue their title defense with a decisive win this week at the Superdome. In that game, sophomore Quarterback Dustin Almond struggled, completing just 12 of his 28 pass attempts, and the ground game averaged just over three yards a carry. Unfortunately for the Eagles, the defense was not much better as the Cornhuskers racked up 476 yards of total offense, including almost 300 yards on the ground. The Eagles did make big plays in the game, creating five turnovers, and if the Green Wave hopes to stay in this week's contest, they must hold on to the ball.

The Green Wave is looking to build upon its 39-19 win over Florida A&M two Saturdays ago. The offense looked exponentially better than it did against Mississippi State in the opener as sophomore quarterback, Lester Ricard looked more comfortable behind center, and the offensive line created space for Jovon Jackson to run up and down the

Fowler named to all-tourney team

Stephanie Bissell
staff writer

Green Wave volleyball picked up a win and dropped two, moving to 6-2 after the Wyndham Bites Invitational. The tournament, hosted by Arizona State, included matches against Pacific and Fordham. Despite the valiant efforts of seniors Deva Fowler and Arizona native Lindsey Norman, the Green Wave ended up going 1-

2 in tournament play.

Senior middle blocker Fowler was named to the all-tournament team after posting an average of 4.91 kills, 1.27 blocks and 1.00 digs per game.

Entering the tournament undefeated, Tulane started the weekend by giving up their first three games to Pacific. The score was extremely close throughout the entire match.

Hurricane Ivan takes Saints for wild ride

Team flew to San Antonio for week's practices

Jason Lieser
sports editor

Due to uncertainty surrounding the projected path of Hurricane Ivan, the New Orleans Saints opted to evacuate to San Antonio and practice at Alamod Stadium.

The team flew out of New Orleans Sept. 14 and returned the evening of Sept. 17, two days before the team's scheduled game against San Francisco.

"Sometimes things like this happen," cornerback Ashley Ambrose said. "God's going to do what he wants and that's his plan, so we just have to adjust to it. You have to take precautions and be prepared to leave."

"You can't stop Mother Nature. We practiced the whole time just as if we were in New Orleans. The only real difference was that we weren't around our families."

The Saints did provide buses for the families of the players and coaches to travel with them to San Antonio, but many of the players had their families fly to friends' or relatives' houses away from the path of the storm.

"We all just wanted our families to be nowhere near [New Orleans]," Ambrose said. "Actually, my wife was more concerned about me getting out of here than she was about herself."

While most of the players had

little trouble getting their family out of the area, they were still very concerned about their homes and the city while they were practicing in San Antonio.

"We were looking at the news after practice every day to try and see what was happening," Ambrose said. "We were just hoping that nothing really bad would happen here, and thank God it didn't."

Even for Ambrose, a 13-year NFL veteran, the events of the week were unlike anything he has experienced in his career.

"Never seen it before," he said. "It's weird hearing about all these hurricanes and then the [Miami] Dolphins had to evacuate. I've never had to go to a different city for practice before and then come back home for the game on Sunday."

The Dolphins had to evacuate the city of Miami prior to their Week One contest with the Tennessee Titans due to Hurricane Frances. Miami lost 17-7 to the Titans that week.

Fortunately, however, the Saints are a seasoned team that was able to handle the chaotic schedule of the week.

"We still had it in our minds that we were going to play on Sunday no matter what," Ambrose said. "That's how we practiced. If we'd had to go to San Francisco to play it, we were ready for that too."

Saints

Brooks leads New Orleans to victory in final moments

Saints travel to St. Louis for Sunday's contest

Jason Lieser
sports editor

With the San Francisco defense providing all the resistance of a wet tissue, Saints quarterback Aaron Brooks had no trouble standing patiently in the pocket and finding unattended wide receivers in the secondary on his way to a 30-27 win at the Superdome.

After a very mediocre showing in New Orleans' Week One loss to Seattle (18-of-37 passing, 223 yards, interception), Brooks was able to give Saints fans the performance they were hoping for and delivered the Saints' first victory of the 2004 season.

Brooks lit up the 49ers for 195 yards on 14-of-19 passing and a pair of touchdown passes in the first half alone. While he struggled in the middle of the game, Brooks stormed back to throw the game-winning touchdown pass to wide receiver Dante Stallworth.

"[Brooks] has been doing that ever since I've been here," Stallworth said. "He's caught a lot of flack from a lot of people lately, but I love being his teammate. He's a guy who's always going to keep his cool under pressure, and he showed that a lot today."

Brooks' counterpart, however, was not so fortunate.

In the first quarter, the Saints turned the Superdome into a no-fly zone for San Francisco quarterback Ken Dorsey. Dorsey, making his first career NFL start in place of the injured Tim Rattay, did not complete any of his five pass attempts in the first period and was sacked

for a seven-yard loss by defensive end Will Smith.

After New Orleans reeled off 10 straight points to take a 10-3 lead into the second quarter, it appeared as though the Saints were in full control of the game and would likely cruise to an easy victory. Yet an early injury to running back Deuce McAllister and shoddy play on both sides of the ball prevented New Orleans from extending its advantage to an insurmountable lead.

"We knew coming into the game that we'd have some deep opportunities, regardless of our running game situation," Stallworth said. "We knew we could take advantage because they had some young guys [in the secondary]."

While Dorsey never looked anything like the player who was a Heisman Trophy candidate in college, he eventually found enough of a rhythm to bring the 49ers within 20-17 at halftime and 23-20 heading into the fourth quarter.

The Saints settled for a field goal with 3:35 left in the first half after Brooks overthrew a wide-open Jerome Pathon in the back right corner of the end zone, and his accuracy seemed to diminish as the game progressed. Brooks was just 11-of-15 for 84 yards in the second half.

After San Francisco finally took the lead at 27-23 with 7:07 remaining in the game, Brooks and the Saints squandered a great chance for the comeback. Following the 49ers' score, the Saints began on their own 18-yard-line and went three and out.

It appeared as though New Orleans' next chance to win the game would result in failure as well. Brooks' frustrations came to a halt when he was nearly intercepted at the San Francisco 32-yard-

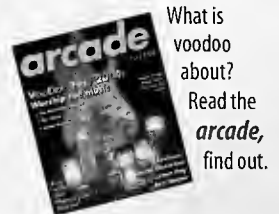

line with 1:25 remaining.

However, the miscue seemed to be just what Brooks needed to regain his poise. On the next play,

Two-time Pro Bowl running back Deuce McAllister injured his right ankle against San Francisco and is expected to miss up to six weeks.

Faculty speak about key presidential issues

Kate Dearing
staff writer

In light of the third and final presidential debate between President George W. Bush and Sen. John Kerry, four Tulane faculty members spoke to a crowded Josephine Louise Hall ballroom Wednesday night, concerning key issues relating to the election.

The four speakers, Assistant Dean of the Business School Peter Ricchiuti and Political Science Professors John Sutherland, Chris Fettweis and Thomas Langston spoke on a wide variety of topics that informed and challenged the students about the upcoming election and that night's debate.

Langston, who was "happily surprised" at the attendance of the event, discussed the manner of presidential debates and posed the question whether televised debates change the way the elections turn out.

"This has been a sweet campaign, it's almost charming," Langston said, "Zingers, or quick comebacks, are not allowed in the debates anymore. The candidates aren't even

allowed to look at each other."

Langston also argued that these debates are necessary, important and "a wonderful example of democracy."

Arguing both pro-Bush and pro-Kerry sides, Ricchiuti, discussed economic issues including the deficit, the tax cut issue and the recovery of the economy.

According to Ricchiuti, the pro-Bush camp argues that the Bush administration is much more pro-business and that the tax cut and the uptick in the economy will give Bush the upper hand over Kerry.

However, in a self-rebuttal arguing

(left) Kerry went on the offensive on health care and job losses during Wednesday's debate in Tempe, Ariz.

(right) Bush spoke about the role his faith plays in governing his principles at the last presidential debate Wednesday.

pro-Kerry, Ricchiuti brought up points that are concerns for most

Democrats. "To go to the largest surplus of

all time to the largest deficit in a few years seems impossible, but it happened," Ricchiuti said. "It will take a long time to get rid of the deficit. No one has a 'magic bullet' to solve the problem instantly, but something must be done."

He also argued that Bush is the first president in 72 years to have a loss in jobs during his presidency, with over a million lost.

Sutherland argued that Kerry needs to focus on economic issues because Bush already had the majority of the country with him

front issue, Bush will control the debates," Sutherland said.

Ricchiuti argued that Bush's tax cut was necessary, but the way it was structured will not help the economy as much as it needs.

"Eighty-five percent of the people who benefited from Bush's tax cut were the ultra-rich. That is not the way you want a tax cut to work if you're trying to stimulate an economy. If you give a tax cut to the middle and lower class, they will spend it all, but the ultra rich with save some, loose some. The playing field needs to be leveled to help all people and not just the rich," Ricchiuti said.

Ricchiuti argued that the recent economic recovery it was the worst one in U.S. history.

"Unlike any other recovery period, there was no and is no groundswell in employment or spending."

To evaluate Bush's performance, Ricchiuti gave the simple scenario of being a CEO of a company considering Bush's end of the year review.

Newcomb student found on Mayer floor

Dies at hospital, autopsy performed today

Brad Nelson
news co-editor

A Newcomb College sophomore was found unresponsive Thursday morning on the floor of her Mayer Residence room.

The student, 19-year-old Hannah Gigliotti of Lyndhurst, Ohio, was rushed to Memorial Medical Center, where she died around noon.

There were no signs of foul play or trauma, despite the presence of a crime lab van on scene, New Orleans Police Department spokesman Gary Flot said. He said it was rou-

tine for the vans to be dispatched when there is an "unclassified death."

An autopsy was scheduled for this morning. Flot said the New Orleans Police Department received a call at 10:18 AM. Her body had been found shortly before that, he said.

"We are shocked and saddened by the loss of one of our students," Tulane University President Scott Cowen said in an e-mail circulated to the University community. "I ask that you keep her family and friends in your thoughts and prayers."

Federalist Society holds bipartisan debate on poverty

Jonathan Kim
Contributing writer

In an effort to promote dialogue between the left and right on important contemporary issues, the Tulane Law School Chapter of the Federalist Society hosted a debate called "Beyond Welfare: Antipoverty Policies for the 21st Century." Professor Peter B. Edelman of Georgetown University Law Center and Professor John S. Baker from the Paul M. Herbert Law Center at Louisiana State University each spoke last Friday at the Tulane Law School.

Each of the professors received 20 minutes to present their ideas, and then received 10 minutes afterwards for a rebuttal. Following the debate, the floor was opened to questions from the audience.

Baker summarized his main point

"The biggest single problem we face in the here and now is that there are too many people who have jobs that don't pay enough to live on."

PETER B. EDELMAN
OF GEORGETOWN UNIVERSITY

by saying, "[The Constitution] is a framework. We are in a building here. This building was built at one point. It doesn't mean that it is historical. It is still here. The Constitution is still here. It is the structure that shapes

what we do here. Our economy is not just due to the free market. Our economy is due to a legal structure, so that is the main point I am trying to make."

"My main point is that it is intolerable that there are so many people in this country that have such a hard time making it," Edelman said, "and I

think that there is a lot that we could be doing and we should be doing about it. The biggest single problem we face in the here and now is that there are too many people who have

jobs that don't pay enough to live on. There are a lot of other issues to talk about. Every American ought to have health coverage, there ought to be childcare assistance for everyone who needs it so they can go to work. It is just astonishing to me that so many people work as hard as they possibly can and they just can't pay all the bills."

Of Edelman's point of view, Baker said, "though [his stance] was pretty reasonable, I think what he said about the essentials of economic development, welfare and taking responsibility and all that, there is a lot that I agree with him."

"It seems to me that Professor Baker really wants to talk in a much broader historical framework about

Cardinal comes to Rogers Chapel

Catholic leader discusses Judaism and Christianity

Karen Levit
contributing writer

Speaking on a topic dear to his heart, the Cardinal Dr. Christoph Schönborn, archbishop of Vienna, delivered a lecture at Rogers Chapel last week. The lecture, which took place Oct. 7 at 7:30 p.m., was titled "Judaism and Christianity: New Perspectives in the New Millennium."

The lecture shifted focus away from the historical tensions between Jews and Christians and instead centered on the progress being made towards reconciliation. The cardinal spent time discussing how changes in biblical science have resulted in a renewed understanding of the ways in which Christianity is rooted and connected to Judaism.

He avoided discussing the Holocaust and the Church's involvement therein. The Holocaust was referenced directly only once and was referred to by its Hebrew name, Shoah.

Rather, Schönborn talked about increasing Christian acceptance of the validity of Judaism and growing scholastic attention within the Jewish community to the life and impor-

ance of Jesus. He also highlighted positive attitude of Pope John Paul II towards Jews, pointing out that the pope has declared that the Jewish

"After all that remains, will there really be reconciliation between Jews and Christians? Will we really come to reach common ground?"

CARDINAL CHRISTOPH
SCHÖNBORN
ARCHBISHOP OF VIENNA

covenant with God has never been revoked and discussed at some length the pope's visit to Israel in 2000.

A major issue in both the lecture

and the question and answer session was what the Christian attitude towards the State of Israel should be. Schönborn's stance was that Christians should support the return of Jews to Israel but that supporting a return to the land is not the same thing as supporting the legal theocratic state.

Ending the lecture, the cardinal asked, "After all that remains, will there really be reconciliation between Jews and Christians? Will we really come to reach common ground?"

His own answer was that even though resolution of the conflict may not be of this earth, it is important to work toward it through mutual understanding and help.

Mostly adults from the community attended the lecture, but those students who did go appreciated it despite language barriers.

"I thought he did very well; it was a difficult topic in a lot of ways," senior Christina Krivaneck said.

Though the cardinal had no problem making himself understood during the lecture, the question and answer session posed the dual problem of testing the cardinal's imper-

Reeve's final film shot on campus

Emily Harrison
staff copy editor

Christopher Reeve, star of the "Superman" movies, died Sunday after going into cardiac arrest Saturday and then falling into a coma. He was 52.

Despite the physical limitations of his paralysis, Reeve, who became a paraplegic after an accident at an equestrian competition in May 1995, remained an avid member of the film industry, continuing to act and taking interest in directing. His most recent directorial work is the A&E movie "The Brooke Ellison Story," which was filmed at Tulane University's Uptown campus July 12-24.

Reeve both directed and co-produced this film, which addresses the issue of living with paralysis by depicting the life of a young paraplegic woman who became a successful college student.

As a director, Reeve was concerned with producing an accurate portrayal of "the real people who lived this incredible story, who are continuing to live this incredible life," as he put it in an A&E interview. Reeve attributed a lot of the film's success to the people around him during the production.

"For me as a director, to have a

PHOTO COURTESY OF ART, NICOLAS KHAYAT
Reeve at the screening of one of his films at the Tribeca Film Festival in May. Reeve passed away Sunday at the age of 52.

group of actors and the crew, the technicians, everybody who care so much about what we are doing just make my job, you know, a piece of cake," Reeve said.

Reeve's condition required special accommodations, such as temperature regulation, especially in

the hot and humid summer of New Orleans. An arrangement designed to meet this need at Tulane was nicknamed the "video village" and included a private room of monitors Reeve used to watch and guide the assistant directors, who were outside with the cast and crew.

Kathryn Hobgood, media specialist in Tulane's Public Relations Department, worked closely with this production and described Reeve as "an inspiration" and "very independent."

"He preferred to be as much with his crew as possible," Hobgood said. Reeve personally surveyed Tulane's campus, and while scouting for locations he even stopped to have a taco salad in the Pavilion. He was also present on campus throughout the duration of the filming in July, devoting long hours to the production.

"He was involved in all aspects of planning and creating this film,"

Green Wave football still winless in C-USA after loss to ECU

Chris Burcham
contributing writer

Heartbreaking
If there was one way to describe the 27-25 loss to the East Carolina Pirates last Saturday, that would be it.

Two key special teams plays — a blocked punt and a fumble return, both for touchdowns — put Tulane within spitting distance of a sloppy ECU team. They entered the fourth quarter with those two touchdowns accounting for their only points and desperately in need of a spark, something they hadn't seen all season.

Quarterback Lester Ricard, who shared quarterbacking duties with Richard Irvin for most of the game, came onto the field for the last three Wave possessions to lead his team just short of a come-from-behind win.

"The whole week they had told me that we [Ricard and Irvin] would be rotating," Ricard said. "It was kind of hard sitting there on the sidelines, but that is what they did. They said they would go with the hot hand and for most of the game neither of us had it."

That all changed with one play with 9:04 to go in the final quarter. When it looked all over for the Wave, Ricard stepped up with a 36-yard bomb to Roydell Williams, who breezed by the defense to make the score 24-19 after another botched two-point try. The Wave had earlier missed a two-point conversion in the third quarter.

"We had the need for every point at that time," Head Coach Chris Scelfo said, explaining the first two-point attempt. "We were down two touchdowns, and we haven't been consistent kicking."

After a good defensive stop, the Wave came out with 2:33 on the clock needing five points to take

the lead. They came onto the field at their own 41 and what followed were two excellent passes to Williams for 22 and 13 yards, capped off by a 24-yard strike to a wide open Chris Bush for a touchdown. Scelfo attributed much of the success on that drive to Ricard.

"He had some good throws and got himself into a situation where he had a hot hand," Scelfo said.

With a 25-24 lead, all Tulane needed was a stop to run the ECU homecoming game and send a raucous crowd of 29,584 home unhappy. It did not end up that way.

"It was their homecoming game, and they had their crowd behind them," cornerback Sean Lucas said. "In their last possession, we were just out there thinking about stopping them, but we didn't hold them."

With 1:51 left on the clock, East Carolina drove 50 yards in 1:30 and converted a field goal to take a 27-25 lead.

With one last possession, Ricard was back out on the field with the full backing of his coach and teammates. He completed his first pass to the 45, a 22-yard gain, and with five seconds left, he just missed completing a pass to Williams.

"I saw Roydell there and I saw the clock," Ricard said. "I knew if he caught it the game would be over, I just had to get rid of it and give us one last chance."

One last chance was what they got. Ricard setup with one second still left on the clock, just enough time for him to have a final desperation pass. Batted down in the end zone.

SEE FOOTBALL: PAGE 12

Quarterback Lester Ricard is alternating possessions with freshman Richard Irvin, but neither has produced consistently this season. Ricard will start tomorrow.

ALCS is great drama

Ben Eisenberg
contributing writer

I know it's football season, but everyone should be turning their sports radars towards America's national pastime for the next week and a half. Be prepared to witness the most exciting games of the new millennium. I'm talking about the American League Championship Series between the Boston Red Sox and New York Yankees.

There is absolutely no better rivalry in all of professional sports than the Red Sox versus the Yankees. It's not as if the rivalry between these two teams, which dates back to 1918, needed any more fuel than it already had entering the season. The two teams always seem to meet in the biggest of games, having played each other for the American League pennant three times since 1978 heading into this season.

The most painful loss for Red Sox fans had to be Game 7 of the last year's ALCS between the two teams (Red Sox fans skip to the next paragraph). Red Sox starter Pedro Martinez was left in the game too long, and before the Red Sox or their faithful knew what hit them, a 5-2 eighth inning lead had evaporated into a 5-5 tie.

Aaron Boone would of course hit the game-winning home run in the 11th inning, which sent a jubilant Yankee team and their fans to the World Series, where they lost to the Florida Marlins. But the loss didn't matter to Yankees fans after a dramatic series win over the Sox. For long-suffering Red Sox fans, it was another crushing blow in a long line of historically painful defeats.

The ALCS prompted the two top spending teams in baseball to engage in an offseason spending spree unmatched in professional sports history. For the Red Sox, it meant the acquisition of closer Keith Foulke to fill the much-needed void at the back end of their bullpen. It also meant trading for staff ace Curt Schilling, who now holds the key to their success against the hated Yankees in this series.

It almost meant acquiring Alex Rodriguez, the best player in the league, but the trade never panned out. Instead, the Yankees swooped in shortly before the season began and acquired Alex Rodriguez when they already had a great shortstop in Derek Jeter. So they simply moved him to third base to play alongside

Soccer drops below .500

Stephen Richer
staff writer

The Green Wave's women's soccer squad had its 15-game home undefeated streak snapped this weekend when the Green Wave lost two hard-fought games. The team fell to 5-7-2 overall and 3-2-1 in conference play.

The first loss occurred last Friday against the defending Conference USA champion University of Alabama-Birmingham. The anticipated game between two of C-USA's top teams proved to be a physical one.

UAB struck first, scoring in the 20th minute of the game. A number of quick passes by the speedy Blazers forwards resulted in an open shot for forward Tara Kidwell. The ball, struck from 18 yards away, eluded the outstretched hands of Tulane goalkeeper Megan Morey.

Tulane was quick to respond. Within five minutes, the Green Wave had moved the ball down into the offensive zone and was able to get several shots at the goal. Sophomore Jackie Oberst was the first Tulane player to find success. Oberst's volley got past the UAB keeper and tied the score at one to one.

Before the end of the half, Kidwell scored her second goal for UAB. Down 2-1 entering the second half, the Green Wave made things happen.

In the air: freshman Megan Weinlein defends against a USF pass attempt.

Senior Lindsay Morris charged down the left side of the field with the ball and sent a pass across the goal mouth. The ball was knocked around, but eventually found its way to sophomore Lauren Peck. Peck tapped the ball in to once again tie the game.

Unfortunately, after an evenly played half, UAB was able to score a third goal to win the game. Countering a Tulane offensive, the UAB goalkeeper sent a long punt well past midfield. It bounced and glanced off a Tulane player, leading to a quick 30 yard shot by UAB's Sally Patmer, which squeaked past Morey's reach.

After the loss, Anderson was pleased with her team's performance and their ability to battle back.

"I was proud of the way our team fought back two times scoring after we were scored on; we just couldn't find that third goal to do it again and tie the game up," she said. "UAB is the most athletic team in Conference USA. They play a very attacking-oriented style which puts teams under a lot of pressure time and time again."

Tulane returned to action Sunday against South Florida. The game's first 45 minutes ended in a scoreless tie. The ice was not broken until five minutes into the second half when USF midfielder Erica Lewis hit a shot to the upper right corner of the goal, giving the Bulls a 1-0 lead.

In the last 15 minutes of the game, Tulane turned up the intensity, desperately looking for a goal. For the rest of the game, the ball rarely left the Bulls' side of the field.

"We came out flat," Anderson said. "It is always tough playing on Sunday after an intense game on Friday. If we could have played the entire match the way we did in the last 15 minutes, we could have gotten a win."

The Tulane defenders, especially sophomore Tom Schlappriza, pushed up and frequently sent the ball back in front of the USF goal.

With a few minutes to go, Morris received a ball on the right side of the field. She dribbled it to the top of the USF box, but then had it stolen. After that, Tulane was unable to get another good look at the goal.

Despite dominating the possession of the ball for the last 15 minutes of the game, Tulane was unable to find the back of the net and lost, 1-0.

The next four games will all be on the road. Tonight the Green Wave will be at East Carolina, and Sunday the team visits UNC-Charlotte. Both teams are C-USA opponents. Anderson and the rest of the team are optimistic about the upcoming games.

"The team has played well in our practice sessions and games, over the past three weeks," she said. "We are looking forward to getting into the second half of our C-USA games."

Tough test in Memphis

Wave need offensive outburst to beat Tigers

Nick Phillips
staff writer

Green Wave football is struggling.

This week, ESPN.com ranked Tulane the second worst team in Div. IA behind winless Central Florida, the team is also winless in Conference USA.

Fresh off a heartbreaking 27-25 loss to an East Carolina team that had lost its previous nine games, Tulane must travel to Memphis to face a Tigers team who has outscored its opponents by a combined 70 points this season.

The focal point of the game for Green Wave is centered more on who is under center rather than the final score. The battle between Richard Irvin and Lester Ricard heated up last week as the two young quarterbacks alternated possessions during the course of the game. Both of them showed flashes of potential, but both also made multiple mistakes.

Ricard fared the best as he was 10 of 17 for 175 yards with two

touchdowns but an interception. Irvin completed half of his 10 pass attempts for 48 yards with an interception. The battle will continue this week against a Memphis pass defense which has allowed almost 300 yards per game.

On the bright side, both Tulane quarterbacks found Roydell Williams, and they found him in a big way. Williams reminded everyone why he was a preseason first team all-conference selection. He caught eight passes for 140 yards and a touchdown, his first big game of the season.

Despite the loss, Williams and the offense remained upbeat about the rest of season.

"Yeah, it's frustrating. It just makes us want to try harder," Williams said. "We'll start to put a few drives and we'll score some points and we'll win some games."

The defense will have their hands full against a Memphis offense which averages over 37 points a game and nearly 500 yards of total offense per contest. While Tulane is second in the con-

ference in pass defense, allowing only 172 yards a game, the stat is misleading.

The Green Wave has allowed the highest pass completion percentage (64.2) in C-USA. The reason for the puzzling figures is that opposing teams spend most of the time running the ball because they usually have the lead.

Memphis running back DeAngelo Williams, the reigning C-USA Offensive Player of the Year, and quarterback Danny Wimprine will be the focus of the defense's attention. Williams leads the conference in rushing yards per game (150.4 yards per game) and Wimprine leads the conference in passing yards per game at 280 yards per game (more than double Ricard).

All in all, this game will be a huge challenge for the young Green Wave squad. The team will return for its homecoming game at Tad Gormley on Oct. 23 against the University of Alabama-Birmingham.

Wave hosts S. Miss

Golden Eagles at Fogelman Arena tomorrow night

Megan Repine
contributing writer

The Green Wave lost its first home match since the 2003 Conference USA tournament at Fogelman Arena to Memphis 3-0 last Saturday.

Tulane's record slips to 9-4 overall after falling to Memphis in three nail-biting games. 30-25, 30-28, 30-23. The team holds a record of 2-2 conference play, while Memphis remains undefeated at 3-0.

"I have to give credit to Tulane. They were physical and executed very well Saturday night, but we could not get all of our cylinders firing," Head Coach

Betsy Becker said. "In order to beat a team of Memphis' quality, we have to execute our serving plan, have great defensive and passing and have at least three of our players posting big numbers. We are more than capable of this because we did this in Houston."

Offensively, Memphis dominated with a 339 attack percentage while holding Tulane to a .232 mark. The Green Wave recorded 48 kills, 22 errors and 112 attacks. Memphis also boasted 9 blocks to Tulane's 5 and 40 digs to the Green Wave's 38.

"Offensively, we were too predictable, and defensively, we were not working in unison," Becker

said. "The front line and back line of defense must work together, and we clearly had holes in our blocks which creates problems for the back court defense."

"We played comeback the whole time, and we need to do a better job coming out of the blocks," Becker said. "We practiced that this week so we can perform better against Southern Mississippi. Practice makes performance."

Freshman outside hitter Sarah Weiland posted a match-high of 15 kills while sophomore Blair Moon was close behind with 10. For Memphis, junior outside hitter

RFID convenient, yet dangerous technology

David Murphy
senior staff writer

The commonwealth of Virginia's announcement that it will consider using radio frequency identification tags in its driver's licenses has sparked a whirlwind of debate over personal privacy concerns.

Proponents of the idea believe that RFID would make it harder for people to use stolen or fake IDs and improve speed at security checkpoints. However, privacy advocates point out that the use of this technology in IDs could allow anyone with an RFID reader to obtain personal information and use it to aid in identity theft.

Virginia state officials claim that the use of RFID would have helped stop the Sept. 11 attacks, in which several terrorists used false Virginia IDs, but many people believe this is just an excuse to increase the government's control and weaken citizen's rights. Recently, the Food and Drug Administration approved a procedure that would implant an RFID chip inside a person's body, in order to facilitate the retrieval of vital medical data, further compounding an already ambiguous, highly technological debate.

RFID is a technology used to keep track of items by receiving a signal from the reader and then responding by sending the encoded information on the tag to the reader. The reader can then pass the information on to a centralized server. The technology has been used for everything from cattle tracking to bridge tolling, and experts expect that RFID tags will replace the UPC bar codes system by 2005. This allows the manufacturer to keep track of the product from production to delivery to the consumer. It also allows certain conveniences to the consumer. For example, you could be able to simply walk out the door of a shopping center with your purchases while an

RFID reader collects the information about the products and automatically charges the cost to your bank account.

While RFID has the potential to make people's lives more efficient, it also has the potential to compromise personal information. Unresolved security issues allow almost anyone with an RFID reader to set one up in a public place and harvest identities. However, identity theft is only one facet of the possible nightmare that could result from the application of RFID in state IDs. Government agencies would have an unprecedented ability to track citizen

and maintain surveillance. For example, the FBI would be able to collect the names and addresses of every person attending a protest, simply by walking through the crowd or flying over in a helicopter. Agents could easily obtain an arsenal of information about everything from your daily schedule to purchases made at the supermarket.

RFID could easily be coupled with Global Positioning System technology, allowing the government to pinpoint the location of a person and view them via satellite.

Now that the FDA has approved the use of an RFID implant called VeriChip, further concerns have been brought forward. Proponents of the technology argue that the chip will allow medical information to be quickly and easily retrieved and reduce the chance of misidentification.

When a patient comes to the hospital or medical center, an RFID reader can retrieve the code on the chip and use it to pull up the records from a secure database. Some doctors believe VeriChip could be used in conjunction with GPS tracking in

The FBI would be able to collect the names and addresses of every person attending a protest, simply by walking through a crowd.

Former U.S. leaders speak out against Bush

Michael Luke
contributing writer

Amid a sparse, partisan crowd Oct. 14, three members of Diplomats and Military Commanders for Change—a group touring the country advocating the removal of President Bush from office—held a lecture at Dixon Annex Recital Hall sponsored by the Payson Center for International Development and Technology Transfer.

The DMCC members present, Col. Mary A. Wright, Donald B. Easum and Michael E. Steiner, spoke about foreign policy initiatives by President Bush's administration.

Although the Iraq War and terrorism were central themes, other topics discussed ranged from the rise of neo-conservatism in the administration to America's role abroad. The three members said they were not connected to the Sen. John Kerry's campaign, although they were endorsing him because of their displeasure with Bush.

In the middle of a highly contested presidential campaign where myriad partisan groups are encroaching the country trying to sway voters, the DMCC distinguishes itself from other anti-Bush organizations with its unique background.

"Some of us are Democrats, some

of us are Republicans or Independents, many of us voted for George W. Bush. But we all believe that current administration policies have failed in the primary responsibilities of preserving national security and providing world leadership," the DMCC Web site stated, touting a bipartisan membership with a centralized goal.

Wright spoke of her decades of military and foreign policy experience around the globe, including recent work in Kabul, Afghanistan, where she helped reopen the U.S. Embassy in December 2001, following the fall of the Taliban. She said it would be extremely detrimental

to vote for Bush, because without facing the pressure of reelection, he would be less likely to appease critics of his policy. Consequently, doctrines of neo-conservatism, such as preemptive attacks, might increase.

Wright's military expertise leads to her disapproval of the president, as she said the United States was not using effective measures to win the peace in Iraq. Wright also believes, along with her colleagues, that war in Iraq was not essential to fight terrorism and that vital material and soldiers were diverted away from Afghanistan, which she thinks is the

Palestinian lesbian speaks of prejudice in homeland

Emily Hohenwarter
staff writer

People gathered in Richardson Hall Monday night to listen to Raouda Morcos, the founder of Palestinian gay women's organization. Morcos founded Aswat, a Palestinian activist group for any woman questioning her sexual identity. The word means "voices" in Arabic. The event was hosted and sponsored by the Newcomb College Center for Research on Women, and was co-sponsored by the New Orleans Dyke March, the New Orleans Women's Studies Consortium, the University of New Orleans Women's Center, the NOLA Palestine Solidarity group and the Tulane University Office of Multicultural Affairs.

Morcos began her speech with poetry she had composed while living in Palestine. She then talked

about growing up north of the Galilee. "North usually means more rights, more resources, and more power. But not in Palestine. Geographically, we were north, but in reality, we were more south than any other place in the world," she said.

"All of my identities couldn't work together. I wanted to be a woman, and gay, and Palestinian, and against occupation all at the same time."

RAUDA MORCOS
FOUNDER OF ASWAT

When Morcos was 18, she moved to Tel Aviv to escape persecution. "Freedom was limited, I was escaping to a bigger jail, we couldn't breathe. Palestinians are always enemies of another," she said. "We are not only discriminated against, we are walking in a journey of losing our identities. We must be aware of all that silences in a democracy. What kind of democracy is that?" Morcos said.

Morcos founded Aswat so she could provide a place for herself and other women facing the same struggle to belong in Palestine. "All of my identities couldn't work together. I wanted to be a woman, and gay, and Palestinian, and against occupation all at the same time," she said.

Aswat meetings have continued regularly since the first meeting three years ago. Morcos cites

Delay of Tulane College election leads to confusion

Unclear e-mails cause some voters to miss deadline

Tabitha Edgens
contributing writer

Tulane College Senate results were announced Sept. 29, stirring controversy among students and raising questions about the validity of the elections. Two postponements, alleged misinformation distributed by the college's administrative front desk and one ambiguous e-mail complicated the normal electoral procedure, resulting in confusion among candidates and voters.

The elections, which determined freshman class president, vice-president, senators, and Undergraduate Student Government representatives were originally scheduled for Sept. 16-17, with Sept. 20 reserved for run-offs. The elections were postponed on Sept. 14 when the school evacuated for Hurricane Ivan. Students were notified via an e-mail that state elections were rescheduled to Sept. 23-24, with Sept. 27 reserved for run-offs.

A second postponement followed when a group of candidates, citing

bad information given to them at the front desk of Cudd Hall, missed the deadline for turning in their intent to run forms. Tulane College Senate President Patrick Babin and Tulane Awards and Elections Chairman Kris Day decided to delay elections once again to ensure the fairness of the campaign. They were moved to Sept. 27 and 28, with Sept. 29 reserved for run-offs.

Complications arose again. The e-mail announcing the change stated only that elections would be held Sept. 27-29. It did not explicitly state that the third day was reserved for run-offs. Day said he assumed that the students understood that the general elections only consisted of two days of voting followed by a day for the run-offs as demonstrated in the two prior sets of dates.

"They didn't make that clear," Subas Subramanyam, freshman class vice presidential candidate who was defeated, said.

"A bunch of our friends procrastinate," he said, explaining that it caused them to put off voting until what they thought was the last day.

"The College doesn't have very good PR," presidential candidate Ted Klein who was defeated said. "I had four friends go Wednesday to vote and they were turned away."

Day disagreed. "It is unlikely that the vice presidential and presidential runners-up would have won the election," he said, citing a relatively high margin between the candidates of 40-50 votes.

"It's very clear you have around the same number of voters each day of elections," he said. He also pointed out that e-mail correspondence between him and the candidates was high, showing approximately 60 e-mails relating to the elections within 20 days.

"It all comes down to the interpretation of the e-mail," Klein said.

Tulane College Senate maintains that there is no question of the results' finality. They encourage the candidates who did not win to run in the spring elections and remind the candidates that they always accept councilmen to serve as non-voting members on the Senate.

Home sweet Homecoming?

Challenging game as Green Wave faces C-USA's best team, UAB Blazers

David Silver
staff writer

Tulane will be opening its doors wide tomorrow for the 5-1 University of Alabama at Birmingham Blazers. The Blazers are coming off a 41-25 win against Conference USA foe TCU and sit atop C-USA at 3-0. The initial BCS rankings speak for themselves, as UAB is ranked 24th.

Although Tulane has won the past two meetings against the Blazers, this week's contest may prove to be a little tougher. The all-time series is tied 2-2, but the difference this year is the amazing play of quarterback Darrel Hackney.

Through six games this year Hackney has thrown for over 1,300 hundred yards with 16 touchdowns, only four interceptions and a quarterback rating of 165.7. Hackney, 6-foot-2 and a modest 235 pounds, is one of the best quarterbacks in the conference, if not the nation. Hackney is a quarterback with linebacker

size, linebacker speed and a cannon for an arm.

The Green Wave, meanwhile, is still trying to get over the hump this season. With a 1-4 record this season there is still much improvement desired.

"I saw some improvement on Saturday," Head Coach Chris Scelfo said. "We have some players that are trying to get better and are doing the right things."

Unfortunately for Tulane, the game is usually too far out of reach to utilize its second-best weapon, Jovon Jackson. After two mediocre weeks rushing the ball, Jackson needs to come out and shoulder the load for struggling quarterback Lester Ricard.

Turnovers are pivotal and Tulane's offense gives up too many while the defense does not get enough.

"We are really bad about giving turnovers right now and giving the ball up, and that is one of the most important stats in football," Scelfo said.

Tulane has a turnover margin

of minus-six right now going into this week's game after getting their first interception by pre-season Dink Burkus award nominee Anthony Cannon, last week against Memphis. The Blazers are at minus-two, but with nine interceptions on the year they are well-known for big defensive plays.

Tulane, although struggling, still has a very potent offense, a solid receiving corps, solid running back and two quarterbacks that show potential. Along with Williams, wide receiver Chris Bush is emerging as another potential NFL draftee coming out of Tulane this year. There have been recent talks about Bush going as high as the third round.

As mentioned, however, in order for Bush and Williams to make an impact, the Green Wave needs Jackson and the offensive line to set up what has the potential to be a lethal passing attack.

LESLIE FRANKEL/STAFF PHOTOGRAPHY EDITOR
Running back Matt Forte (pictured), along with Jovon Jackson, look to ignite the running game.

Make the UAB game personal

Jason Leser
sports editor

Let's get a little personal for a minute. I'll start

I like jazz music, butterscotch pancakes and Pagoda frozen egg rolls. Actually, to say I merely like Pagoda egg rolls might be an understatement.

I like going to church on Sunday mornings, playing football with my brothers Jake and Brett and drinking coffee with my girlfriend, Ashley. Actually, it's her birthday tomorrow. Happy birthday Ash. There you go; it doesn't get more personal than that.

Oh yeah, I also hail from Chicago, host to a plethora of loving seasons. Nobody understands losing like Chicago sports fans.

Except maybe Tulane fans.

Green Wave men's basketball has a record of 50-68 over the last four seasons. Meanwhile the Chicago Bulls are only the third best basketball team in Illinois, behind the Fighting Illini and Peoria Central High School.

SEE BASEMENT PAGE 13

Mewelde hits NFL

After spectacular debut against Houston, former Green Wave running back pounds Saints

Jason Leser
sports editor

Mewelde Moore found himself in a familiar position last weekend.

Sitting in the Superdome locker room, he was once again fielding questions from the media about another stellar performance and celebrating a victory.

Only this was the visitor's locker room Sunday, not Saturday, and this time Moore was decked in purple and gold instead of green and white.

After graduating from Tulane last spring, Moore took his quick jukes and reliable pass-catching ability with him to the Minnesota Vikings.

"He's doing the same thing now that he did when he was here at Tulane," Tulane Head Football Coach Chris Scelfo said. "He produces. He's done that here for four years. You think it's a one-year gain, and you look up and it's second-and-six. That's Mewelde."

So far in two NFL starts, Moore has made teams around the league wonder why they let him fall all the way to the fourth round of the NFL draft. He put up 92 rushing yards and 90 receiving yards in his first NFL start at Reliant Stadium when the Vikings went to Houston and won in overtime.

"I had to tweak a couple things and get a little sharper, but overall I'm still playing the same game," Moore said. "I just put my faith in God that I'll just be able to go out and play the game I know how to play."

On the familiar turf of the Superdome Sunday, Moore was even more outstanding. He amassed a career-high 109 rushing yards on only 15 carries for an average of 7.3 yards per carry.

Additionally he hauled in a game-high seven catches for 78 yards.

"I believe that I'm a running back and wide receiver," Moore said. "I can transition from one to the other as soon as the play is called."

In typical Moore fashion, he downplayed both the pre-game and post-game excitement.

"[Before the game] I had to make sure I was focused and not building the emotion up," Moore said. "I'm going to enjoy tonight, but it's time to get back to work on Monday."

As he is accustomed to, Moore is once again a key cog in a prolific offense. Over the last three years he was the star running back for a Tulane offense that put up 28.1, 27.1 and 28.7 points per game, respectively. Now in Minnesota, which is second in the NFL with 30.0 points per game, Moore is once again emerging as a catalyst.

Minnesota Head Coach Mike Tice said Tuesday that Moore will make his third NFL start when the Vikings host the Titans Sunday.

Midnight Madness signals start of basketball season

Ross Hurwitz and Megan Repine
staff writer and contributing writer

Last Friday night, Tulane athletics jumpstarted the 2004-2005 basketball season in grand fashion with the resurrection of Midnight Madness. After a one-year break, the tradition continued as this year's squad was announced at the stroke of midnight. The team then celebrated the night with slam dunk and shooting contests.

The event signifies the beginning of the official practice season across the NCAA. The night featured food and drink, a variety of basketball-related contests and introductions of both the men's and women's basketball teams.

Before the men's and women's teams were introduced, students participated in a wing-eating contest, shooting competition, a basketball variation of musical chairs and enjoyed performances from Tulane's cheerleading squad and Shock Wave, the Tulane dance team. The sorority Sigma Delta Tau brought 30 members to the event, winning a tailgate party during Saturday's homecoming game.

The goal of Midnight Madness was interaction between the fans and players. Communication between athletes and fans is limited during the season, but on this evening, students were able to mingle with their favorite Green Wave players.

"It's very important for the fans to get to know us in order to increase the fan support," forward Quincy Davis

Tulane students competed for prizes in a free throw contest on the Fogelman Arena floor during Midnight Madness.

said. "Being involved with the fans is getting me excited for the season. I'm having a great time tonight, and hopefully our fan support will increase."

Head Coach Shawn Finney stressed to his players the importance of the night.

"I told the players to mingle with

the fans," Finney said. "It's great to see the students meeting the freshman [players] for the first time and getting to know the players. I thought we had a great turnout tonight. If we get the turnout for games that we did tonight, that's going to have a big impact on our team and overall enthusiasm for

Tulane basketball."

Festivities began with a three-point shootout and a musical chairs competition in which the last participant to hit a lay-up and run back to center court was eliminated. The winner of the

Volleyball in-state streak hits 14

Megan Holstine
contributing writer

NEED DISMAN SENIOR STAFF PHOTOGRAPHER
Deva Fowler recently notched her 500th block.

The Green Wave volleyball team improved its in-state winning streak to 13 by sweeping Southern Oct. 13. The team won three consecutive games in Seymour Gymnasium to improve its overall record to 10-4. The Louisiana winning streak has been running since 2002.

"This game was a testament to the strength of the team and their ability not to play down to an opponent," Head Coach Beisy Becker said. "Great teams play at their own level, and we have proven that we can execute and dominate."

The Green Wave used its 12 healthy players to hold Southern to a measly .099 attack percentage. The Lady Jags were held to only 32 kills and 21 errors with 111 swings. The team swept Southern in three games 30-14, 30-21 and 30-24.

with 10 kills.

"A team cannot win without teamwork. In order to achieve success this season the players need to step up to their individual level of success," Becker said. "The team needs strength of character, heart and to be resilient to whatever happens."

Tulane continued its winning streak last Saturday with another three-game sweep over Southern Miss at Fogelman Arena. Tulane's record was boosted to 11-4 with the victory. The Green Wave took the three matches 30-20, 30-17 and 30-23.

"This was a really good match for our program. Southern Miss is not as good this year, but we outplayed them by far," Becker said. "We played so well that we would have been successful against the best team in Conference-USA."

The Green Wave offense and defense took an overpowering .372 attack percentage with 55 kills and 13 errors in 113 swings compared to Southern Miss's .129 attack percentage with 34 kills and 19 errors in 116 swings. Fowler played a strong game with 17 kills and three blocks and was aided by her teammates Kenon, who had 14 kills and 15 digs, and Moon, who had 10

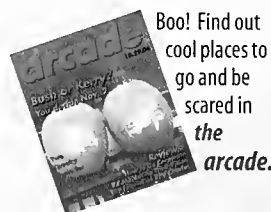

kills and eight digs. Moon also achieved a .667 mark with 15 tries consisting of no errors.

"We played well together, the players on the court and the players on the bench were equally involved," Becker said. "They showed a lot of support and acted as a complete team."

Fowler also had an impressive game Oct. 16, not only because of her .696 clip derived from one error in 23 swings, but also because she became the second player to join Tulane's record books with 1,000 kills and 500 blocks. Her three blocks of the match boosted her record to 1,259 kills and 502 blocks in her four years at Tulane.

"Deva certainly deserves records. She's that player the one opponents try to stop. I'm really happy for her and the tribute to her hard work and talent," Becker said. "It will make a lasting impression on Tulane volleyball with the record books to show it."

Tulane trumped crosstown foe UNO in five games Tuesday to extend its current winning streak to three matches and its in-state run to 14. The Green Wave plays C-USA matches tonight at East Carolina and tomorrow at Charlotte.

Tulane receives grant for cancer research

Christina Le

contributing writer

The Tulane University Health Sciences Center has recently been endowed with a \$10.7 million grant to further advance their research in cancer genetics over the next five years.

The grant, from the National Institutes of Health, will finance the development of the Cancer Genetics Program as part of the Louisiana Cancer Research Consortium.

The Consortium is a joint effort between the Tulane Cancer Center and the Louisiana State University Health Sciences Center to optimize research for cancer therapies and to find treatment and prevention measures for the Louisiana region.

Dr. Prescott DeCininger, the direc-

tor of basic research at the Tulane Cancer Center, believes that working together with LSU has created a "much better critical mass of investigators to interact together in research projects." He claims that the Consortium has "paid off with our history of working together, our funding and the building we are building together to move all of our research faculty in three years."

The proposal for the grant is aimed at developing the research careers of junior faculty members in the who have not yet acquired large grants of their own. Three junior faculty from Tulane are being funded: Chuck Hemenway, an associate professor of pediatrics, Astin Engel, research associate professor of epidemiology and Aline Scandaro, research assistant professor of microbiology-immunology. There are also two junior faculty from

LSU being funded: Andrew Holtenbach and Bo Xu.

Each of the researchers will be awarded a budget of the grant as outlined in the proposal. The award will be invested in the salaries of the researchers, experiment-specific supplies, publication materials, and other expenses, such as costs of attendance at scientific meetings for research presentation.

The grant also includes a provision for two senior faculty mentors to and advise each junior faculty member. This also includes an external advisory board comprised of prominent scientists from Harvard University, Duke University, University of Michigan and the University of San Diego, who will be available annually to review and guide the researchers.

Remembering Hannah

Hannah, Sharon, Tom and Tommy Gigliotti pose for a photo at a wedding in July in Chicago, the last time the family was together.

Brad Nelson

news co-editor

Hannah Gigliotti, a Newcomb sophomore from Lyndhurst, Ohio known for her ability to befriended everyone she met and her love of learning, died Oct. 14 after she was found unresponsive in her Mayer Residence room. She was 19.

The cause of death is pending the results of a toxicology report. Vice President for Student Affairs Cynthia Chery said.

Gigliotti told friends said she had seizures this past summer and her friends wonder if it might have had something to do with her death.

A UNICCO worker found Gigliotti lying on the floor on the morning of Oct. 14, and called police at 10:18 a.m., New Orleans Police Department spokesman Gary Plot said. He said Gigliotti was rushed to Memorial Medical Center, where she died around noon.

At a memorial Monday in a packed Myra Clare Rogers Chapel, friends and others viewed a PowerPoint presentation of pictures showing Gigliotti and her friends. The friends-viewed the pictures with a mixture of tears and laughter.

"She let me live through her experience; she never let a day go by that she didn't thoroughly enjoy," friend Heather Jackson said at the service.

Jackson read from Psalm 23 and Revelations 7:17 at the service. Several friends shared memories of Gigliotti, along with Newcomb College Dean Cynthia Lowenthal and Chery.

In e-mail to students, President Scott Cowen said he had met with the family last week to share stories about Gigliotti's life.

"I am sure the memories and love Hannah left behind will comfort her parents, her brother and all who knew her as she cope with her tragic loss by celebrating her life," he said.

Director of Student Life Dan Nadler said he is trying to cope with the loss himself while making sure grieving students receive the attention they need.

"It hits me pretty hard; it's a difficult situation to confront," he said. "We take it very personally."

"[But] we want to make sure that everyone is okay. That's what Hannah would have wanted," he said.

Gigliotti befriended everyone she met, father Tom Gigliotti recalled. And she was loyal to those friends, mother Sharon Gigliotti said, often baking them cakes or decorating their lockers in high school just to show she cared.

"One of the mothers from down the street from us said, 'It's nice to be important in life but it's more important to be nice.' Hannah would have been both," Sharon Gigliotti said.

Gigliotti's father said she had a diverse array of friends: black, Muslim and Jewish.

"To her what was most important was what was inside," Tom Gigliotti said. "That's what I want to celebrate."

Coming to Tulane on a Founders' Scholarship, Gigliotti showed intellectual promise as a young child, her parents said.

"My wife would take Hannah to the library, she would read tons of books... and want [to read] more. She loved learning," Tom Gigliotti said.

"She excelled at Tulane, often asking tests after skimming her textbook, Jackson said.

She became interested in the University after she went to the senior prom as a freshman with a date headed here, her mom said. She had found the school "very welcoming and open," her mother said.

Friends and family said she had planned on double majoring in political science and Latin American Studies, a subject her father said was only fitting.

"Her first word was 'agua' - granted our babysitter was from Mexico, but you always think their first word will be momma or dada, but not Hannah, her first word was 'agua,'" he said. "It was no surprise to us when she started studying Latin American studies... her favorite food was refried beans and her nickname was 'beany.'"

Her parents said she loved to travel, especially to Latin America. She went to Honduras as a sophomore in high school, and spent last summer in Costa Rica on a study abroad with other Tulane students.

In Honduras, "she made a big impression on her volunteer group. She loved her time down there and the people. The kids down there keep asking about her, even though it was four years ago," Sharon Gigliotti said.

Her parents said she had hoped to work for the United Nations or be an attorney for migrant workers.

Despite her promise, Gigliotti had her share of problems, like any teenager, according to her father.

The weekend before she died, she and three friends took a road trip to Virginia Beach, Va. During one conversation on the 20-hour trip, Gigliotti said she was tired of being called "Drunk Hannah," friend Heather Jackson recalled.

"I hate the fact people know me that way," Jackson remembered her saying. "I want to stay clean and get involved [in extracurricular activities]."

Friends gave Gigliotti the nickname because she partied almost every night.

Friends Jackson and engineering sophomore Lex Steers said Gigliotti told them she had problems and had gone to rehab before entering Tulane.

Her friends were relieved when she decided to make a new attempt to straighten out a couple months ago.

"We were excited because she had so much to offer and we didn't want her to throw it away. She was naturally smart and had goals, like she wanted to go to law school," Jackson said.

Gigliotti's family asks that contributions be made in her memory to "Hands of Honduras," 3700 Big Ben Road, Virginia Beach, VA 23452 or Tulane University, Memory of Hannah Gigliotti, C/O Tulane University Development Office, 3439 Prytania Street, New Orleans, LA 70115.

Gigliotti is survived by parents Tom and Sharon and 14-year-old brother Tommy.

Newcomb Gallery features alumna's art

Emily Hohenwarter

staff writer

"Ida Kohlmeier: Systems of Color" is featured at the Newcomb Art Gallery until Dec. 19. Two large-scale sculptures now mark the entrance to the modern art exhibit inside.

The gallery's exhibit was put together over the last five years as a tribute to Kohlmeier, who is considered to be one of the most prominent Louisiana artists of the last century. Kohlmeier graduated from Newcomb in 1933 with a degree in English literature. She later returned to acquire a master's in fine arts in 1956, and her following 40-year career as an artist was spent in New Orleans, until her death in 1997. Kohlmeier was heralded as a master of abstract expressionism.

The exhibit curator is Michael Plante, associate professor of art at Tulane, and its installation was designed by Sally Main, senior curator of Newcomb Art Gallery.

Pieces of Kohlmeier's work were borrowed from both public institutions and private collections to yield the final compilation now on display.

"The process was about find-

ing the best pieces that explained Ida Kohlmeier's life's work," said Main. "As a curator, you have to think what is going to talk to something else, to complement it," she said.

The gallery showcases pieces

Ida Kohlmeier's sculptures are on display outside the Newcomb Art Gallery.

from all stages in Kohlmeier's artistic life, from the oil and charcoal nudes featured in her earliest work, to the complex and symbolic abstracts finished in her last months of life. Each significant period of Kohlmeier's art is given its own room, so spectators can watch the changes in her work as she developed her signature style.

The paintings that Kohlmeier is best known for are those from the early '70s on. These pieces

are highly expressive, all including bright colors and abstract shapes; they "embody my whole voyage through years of searching for a personal visual statement," Kohlmeier once said.

Kohlmeier is also known for her work with sculpture, mostly large-scale painted aluminum abstracts, which are also on display at the gallery.

Influences on Kohlmeier's artistic development include Clifford Still and Mark Rothko, two prominent abstract artists who visited Newcomb College while Kohlmeier was a student. Kohlmeier was excited by the emotion she saw them put into abstract expressionism, and was prompted to begin experimenting in the field herself.

In the summer of 1956, she studied with Hans Hoffman, another well-known artist and expressionist.

The gallery is open from 10 a.m. to 5 p.m. Monday through Friday, and from 12 p.m. to 5 p.m. on weekends. Michael Plante has compiled 103 color photographs of Kohlmeier's work in a book, also called "Ida Kohlmeier: Systems of Color," available the first week of December.

Bush, Kerry try to convince undecided voters in battleground states

James Kuhnhehn and

William Douglas

Knight Ridder Newspapers (KRT)

President Bush and Sen. John Kerry competed in sharply divided Wisconsin and three other battleground states for votes Tuesday with messages of reassurance to undecided voters who harbor doubts about the president on the economy or about Kerry on security issues.

Bush aimed to weaken Kerry's advantage on domestic policy issues by portraying Kerry as big spender who would raise taxes to pay for his ambitious domestic agenda.

"My opponent believes the economy grows by growing the size of the federal government," Bush said at a morning rally in Onalaska, Wis. "I believe the economy grows by growing the size of the coffers of small businesses."

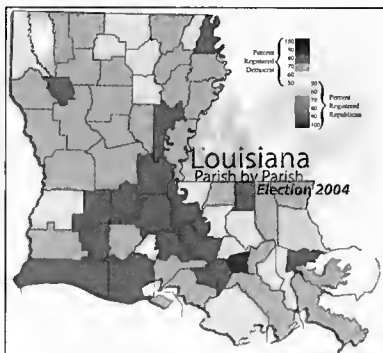

Kerry, speaking in Green Bay,

tried to dent voters' perception that Bush would be stronger fighting terrorism and securing the nation against terror attacks. He listed a series of White House decisions that he said put troops or the country in peril, capping each with the refrain: "When a commander in chief makes the wrong decision, America's security pays the price."

Polls consistently show that Bush leads Kerry on qualities that voters associate with national security and fighting terrorism. Kerry, on the other hand, is solidly ahead of Bush on economic issues such as jobs and health care.

By appealing beyond their respective bases of support, the two candidates were following polling signals that show they've rallied partisan voters and now need to use the remaining six days of the campaign to make the sale with undecided swing voters.

To illustrate the point, a new poll

A map showing the ratio of registered Democrats to registered Republicans indicates a democratic advantage throughout the state.

by the University of Pennsylvania's National Annenberg Election Survey shows that among voters who still consider themselves persuadable, 50 percent view Bush as a stronger leader than Kerry, whereas only 32 percent see Kerry as stronger. At the same time, 82 percent of those voters consider the economy fair or poor and 59 percent of them rated their personal economic situation fair or poor.

After campaigning in Wisconsin, which he lost in 2000, Bush headed for Iowa, another state he narrowly lost. Kerry headed to the Southwest to rallies in Las Vegas and Albuquerque. N.M. Kerry planned to return to Iowa early Wednesday morning.

In his economy-focused speech, Bush questioned whether Kerry would reform the nation's legal system and reduce the number of expensive lawsuits. Bush claimed that five-

FINALLY!

Tulane upends UAB 59-55 for first C-USA win

Chris Burcham
assistant sports editor

In what many have already dubbed the most exciting Tulane sporting event of new millennium, the Green Wave upset the top team in Conference USA with a 59-55 shootout victory over UAB.

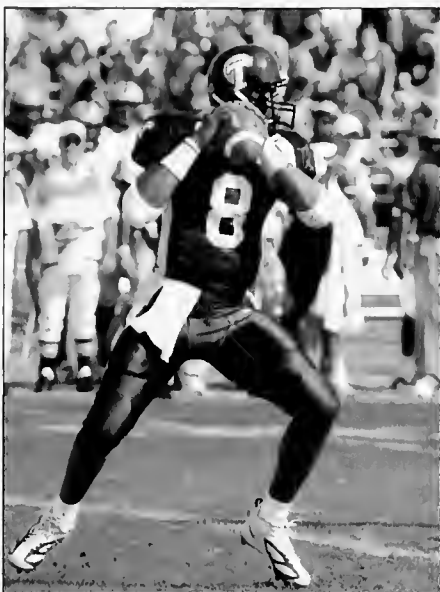

With the Blazers ahead 55-52 and only 1:43 remaining, Tulane quarterback Lester Ricard executed a 78-yard drive, capped by a 12-yard touchdown strike to wide receiver Chris Bush. Ricard, who turned in his best collegiate performance to date, went 7-of-8 on the drive.

"The past couple of weeks we've been progressing. One thing I wanted to do today was eliminate the turnovers and give us a chance to win," Ricard said.

Ricard's 78-yard drive left the Green Wave up by four with 27 seconds on the clock. The only thing between the Green Wave and their first victory over a ranked opponent since 1982 was the hot hand of UAB quarterback Darrell Hackney.

Last time Tulane had a lead this season, ECU tossed the ball down the field setting up the game-winning field goal with less than a minute remaining.

"We knew that they were going to hold," Ricard said. "They've been in this situation (against East Carolina) before and we grow

Lester Ricard completed 36-of-49 passes for 417 yards and a school record six touchdown passes. He was named Conference USA Player of the Week.

from our mistakes."

This time, with a crowd of 22,541 behind them, the defense did hold, stopping UAB at the Tulane 45-yard line as the clock expired.

"I thought that our crowd was in the game in the fourth quarter.

They were loud and I really think that it helped us," Head Coach Chris Scelfo said.

"You can't describe the feel-

Hornets

Lowered expectations for Hornets in 2004-05

New Orleans enters Western Conference with arduous task of continuing five-year postseason streak

Jason Lieser
sports editor

After two consecutive under-achieving, disappointing seasons, the Hornets come into their third year in New Orleans with relatively low expectations.

The team was expected to compete for a spot in the NBA Finals in each of the last two seasons, but suffered first-round exits each time and subsequently fired its coach at the close of each season.

This year brings back most of the same players from the previous two campaigns and a new first-rate head coach in Byron Scott.

However, the team moves into the significantly tougher (even with Shaquille O'Neal heading to Miami) Western Conference.

Even more unfortunate for New Orleans is that it happens to be in the league's most difficult division, the Southwest.

Instead of the comfortable Eastern Conference, where two sub-.500 teams made the playoffs last season, New Orleans is now

grouped with Houston, San Antonio, Dallas and Memphis.

All of those clubs made the playoffs last year and the Hornets have a combined record of 4-12 against those teams in the past two seasons (13-27 over the last five years). The Hornets will play roughly one-fifth of their schedule against those teams.

Although the Hornets are one of five teams to return two all-stars to their starting lineup this year (Baron Davis and Jamaal Magloire) two of the others are new division rival Houston and conference foe

Minnesota.

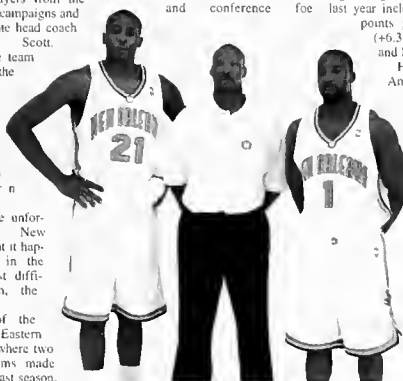

This year's schedule also calls for New Orleans to venture on four significant Western Conference road trips. The Hornets have not had a winning Western Conference road trip longer than three games since going 3-2 in December of 2001.

The Hornets' defensive deficiencies were not exposed much in the Eastern Conference last year as they finished sixth in scoring defense. However, 10 Western Conference teams beat their scoring average against New Orleans last year including Dallas (+13.8 points per game), Denver (+6.3), the Clippers (+6.2) and Phoenix (+5.8).

Houston and San Antonio stand as the most formidable foes and both of those teams expect to challenge for an NBA title this year.

The Spurs are a perennial championship favorite and the Rockets recently added arguably the most talented player in basketball, Tracy McGrady.

Memphis posted its first

Tulane's bowl hopes renewed with win

Jason Lieser
sports editor

Unthinkable.

That's the only way to describe Tulane's thrilling victory over UAB last Saturday.

Unthinkable that kicker Nick Beucher, after hitting only one field goal all year, nailed a 53-yard field goal at the close of the first half to keep the Green Wave within reach.

Unthinkable that quarterback Lester Ricard, who just a week before was alternating possessions with his backup, completed 36-of-49 passes (73.5 percent) for 417 yards, including a school record six touchdown passes.

Unthinkable that nine different Tulane players would catch a pass, including 11 receptions for Roydell Williams (138 yards) and seven for Chris Bush (97 yards).

Unthinkable that a defense that would eventually allow 55 points and 649 yards of total offense came up with a goal line stand late in the game to force a field goal to keep Tulane within reach.

Unthinkable that the Green Wave, previously winless both in Conference USA and against Division I-A opponents, knocked off UAB, ranked 24th in the BCS and sitting atop the conference.

Unthinkable that a team nobody picked to accomplish anything this season now has a legitimate shot at a bowl game.

That's right Tulane Bowl game. Possible.

Why believe it? Because the players do. The reason a bowl game (in all likelihood the New Orleans Bowl) is still in the cards for the Green Wave is because the players have not quit on the season.

Around this time last year, Tulane was 3-5 following a 41-9 pummeling by Memphis. One of the starters told me, under the condition of not being named, that the team had given up on the season already.

The proof was in the following week's 35-17 loss to Navy.

Last week, however, I ran into a different player I know at the Reilly Center. I asked him how the atmosphere was in the locker room of C-USA's last place team.

"We've still got a shot at a bowl game," he said. "We're not done yet."

The truth is, he's right. Take a look at the schedule.

Tulane is currently 2-4 with five games to play. If the Green Wave wins four of its last five

SEE BASEMENT PAGE 11

Football at UH tomorrow

Ben Eisenberg
contributing writer

After a thrilling homecoming win over UAB, the Green Wave will look to win its second straight game tomorrow (4 p.m., ESPN Plus) in Houston against the Cougars.

Houston (1-6 overall, 1-4 in Conference USA) is currently sharing last place in C-USA with Tulane, East Carolina and USF and has a four-game losing streak. The Cougars defense has allowed 34 points or more in each of those four losses, which could spell trouble

against an increasingly potent Green Wave offense.

Quarterback Lester Ricard, who threw for six touchdowns against UAB, will lead the sixth-ranked offense in C-USA against a pass-happy Cougars team which relies heavily on the throwing arm of sophomore quarterback Kevin Kolb.

Kolb is second in the conference in passing yards behind Darrell Hackney of UAB, who torched the Green Wave defense last Saturday for 448 passing yards. A reeling Green Wave secondary will have a tough task in

shutting down junior wide receiver Vincent Marshall, currently ranked second in C-USA in receiving yards with 740.

The Cougars' running game (ninth in C-USA) features Anthony Evans and Ryan Gilbert. Evans and Gilbert each have two touchdowns on the season. Evans, who returned from injury last weekend against TCU, will probably get the bulk of the carries. Evans had 59 rushing yards last weekend while Gilbert had just five rushing yards.

Election Roundup

Bush claims victory as GOP tightens grip on Senate, House

Steven Thomas
Editorial Manager
10/26/2004 10:37

President George W. Bush's victory in the 2004 U.S. presidential election was a decisive one, as he won 308 electoral votes to 232 for Democrat John Kerry.

Bush's victory was a result of a combination of factors, including his strong performance in the swing states and his lead in the electoral college.

Despite the loss, Kerry's campaign was a significant one, and he remains a prominent figure in the Democratic Party.

Women back
on track

Ben Eisenberg
contributing writer

Following a disappointing 10-18 finish last season, the Green Wave is armed with youth and athleticism to return to the competitive ranks of Conference USA.

This year's team features five true freshmen, the most in Head Coach Lisa Stockton's 11-year tenure with the Green Wave. This includes guards Khadereil Ferguson and Nikki Luckhurst, while Jennifer Sands will likely see time at the small forward position and Alendra Brown and Dominique Philpotts will play the low post positions.

That youth, combined with veterans such as senior guards Kinya Lennix and Tymeka Moore, should make the Green Wave one of the most athletic teams in the C-USA. Stockton has not named a starting lineup yet, but Moore knows what to expect out of the starting five.

"At all five spots we're going to have great athletes," Moore said. "The transition game will be our bread and butter this year."

As a junior last season, Moore was second on the team behind Lakethia Hampton with 88 defensive rebounds and the leading shot blocker with 24 blocked shots. Still, the 5-foot-10 Moore was forced to play out of position at forward last season while team points and rebound leader Hampton, a natural power forward, was forced to play center.

This season, Moore will move back to guard and Hampton will play power forward. This will force youth into low post roles. Sophomores Destiny Drew and Cashmir White will battle with the 6-foot-4 Shelly Cayette at the center position.

"Between the youth at our post positions and a new offense we're trying to learn, there might be an adjustment period," Moore said. "Still, the freshmen should be able to adjust because they are smart and can learn the game quickly."

Hampton, who averaged 13 points per game and 8.1 rebounds per game in her junior

With the official practice season underway, Head Coach Shawn Finney is preparing his team for a season loaded with potential.

Last year's squad was young and inexperienced. Wayne Tinsley was the only senior on the floor after current redshirt senior Ivan Pjevcevic suffered a season-ending knee injury in the season opener. The team struggled for much of the season, especially in conference play.

Tulane lost its first seven conference games, but displayed perseverance by riding a three-game win streak and a

stunning upset against UAB (who later shocked Kentucky in the NCAA Tournament) to qualify as the 12th seed in the C-USA tourney.

Their perseverance showed a tremendous amount of heart, and combined with the experience of the returning players, Finney is optimistic his team can compete at a higher level this season.

One of these returning players is Pjevcevic. The 7-foot center will be an integral part to this year's squad if he can remain healthy. Finney is confident he will be healthy and ready to play despite not practicing at 100 percent yet.

"He's looking good," Finney said. "A little gimpy at

times, but he can still shoot the ball and is a very intelligent player. The injury limited his mobility, but it did not affect his shooting skills or his knowledge of the game."

Pjevcevic's return brings added leadership alongside senior guards Ben Benfield and Marcus Kinzer.

Kinzer had a breakout season last year, finishing second in scoring behind forward Quincy Davis, tying for first in assists with guard Vincent Camper and leading the team in steals, three-point percentage and free-throw percentage. He often acted as a

Q&A
with
Shawn
Finney

Jason Lieser
sports editor

Head Coach Shawn Finney enters his fifth season with the Green Wave and appears to be out to make a point. After coming up through the coaching ranks in successful programs like Kentucky and Georgia, Finney came to Tulane and has compiled a 50-68 record. In 2004-05 he has what he tabs as the best freshman class he's ever recruited at Tulane and is hoping for a major turnaround from last year's 11-17 finish.

"Hullabaloo": What enticed you to take this job in July of 2000?

Finney: Rick Dickson did. I've known him for a long time. His commitment to athletics and to student-athletes was the reason I came here. I knew Tulane's tradition of what Perry Clark had done in the early to middle '90s and that enticed me. Conference USA being a great league and what this school represents both on and off the court with their athletes, all that enticed me, but at the end of the day my relationship with Dickson and what he's all about is why I came here.

H: After spending time as an assistant coach at big schools like Georgia and Kentucky, what recruiting challenges have you faced at a small school like Tulane?

SEE FINNEY PAGE 10

Stockton sets the score straight

Jason Lieser
sports editor

The 2004-05 campaign will mark Head Coach Lisa Stockton's 11th season with the Green Wave. In the process of being largely responsible for resurrecting what was once a miserable women's basketball program, Stockton led Tulane to nine consecutive NCAA tournament berths.

Unfortunately for the Green Wave, however, the run ended with last year's disappointing 10-18 finish. Not only did this end an impressive streak, but it

also was Stockton's first losing season as a coach. Despite having one of Conference USA's youngest teams, Stockton is confident that this year's squad will show dramatic improvement over last season.

"Hullabaloo": One highlight of your stay at Wake Forest was making the Atlantic Coast Conference Academic Honor Roll twice. How do you stress academics to players?

Stockton: I think [making the ACC Academic Honor Roll] very much influenced my coaching career. I certainly

think it has to be a priority for a coaching staff, and it has been for us. The message is not mixed from my staff: Academics is what's going to carry them. They need to leave here with a degree. I think [academics] is much more of a priority in women's basketball than in men's basketball [around the country]. Opportunities for women to make millions of dollars in professional sports are not there, so they know that getting a degree is really important.

H: When you were offered

the top assistant coaching job at Georgia Tech in 1990, was that your big break?

LS: One of my big breaks was becoming a head coach right out of graduate school. Even though it was a small school at Greensboro College, it really put me out there to find out my strengths and weaknesses and throw me into the fire at a young age. I thought that was really important. My break in big college athletics was certainly Georgia Tech. Getting the opportunity to go there and be the recruiting coordinator at a relatively young age was an

opportunity for me to learn national recruiting, which certainly prepared me for a school like Tulane.

H: Before you arrived in New Orleans, Tulane women's basketball had eight winning seasons in its 19 years. What exactly enticed you to come here?

SEE STOCKTON PAGE 10

Local jazz legend performs at Tulane

Ellis Marsalis Jr. performs Nov. 4 at Dixon Hall as part of the Tulane Lagniappe program.

Christina Le
assistant news editor

Jazz pianist Ellis Marsalis Jr. performed in an acoustic quartet at Brant Van Dixon Hall Nov. 4 as a part of Tulane University's "Lagniappe Thursdays," a section of the Tulane Lagniappe Program that showcases select New Orleans artists.

The Ellis Marsalis Quartet consisted of Jeff Clapp, drums; Derek Douget, clarinet and saxophone; Bill Huntington, acoustic bass; and Marsalis, piano. The group performed some of Marsalis' original songs such as "Twelve's It" from the album of the same title, in addition to classic standards such as the theme song from the 1949 film "Samson and Delilah" and Charlie Parker's "Bloomdido."

The audience cheered when Marsalis introduced the classic "New Orleans Groove" and "Sweet Georgia Brown," a song which many Tulane students are sure to hear in the streets during Mardi Gras.

At the end of the performance, Marsalis hosted a question and answer session in which he explained how he learned to improvise.

"Back then, I listened to recordings because you couldn't buy the music [sheets] anyway. So, you just copy what you hear," Marsalis said.

He said his main influences are Oscar Peterson, Miles Davis and Duke Ellington. Marsalis stated that the largest lesson he has learned from performing as a musician is "cooperation."

"You must be willing to submerge your ego. The whole is more important than the sum of the parts," Marsalis said. In addition, he claimed that the most essential piece of advice he could give to a student is "listen and practice."

The quartet even fulfilled the request of one student's wish to hear the song "My Funny Valentine."

Marsalis, who has often been referred to as the "premier modern jazz pianist of New Orleans," is not only a well-known musician both nationally and locally, but also the patriarch of a family of musicians. Four of his six sons, Wynton, Branford, Delfeayo and Jason, have all reached international fame as jazz musicians, establishing the Marsalis family's reputation as the "first family of jazz."

Marsalis, who will turn 70 Sunday, is a New Orleans native. At age 11, he began his musical career studying the clarinet at the Xavier University Junior School of Music. After graduating high school, Marsalis went on to obtain a Bachelor of Arts in Music Education from Dillard University.

One year later, he joined the United States Marine Corps and was stationed in California. There he began perfecting his skills as a pianist by playing on the television show "Dress Blues" and the radio program "Leatherneck Songbook," both of which were sponsored by the Marines. After his duty in California, Marsalis returned

The campus obsession and Internet phenomenon known as thefacebook.com may be in trouble. Rival site connectu.com is suing thefacebook.com's creator, Harvard sophomore Mark Zuckerberg, for an undisclosed amount on the allegations that he stole the design concept of the Web site.

Thefacebook.com, which opened to the public in February and to Tulane students in April, is an online directory that connects students through social networks. On the Web site, students can see who's in their classes, look up old friends from high school and see profiles of friends at their school and other schools around the country.

ConnectU's founders Tyler Winklevoss, Cameron Winklevoss and Divya Narendra, who graduate from Harvard last year want thefacebook.com to close down and are asking they be compensated for the business they lost to Zuckerberg's popular Web site. ConnectU claims that it had an oral contract with Zuckerberg when he worked on the ConnectU site for a short period of time.

During this time, ConnectU claims that Zuckerberg stole its base code and failed to complete the work he was brought on to do for the site.

However, thefacebook maintains that these claims are unfounded and will be easily settled in court.

"I would say, don't worry about thefacebook shutting down anytime soon," thefacebook's Chris Hughes said. "Our best estimates of this lawsuit is going to cost thefacebook around \$200,000 to defend, despite the fact that the claims of ConnectU are absolutely unfounded."

Thefacebook claims Zuckerberg did about six hours of work for a site that was much different than the current connectu.com. The length of Zuckerberg's employment is a point of contention in the lawsuit. The original site, called harvardconnection.com, was focused on dating. Thefacebook claims it has always been different than that original site because thefacebook.com functions as an online database for social networking.

"Mark's relationship with the creators of ConnectU was informal, in the sense that he was never paid, nor did he have a contract with them," Hughes said.

Filmmaker Kennedy speaks

Tabitha Edgens
staff writer

Rory Kennedy, an accomplished filmmaker, social activist and human rights advocate and youngest daughter of former Sen. Robert Kennedy, addressed a group of students and faculty in the Freeman Auditorium Monday. She spoke about her work promoting social awareness through documentaries that focus on issues ranging from AIDS to drug addiction to domestic abuse and poverty in America.

She presented the audience with clips from her films that emphasized questions of women's rights and social justice.

"In almost all of my films women's issues have played a role," Kennedy said. "Women experience these issues from a different perspective... A major theme of my work is the struggle for women to keep their families together."

A clip from Kennedy's film "Women of Substance," focused on a mother addicted to drugs and faced with the possibility of losing her children. The film criticized policies that imprison pregnant addicts or separate addicts from their children. The film argued that these practices force women to choose between treatment and their children, often resulting in women raising children while privately battling their addictions. Instead, it promoted social programs that allow women with children to undergo counseling while offering support to help them keep their families intact.

Similarly, the film "Different Moms" promoted rights for mothers with mental retardation. The film portrayed them as loving, nurturing and capable mothers, though they often require outside support to raise their children.

"One of the things these films can do is open our minds a little bit and help us look at things in different ways," Kennedy said to the audience.

"American Hollow," her first feature film, was shown at the 1999 Sundance Film Festival and followed the story of a rural family living in poverty-stricken Appalachia. It demonstrated the tension between the modern world and the simple existence of families living in rural Kentucky.

Kennedy approached the subject of poverty in

America again in "A Boy's Life," a film that shed light on welfare issues and mental abuse. She and her crew spent two years filming a boy who had been abandoned by his mother and was allegedly violent and suicidal. Again, she demonstrated the need for programs that would help children and their families become functional members of society.

Kennedy said a major theme of her work is looking at people who need assistance from their family, community or government, and promoting social services to help them get that assistance.

In one such instance, a 15-minute version of her film "Pandemic: Facing AIDS" was shown in the U.S. Congress to persuade legislators to dedicate money for AIDS relief in Africa. "Pandemic" personified the global AIDS crisis by closely following one AIDS victim from five different countries across the world.

Despite the films' focus on controversial and often unsettling social issues, Kennedy expressed hope that her work will promote a more humane world by encouraging people to help others.

"I think my films are about difficult subject matter, but they are not about defeat," she said. "Each of them is a profile of courage."

The event was sponsored by Newcomb College Senate's Women's Forum, a group dedicated to bringing guest speakers to campus who promote awareness of women's issues. The event was part of Celebrate Newcomb Week, a week designed to highlight Newcomb Student Programs and women's issues on campus.

Kennedy holds a degree from Brown University in women's studies and co-owns a film production company, Moxie Firecracker Films. Her films have been aired on Lifetime Television, HBO, A&E, Court TV, The Oxygen Network and The Learning Channel.

Rory Kennedy speaks to students Monday about promoting women's rights through film.

Campus political groups reflect on elections

Leah Barber
news co-editor

A few signs and stickers are the only remnants on campus of a heated presidential campaign. Now, especially for the more politically inclined, there has been some time to relax and reflect upon the effort that's already been made and what remains to be done.

Evan Charles Wolf and Thomas "Rocky" Thompson are two people on campus who are especially thoughtful during this post-election lull. As presidents of Tulane's College Democrats and College Republicans, respectively, they have spent much of their time focusing on the elections and leading their organizations to promote political dialogue on campus.

Both organizations began the year by recruiting new members and helping students register to vote. They continued their commitments by campaigning for their candidates and now get to enjoy the victories experienced for both sides.

"This has been by far the best year the Tulane College Democrats have ever had. We are better organized and more effective than anytime in the past..." the Tulane College Democrats have achieved all of the club's goals," new College Democrats President Christopher Stowe-Serge said.

Wolf, former president of College Democrats recently abdicated the position, turning it over to former Vice President Stowe-Serge. Wolf will be devoting his time to the Charlie Melancon for U.S. Congress campaign.

Wolf said the College Democrats feel a great marker of their success has been the increase in voter turnout, up 400 percent since 1996 in the Tulane precinct.

"One of our main reasons for being is to support Democratic candidates and Democratic policies. The rawest measure of that is how many votes we got and what the improvement was from before, so in that sense, we were very successful," Wolf said.

Thompson said one of the main goals for the College Republicans was to campaign to get Sen. David Vitter elected.

"Many of our members are not from Louisiana and so we needed to get our members focused on Vitter, but to do that we had to put the campaign on a nationwide scope. We had to tell our people on Vitter by using the national campaign," Thompson said. "Some didn't like it, but at the Vitter victory party... there was a lot of delight, hugging, kissing, high fives and joy throughout the group."

On the other side of the victory rally, the College Democrats "were disheartened and feeling powerless," Stowe-Serge said. "That feeling, however, has quickly passed and our membership is now ready to continue fighting for just causes," he said.

"In the immediate aftermath, we were very depressed and shocked and disappointed. We really thought we were going to win. There are some who are still convinced that we did

and that it was stolen, and there are others that are believing that they want to move to another country; that there's no hope for America," Wolf said. "For the most part, I think people are in need of a break at the moment and are resting up, but I don't think I'd say that anyone is demoralized or defeated at all. Not much changed since 2000; blue states stayed blue, red states stayed red. The margin was slightly wider... but there's no mandate on either side."

Both groups receive advice and support from the national College Democrat and College Republican organizations.

Thompson said the College Republicans were asked by the state party, which is in direct contact with the Louisiana Federation of College Republicans, to focus their effort on campaigning for Vitter. Thompson said he believes the work of the College Republicans in Orleans Parish helped get twice the amount of Republican votes than the previous Senate

election in 2002.

College Republicans participated in phone banking the weekend before the election and waved signs in the rain at busy intersections on Election Day.

"We got a call from the Orleans Vitter chairperson telling us we were getting 49.5 percent of the vote and that we should stay out there as long as possible, and we did," Thompson said.

College Democrats also receive support from the Louisiana Federation of College Democrats and the national College Democrats organization.

"What the College Democrats of America did more than anything else was give us the tools they needed to succeed. This is an important role and one that the Tulane College Democrats appreciate," Stowe-Serge said.

Wolf also said that the most important action the College Democrats took for the Nov. 2 election was to focus on the Tulane University community.

"The most effective action we took for the presidential campaign was to rally our target population. Tulane University students clearly chose Kerry, and that is something of which we can be proud," Stowe-Serge said.

College Democrats also work with other student organizations to work for their common causes.

Free the Planet, FMLA, SOAR and TIPAC are some of the groups that Wolf said collaborate with the College Democrats and that have overlapping membership.

"Last year we had Social Justice Week where all the progressive groups on campus hosted events, and we're going to do that again this spring," Wolf said.

Thompson said he considers the College Republicans to be more of a silent force but that he feels many of the active members are great leaders on Tulane's campus.

Hornets

Hornets look
for first winJason Lieser
sports editor

The Hornets appeared to end their early season shooting woes by hitting 45.7 percent of their shots against Orlando Friday.

Baron Davis displayed his full scoring potential with a game-high 36 points on his best shooting night (15-of-26) since Dec. 18, 2002 (minimum 15 attempts).

"He played with a lot more poise tonight and looked a little bit more comfortable," Head Coach Byron Scott said. "I told him the other day, 'You would probably shoot 50 percent if you didn't shoot so many threes. It's time to just take the ball to the basket and be more aggressive.' Tonight he did a great job of that."

However, when Magic guard Steve Francis snagged an offensive rebound and laid it right back into the hoop with 2.7 seconds left, it was Orlando emerging victorious, 90-89.

"We got better from game one to game two," Scott said. "We just weren't able to close it out. We needed one rebound (to win), and we weren't able to get that."

The Hornets did not go ahead until the 3:07 mark of the third quarter when Davis crashed the lane for a layup to put New Orleans in the lead 62-61.

Orlando answered with a 14-2 run to retake an 11-point lead early in the final period.

The following night took the Hornets to Minneapolis for their first road challenge of the season. They were met by Kevin Garnett's 29 points and 15 rebounds en route to a 99-92 Minnesota victory.

The loss marked New Orleans' fourth straight to the Timberwolves, dating back to 2002.

Things got even worse for New Orleans when the team connected on just 35.3 percent (30-of-85).

Green Wave passes and
runs to victory over Navy

Ricard, defense spectacular in 42-10 rout of Navy; Tulane still in bowl hunt

Suhas Subramanyam
contributing writer

Navy came into the Superdome Saturday boasting the nation's 10th-best pass defense and intent on moving to 8-1 for the first time since 1963, when the Midshipmen were quarterbacked by the great Roger Staubach.

But Green Wave quarterback Lester Ricard had other ideas, putting up Staubach-like numbers by completing a school record 94.7 percent of his passes en route to a 42-10 Green Wave victory.

Ricard completed 18-of-19 passes for 323 yards and four touchdowns while running back Jovan Jackson collected 95 yards and two touchdowns on the ground. Meanwhile, the defense had its best game of the season, as Navy's 10 points was the lowest allowed this year.

"This was the first time our team played 60 minutes of offense, defense and special teams," Head Coach Chris Scelfo said. "Our offense went as Lester went today, and he had an outstanding day. Our offensive line had a bounce-back game, and our defense did a great job stopping the run. This was a total team win."

Two of Ricard's touchdown

passes went to Roydell Williams, who had six catches for 148 yards, including an 87-yard touchdown catch, the second longest reception in Tulane history. Williams also surpassed Jajuan Dawson as the Green Wave's career leader in touchdown receptions with 32.

"It feels good to break the record," Williams said. "Jajuan Dawson and Mark Zeno were outstanding athletes. They set high standards for me, and the only statistic I could even come close to them in was career touchdown receptions."

The Green Wave, who led 21-10 at half-time, increased the lead on Williams' second touchdown reception, a 28-yard slant from Ricard.

After Navy's Geoff Blumenfeld missed a 26-yard field goal wide right, Tulane drove 80 yards and Ricard threw

an 18-yard touchdown to freshman running back Matt Forte to take a 35-10 lead. After Navy failed to convert on fourth down, Jackson then scored on a 22-yard run to make it 42-10.

"Anytime you can be balanced and run the football, then it really opens up both [the run and the pass]," Scelfo said.

In the opening drive, the Green Wave took an early 7-0 lead thanks to a one-yard touchdown run by Jackson, which capped a seven play, 80-yard drive. The following

drive, the Midshipmen drove the ball all the way down to the Green Wave 34. But there Navy quarterback Aaron Polanco was stuffed on a running attempt for no gain, and followed with three consecutive incompletions, resulting in a turnover on downs.

"We knew they wanted to run the ball," senior safety Joey Dawson said. "They're a running team. Once we pressured [the Navy running game] and made

Green Wave
faces must-winBen Eisenberg
contributing writer

Following a 42-10 thrashing of heavily favored Navy, the Green Wave is still in contention to reach a bowl game.

The team needs to win the remainder of its games starting with this weekend's matchup against Conference USA opponent Army.

Army is 2-7 on the season and has lost two in a row after posting two wins in consecutive weeks against Cincinnati and South Florida.

Much like the Houston team that beat Tulane two weeks ago, Army's defense has struggled this season, as the team has allowed 30 points or more in all but two of its games.

Despite Army's record, Head Coach Chris Scelfo is not taking the Black Knights lightly.

"We're going to have to hit on all cylinders on to win on Saturday," Scelfo said. "Army has beaten two teams ahead of us in the standings, so we really need to execute. Offensively our focus has been there, but we need to execute

well because we're about to face a very strong defense."

Whether or not the Green Wave win tomorrow (6 p.m., Superdome) will depend on which Lester Ricard shows up. The Tulane quarterback has been inconsistent in his rookie season, showing flashes of brilliance against UAB and Navy but struggling against teams like East Carolina and Houston.

Ricard completed 18-of-19 passes and threw for four touchdowns and 323 yards in stretching out a strong Navy defense Saturday at the Superdome. This strong effort came just one week after Ricard threw for just 149 yards and two interceptions against Houston.

Senior Roydell Williams, Ricard's favorite target at wide receiver, believes his quarterback is finally ready to lead the Green Wave offense.

"I think he's over the hump already," Williams said. "He went through some growing pains in the beginning of the season. Now that he's comfortable with our offense

Inconsistent season for soccer
leads to widespread discontentStephen Richer
staff writer

Despite concluding the season with a win against Southern Miss, the women's soccer team was disappointed with its 2004 season.

Although returning nine starters, the team's record fell from 11-7-2 in the previous season to 7-10-2 and 4-5-1 in conference play.

"The season was disappointing in the fact that we didn't play to our potential game in and game out, and our record shows this," Head Coach Betsy Anderson said.

The team's inconsistent performance was best demonstrated during the middle of the season when the team won three games and tied one against stronger Conference USA teams, but then lost four consecutive games to weaker teams.

"We had a hard time putting it all together," goalkeeper Megan Morey

said. "Different people did well on different days."

Failure to qualify for the conference tournament was a telling indicator that the team did not reach the level of performance it had the previous season.

Senior forward Lindsey Morris regretted missing the tournament.

"[It] was disappointing," Morris said. "We didn't have the right team chemistry this year."

The season, while falling short of expectations, did have some high moments. Chief among these was Morris' breaking of the all-time Tulane scoring record.

"It felt really good. It was the best part of the season for me," she said.

Also important was the development of the underclassmen who will be returning next season. Anderson was quick to laud midfielder Toni Schlapprizzi, who worked her way into a starting defensive spot and remained consistent throughout the season.

Anderson said that Morey "had great performances in the goal, game in and game out."

Receiving official recognition for outstanding play was sophomore midfielder Jackie Obert, who last week was named to the third team All-C-USA team. She was the only member of the Wave to achieve the honor.

Perhaps the best news is that the Green Wave will be losing very few players. Four seniors will be graduating, but the heart of the starting lineup will be back for next season.

"We will have a lot of players back," Morey said. "We should be really good next season."

The team will resume training in the spring, taking on other colleges in exhibition matches.

If her team works hard in the off-season, Anderson believes that the Green Wave will return a stronger team.

"We are capable of more than we accomplished this season and are looking forward to the future," she said.

Volleyball
picks up winMegan Repine
contributing writer

Seniors Deva Fowler and Lindsey Norman led the Green Wave to victory by delivering near-perfect performances Tuesday against Jackson State at Fogelman Arena.

After five straight losses, Tulane turned its season around and defeated Jackson State in three straight game victories. The Green Wave improved its record to 14-9 on the year while Jackson State fell to 14-16.

"Winning takes care of a lot of things mentally and physically," Head Coach Betsy Becker said.

"Again, even though it was Jackson State, it still feels good to win again. As a program, we were not used to that losing skid."

Although the Green Wave handled Jackson State with ease in the first two games 30-14, it suffered a late threat in the third game and won by only a two-point margin, 30-28.

"I didn't like game three being too close. Yes, we had a different combination, but it shouldn't matter," Becker said. "Our players said they wanted to keep it close to get the crowd back for the week-

end. That is also my team being creative."

Fowler and Norman dominated offensively, posting .750 and .786 attack percentages respectively. Senior Anastasia Kenon also contributed with a percentage of .417 with 13 kills.

Overall, the team boasted a .400 percentage, 61 kills and just 15 errors in 115 swings. Chinyere Marner led the Tigers with eight kills and five block assists.

"When you hit like that, it doesn't matter who was on the other side of the net," Becker said. "Their performance was monumental, and they should be commended for that."

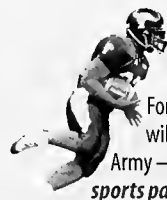

Becker attributed the team's stellar performance to practices over the past week where she had the starting lineup compete against the nonstarters and assistant coaches Sinisa Momic and Ben Creed.

"[Momic and Creed] playing against our starters will only get them better prepared," Becker said. "I do want to point out how good my staff is. All year they have given 100 percent, and they are diligent and loyal. Our players

Tulane student dies in car accident on I-10

Trevor Morton poses for a photo in Barcelona during his junior year abroad.

PHOTO COURTESY OF ADAM KWASMAN

Leah Barber
news co-editor

Trevor Barrett Morton, remembered by many as an intelligent and impassioned lover of politics with a special interest in Israel, died Nov. 11 in a tragic automobile accident on Interstate 10 eastbound at Clearview Parkway.

Morton's Honda Civic collided with an 18-wheeler at approximately 10 p.m. The force of the impact sent Morton's vehicle across the median, and it was hit head-on by a Toyota sport utility vehicle. Morton was taken to East Jefferson Hospital and was pronounced dead around 11 p.m.

Morton was a senior at Tulane majoring in history and political science with a focus on international relations, and minoring in Jewish studies.

"He was a major thinker," Adam Kwasman, a Tulane senior who is currently studying at Georgetown and one of Morton's close friends, said. "He took a multi-dimensional look at life and the world around him ... and he wanted to know it all."

Morton spent the year prior to entering Tulane University in Israel participating in the Young Judea program, taking courses at Hebrew University and undergoing basic military training.

"His time in Israel fortified his pre-existing love for his culture and the politics of Israel. He became more disciplined and it was a very formative experience in his life," Josh Morton, Trevor's older brother, said.

Morton's mother and stepfather live in Dallas, and his father and stepmother live in Roslyn Heights, New York. Morton attended high school in New York. In addition to his year

in Israel through Young Judea, Morton spent much of his time studying abroad. He spent the spring semester of last year in London.

"He had a huge circle of friends that expanded the country and the globe," Josh Morton said. "There was a wake in Dallas and one in New York and huge numbers have shown up. It is really gratifying to the family to see this outpouring."

As well-traveled as he was, Morton's family said that he loved New Orleans and loved Tulane University.

"His mother and I both attended Tulane, and he very much liked being with his sister and following in his brother's footsteps," Chris Morton, Trevor's father, said.

Morton's sister Marisa is also a senior at Tulane majoring in theater

SEE TREVOR, PAGE 2

STD rates high on college campuses

Christina Le
assistant news editor

Nearly one of every two sexually active college students will contract a sexually transmitted disease by age 25, according to a survey taken in February by the University of North Carolina.

It is estimated that the number of people living in the United States with an incurable STD is over 65 million with approximately 15 million new cases being reported each year.

Researchers from the American Social Health Association indicate that two-thirds of all STDs occur in young adults 25 years old and younger. This overwhelming presence places STDs among the major concerns on college campuses.

The most common diseases contracted by students are caused by the human papillomavirus, the herpes virus and HIV. All three are incurable.

Other types of STDs include bacterial infections and parasites. There are three common bacterial STDs: syphilis, chlamydia and gonorrhea, while the most common parasitic infection is caused by Trichomonas. Both bacterial and parasitic infections are curable with appropriate treatment; however the damage done to skin or sexual organs cannot be reversed.

Viral infections cannot be cured with current technology. An infected

person can only wait for his immune system to kill the virus, live indefinitely with the disease or die as a result of it.

However, Tulane students may have a slight advantage in avoiding infections.

"The data from visits to the Student Health Center last year show that STD rates are staying about the same as previous years," Dr. James Farrow, director of Student Health Services, said. "Tulane has a lower rate for all major STDs except HPV, which is about the normal average for college students."

HPV is considered the most common STD in the United States, which could account for Tulane's higher average of the virus. According to ASHA, studies have shown that the majority of sexually active people who have been introduced to one or more forms of the HPV will never develop any symptoms. The association states that "because HPV is so common and prevalent, a person does not need to have a lot of sexual partners to come into contact with this virus."

One form of the virus causes what is commonly known as "genital warts." This form is not linked with cancer and is usually considered harmless. A person may contract genital warts through direct skin-to-skin contact of the pelvic region with an infected person, regardless of the presence of an outbreak. The other form of HPV is

typically linked with women and cervical cancer.

Preventive Measures

Aside from medication, many institutes see a need for reform of the physical treatment of patients, including college students. The Centers for Disease Control and Prevention proposed guidelines in 2003 for physicians to play a larger role in the prevention of STDs.

"Clinicians can address the lack of knowledge and awareness about the risks and consequences of STDs and offer guidance, constituting true primary prevention, to help adolescents develop healthy sexual behaviors and thus prevent the establishment of patterns of behavior that can undermine sexual health," according to the CDC.

The CDC also recommended that HIV testing become a routine part of medical care, that new models should be created for diagnosing HIV infections outside of medical settings and that testing should be incorporated in the routine battery of prenatal tests.

Another method of STD prevention lies on the "grassroots" path of President George W. Bush. In this year's State of the Union address, the president proposed a "grassroots campaign to help inform families about these medical risks. We will double Federal funding for abstinence programs, so schools can teach this fact of life. Abstinence for young people is the only certain way to avoid sexually transmitted diseases."

The president is not alone on his campaign. The National Institutes of Health also believes that "the best way to prevent STDs is to avoid sexual contact with others."

The Tulane Student Health Center also offers various preventive measures for STDs. The center participates in an HPV/abnormal PAP test research program with LSU and also a national vaccine trial for herpes prevention. Tulane also offers the OraQuick 20-minute HIV test which may be taken confidentially or anonymously. All students are able to make appointments with their respective women's and men's health clinics for full STD screenings.

Steps to prevent STDs

- Have a mutually monogamous sexual relationship with an uninfected partner.
- Use condoms correctly and consistently.
- Prevent and control other STDs to decrease susceptibility to HIV infection and to reduce infectiousness if already HIV-infected.
- Have regular checkups for STDs even in the absence of symptoms, and especially if having sex with a new partner.
- Learn the common symptoms of STDs and seek medical help immediately if any suspicious symptoms develop, even if they are mild.
- Avoid having sex during menstruation. HIV-infected women are probably more infectious, and HIV-uninfected women are probably more susceptible to becoming infected, during that time.
- Avoid anal intercourse, but if practiced, use a male condom.
- Avoid douching because it removes some of the normal protective bacteria in the vagina and increases the risk of getting some STDs.

New health care plans include policy, rate changes

Plans favor healthy, low-income employees

John Hryhorchuk
senior staff writer

Major revisions to Tulane faculty and staff health care plans will create clear winners and losers among different groups of employees as the University moves to contain rising health care costs.

Taking effect Jan. 1, 2005, the changes to the three plans offered to Tulane employees by United Healthcare are orchestrated to prevent the burden of higher medical costs from falling on healthy, lower-wage workers. However, this will come at the expense of higher-wage faculty and staff members with at-risk medical histories.

For a married professor with a history of heart problems enrolled in the most expensive health care plan offered to Tulane employees, monthly premiums will continue to rise while benefits are cut and hospitalization and surgical costs surge up to 14-fold.

"There's no question that under the right scenario, you're going to see quite a jump. And that's why I think it was controversial, in the sense that some people are of the view that that was too much to ask of employees, too much of a change," former University Senate Faculty and Staff Benefits Committee Chairman Russell Robins, an associate dean at the A.B. Freeman School of

Business, said.

However, for a single parent who earns less than \$30,000 annually as a secretary, there are definitive gains. Monthly medical costs will spiral downward in the least expensive health care plan offered, and there will be no decrease in coverage despite a 22.5-percent drop in monthly fees.

Under the announced revisions, the most extensive plan, known as Plan 10, will have many of its unique benefits curtailed, including no out-of-pocket expenses for physicians' fees, no annual deductible and a \$250 co-payment for inpatient hospitalization.

"Plan 10 was working out to an extremely expensive plan, to the extent that the other two plans were effectively subsidizing it," Anthropology Professor Robert Hill, the current Faculty and Staff Benefits committee chairman, said. "Changes had to be made to bring the costs of that plan more in line and reduce the burden on the other two plans."

To reduce this burden, the costs of doctor's office visits and prescription drugs for Plan 10 subscribers have been increased to levels similar to the other plans. Also, 10 percent of the bill for hospital services, most of which were previously cost-free, will now be paid by patients. The same hospitalization that would cost a patient \$250 this month could cost up to \$3,500 in January, includ-

ing a newly added \$500 family deductible.

To maintain Plan 10 under conditions in place for 2004, Robins said a 10-percent across-the-board increase in costs for all plans would have been necessary.

"What carried the day was the committee and the Senate agreed with the notion that Plan 10 participants should pay more of the Plan 10 costs," Robins said.

Despite early opposition in committee and vocal disagreements by many faculty and staff members, the proposal passed through the University Senate in October with no dissent in a voice vote.

The primary beneficiaries of the health care changes are single parents earning under \$30,000 annually who are enrolled in either the least expensive option, Plan 13, or the middle choice, Plan 9.

Single-parent households enrolled in Plan 13 will see costs drop 22.5 percent each month, while such families in Plan 9 will see a 21-percent decrease in costs. A slight reduction in costs also occurs for those in the most expensive category.

"The consultants we hired this year discovered that actually it is cheaper to insure any number of kids than it is to insure a significant other," Robins said.

"The kids just don't require as much medical care," Hill added.

To further aid lower-income workers, the cost of health care at Tulane is staggered so that those who have the lowest incomes pay the lowest monthly rates within their chosen plan depending on the size of their families. This egalitarian aspect of Tulane's coverage is unique among peer institutions, Robins said.

For minimal coverage — one employee enrolled in Plan 13 — costs vary from \$28.07 monthly for those earning under \$30,000 annually to \$106.86 monthly for those earning over \$90,000. Likewise, for a family of three enrolled in the most expensive option, Plan 10, costs can vary from \$457.80 to \$658.09 depending on income tier.

"We try to treat all employees the same in terms of the health care benefits. There's the intention that all employees should have the same options," Hill said.

Still, Robins said, there is always more work to be done. Facing criticism that the current income tiers regressively charge lower-income workers a greater percentage of their wages for similar health care coverage, future changes may attempt to alleviate this perceived inequality.

"There's only so much one can accomplish in an iteration," Robins said. "We solved a lot going from last year to this year, and next year we'll try and solve some more."

Supply of flu shots limited

Emily Hohenwarter
staff writer

As part of a nationwide effort to conserve the influenza vaccine, Tulane students in good health should not expect to receive an influenza vaccine during the 2004-05 season.

Only about half of the expected dosages of influenza vaccine will be available in the United States this year, so the Center for Disease Control and Prevention has issued vaccination recommendations for the 2004-2005 flu season. Dr. James Farrow, director of the Tulane Stu-

dent Health Center, said the University will adhere to them.

Certain at-risk groups will be given priority for flu shots, including children 6-23 months, persons over the age of 65, those with underlying chronic medical conditions, pregnant women, residents of nursing homes, children under 18 on chronic aspirin therapy, health-care workers directly involved with patients and anyone involved with children under six months old.

In early October, Chiron Corp.,

With its 45-31 win over Army Saturday at the Superdome, Tulane finally captured back-to-back wins; a feat that had eluded the Green Wave all season.

Sophomore quarterback Lester Ricard opened the game with the same impressive play he had against Navy. However, hopes of Ricard breaking any more records were quickly discarded when he broke his wrist on the first play of the second half, after being knocked to the turf.

With Tulane ahead 24-7 and the

starting quarterback down, backup Richard Irvin stepped up to the challenge and maintained the lead.

"I think we did a great job, [Irvin] came in and the offense didn't love a beat," linebacker Anthony Cannon said. "We know as a team that it's not just one person. It's the whole team and that's the concept that we go by. So if someone goes down that just makes everyone else have to step up and be accountable."

Freshman running back Matt Forte made his contribution posting 283 total yards and scoring four touchdowns in a breakout performance.

Forte rushed for three touchdowns and received a fourth, tying the school record for most touchdowns scored by an individual during a single game.

"Matt had a great game and that definitely helps when you have a tailback gain 200 and some odd yards," Irvin said. "It definitely takes a lot of pressure off the quarterback in knowing that not everything depends on how you throw; you also have a threat in the back running the ball. So that definitely helped."

Forte started in place of Tulane's leading rusher junior Jovan Jackson, who sat out with a

pulled hamstring.

"I knew I was gonna have a big game; our line's been working hard all year and the holes were just there," he said. "It's all credit to them, I mean I just ran through the holes."

"It feels good win. To rush for that many yards and to do as good as we did in the game and win back-to-back which we haven't done all year. It feels real good."

Tulane put up points first, with Roydel Williams scoring a touchdown on a 63-yard pass from Ricard. That reception increased Williams' career touchdown catch total to 33, tying him for first in Conference USA with Louisville's Ben Green (1996-99).

Army responded by scoring a touchdown, tying the game with 6:43 left in the first quarter. However, the Green Wave defense dominated and held Army to just seven points in the first half as Tulane scored three more times.

"Our confidence level is up there right now, and that's really all you need as a defense is just to know that when you go out there you're going to be able to perform and make stops," Cannon said. "Our key thing is third down and we've gotten a lot better at that, and that's really what the key to the game was today was getting off the field on third down."

Tulane opened the second half with a touchdown rushed by Forte. Army's Scott Wesley then returned the kickoff 97 yards for a touchdown. The

Men tip off against LSU

Freshmen making impact early on

Ross Hurwitz
staff writer

After months of training, weeks of practice and a one-sided exhibition game, Tulane basketball opens its regular season tonight against rival LSU in Baton Rouge.

The contest is the second game of the Louisiana Basketball Classic and is scheduled to begin at 8 p.m. Louisiana Tech faces UL-Lafayette in the early game and both the championship and consolation games will be played on Sunday.

In its only exhibition game of the preseason, Green Wave dominated V.A.S.D.A., 94-51.

Quincy Davis led the team with 15 points and 10 rebounds, while everyone else played at least 10 minutes and made contributions to the victory.

All five freshmen were impressive in their Green Wave debut, making Head Coach Shawn Finney's job that much more difficult. This is the deepest lineup Finney has had at Tulane.

"I have 13 guys and I don't know who's not going to play yet," Finney said. "That's a great thing for a coach because it shows we have so much talent on this team."

Finney has not even set the lineup for his team's season opener. Senior point guard Marcus Kinzer, sophomore guard Vincent Camper, junior forward Quincy Davis, and senior center Ivan Pjevecic are all expected to be in the starting lineup. The fifth spot, is still up for grabs, with sophomore shooting guard Chris Moore and senior Ben Bernfield as the leading candidates.

Going on the road to face LSU for the first game of the season will be a challenge for a young Tulane team. Maravich Arena is a hostile environment, and the Tigers are a formidable opponent.

Nevertheless, Finney is excited about the game and believes opening against such a tough opponent can be beneficial.

"Opening up on the road cre-

ates the mentality that you must be mentally tough," Finney said. "The freshmen will get to see what college basketball is all about right away. It's a big challenge and a great test to go on the road against a quality team like them. We're going to have to match their intensity."

LSU will be led by Brandon Bass, last year's Southeastern Conference freshman of the year. Bass decided to forego the NBA draft and play at LSU for at least one more season.

Last year, Bass led SEC freshmen in scoring and rebounding and was second in blocked shots. Finney respects Bass's talents and the Green Wave will need to contain him to win.

Kinzer's floor leadership will be especially critical in the season opener. This year's squad is comprised of eight underclassmen and Kinzer will need to keep his team poised during the game.

"We've been practicing hard, but the level of intensity is definitely going to step up at LSU," Kinzer said. "Normally I lead by example, but this year I'm speaking a lot more. I've been telling my teammates to just try and make the easy plays, play with confidence, and believe in themselves."

Although Kinzer's performance will be crucial, he will not be expected to carry the entire team.

"We don't have one guy who can just take over every game," Finney said. "We have seven to eight players on this team who are capable of playing that role. We have a lot more options that we haven't had in the past."

A fan bus will be available for Tulane students who wish to travel to Baton Rouge for the game. The total price for the evening is \$40. This includes game tickets, transportation, food and drinks. The bus will depart from the Uptown campus Wilson Center at 6 p.m.

The Tulane home opener will be Nov. 27, when the Green Wave host Prairie View A&M at Fogelman Arena (7 p.m.).

Freshman Ray Boudreaux got into the touchdown act scoring one as the Green Wave eased past Army 45-31 at the Superdome Saturday.

the basement

Get off Kobe's back

Jason Lieser
sports editor

I've never seen a man look so sorry.

Imagine yourself in his situation. You're on vacation from your grueling job (and your "vacation" includes several hours a day working anyway) and there you are back at your office.

Only this time, you're not doing your usual job. You're sitting at a table with your wife to your right and many of your bosses and co-workers present as well. You're used to all the cameras and microphones in your face, but not like this. This is on national television, not just on ESPN and the sports channels; we're talking networks and cable news. Live.

Even for a guy used to dealing with the overly intrusive press of the nation's second largest media market, this is a lot.

But anyway, back to the story. As your beloved wife sits by your side, you are now forced to admit to the entire nation your most private and shameful secret: You've committed adultery. You have broken your most sacred vow and now almost 300 million people (and that's just in the United States) know about it.

That's what Kobe Bryant did July 18, 2003.

"I sit here in front of you guys, furious at myself," Kobe told the press. "Disgusted at myself for

making a mistake of adultery. I love my wife with all my heart. She's my backbone."

And I've never seen such anguish on a man's face.

He did something very wrong by cheating on his wife with a young woman at Lodge and Spa at Cordillera in Edwards, Colo. He admitted it and he apologized.

But why?

Kobe doesn't owe you or me an apology; he needed only to apologize to his wife Vanessa and I'm sure he will one day have to explain the situation to his daughter Natalia, now almost two years old. But why would he apologize to us?

Because Kobe knows he is a role model. Despite being a very private person by nature (which there is nothing wrong with), Kobe has embraced his responsibility as a role model, especially for children.

There is no federal law or NBA rule that requires players to be symbolic mentors to kids, but the good guys in the league — like Michael Jordan, Magic Johnson and now Kobe — have always accepted it as part of their job description.

I don't know Kobe personally, obviously, and I don't think anyone in the media truly claims to. The only time I've met him was during the post-game media

Volleyball takes two matches

Wins over UAB, USF put team in C-USA tournament this weekend

Megan Replne
contributing writer

The Green Wave delivered two strong performances last weekend in its final home matches of the season, defeating both UAB and USF. The team ended its late-season slide and improves its record to 16-9 on the season and 6-7 in Conference USA.

"The wins were important because we gained some momentum before heading into the conference tournament," Head Coach

Betsy Becker said.

The team handled C-USA foe UAB in three straight games, 30-21, 30-25 and 30-20. With the loss, UAB fell to 1-23 on the year. The Green Wave posted a .346 attack percentage with 60 kills and just 16 errors in 127 swings, while holding UAB to a .202 attack percentage.

Senior outside hitter Anastasia Kenon, freshman setter Brittany Esser and rookie right-side hitter Sarah Weiland all posted double-doubles Friday night.

Kenon led the team with 21 kills

and 10 digs while Weiland trailed right behind with 15 kills and 14 digs. Esser added 47 assists and 10 digs.

Saturday the Green Wave swept USF, 30-16, 30-26, 30-25. With the loss, USF falls to 8-18 on the year and 6-6 in the conference. Tulane hit .250 with 58 kills and 23 errors in 140 attempts.

"I felt like we played well this weekend, but the better you get the harder you have to work," Becker said. "We are really coming into our own as a team. I feel we are

playing our best volleyball late in the season."

The game marked the final home game for seniors Deva Fowler, Iman Houston, Anastasia Kenon and Lindsey Norman, who combined for a total of 41 kills, 28 digs and 11 blocks. The four seniors were honored in a special ceremony Saturday night in Fogelman Arena.

"We played so hard on Saturday night for our seniors. They have all done so much for our program we wanted to leave it all on the court for them, and we did," Becker said. "Deva, Iman, Lindsey and Anastasia have made a lasting impression on Tulane volleyball. They have really made their mark."

The team also hosted its "Digs for the Cure" event Saturday, a conference-wide campaign aimed at raising money for the Susan G. Komen Breast Cancer Foundation.

The end on the regular season marks the start of the C-USA Tournament. The Green Wave travels to Louisville, Ky., this weekend for first round play. Winning the tournament would guarantee the team a spot in the NCAA tournament. Becker said the team will take the tournament one game at a time.

"We have to focus on Charlotte, then Marquette, then Cincinnati and then Louisville. We have to value each match and play as if it is our last," Becker said. "All of these teams are beatable, especially Charlotte, Marquette and Cincinnati. It's time to start a whole new season for the conference championships."

Junior Kelli Dickson tallied 28 digs, the team best, in Tulane's victories over UAB and USF.

Medical student leaves legacy of research

FILE PHOTO

Jaclyn Rosenzon
editor-in-chief

Andy Martin, a Tulane medical school student researching his own cancer, sinusoidal undifferentiated carcinoma, died Nov. 19 at 10:10 p.m. from complications of the cancer.

Friends gathered Monday night after Martin's death for an impromptu memorial at the Phi Chi medical fraternity house. Martin had a tradition of having parties where he encouraged attendees to bring bottles of wine, and the attendees were encouraged to bring a bottle in memory of Martin. The memorial included a moment of silence at 10:10 p.m. At press time, a date for a formal memorial at the School of Medicine had not been set. Dr. Ian Taylor, associate senior vice president of the Health Sciences

Center and dean at the medical school remembered Martin's bravery during his fight against cancer.

"Andy was and will remain a very special person," Taylor said. "The special feelings he had for his fellow man are expressed in the fact he spent his last months trying to find a breakthrough that would help those afflicted with the disease who might come after him."

Martin was enrolled as a fourth-year medical student at Tulane at the time of his death but was not following the conventional curriculum, researching his own disease in a Tulane lab instead.

Martin was diagnosed with SNUC in July 2000, as he prepared to enter Tulane medical school. Martin delayed medical school for a year to undergo treatment for the illness and entered Tulane with a desire to research the

rare form of sinus cancer

"SNUC is one of the truly rare cancers of which we know, with fewer than 100 cases reported in the scientific literature," Martin said in an interview with the "Hullabaloo" in March 2004. "It is also one of the most malignant cancers, with few surviving past five years." SNUC makes up a very small percentage of the cancer cases in the United States and is currently incurable. Martin began studying SNUC in a Tulane lab during his third-year of medical school.

According to a Wall Street Journal article published April 1, 2004, Martin wanted to understand SNUC better and approached Chief of Hematology and Medical Oncology at the Tulane School of Medicine, Dr. Tyler Curiel about studying the disease. Curiel said "We don't study SNUC,"

but Martin persisted. He offered his own cells for study and didn't relent until the lab started research. Two Tulane surgeons extracted tumor cells from Martin's sinuses for growth in the lab.

The process for growing cells in the lab is an extremely difficult and delicate process. The lab was in danger of running out of money when Curiel's 11-year-old son suggested a fundraiser and Bounce for Life was developed.

Curiel, an ultra-marathon runner, set a world record for dribbling a basketball while running 108 miles for 24 hours in an event called Bounce for Life in December 2003. The two-day event raised \$28,000 for Curiel and Martin's lab research on SNUC.

Martin considered himself lucky because he was able to learn more

about his disease than most patients. Martin's goal included "not only learning how these cells look and behave, but assessing them as targets for some new, novel cancer treatments," according to the March "Hullabaloo" article.

When asked by Wall Street Journal's Amy Dockter Marcus how he felt when watching the tumor grow Martin said, "I have a certain revulsion for it when I see it... [but in the lab] I have it helplessly, for a change, and not the other way around."

The lab study began with 15 small plastic dishes of the tumor cells, and only seven survived over one week-end. Last year the lab was able to establish the first known line of SNUC cells for study, a major breakthrough in the field of cancer research. There

TUPD officer addresses crime

Natalie Cox
senior staff writer

A recent spike in the number of armed robberies in the Uptown area has students feeling anxious about their safety. Ten police reports have been filed with Tulane University Police Department since September, involving over 20 Tulane students who have been held up in armed robberies near campus.

The New Orleans Police Department Web site reports a general fall in crime in the Uptown area so far this year, but the number of city-wide armed robberies between April and June 2004 was up 19.3 percent from 2003 numbers.

TUPD Sgt. Wilce Gilbert offered his suggestion to better control crime that would involve the campus force being given clearance to patrol more widely off campus. He said he thinks they could help deter, if not prevent, future robberies, making the Uptown area much safer.

Gilbert is surprised by the rash of armed robberies recently, and said that the average of two to three armed robberies per month was something to be concerned about.

"Campus is very safe, and the immediate areas are pretty safe also,

but the areas past a few blocks away are hard to keep track of. Criminals know that if they commit crimes on campus, they have a very good chance of being caught by TUPD, so they move off," Gilbert said.

Students who live in the Uptown area are feeling uneasy with this growing trend.

"I have to keep myself from thinking about it. If I walked around scared, I'd be afraid of walking home from the library or coming back late at night. If something is going to happen, it's going to happen. I lock my doors at night, but what else can I really do?" junior Lauren Streifer, a Lowerline St. resident, said. "I have friends who won't visit my house late at night because of all the crime that's happening right around where I live."

"I'm not going to try to tell students not to go out and drink and have fun, but I do want them to make sure they are staying conscious enough to make smart decisions and be aware of their surroundings," Gilbert said.

His advice for staying safe was to travel in groups through well-lit areas and to avoid "tunnel-vision" by staying alert. Most of the robberies reported happened to students

Diwali lights up McAlister

LEE SANON/PHOTOGRAPHY EDITOR

The India Association of Tulane University presented Diwali, the club's annual fall cultural show, Nov. 21 at 4:30 p.m. in McAlister Auditorium. The program featured traditional dances performed by local students of Indian descent and more modern renditions by Tulane students. After the performance portion of Diwali, IATU sponsored a dinner at 8 p.m. in Richardson Memorial Ballroom catered by Nirvana Restaurant. Diwali is a traditional Indian holiday known as the "Festival of Lights."

Tulane remembers Trevor

Leah Barber
news editor

A memorial service was held Tuesday in Myra Clare Rogers Chapel for Trevor Barrett Morton, the Tulane senior who died last month in a car accident.

About 60 people came to the chapel to share memories of Trevor and to remember his life at Tulane.

"[We] are here to celebrate the life of Trevor Morton... [who] had a special place in the hearts of many here at Tulane," Dr. Cynthia Cherrey, vice president of Student

Affairs said in the opening remarks.

Members of Morton's family, his father Chris Morton, mother Hedy Meltzer and sister Marisa Morton were also present at the service.

Meltzer read a poem written by Morton's close friend Adam Davidson, a Tulane alumnus who now lives in California. Political science professor Dr. John Sutherland had a close relationship with Morton and shared his memories of him as a student.

"[He] was a joy to teach... mature and humble about his intelligence... [he] was a fine student and a fine individual and he

will be missed by everyone," Sutherland said.

Mandy Farb, a close friend of Trevor's shared a letter she wrote to Trevor expressing her joy for having known him and the ways in which she will remember him.

"When I return to Israel this winter, I will kiss the ground one extra time as I step off the plane. I will add one extra prayer to The Western Wall," she said.

Renee Masor, president of Tulane Israeli Public Affairs Committee, also shared her remembrances and spoke of Trevor's contribution to the group.

Marisa Morton led the group in Mourner's Kaddish.

er's Kaddish.

People spoke of Morton's devotion to international relations and his love for Israel. Paige Nathan, director of New Orleans Hillel at Tulane announced that there will be a yearly symposium in honor of Trevor titled "U.S. and Israeli Relations Symposium."

The family wishes that all contributions in memory of Trevor go to the "Young Judea Year Course Fund." Sarah Shapiro, Alumni Relations Coordinator; Hadasah - National HQ; 50 West 58th St.; New York, NY 10019; (212) 303-4589; sshapiro@youngjudea.org

The people of Israel never knew Trevor Morton. They had no way of knowing that, thousands of miles from their homes, a 21-year-old college student cared about their welfare. They did not know that part of the American Jewish support for Israel was the work of a young man from Dallas, who concerned himself with their safety. They were not aware that an intelligent, earnest guy with a ready smile was brushing up on his Hebrew and planning to join them.

Here, at Tulane, we are wracked with grief and pain. And most of all, the pain is from the promise that is lost; from a wonderful life that was interrupted. Our loss is great, but the loss is greatest for the people of Israel.

On Thursday, the people of Israel were informed of the death of one of their worst enemies. But, no one has told them that they also lost one of their dearest friends.

People of Israel! Trevor Morton loved you. May his soul be bound up in the band of the Living G-d.
Yochanan Rivkin

Trevor, a poem

He is still alive to me
In the recesses of my
mind, deep in my heart,
I still hear him
"Giddyup"

He taught me.
Live. Love. Laugh.
No doubt others have
taught me this as well
but Trevor taught by
example.
Girls, cigarettes, books,
debate, Israel, bars,
people.
These were his
motivations and his vices.

He took them all in with
a love that was jovial,
sweet, profound, and full
He could tell you about
them all in a single
sentence.

He taught me.
Ask. Aspire. Assert.
No doubt others have
taught me this as well
but Trevor taught by
example.
News, philosophy,
dreams, travel,
knowledge.
These were his
addictions.
He constantly
discovered and constantly
sought more.
He gave you the
addictions as well

He taught me.
Friendship. Life. Death.
No doubt others have
and will teach me this as well
but Trevor taught by
example.
Late nights. Drinking.
Laughing. Smoking.
Talking. Debating.
This is what I did with
him.
He encouraged me and
I encouraged him
Now he has taught me
to Remember.

Life is so quick.
Who you are is a
reflection of who you
know in life.
Trevor knew a lot of
good people
A lot of good people
knew Trevor.
Is death so certain when
you affect so many?
He had his own way of
saying goodbye
It rarely changed, it was
unique and he used it
uniquely
"TFN later" the IM
chips
I can still hear him.

-Adam Davidson,
TC '04

WIN AND YOU'RE IN

After a last-minute win at TCU last week, the Green Wave will be a virtual lock for a bowl game with a win over Louisville

Suhas Subramanyam
contributing writer

About a month ago, the Green Wave was sitting at the bottom of the Conference USA standings as many began viewing this season as a rebuilding year. But after winning four out of its last five games, including last week's thrilling 35-31 win at TCU, the Green Wave will become bowl-eligible with a win tomorrow.

Standing in the way tomorrow is No. 7 Louisville, which is heavily favored and by far the Green Wave's biggest test this season. The Cardinals (9-1), have already clinched the C-USA title and are looking to go perfect in conference. The contest was originally scheduled for Sept. 18, but was rescheduled after Hurricane Ivan approached.

Although becoming bowl-eligible does not guarantee a bowl bid for the Green Wave, it is unlikely to go uninvited with an upset over Louisville.

"What we have right now is four potentially bowl-eligible teams playing for two spots on Saturday," Tulane Athletic Director Rick Dickson said. "Some possibilities include the Hawai'i Bowl, the Silicon Valley Bowl in San Jose which is one that probably has the most promise in regards to us, and depending on other moves, possibly the Las Vegas Bowl. I don't have any certainties, but given where we stand today, if [we're bowl eligible] after Saturday, I like our chances very much."

Louisville (9-1, 7-0) possesses the most potent offense in the country, leading the country in total offense (538.2) and scoring offense (49.8).

All-Conference quarterback and Baton Rouge native Stefan Lefors has thrown for 2,157 yards and 17 touchdowns despite giving up a quarter of his snaps to backup freshman Brian Brohm.

Running backs Eric Shelton and Michael Bush have combined to rush for 1,392 yards and 23 touchdowns.

"[What impresses me] is how balanced they are," Green Wave Head Coach Chris Scelfo said. "Their offensive line is very good, their quarterback is an operator, their running backs all can go the distance on every play, and their receivers are very talented. They probably have 10 or 12 NFL prospects on their team, and they utilize all of them."

Last week, the Cardinals didn't even need Lefors to demolish Cincinnati 70-7. To put the point total in perspective, the most scored by the Cardinals since 1955, was more than what the Louisville basketball team scored against the Bearcats last season.

Meanwhile, the Green Wave offense has been averaging 45.2 points per game in its last four wins. Last week freshman Richard Irvin, making his first start, threw his fifth touchdown pass of the game with 43 seconds left to help Tulane beat TCU. However, the defense has been wildly inconsistent this year, giving up an average of over 30 points per game.

"[The Green Wave] are playing very well offensively," Louisville Head Coach Bobby Petrino said. "They've got some really talented receivers, a good running back, and [Richard Irvin] made some big plays down the stretch to win the game last week. Defensively, they're struggling a little bit, and they're not the biggest group that we've played all year. But they're going to angle and move and mind-game, and it's going to be important for us to block their movement up front."

Senior Chris Bush pulls in the winning touchdown against TCU and looks to be a big part of the Wave offense against Louisville.

the road against a ninth-ranked Miami Tulane in the game, and if Richard Irvin and the Tulane offense can step up against an underrated Louisville defense, the Green Wave could be headed to a post-season for the second time in three years.

Any mental lapses or hesitation by the defense, especially early, could lead to a Louisville rout.

However, if the defense can keep the Tulane in the game, and if Richard Irvin and the Tulane offense can step up against an underrated Louisville defense, the Green Wave could be headed to a post-season for the second time in three years.

Irvin takes charge to lead Wave to win over TCU

Dan Jay
contributing writer

TCU came into last Saturday's game against Tulane looking to close out their Conference USA tenure with a win. Through the first 56 minutes, it looked as though they would succeed. Instead, two players who were only backups a couple of weeks ago helped engineer a game-winning drive for the Green Wave, sending the Horned Frogs off with a loss and keeping Tulane's hopes for a possible bowl berth alive.

While Tulane was able to match every point put up by TCU throughout the game, the Green

Wave was unable to secure a lead until the final minute. A fierce defensive stop at Tulane's goal line kept the Horned Frogs out of the end zone and Tulane within three points, but left it having to go the entire length of the field with less than four minutes to play.

Showing a maturity rare in young players, redshirt freshman quarterback Richard Irvin calmly drove the Wave 39 yards, culminating in a 12-yard touchdown pass to senior wide receiver Chris Bush with 40 seconds left to put Tulane up 35-31. Bush had a great game, finishing with 136 yards and two touchdown catches.

"Going into that final drive, I

was just thinking, 'Rock and roll, let's do this,'" Irvin said. "We practice this every week. [Bush] made a heck of a catch."

Any doubts there may have been about Irvin's abilities as a starting quarterback were silenced by his play. He finished the game 22-of-37 passing with five touchdown passes, and only one interception. The five touchdowns were the second highest single game total by a Wave signal caller this year, and more than double his previous output for the whole year.

Tulane won the coin toss and deferred receiving the ball until the second half. That decision almost proved to be the Wave's undoing. On their first possession, TCU marched down the field with seemingly no effort, quickly taking the lead and the momentum in the game. Tulane was forced to play catch-up for the rest of the game, starting with the next drive.

After the Horned Frogs' first drive, Tulane responded with a score of their own, a 3-yard pass from Irvin to Roydell Williams. That grab was Williams' 34th career touchdown, setting a new C-USA record for career touchdown catches.

The two teams then finished off the quarter with a pair of three and outs. TCU began the second quarter as they had started the first, going 69 yards for a score. Fifty-two of those yards came on a third down pass to running back Robert Merrill, highlighting the difficulty Tulane had at times containing TCU in third and long situations.

As they were able to do the whole game, Tulane matched the Frogs' score with a touchdown of their own, tying the game up at 14. The Wave's yardage was accounted for almost entirely by running back Matt Forte. After his break-out game against Army, the freshman had another strong outing in Fort Worth, with 135 all-purpose yards for the day.

While he didn't find the end zone this game, Forte still made some key plays to keep Wave

Freshman signal caller Richard Irvin took over right where Lester Ricard left off leading the Wave to a come-from-behind win over TCU.

the basement

I want my hockey

Ben Eisenberg
contributing writer

Something is missing on the sports landscape.

Sure, the NFL is in full swing, basketball season is getting underway and Green Wave football is actually putting together an impressive run.

The Boston Red Sox even won the World Series in thrilling fashion, which was perhaps the greatest thing to happen to me to at this point in my life. But once the hangover of the Red Sox championship wore off I realized how badly I miss the National Hockey League, which appears ready to completely shut down the 2004-2005 season.

Wait, what was that sound you just heard? It was the sound of 95 percent of our readers simultaneously turning the page at the mere mention of hockey. And that is

perfectly fine with me. I am not writing to convince you to like or watch hockey, because I know that there are a few true hockey fans here at Tulane, and this article is for them. I hope the NHL realizes how badly it is hurting itself and its fans.

One of the things that makes hockey so enjoyable to watch is the total dedication to the game that the players seem to show whenever they lace up their skates, an element that is missing in other American professional sports.

Only a hockey player would willingly dive in front of a piece of frozen rubber fired at 90 miles per hour with no hesitation.

Only in hockey do athletes take pride in being considered "grinders," who make their living doing the little things like body checking in the corners and forechecking as opposed to putting up big numbers. In hockey,

grinders are as valued and loved by fans as the goal scorers who make the SportsCenter highlights.

Hockey superstars show the same dedication to the game as role players with the exception of a few (Jaromir Jagr, I'm looking in your direction. Jagr can never be forgiven for the lackluster attitude he brought to Washington no matter how many goals he scores in the future). Colorado Avalanche forward Peter Forsberg played with broken bones throughout the playoffs a few seasons ago in the ultimate contact sport.

Pittsburgh Penguins legend and owner Mario Lemieux loved the game so much that he came back and played for the Penguins as the team's owner, deciding to play through tremendous pain after a troublesome back surgery which forced him to retire in the first

Volleyball misses mark

High expectations go unfulfilled in difficult season

Stephanie Bissell
staff writer

The Green Wave wrapped up another winning season under the guidance of Head Coach Betsy Becker. After closing out the regular season with a 16-9 record, Tulane earned the fifth seed at the Conference USA tournament.

The Green Wave emerged victorious in the first round after a four-game battle with 11th seed Charlotte. They then advanced to the quarterfinals where they were eliminated by third seed Marquette in three games.

After the C-USA tournament, Tulane went on to play in the SEC/C-USA challenge where they faced off against LSU and Alabama. The Tulane-LSU match went to five games and resulted in a 3-2 win for LSU and Tulane's first loss to an in-state team since the 2002 season.

The defeat by LSU snapped a 13-match winning streak against

for the Green Wave against in-state teams.

Tulane ended the season with a 3-1 loss to Alabama.

The season, which was the last for the Green Wave's four seniors, was a rollercoaster ride that included both a five-match winning streak as well as a five-match losing streak. Tulane also lost its starting setter, junior Katie Case, halfway through the season to a knee injury.

"I thought we overcame adversity as a team throughout the year, and that will help the members of this team well after their playing careers are over. We lost a leader in Case, and we had some freshmen play integral roles for us all year," Becker said. "We had some quality wins this season, and that is something we can build on for next year. Kelli Dickson in the libero spot and Sarah Weiland on the left side will be a solid foundation for next year's team."

Tulane will lose outside hitters Anastasia Kenon, Lindsey Norman and Iman Houston, as well as four-year starter and two-time second-team all-Conference USA player Deva Fowler.

"[Fowler] is the consummate team player, and is a real force at the net both offensively and defensively," Becker said. "Fowler is one of the best blockers in the conference."

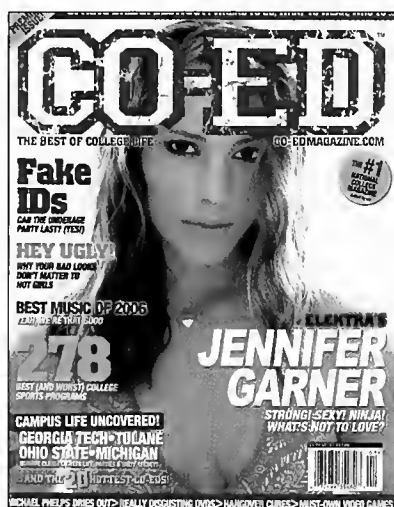

Despite these losses, next season looks promising as the Green Wave will return nine players, including freshman standouts setter Brittany Esser and outside hitter Weiland.

Though having a broken finger, Esser took over for Case. Weiland scored a double-double in four of the last six matches and broke a C-USA tournament record with seven aces in Tulane's match against Charlotte.

Although no Tulane team has ever appeared in the NCAA tournament, it remains one of Becker's goals for next season.

CO-ED features Tulane

The cover of CO-ED magazine highlights articles about college life and a section on Tulane.

Margaret Brooke
senior staff writer

CO-ED Magazine's premiere issue debuted Jan. 4 with Tulane as one of four universities featured in the magazine. Tulane students contributed both photos and articles, while some modeled for the magazine. Other

schools featured in the magazine are Ohio State University, Georgia Tech and the University of Michigan.

David Allen Liebler, founder of CO-ED magazine, said Tulane was chosen for the first issue because of its Division I status, geographic area and connection with Barnes and Noble. The campus bookstore is a Barnes

and Noble affiliate, and CO-ED magazine's distribution contract ensured that Tulane students would be able to purchase the magazine on-campus. Liebler stressed that Tulane was not chosen for its reputation as a party school.

Members of the "Hullabaloo" staff were contacted by CO-ED Collegiate Editor Julie Gordon in September 2004 to gauge their interest in writing for the magazine. Seven "Hullabaloo" staff members wrote short articles for the magazine on topics ranging from nightlife and social events to athletics and famous alumni. Twelve Tulane students were recognized in the magazine for their contributions.

Each issue of CO-ED showcases five models chosen from each school for the fashion shoot and one from each school is selected as "Miss University." Students are encouraged to vote online for their favorite "Miss University" throughout the year and the winner will be crowned "Miss CO-ED," and given a \$25,000 modeling contract from New York Model Management. Gordon came to visit campus in mid-October to meet with members of the Tulane community and to organize and oversee the photo shoot of the five models from Tulane. The models were chosen by a team of CO-ED staff led by Kristyna Kane, the magazine's style director.

The Tulane administration signed a contract allowing CO-ED to feature the University.

"This [magazine] was something that the students wanted to pursue ... and it was a good opportunity for the students to write about their school," Director of Public Relations Michael

UNO paper set adrift

'Driftwood' shut down due to debt, staff surprised

Meera Unnithan
min section editor

The entire staff of the University of New Orleans newspaper, the "Driftwood," found themselves with an early Christmas surprise this past December: They were fired.

UNO Chancellor Timothy P. Ryan issued a memo Dec. 6, 2004 to the staff of the "Driftwood," effectively shutting down publication of the paper for financial reasons. In his memo, Ryan stated that "the 'Driftwood' has been in debt for some time now ... [and] the University cannot afford to continue absorbing this debt and as a result I am taking the regrettable but necessary step, effective immediately, of suspending publication of the 'Driftwood.'"

The paper had been in financial trouble for some years, and this year the operating budget was at \$89,000 and the paper had a cumulative deficit of \$128,000, according to a Times-Picayune article published Dec. 8, 2004. The "Driftwood" has been operating since 1959.

"Driftwood" staff members expecting to work through the holiday break instead found themselves instructed to clear out their personal belongings from the newspaper office under the supervision of a University employee. Locks to the office door were changed shortly after.

"It's the way he did it that's really insulting. He even went out of his way, personally, to stop our last paycheck. Our faculty advisor signed off on our last week's pay, and [Ryan] went to the payroll office to stop the checks ... They basically just

washed their hands of us. Nice, huh?" Caleb Frey, managing editor of the "Driftwood" prior to its shutdown and UNO senior majoring in English, said.

One of the reasons cited for the fiscal troubles of the newspaper was a circulation of 6,000, were salaries paid to staff members. According to Frey, the "Driftwood" was half-funded by University student fees and half-funded by revenue generated by advertising.

Frey confirmed that some staff members were paid for their work on the paper, but said that it was also a form of work-study for some students, and students had the option of getting credit hours for their participation on the paper. Frey said the school had not made arrangements to assist students using the paper as work-study to find new employment.

Members of the "Driftwood" staff and faculty advisor Peter Busowski had met with both Ryan and Provost Rick Barton to discuss the financial situation of the paper, but staff members indicated they had no idea the paper would be shut down.

In a notice posted on the "Driftwood's" Web site, Frey urges members of the UNO community to contact the chancellor in an effort to reinstate publication of the paper. In response to the Web site article, many students have posted online feedback regarding the matter.

"Driftwood" editor-in-chief at the time of the shutdown Meredith Bailey addressed readers of the paper with the statement "I am saddened by the University's decision ... Our student newspaper is a forum in

which students and other members of the diverse and growing UNO community are heard and informed of important news and events. It is our voice and though it has been silenced for a brief period, we can still be heard."

Deborah Mortellaro, former editor-in-chief of the "Driftwood" from 1996-98, contacted the Southeastern Journalism Conference, for information on the legality of the shutdown, with regard to a possible violation of First Amendment rights. Mortellaro stated that during her tenure as editor, she and former "Driftwood" faculty advisor Don Lee Keith, who died in July 2003, "reviewed the budget together every month, and he did not allow me to go over budget ... I inherited a huge debt from the editor before me and it took both of my years to get us into the black."

UNO does not have a journalism program, so many students hoping for a career in journalism looked to the "Driftwood" for valuable experience. Amanda Brown, news editor of the "Driftwood" prior to the cessation of publication, said in a posting on the paper's Web site "I really did not know what I wanted to do with my life until I started working for the 'Driftwood.' Not only did I become a good writer, I became a better person. I'm going to be at UNO for four more semesters. I hope 'Driftwood' will re-open soon so I can have a part of my life back." Ryan stated in his memo that he intends to have the "Driftwood" reinstated "no later than fall semester of 2005."

Former TUPD cop honored

Leah Barber
news editor

Each year, "Gambit Weekly" names an outstanding citizen of the city as the New Orleansian of the year and publishes a feature story about their achievements. This year, however, they gave tribute to hundreds. The Jan. 4 issue honored New Orleans' "citizen soldiers," including Coast Guard reservist and former Tulane University police officer Lomas Garrett.

Garrett was called to active duty in July of 2003 and served

Garrett returned to Tulane in June of 2004 and resigned from the Tulane University Police Department in order to take a full-time position with the U.S. Coast Guard.

In July of 2000, a bicycle thief shot Garrett in the leg during a chase. Garrett still managed to catch up with the thief, who was convicted of attempted murder and sentenced to 25 years in jail.

"He was definitely a policeman's policeman. He loved police work," TUPD officer Paul Aranda said.

"Lomas was like a politician ... if he knew anybody that had a little spat ... he tried to smooth it over. He was like a big brother," Aranda said.

Garrett can still be found around campus, visiting with his old colleagues over a cup of coffee.

"He was a real good officer ... he got along well with the students."

KEN
DUPAQUIER
DIRECTOR OF
PUBLIC SAFETY

Although he was not stationed in Iraq, he gained a great respect for what the soldiers there are dealing with.

Before he went to Kuwait, Garrett patrolled Tulane's campus on bicycle.

"He was a real good officer, we were happy to have him for the amount of time we had him," Ken Dupaquier, director of public safety, said. "He got along well with the students."

Whenever he comes on campus, I talk to him, and he usually hangs around at PJ's," Aranda said.

Garrett began his police work as an officer with the New Orleans Police Department in 1994 and was an officer at Delgado Community College from Sept. 1997 until Jan. 1998.

He joined the reserves in 1999 and now works full time as a reservist in New Orleans monitoring port security.

Know Your Campus Career Services looks to expand opportunities

"Know Your Campus" is a recurring column in which the "Tulane Hullabaloo" will showcase a Tulane organization, department, student, staff or faculty member, in the hopes of improving campus awareness. The first subject for "Know Your Campus" is the Tulane Career Services Center.

Sasha Redman
senior staff writer

Students looking for the perfect internship, job, summer job or those wondering what their major can lead to may find the answer at the Career Services Center.

"Every student ... should be knocking on our door and finding out what we are all about," Roberta Kaskel, executive director of career services and student employment, said.

The counselors at the Career Services Center are Tulane's local professionals that students can turn to for advice on resumes, interview skills and job search techniques. Kaskel sees their purpose as "helping students move through the process of forming a vocational identity, acquiring the experiences needed to pursue that identity and then to actually engage in the search for either a position or graduates similar opportunities."

In the summer 2004, the Career Services Center merged with the former Office of Student Employment. The latter office's role was to help Tulane students find part-time work during school.

"I am really excited to have the opportunity to merge these two offices, because when you think about it, all the opportunities that somebody could have as a student employee really start to develop that professional identity," Kaskel said.

To simplify matters, Kaskel explained the three main steps of the job process that the Career Services Center helps students through during their college career. The first step is to help students evaluate who they are, their interests, values and other factors that can help students choose their studies at Tulane. During the second step, the counselors help students find ways they can explore those interests and gain experience. Finally, the Career Services Center helps students search for a full-time job, an internship, a summer job or a graduate or professional school.

The Career Services Center offers a variety of services beyond career counseling and helping students with their resume writing and interview skills. Some of the additional services include connecting students with alumni through the "wave-

LEE SAKON/PHOTOGRAPHY EDITOR Roberta Kaskel, executive director of career services and student employment, hopes for increased student participation.

link" Web site, assisting or critiquing students' graduate or professional school applications and hosting career fairs and workshops.

In future years the Career Services Center hopes to offer educational opportunities designed to address the different issues a student faces each year. Through these opportunities the Center hopes students will be able to relate what they are doing academically with what they plan to do after graduation, whether in the workforce or graduate school.

Currently at Tulane, only 30 to 40 percent of the student body in a given year takes advantage

of the Career Services Center. Kaskel expressed a desire to raise this number to 80 percent through the new programs that are being established. The Career Services Center is starting what Kaskel called "a community outreach approach," making a push to go to the students, instead of waiting for the students to come to them.

"All of the counselors are assigned to be specific liaisons to specific colleges, so that they can get to know the students and faculty in that college, and plan programming precisely for those colleges ... So we can tailor our services to the wishes and needs of students in particular majors."

Kaskel also hopes to increase student participation through the internship and job fairs, and by using focus groups, dialogues and surveys to find out what students want.

One of the new programs that will be offered this spring semester for engineering students is a job search club. Career Services Center will not be running this club, instead they plan to be facilitators, while the students run the club helping one another with the job search process. Kaskel hopes to see "students more involved in the day-to-day work, in forming the philosophy and management of this office."

A program to promote this goal includes a student advisory board to their office. This will enable the Career Services Center to hear directly from students what types of services they want offered. During this semester the Center is evaluating student interest in becoming peer advisors to help other students with resume critiques and mock interviews, and hopes to have a program established and running by next fall.

The Career Services Center gives students "the opportunity to bounce your ideas off of someone, ... hear about other people's experiences, ... delve deeper into contacts we might have in our network that you have not had an opportunity to meet yet ... [like] local folks who are really invested in the success of Tulane students, some might be

SEE CAREER: PAGE 6

What you missed while you were on break

Chris Burcham
Assistant sports editor

For those students who left the New Orleans area during winter break, the 'Hullabaloo' has compiled a summary of the main local sports happenings over the break. Among the major Tulane headlines are the women's basketball team winning the Tulane/Doubletree Classic and the University's extension of football Head Coach Chris Scellio's contract through 2009.

Men's basketball finishes non-conference schedule on hot streak

Taking on an easier slate over break, the men's basketball team responded well by beating four of its five non-conference foes and taking third place in the State Farm Sun Bowl Classic in El Paso, Texas.

The team opened up the break against Savannah State and needed a big second half to pull away from an 0-13 team. Quincy Davis (17 points, nine rebounds) and Marcus Kinzer (14 points, eight assists) led the Green Wave to 74-55 victory.

Against North Carolina A&T, the men used another big second half to take command, topping the Aggies 73-54. Davis again led the Green

Wave in with 21 points and 12 rebounds, and Vyatas Tatarunas grabbed his first double-double of the year with 12 points and 11 rebounds.

In El Paso, the team was able to shake off a tough loss to the Princeton Tigers in the first round to rout Alabama State 71-59 in the final.

Against Princeton, Tatarunas grabbed another double-double to lead the Green Wave in points with 15 and rebounds with 11. Against Alabama State, Taylor Rochestie was one of four players in double figures with 19 points.

New Years Eve brought the Virginia Military Institute to Fogelman Arena and the Green Wave used an 18-0 second half run to take the win. Rochestie led the Green Wave with 22 points, Kinzer had 17 points and 10 assists, while Davis had 19 points and 10 rebounds.

The Green Wave opened its Conference USA schedule against the Saint Louis Billikens. Tulane had its worst offensive performance of the year, scoring only 41 points. Quincy Davis was the only Green Wave player in double figures with 10 points and the team as a whole shot 34.8 percent from the field while committing 19 turnovers, which St. Louis turned into 18 points.

Women's basketball falls to No. 1 LSU

The women's basketball team opened the winter break with one game in mind, a matchup against No. 1 LSU in Baton Rouge, Jan. 2.

First on the schedule, however, was a 73-68 win over Nicholls State. Lakellia Hampton led the team with 18 points and grabbed nine rebounds in the win. D'Audra Henry filled the stat sheet with 10 points, six rebounds, five assists, five steals and three blocks.

Against Portland, Henry and Hampton again combined for the bulk of the scoring with 14 and 21 points, respectively. Tulane was able to use its size to out score Portland 42-20 in the paint and 29-18 off turnovers en route to a 68-57 win.

In the opener of the Tulane/Doubletree Classic at Fogelman Arena, the Green Wave met Stephen F. Austin and stayed close the whole game, winning on a Henry layup with 34.9 seconds left.

Henry posted her first double-double of the season in the game with a career-high 25 points and 12 rebounds. She fell just one assist shy of a triple-double with nine assists. Hampton added 23 points while soph-

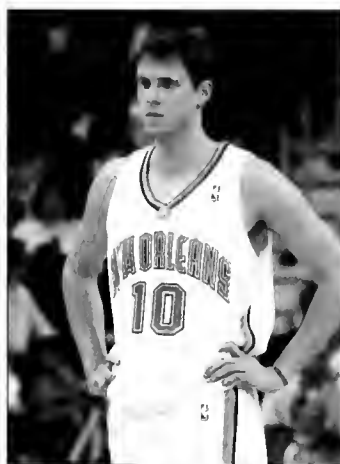

omore Jam Montgomerie added 16 points to advance to the tournament championship.

In the title game, the Green Wave beat Pepperdine 62-49 for its eighth tournament title in the nine-year history of the tournament. Henry again led the team with 15 points and earned MVP honors for the tournament. Hampton added 21 points and eight rebounds on 7-for-16 shooting.

Finally, the long-awaited showdown with in Baton Rouge arrived. Hampton did her best to keep Tulane in the game, going 9-for-18 from the field for 24 points and grabbed 14 rebounds, but it was not enough to overcome the Tigers' athleticism and the Green Wave fell 79-45. LSU used a dominant inside defense to block 12 shots.

Looking to overcome the loss earlier in the week and open C-USA play with a win, the Green Wave hosted Houston and kept it close the whole game. With 1.6 seconds left, Henry's jumpshot just missed its mark and the Green Wave fell 55-54.

Next year, Saints fans

Chaitanya Nandipati
Staff writer

There's always next year. It seems like I tell myself those same words after every Saints season. But this season was different. For the first time, I can't wait till next season.

For once, Jim Haslett's Saints didn't fold in December. For once, the Saints played solidly in all three phases of the game. For once, they gave themselves a shot in the final game of the season.

For 15 fleeting minutes as the New York Jets were locked into a battle with the St. Louis Rams, it looked as if it was going to be the best start I could have hoped for in the new year. How ironic, though, that it was New York kicker Doug Brien, a former Saint, who controlled the Saints' playoff hopes with his right foot and eventually pushed the ball wide right.

Perhaps it was a little payback to the Saints for cutting him following the 2000 season.

It is unfair, however, to lay the blame on the Jets for ruining the Saints season. That falls solely on the canyon the Saints dug themselves into at the start of the season. In retrospect, judging by the way the Saints played for three quarters of the season, they didn't deserve a playoff spot. The Saints didn't beat a team with a winning record all season, not counting a Falcons game where most of Atlanta's starters were rested.

The ugly play for most of the season put Haslett on the hot seat, and even owner Tom Benson came out and said the Saints played like a high school team, strong words from a man who usually keeps to himself. Tension between the front office and Haslett, Benson's comments and the potential relocation of the team to Los Angeles made for an even more interesting season.

However, the last four games of the season have given me more reasons for optimism than I've had for a long time. The defense, last in the league for most of the season, stepped up the last four games.

The linebacker corps, starting two rookies, improved dramatically towards the end of the season. The Saints seemed to find two solid corners with the midseason acquisition of Mike McKenzie and the emergence of little-known Fakhir Brown. The defensive line, which was billed as the strength of the defense at the beginning of the season, finally lived up to the off-season hype, forcing pressure on the quarterback more consistently towards the end of the season.

Will Smith finally showed the same playmaking ability in the NFL that made him a top 10 prospect coming out of college.

The offense finally made use of its enormous talent down the stretch. Deuce McAllister returned to his old form after an early season injury. The wide receivers showed off their playmaking ability and for once played consistently as a collective unit, not dropping balls or running bad routes, but unless quarterback Aaron Brooks becomes more consistent, none of this will matter and the Saints won't be going anywhere for a long time.

Most importantly this off-season, the state of Louisiana must find a way to keep the Saints here. "Los Angeles, Saints! just doesn't have the same ring. Where would the diehards chant the "whodats" after every game? Where could we sing, "When the Saints Go Marching In?"

The Saints are the biggest rallying point for the city and it would be one of the darkest days in New Orleans if the Saints were to relocate. Yes, I grieve after every lost season, but I would much rather grieve for another 15 seasons than not grieve at all.

Chaitanya Nandipati is a Tulane College freshman majoring in biomedical engineering. Even if the Saints move to LA, Chaitanya will still chant the "whodats" wherever he darn well pleases. He can be reached at cnandipa@tulane.edu.

STEPHEN DAILGEE/STAFF PHOTOGRAPHER
Former Heisman Trophy winner Danny Wuerffel abandoned his NFL career to teach the students of New Orleans' 9th Ward. Behind him sits the vacant lot where he hopes to one day build Desire Street Academy's football field.

Jason Lieser
Sports editor

With professional athletes, the phrase "reinvesting in the community" comes up fairly often. It refers to the way players donate parts of their salary to certain charity organizations or community groups.

For Danny Wuerffel, however, the cost of contribution means more than just a simple financial donation. Wuerffel, who played seven seasons in the NFL after winning the Heisman Trophy and a national championship at Florida, is investing not only his money but also his life into the New Orleans community.

"On one hand, from the outside, it might appear like it's really noble and sacrificial, but from my perspective it was just a natural thing to do next," Wuerffel said. "It's what I wanted to do and it made the most sense, so I was just thrilled with the opportunity."

When Wuerffel was drafted by the New Orleans Saints in 1997, he was sent a brochure about Desire Street Ministries. Desire Street Ministries was founded in New Orleans' 9th Ward, a predominantly black community, by Mo Leverett in 1990.

Since 1998, Wuerffel had been intermittently involved with various aspects of the ministry, but after he retired from the NFL last January, Wuerffel enthusiastically accepted the position of Director of Development.

"My plan was to try to keep playing and I was

A new desire

Former Saints quarterback
Danny Wuerffel retires from
football to follow his heart's
calling at New Orleans'
Desire Street Ministries

going to start working here part time, but I just felt so passionate about being here and the good I could do here," Wuerffel said. "My wife and I were ready to settle down so it was a pretty easy decision at the time."

"I've been [in New Orleans] for so long and I'm so familiar with what's going on. The whole story is amazing. You just can't ignore the great

things that are going on here so I just wanted to be a part of it."

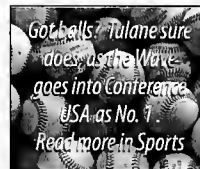

To many, however, the choice to leave fame and fortune does not appear so simple. Wuerffel's NFL numbers were never outstanding, but it is almost certain that he would have made a professional roster, especially considering that only 17 of the league's 32 teams had the same starting quarterback for every game in 2004.

"I feasibly could have been on a team and playing this year, but I was ready to move on and had something that I was looking forward to doing," Wuerffel said. "This year I was watching training camp and I was just so thankful I was here."

Desire Street Ministries is what served as the starting point for the Desire Street Academy program, where Wuerffel is the associate athletic director. DSA is a private Christian school for boys beginning in seventh grade through high school, which will graduate its first class next year. The school also has a partnership with Tulane that brings university students in to tutor DSA students.

"I've learned a lot about education regarding kids with disadvantages in life," Newcomb College sophomore Krystina Kemp, Community Action Council of Tulane University Students' program coordinator for ACT tutoring at Desire Street Academy, said. "Of course they don't have the monetary advantages that most Tulane students had growing up."

Relocation of Medical School underway

Christina Le
assistant news editor

The Tulane University School of Medicine has recently finalized negotiations to relocate about 1,000 of its students, faculty and staff to the 1555 Poydras Street office building by fall 2005.

"This [move] will provide an outstanding opportunity for the School of Medicine to accommodate its expanding portfolio of academic programs," Paul Whelton, senior vice president for the health sciences, said.

Whelton explained that a primary motivation for the relocation of the medical school comes from Tulane's goal to "strengthen its educational mission."

The project had originally been settled in December 2003, as Tulane agreed to purchase the former Krauss department store building on Canal Street. However, the settlement fell through when Tulane officials realized the infrastructure of the building would not be adequate for their purposes.

After months of petitioning for proposals from several building agencies, Tulane began negotiations with the Poydras building's leasing agency last fall. The lease entitles the medical school to occupy floors seven through 14 until 2017. It also allows the University to erect a lighted Tulane University logo on top of the building.

Tulane was offered a bid on the building because the space recently became available after the departure of Exxon Mobil Corp. The building has been a much sought-after investment since it was named the 2002 local, regional and international Build-

ing Owners and Managers Association International office building of the year. The award was given to the Jones Lang LaSalle leasing and management team that currently handles the building's business.

The School of Medicine is currently located at 1430 Tulane Avenue. The building houses classrooms as well as many of the medical school's faculty offices and research laboratories.

Tulane is constructing a new lobby area for the Tidewater building as well as a new auditorium and conference rooms for the School of Public Health and Tropical Medicine.

The University is also building two specialized biosafety laboratories in anticipation of the move.

The relocation of the medical school is only the beginning of a major effort to expand the downtown Medical District. Tulane is currently working in collaboration with Louisiana State University to build a new Cancer Research building for the Louisiana Cancer Research Consortium.

Plans are also developing for a new building to house the New Orleans Bioinnovation Center. The center, which will be located opposite the Tidewater building, will provide laboratories for researchers to develop and commercialize their inventions, such as gene therapy treatments.

Apart from the immediate downtown area, Tulane is working on a construction program for the Tulane National Primate Research Center in Covington. The program will include eight federally funded Regional Biodefense Laboratories, which will advance infectious disease research at Tulane.

"This [move] will provide an outstanding opportunity for the School of Medicine to accommodate its expanding portfolio of academic programs."

PAUL WHELTON

THE HEALTH SCIENCES

Celebrating Week for Peace

Local universities commemorate Martin Luther King, Jr.

Jaclyn Rosenson
editor-in-chief

The 19th annual Martin Luther King, Jr. Week for Peace brought Kwesi Mfume, outgoing president and CEO of the NAACP as the keynote speaker and other commemorative events to Loyola, Xavier and Dillard campuses last week.

Tulane student Lucy Killen was honored as one of the recipients of a Martin Luther King, Jr. award for outstanding service.

This year's week started with an interfaith service at Dillard University Jan. 17, a convocation and lecture at Xavier Jan. 19 and a candlelight march that started at Xavier University last Friday afternoon and ended with Expressions of Unity at Loyola University in the evening.

Although Tulane did not host any of the three events, the University co-sponsors the week with the three other schools. There were Tulane students and faculty present at every event. Carolyn Barber-Pierre, assistant vice president and director of student programs, chairs the committee that plans the events for the week.

The convocation ceremony was led by the Rev. Jeffrey M. Ott, university chaplain at Xavier. Ott read Psalms 66: 8-9 and encouraged dialogue among students. Dr. Lester Leifon, senior vice president for academic affairs and provost at Tulane University, followed with a welcome address centered around this year's theme: "Building a Culture of Peace."

Dr. Jill Rovaris, director of the Educational Resource Center at Tulane University then spoke in place of her husband Dr. Dereck Rovaris, who was home with the flu. Rovaris gave a brief history of the MLK committee and introduced the Martin Luther King, Jr. awards for outstanding service. The student awards were given to students with a strong community service background and a dedication to improvement.

PHOTOS BY JACLYN ROSENSEN/STAFF PHOTOGRAPHER

Above: Some participants held signs, some just held candles. Right: The unified Greek step show at Loyola was an energetic element of the "Expressions of Unity" program.

Xavier University and Killen were recipients of the award.

Killen said receiving the honor was a humbling experience. "To think I have been able to contribute to Tulane and New Orleans [in] the ways Lester [Leifon] listed makes me proud of my doings," Killen said.

The Martin Luther King, Jr. Presidential Lifetime Achievement award was presented to Lois Edward Elie, a native of New Orleans who is currently a lawyer and was involved with the Civil Rights movement. Elie went to Howard University, Dillard University and Loyola University. He has represented the Congress for Racial Equality, the National Association for the Advancement of Colored People, the Bogalusa Voter's League, the Deacons for Defense and the Black Panther Party of New Orleans.

Dr. Norman Francis, president of Xavier University, introduced Mfume who began his speech with the comment, "like I. Lo said to Ben Affleck, 'I won't keep you long.'"

Mfume referred to the biblical story about Joseph and his brothers as an example of why the past should be remembered so it is not repeated. He quoted an old African proverb which says, "It's not what you call me, it's what I answer to" in discussion of redefining and knocking down stereotypes.

"There will be those who counsel you after this day, those who counsel you to be silent and look the other way... never stand mute in the face of injustice," he said.

Mfume quoted King and said in conclusion, "Now is the time and today is the day."

The speech ended with a standing ovation and was followed by a short question and answer session.

One hundred fifty people, about 50 of whom were from Tulane participated in the candlelight march Friday. A short speech was given by Ted Kwant of Loyola University in which he praised the students for staying late at the polls in November to make sure their voices were heard.

The march was peaceful with students holding their candles and ran-

domy singing or joking with others.

Kristin Lynch, a sophomore at Tulane and a member of African Congress at Tulane, African American Women's Society and National Society of Black Engineers shared her thoughts on the week. Lynch said it was important for her to take part in the week's events as a way to remember.

"It is something to look forward to each year," she said.

Lynch attended Mfume's speech and said she "thoroughly enjoyed it."

When asked about the representation of Tulane students at the events she said it "was very sad... black and white and Asian, Hispanic, everybody, it was poor."

Lynch thinks it may have been

Bush supporters visit D.C.

PHOTO COURTESY ROCKY THOMPSON
Rocky Thompson, Jewelyn Wellborn and Kathryn Dahlberg attended a taping of the CNN show "Crossfire" during their trip to Washington, D.C., for the presidential inauguration.

Leah Barber
news editor

While many college students across the country saw the Jan. 20 presidential inauguration as the perfect

opportunity to protest the re-election of George W. Bush, a small group of Tulane students chose instead to show their support in Washington, D.C.

Five members of the Tulane Uni-

versity College Republicans, Thomas "Rocky" Thompson, Michael Johnson, Cade Cole, Jewelyn Wellborn and Kathryn Dahlberg traveled to a very snowy D.C. last week to attend the inauguration and some of its festivities.

"I support the president," Wellborn said. "For me, going to the inauguration was kind of like going to Disneyland and meeting Mickey Mouse."

Wellborn, a sophomore majoring in political science and international development, said she appreciated the fact that people came for a different reason.

"It was good to see people supporting the president and his goals and wanting to work with his agenda, but it was also good to see people voicing their different opinions," she said.

Dahlberg, a Newcomb freshman and another member of the Tulane group, said they were standing off to one side of the stage in one of the first rows of standing audience members.

"We had a good view of the parade route," Dahlberg said, "and we could see the president off in the distance."

After hearing the president's speech, Wellborn said she was very impressed with the topics covered and disappointed with the media response.

"The only thing they got was that he hadn't mentioned Iraq by name. That's all anyone got out of a 21-minute speech. I got that goals outside of the war and domestic issues are important, too. No one seemed to want to discuss the domestic agenda... there was just more concern about what he didn't say about Iraq," she said.

Dahlberg said that plans to attend the inauguration began election night and that they requested tickets and booked flights before Christmas.

"Sen. David Vitter was actually on the same flight with us to D.C.," Dahlberg said. "And his staff invited us to a welcome reception at the Army and Navy building... and we met a bunch of people from the national and state party."

In addition to meeting many of their fellow Republicans and other college students, the group got tickets to attend the CNN show Crossfire, which will be taken off air in a few weeks.

"It was a good experience to be one of the last groups of people to see it," Dahlberg said.

Thompson said he enjoyed the entire trip and was glad to be able to be a part of the inauguration ceremony.

"My favorite part was the opportunity to gather with people from all over the nation to see this great event in American democracy," he said.

Tsunami relief concert on campus

Kate Dearing
staff writer

McAlister Auditorium served as host to the New Orleans Southeast Asia Tsunami Relief Concert Jan. 22, an event that showcased dances and music from around the world, especially the countries most affected by the tragedy.

The Indian Association of New Orleans, Asia Pacific American Society and the Sunanda's Performing Arts Center served as the sponsors for the event.

"We made more than \$7,000 at the event," Indian Association of New Orleans Vice President Amit Ghosh said. "We had about 450 people come out, with many giving extra donations of \$2 to \$30 along with their cost of admission."

Instead of giving the money directly to a large international organization, a committee created by the sponsoring organizations will determine how the money is distributed to the victims.

Eleven groups performed at the concert, including Irish folk dancers and Indian dance troupes.

"It was a great success. It was the first time that all these performers were on the same stage," organizer

and Tulane faculty Latha Rajan said. "We're thinking about doing it every year for a different cause."

Some had friends and even family that were affected by the tsunami, but overall the members of IANO, APAS and Sunanda's Performing Arts Center just felt the need to reach out and help these people in need.

"We don't all necessarily have family that was directly affected by the tsunami tragedy, but we all felt the need to do something for the people who were," Rajan said.

Tickets were \$20 for adults and \$10 for students and children, but extra donations were strongly encouraged. All proceeds were for direct aid to the victims of the entire Southeast Asian region affected by the Dec. 26 tsunami.

Though IANO has nothing else in the works in terms of fundraising, APAS and the New Orleans United Way are having another concert to raise more money at the House of Blues Feb. 22, according to the "Times-Picayune." More information about the upcoming concert and ways to donate money to the tsunami relief fund can be found on the New Orleans United Way website at unitedwaynola.org.

Team has sights set on World Series

Ben Eisenberg
staff writer

The Green Wave enters the 2005 season amidst high expectations as the No. 1 team in the nation according to Baseball America.

Following a season-ending loss in the super regionals last season to eventual national champion California State-Fullerton, the team is armed with a core of returning talent, experience and highly touted new additions that many expect will allow Tulane to advance to the College World Series for the first time since 2001.

"This year we have a rare blend of talent, experience and depth," Head Coach Rick Jones said. "Our pitching staff is a little deeper than our 2004 World Series club, and we have experienced guys as well as talented freshmen who can contribute right away." The team is loaded with upperclassmen and is led by preseason all-American junior Brian Bogusevic. Five seniors, including catcher Greg Dini, outfielder Matt Barkett, second baseman Joe Holland, designated hitter Scott Madden and shortstop Tommy Manzella return to the lineup as well.

All six upperclassmen were starters by the end of last season in the high octane Green Wave lineup, which ranked third in

Conference USA in batting average, runs scored and slugging percentage.

Manzella, Barkett, Dini, Bogusevic and junior left-handed pitcher J.R. Crowell were all voted to the preseason all-C-USA team. Many of the returnees could have left for the major leagues but opted to stay at Tulane for another season.

"Knowing we were going to be good coming back, plus the academics of this school make people want to stay," Barkett. "We value Tulane's good academics, and we all know that baseball isn't going to be around forever."

Bogusevic will look to build upon an impressive resume from last season. He tallied a team-high 68 RBIs and led the team in total bases with 132. He also proved to be the most reliable pitcher on the staff, throwing a conference-best 111.2 innings with a 4.19 ERA.

Providing support in the order behind Bogusevic will be junior Micah Owings, a transfer from Georgia Tech who has drawn the most attention as a potential impact player.

Owings is considered by Baseball America to be one of the top returning players in the country. He can make major contributions both on the mound and in the

SEE PREVIEW PAGE 13

Jones downplays top ranking

Jason Lieser
sports editor

In his 11 seasons as the Head Baseball coach, Rick Jones has led Tulane to eight NCAA regionals in 10 years including a school-record six consecutive trips. He owns a career .676 record with a 426-204-1 record as a head coach and was named the Division I Coach of the Year award in 2001. This year, expectations are at an all-time high with the Green Wave entering the season with Baseball America's No. 1 ranking.

Head Coach Rick Jones' experienced squad has the talent they need to win.

"Hullabaloo!" How have practices been going so far?

Rick Jones: They're going well so far and I expected them to be crisp because we have a veteran club who understands what we do. There's not a whole lot of education on what our format's going to be on a daily basis so it makes it easier to get into the drills and they move pretty smoothly. We also had that fall practice period for 24 days where our freshmen and transfers were able to get their indoctrination into the program. We've been very crisp in our drills so far and we've had productive practices.

H: It would be difficult to believe that the players are not talking about the preseason No. 1 ranking.

RJ: You have to remember that to be ranked No. 1, you have to have a combination of two things. You have to have an extremely talented group, but you also have to have a lot of experience. The fact that we do have a lot of experience means that there's not a whole lot of talk about [the No. 1 ranking] because they all understand that that's a preseason, subjective poll. You cannot control perception, perception is external. It's not about perception. What we are about is what we want to accomplish as a group. That's a whole

SEE JONES PAGE 12

The curse of No. 1

Blake Roter
staff writer

In a year remembered for the end of the Curse of the Bambino, another curse quickly tears its ugly head to torture Tulane and all of Wave Nation.

It is the curse of the preseason No. 1 ranking. That rank was recently bestowed upon the unsuspecting souls of the Tulane baseball team by Baseball America.

The ranking is the highest in 113 years of Tulane baseball, surpassing the team's previous high of No. 3 in the 2002 Collegiate Baseball preseason poll. That squad, which had advanced to the College World Series the previous season, finished the 2002 campaign unranked.

The curse of the preseason number one is morbidly effective. Rarely has a team who claimed the top spot in either the Baseball America or Collegiate Baseball preseason polls has gone on to be crowned champions in Omaha. Last season's top choice in both polls, Rice, finished the year ranked 10th after failing to win its own regional bracket. The year before, preseason No. 1 Georgia Tech finished 14th.

Since 1984, only two of the teams ranked number one in the Baseball America preseason poll have gone on to win the College World Series. LSU accomplished the feat to wire lead twice, in 1993 and again in 1996, while 19 other squads over that time period were unable to fulfill their high expectations. The worst part of the curse is the unattainable expectation and the fact that there is nowhere to go in the rankings but down.

Anything less than a College World Series championship would result in a lower final ranking, this for a team that barely finished last season in the top 20 and enters this campaign with many new faces and just as many question marks.

"The big thing to remember is that it's the preseason poll," Head Coach Rick Jones said. "There's a reason you play out the season. That's how you find out who's really No. 1 and that will be our goal, to be No. 1 in the final poll."

All of Wave Nation hopes to see that goal achieved.

However, the squad must first come together and gel as a team. Newcomers, including all-American transfer Micah Owings and junior college all-star Matt Riser, have put up big numbers in the past and must continue their success while wearing olive and blue.

There are also gaping holes to fill, especially in the bullpen where someone must replace star reliever Joey Charron, now with the Toronto Blue Jays.

The Green Wave also must contend with a difficult schedule, including 11 games against top-25 competition, eight of those against perennial contenders ranked in the top 10.

Tulane will welcome No. 9 Arizona State and No. 3 Cal State-Fullerton for three-game home stands early in the campaign. The Wave lost two of three at ASU last season and lost both games to CS-F in the NCAA super regional.

The second-ranked LSU Tigers appear on the schedule twice, once in Baton Rouge and once at Zephyr Field. LSU beat the Green Wave two of three games last year and always provides stiff competition.

Tulane must welcome new players quickly to be able to handle the challenging schedule ahead. Fifty-six games test even the best teams and this squad must be prepared for inevitable losses; every team in Division I had at least twelve losses last season; Tulane will not go 56-0.

If the Green Wave can win most of the time, secure home-field in the playoffs and move on to Omaha, the season can be deemed a success. Now, with the No. 1 ranking and the target on their chest, every team will come into Turchin Stadium looking to knock off the top school in the country.

If Jones' squad can deal with that, every inning of every game of every series, then Wave Nation will have a championship to be celebrating in June. If not, then the curse of the No. 1 seed will again ring true, haunting Tulane and the unfortunate bearer of the title in years to come.

Blake Roter is a Tulane College junior majoring in political science and history. Blake has already started buying voodoo dolls to stick before each home game. He calls it superstition, we call it weird. He can be reached at brater@tulane.edu.

PHOTO: WED DISHMAN SENIOR STAFF PHOTOGRAPHER
Junior Brian Bogusevic is in the running to lead the Green Wave to its first appearance in the College World Series since 2001.

Bogusevic ready to swing away

Ben Eisenberg
staff writer

Being ranked No. 1 has brought a lot of attention to the Green Wave, and the spotlight is shining brightly on junior Brian Bogusevic, the team's leader.

Bogusevic is the biggest star of the talented Green Wave squad, and he has shown no signs of slowing down.

Nobody was surprised when Bogusevic was named the preseason favorite to win the Conference USA MVP award. After a strong freshman performance in 2003 in which he earned freshman all-American honors from Baseball America and Collegiate Baseball, Bogusevic had a breakout sophomore season both offensively and on the mound.

He emerged as the team's top offensive weapon and its most reliable pitcher. On top of that, he is also a team leader in the clubhouse.

"He has a tremendous impact as far as being one of our starting pitchers and hitting for us," senior outfielder Matt Barkett said. "In the middle of the lineup, he helped all of the rest of us out with his productivity. But it goes beyond that. His leadership through his hard work ethic runs off on all the rest of us and

makes us better."

Last season, he led the team in RBIs with 68, triples with four and total bases at 132. His 10 home runs and 80 hits tied for second best and his nine stolen bases ranked third on the team.

The outfielder's combination of speed, power and ability to get hits make him one of the elite hitters in college baseball.

Then there is his pitching, which helped bolster a Tulane staff depleted by injuries. The left-hander finished second in C-USA with nine wins and seventh in the league with 84 strikeouts.

His control was excellent as he walked only 25 batters in his first full season as a starter for Tulane. He proved to be very durable as well, pitching a conference-high 111.2 innings and tossing three complete games.

Brian is a great two-way player," Head Coach Rick Jones said. "Most people don't even realize it, but he's also the fastest guy on the club. He might be leadoff this year because he's such a catalyst and puts pressure on the defense."

Bogusevic showed no signs of slowing down during his summer when he played in the Cape Cod League, a widely known breeding ground for

Options for on-campus housing diverse, though space limited

Emily Hohenwarter
staff writer

It may be early in the semester, but now is the time that students must consider where to live next year. Many returning students choose to remain in on-campus housing and enjoy the convenience.

Although there are many options for students interested in off-campus housing and no deadline by which to sign a lease, applications for on-campus housing are available now and must be submitted Feb. 24 by

5 p.m. Housing is not guaranteed beyond the first year, but all returning students seeking housing are encouraged to apply.

On-campus options for upperclass students include Irby, Mayer, Paterson, Phelps and Willow Residence Halls, as well as Aron apartments.

Irby and Phelps are located on Bruff Quad and contain eight-person suites with exterior corridors. The suite shared bathrooms in Irby and Phelps each have four sinks and two showers.

Paterson, also on Bruff Quad, is a mixed-year dorm under the theme "substance free," which means each resident of Paterson pledges not to bring alcohol, tobacco or any illegal substance into the building. Paterson includes four-person suites with exterior hallways and doubles with community bathrooms and interior halls. It also includes laundry facilities.

"I like the clean bathrooms and the sinks we have in our rooms," freshman Shola Cardoso said. "I also like the closeness of the inside; it's not just one long hallway. I don't like always having to check in, and sometimes, quiet hours aren't quiet. But I'm living here again next year."

Mayer houses 248 students in two and four-person suites. It has interior hallways, kitchens, study and social lounges, balconies and laundry facilities.

"I like Mayer. It's better than the freshman dorms. And sometimes, it floods," sophomore Greg Verlander said.

Willow houses 318 students in two, three and four-person suites comprised of single and double rooms. Willow also has kitchens, study and social lounges, balconies and laundry facilities.

The Willow complex is also home to the Leadership Village, a selective community for motivated and involved Tulanians. Leadership Village can accommodate 60 students in single and double rooms. Single rooms share a bathroom with another single and are very spacious. Doubles have upstairs loft bedrooms and spiral staircases. Selection for leadership village is by separate application, which includes outlining a Leadership Village Action Plan, a model for how potential residents plan to become better leaders while living in the village. Core requirements for living in the Leadership Village are: a 2.5 cumulative GPA, sophomore, junior, or senior status and a desire to become a better student leader. Applications are available online at the Housing and Residence Life website, hrl.tulane.edu.

Aron Residences are three, four and five bedroom, two bath apartments for rising juniors, seniors and graduate students. All Aron residents must have junior class standing or be at least 21 years old to live in the building. All apartments are fully furnished.

"It's a great alternative to living off campus because you get all the autonomy of your own apartment with all the conveniences of living on campus," junior Adriana Lude said.

The rooms available are traditional doubles, singles and super singles, and most are suites. Rising seniors have first priority for Aron Residences. Rising juniors have first priority for single rooms, followed by rising seniors. Rising sophomores have priority for doubles and suites. Class is defined by years at Tulane, not by credits.

Also available to married and graduate students is Rosen House. The selection process for Rosen House is separate from the traditional returning-student application, and interested individuals should email rosen@tulane.edu.

All room selection is by a lottery system. Everyone who applies for housing will be randomly assigned times for housing selection, which will include when and where to meet to make selections. All selection times will be in the first two weeks of March. If no housing options remain for those students with later assigned times, they can opt to be placed on a waiting list for the next available room. Some of the waitlisted students get housing, but there is no guarantee.

PHOTOS BY LISA FRANKEL/ASST. PHOTOGRAPHY EDITOR

Returning students have the option to apply for on-campus housing next year. First-year students will be able to leave Monroe and head places. Students starting out in freshman residences like Monroe and Butler vic to move onto upperclassman housing.

Revived island plan sparks questions

Board OKs further study of project cost

Frank Donze

Times-Picayune staff writer

The questions for outmanned answers Tuesday as the Orleans Levee Board launched a re-examination of a long-dormant proposal to build a four-mile, manmade recreational island in Lake Pontchartrain east of Lakefront Airport.

But despite a long list of unknowns, the state board authorized a consultant to prepare a cost estimate for a further study that would update the project's estimated price tag — pegged at more than \$200 million in 1991 — and provide first-time parameters for how much acreage might be available for commercial development, and what the going rate would be.

If, as expected, the board finds the expense acceptable at its Feb. 16 meeting, Burk-Klempner Inc., which prepared the earlier research, would return with the new data about 90 days later.

The ambitious project, which also calls for building artificial wetlands along the shoreline to battle pollution, was hatched in 1989 under former Gov. Buddy Roemer.

Levee Board appointees of Gov. Edwin Edwards moved the idea forward in the early 1990s, boosting the investment in state and agency dollars to nearly \$3 million, the plan was shelved a decade ago by Gov. Mike Foster's administration after it became clear that money was unavailable.

The board hasn't spent a penny on the project in seven years.

The move to revisit the proposal is being led by Eugene Green, one of five new commissioners named to oversee the agency last fall by Gov. Kathleen Blanco.

Green, the former director of economic development at City Hall, has said the plan has too many potential benefits for the economy and the environment to ignore.

Furthermore, Green said during a meeting of the board's Planning, Engineering and Construction Committee, the so-called East Beach project finally would provide a recreational oasis along the eastern end of the lake to match the vast acres of green space that the board created along the western side in the 1930s.

"What we did on the western shore, we can do on the eastern shore," he said. "It could look a lot better. It should look a lot better."

Unlike the West End of the New Orleans lakefront, which is easily accessible via Lakeshore Drive and features a stepped sea wall, the east end is walled off from the lake by a levee topped by railroad tracks.

While federal aid may be available for the environmental aspect of the project, Green said, private investment would have to handle the lion's share of the costs. But after the meeting he said he believes commercial interests, possibly a large hotel chain, will step up once plans begin to take shape.

City Councilwoman Cynthia Willard-Lewis, one of City Hall's two representatives on the board, advised her colleagues to be cautious and called on Burk-Klempner to offer insight on how the project could be built in phases.

"We need to see what we can get our hands around," she said. "What is a practical, implementable strategy and not something pie in the sky."

Campaign to host special events on campus, across the country

Tabitha Edgens
staff writer

Tulane will officially launch the Promise and Distinction campaign in a two-day celebration March 16, kicking off what President Scott Cowen calls "the largest and most exciting fundraising initiative" in the school's 171-year history. Additionally, it will be the largest higher education fundraising effort ever undertaken in Louisiana.

The goal of the initiative, fully titled Promise and Distinction: The Campaign for Tulane, is to raise \$700 million "to enhance the facility, students, staff, programs and facilities needed to make Tulane ... one of the most widely respected universities in the world" according to a statement released by the university Oct. 24, 2004.

The campaign receives donations from alumni and nonprofit organizations man-

ny in the form of cash gifts and pledges, which allow donors to maximize their donation by spreading their contribution over a three to five-year period.

"Promise and Distinction: The Campaign for Tulane targets the entire Tulane constituency including alumni, friends, parents, corporations and foundations and other organizations," Luann Dozier, vice president of institutional advancement, said. "Currently, of our overall constituency groups, the majority of funds received are from alumni of Tulane University."

The plan was conceived in 1998, as a part of Cowen's 10-year strategic plan. Since its induction in 1999, the campaign has raised \$451.9 of the \$700 million goal, including the combined \$60 million gift made by (Tulane alumni? — meera) Netscape co-founder Jim Clark and Yahoo! co-founder David Filo, the largest single or combined gift ever endowed to the University. "The standard practice for cam-

paigns of this sort is to achieve approximately half of the goal before announcing the campaign publicly," Strocker said.

The University has implemented a multimedia approach to attract potential donors, using TV and print ads, as well as the two-day campaign launch. It has also called on a host of prominent alumni such as Filo, New York Yankees star Bobby Brown, "While You Were Out" host Evan Farmer and "Meet the Press" moderator Bill Monro to publicize the campaign.

The launch will feature a Presidential Concert performed by musicians of the Tulane Symphony Orchestra, "The Big Splash" party for students, faculty and staff on Gibson Quad, the invitation-only "hullabaloo" event at the Audubon Tea Room, and "An Evening of Distinction," a live, closed-circuit show broadcast via satellite featuring various aspects of the university. It will air at multiple venues across the country where the Tulane alumni popula-

PHOTO COURTESY OF TULANE UNIVERSITY PUBLIC RELATIONS

tions are greatest.

Also to be unveiled during the launch is the "Promise and Distinction" song, which the University commissioned especially for the campaign. Local songwriter Jop Epstein wrote the piece and also performs the vocals and piano. Different versions of the song, some including vocals, some instrumental, will be played during all of the launch events as well as in TV commercials and in a series of short promotional movies.

For a complete schedule of the campaign launch events, visit <http://www2.tulane.edu/promise.htm>.

Two more for men's tennis

Stephen Richer
staff writer

Excellence breeds success. Coming into the past weekend, both the men's and women's tennis teams were nationally ranked. The men were at No. 19 while the women were at No. 10.

The Green Wave men were 2-0, having defeated Southern 7-0 and Southeastern Louisiana 6-1.

The women's team entered the past weekend at 2-0, having easily defeated Florida A&M and Southern, each by score of 6-1.

The women took on No. 11 Texas Jan. 29. The match proved to be everything that one would expect from two of the nation's top teams. Unfortunately, victory eluded the Green Wave by a score of 3-4.

Five of the six singles matches went three sets; one of the doubles matches was decided by the tiebreaker.

The featured match, No. 1 singles, resulted in a loss for Tulane. Longhorn player Kendra Storm defeated the Green Wave's Maria Ivanov 5-6 in the third set tiebreaker.

Winners for Tulane were Jenny Kuehn in No. 2 singles, who beat her opponent 6-0 in the third set, Julie Smekodub in No. 3 singles and Nancy Kockott in No. 4 singles, who routed her opponent in two sets.

In doubles, Smekodub and Kockott teamed up for Tulane's lone win 8-2.

The men took on two teams the following day. First to face the Green Wave was Prairie View A&M. The Green Wave only gave up one set in the six singles matches.

Tulane's David Goulet, ranked 80th in the nation, defeated Blessing Brunzawabaya 6-1, 6-4 in No. 1 singles. Jacobo Hernandez and Ted Angelinos each won 6-2, 6-0, at No. 2 and No. 3 singles, respectively.

Later in the afternoon, Tulane faced Texas Southern. The result was much the same as earlier in the day with the Green Wave losing no sets and giving up only 30 games, while taking all seven points.

Tulane's top player, Dmitriy Koch, ranked 59th in the nation, quickly defeated his opponent, Martin Knobloch, 6-0, 6-0. Koch, with teammate Alberto Sottocorno, also won in doubles by a score of 8-2.

"[Koch] has accepted the challenge of being a guy we can count on match in and match out," Head Coach Robert Klein said.

Starting yesterday they compete at the National Indoor Team Championships in Madison, Wis. The men, who after winning twice, improved to 4-0, spend this weekend in Seattle for the Northwest Shootout where they will face No. 11 Ohio State, No. 21 Washington and No. 44 Minnesota.

Women set to soar in C-USA

Team drops game against C-USA leader Charlotte then tops ECU to move up in the conference standings

Megan Repine
staff writer

After losing to Charlotte Jan. 28 at Hanton Arena, Tulane ended its road trip on a positive note with a victory over Conference USA foe East Carolina.

Charlotte, the top-ranked team in C-USA, proved overpowering for the Green Wave and won 62-38. Tulane, however, bounced back in a nail-biting game against East Carolina 64-62.

Against the 49ers the Green Wave shot 13.3 percent in the first half and went 0-9 from beyond the arc. In the second half, Tulane shot marginally better at 26.3 percent.

Overall, D'Aundra Henry led Tulane with 11 points and eight rebounds. Lakethia Hampton added 10 points in 21 minutes. Close behind were Jani Montagnino and Courtney Simmons with six and five points, respectively.

The team snapped back after a poor performance versus Charlotte against ECU Sunday afternoon. Several lead changes characterized the first half and the Green Wave ended the first half down by just three points.

Tulane opened the second half strong, but ECU proved relentless and brought the game to a tie with just under six minutes remaining in regulation. The game came down to the final seconds when the Green Wave clinched the lead on a shot by Henry, putting the team ahead 64-61.

Henry again led the Green Wave's offense contributing 20 points. Hampton also aided Tulane's cause with 15 points, while Simmons added another 10 points to the scoreboard.

Overall the Green Wave shot 47.8 percent, hitting 22-of-46 attempts.

The Green Wave head back on the road this weekend to take on Southern Miss tomorrow at 5 p.m.

Junior guard D'Aundra Henry led the Green Wave offense against Charlotte and ECU.

Scelfo announces football recruiting class

Nephew offered scholarship; however he has made no decision due to miscommunication by Tulane Athletics

Chris Burcham
assistant sports editor

In an apparent error due to miscommunication within the athletic department one of Head Coach Chris Scelfo's 20 recruits was not sent his National Letter of Intent to sign this past Wednesday, National Signing day. What makes that error more glaring is that the recruit was Scelfo's nephew and the son of Offensive Coordinator Frank Scelfo.

"There was some miscommunication partly because people were out of town," Assistant Athletic Director Donna Turner said.

According to the "Times-Picayune," the miscommunication could have occurred because Sunday, before Athletic Director Rick Dickson left town, he said he

signed all the scholarship papers the football office needed to send to high school recruits. An offer to Anthony was not among the more than 20 papers he signed, Dickson told the "Times-Picayune."

The "Times-Picayune" reported yesterday that a scholarship offer was made to Anthony Tuesday, and Dickson said he was presented the necessary paperwork by Chris Wednesday morning, less than three hours before Anthony had intended to sign. Dickson said he recommended a tuition waiver for Anthony instead of a full athletic scholarship.

Anthony, quarterback at New Orleans Jesuit High School for the past two seasons, compiled a career 20-4 record going 10-1 last year. According to Turner,

Anthony has received the letter of intent but as of Thursday night had not signed it.

"They have a month to sign it and even if he doesn't sign it he could still come to Tulane in August on scholarship," Turner said. "The Letter of Intent restricts players from signing elsewhere but you can attend a school on scholarship if you did not sign the letter of intent."

No comment made on the status of Anthony because he was still being recruited as of the time of publication.

Anthony could have been recruited to fill the backup quarterback Richard Irvin, who was solid in his starts last year, but is reportedly transferring to I-AA Harvard. Irvin told the "Times-Picayune" that his decision was based on the

fact that Lester Ricard was installed as the quarterback for the near future and was only a year ahead of him. Harvard's I-AA status also means that Irvin will not have to sit out a year.

Normally children of Tulane staff members would have their tuition paid for by the school but room, board and books are not included in that package. The total for those extras could add up to more than \$10,000 each year.

With the exception of Anthony, this year's recruiting class was dominated by wide receivers and linebackers. Ten of the 19 other recruits were in those positions.

"I'm very excited about this class," Chris Scelfo said. "We needed to add some players in a couple of critical areas and we did

that. We lost four receivers (off of last year's team) and also graduated a couple of linebackers. Some of these receivers and linebackers will have to come in and play right away."

The Green Wave signed nine defensive players with five linebackers, two defensive backs and two defensive linemen. On offense, Chris added the five receivers, three offensive linemen, a tight end, quarterback and running back.

Of these players, seven members class earned All-State honors, including wide receiver Cary Koch from The Dunham School in Baton Rouge. Koch was named the Class 1A Offensive MVP after leading Dunham to the state title. In addition, he was first team All-District 6-1A at wide receiver, running

back, defensive back, kick returner and kicker.

Louisiana Class 5A first team members Christian Dueré, a running back out of Fontainebleau High School, Brian King, wide receiver out of Slidell High School, and defensive lineman Matt Slocum out of West Monroe High.

Receiver Chris Dunn was a first team 5A all-state player from Arlington, Texas, while offensive lineman Travis Oleta was named to the first team squad for Texas private school players.

"We'll judge this entire class two to three years down the road, but it's certainly a very talented group, both athletically and academically," Chris said. "In fact, it's the highest-ranked class, academically, that we've ever brought in."

Louisville tops Green Wave

Ross Hurwitz
staff writer

The Green Wave became Louisville's latest victim Saturday as the Cardinals continue to tear through Conference USA.

In its previous six games, No. 12 Louisville defeated opponents by an average of 32.3 points per game and the Cardinals demonstrated the same type of domination against Tulane (8-11, 2-6 C-USA).

Louisville had six players scoring in double digits, as the Green Wave was trounced 105-69.

Louisville opened the game hot, as Taquan Ocean buried four of his first five three-point attempts. The Cardinals used a suffocating press to extend their early lead and seize full control of the contest midway through the first half.

The pressure defense wreaked havoc on Tulane throughout the game, forcing 15 first-half turnovers, including six by freshman Taylor Rochestie. The Cardinals relieved the pressure after it built an insurmountable lead, but Tulane still finished with 26 turnovers.

With a 50-29 halftime lead, the Cardinals offensive clinic continued in the second half. Despite shooting just 41.8 percent from the field, Louisville drained nine second half three-pointers and 14 overall.

"They were explosive offensively and they are a very good three-point shooting team," Head Coach Shawn

Finney said. "They capitalize on your mistakes. We didn't slow down and play with poise and make the easy plays. As a coach you have to consider that it's one game and we have a lot more ahead of us; we have to put it behind us and look ahead."

Ellis Myles and Juan Palacios each recorded double-doubles and junior Francisco Garcia scored 21 points for the Cardinals.

Injury and illness to the Green Wave backcourt did not help matters heading into the contest. Senior Marcus Kinzer is still suffering from a severe ankle sprain, an injury he sustained against UAB two weeks ago. He battled through the pain during 20 minutes of action, but scored only two points.

One of the lone bright spots of the game for Tulane was the play from freshman forward Donnie Stith. Stith scored a career-high 19 points to lead Tulane and he set a school record by going 14-for-14 from the free throw line.

"Donnie definitely gave his best effort, not only offensively, but defensively," Finney said. "He was really, really aggressive tonight. If we can get that effort out of him night-in and night-out, he will be a very good player for us."

Tulane's next game is on the road against USF tomorrow night. The Green Wave will return home Wednesday to host Southern Miss where it looks to avenge its one-point loss in Hattiesburg, Jan. 22.

Freshman Matt Wheaton came off the bench to grab five rebounds and score five points against Louisville.

A new breed of surfers

Megan Holstine
staff writer

Many people have a classic idea of a typical surfer: blond, buff, tan, Californian and male. Although men first popularized the sport of surfing, women have practiced it since the early 1920s.

The stereotypical surfer is commonly referred to as a dude. This simple word itself has a male connotation. Part of overcoming the male surfer prejudice is to open America's eyes to the other genre of surfers: women.

Unfortunately, the rising number of women surfers is often forgotten or ignored. When talking about surfing giant waves such as Mavericks (near Half Moon Bay, Calif.), people almost automatically assume that only men are participating. However, today's women surfers are just as competitive and skillful as many male surfers.

When asked to imagine a famous surfer, one of the first names that may come to mind is Kelly Slater. Although a possibly feminine name, Slater is a man. Rarely would a name such as Lisa Andersen come up as a response.

Andersen is a fully capable surfer from the United States who could compete against men any day.

This prejudice is also exhibited in many surfing magazines today. In a typical surfing magazine, the pages are full of male action shots interspersed solely with women in thong bikinis advertising certain products.

Women photographers such as Elizabeth Pepin are trying to expand the public's view with intense action shots of women surfers. These shots are just as good as the shots in many surfing magazines, but they don't make it into the magazines. The prejudice against women surfers is starting to turn around but still has a long way to go.

A positive push in female surfing came from the movie "Blue Crush." This movie showed women can surf just as well and are just as competitive as men. Unfortunately, the movie does not necessarily appeal to both genders. And the movie's appeal to men isn't exactly about surfing.

One of my friends had an article

Room on seventh floor of Butler up in flames

Fire sets off sprinklers, students temporarily relocated

Jaclyn Rosenson
editor-in-chief

A computer was the source of a fire in room 704 of Butler Hall Friday. The computer belonged to School of Engineering freshman Elaine Horn, who was not in her room when the fire occurred.

"My roommate was sitting at her computer, she heard a pop from my computer and it started billowing black smoke so she unplugged the computer, got the resident advisor and she came back and as she and the RA were standing at the door watching the computer, it burst into flames. The flames got on the chair and they shut the door and told the person at the front desk to pull the fire alarm to get everyone out of the building," Horn said.

The sprinklers only went off in the room where the fire started and the fire was out before the New Orleans Fire Department arrived. However, one resident said the sprinklers stayed on for close to 20 minutes, causing some flooding on the floor.

"I came back shortly after the fire alarm was pulled down and my roommate told me that my computer exploded, and I didn't believe her at first because, you know, computers don't really explode and the fire alarm has gone off so many times this semester already that I thought someone was just joking around," Horn said.

Then I went around to the side of the building and saw that the water was pouring out of our room and everyone was standing and pointing at it and I was like, oh my god, my computer exploded."

It was "so unbelievable ... no one's computer just blows up on them," Horn said. "Luckily [my roommate] was there to unplug the computer, the firefighter said that

she prevented a lot of problems by unplugging the computer."

Horn said the only items damaged by the fire were the desk chair with a couple of jackets on it, a corner of her bed and "a blanket I have had since I was two years old, that was the most depressing part."

The standing water, however, damaged textbooks, notes, clothing and other items in Horn's room and others on the floor.

After the immediate threat was over, the residents from the seventh floor gathered in the Doris lounge to learn about the plan for temporary relocation. The residents were told they could stay in New Doris for the weekend and their rooms would be fixed as quickly as possible.

According to Ally Helperin, a Newcomb College freshman living on the seventh floor of Butler, "right after it happened, Erica, the area director, ordered pizza for everyone cause we were out of Butler and then on Sunday night she ordered Semolina's for us. She was like I'm really sorry, she was trying her best, I mean they did everything they were supposed to do. They handled it the best they could in the situation: they did a great job."

Horn and her roommate are preparing to move into a temporary super single in Aron Residences. They have been told it will only be through next week. Horn said she hopes that is the case because she said the room "was made for one person ... it is not ... for two girls sharing one small closet."

Dan Nadler, associate vice president for student affairs, called the fire a "very unfortunate accident."

Nadler was notified of the incident by TUPD once the fire alarm went off and his first concern was the safety and security of the students. "We are most proud of the

fact that everything that should have happened, did ... fire alarm, sprinklers, everything that could have been done was, and in a timely manner," Nadler said.

The response by the New Orleans Fire Department was normal for a high rise like Butler. Nadler said he was pleased with how well everyone worked together to make sure everything was done to keep the students safe and allow access for the firefighters. He commented that one of the hardest parts was dealing with the traffic.

"Our goal was to get them back to their room and back to the community as soon as possible," Nadler said.

He also mentioned that there will be no action taken against the student as the incident is considered an accident. He said there was no indication someone did something intentional or took any undue risk. It is normal procedure of Tulane and NOFD to investigate any fire, according to Nadler.

Nadler's main concern now is "getting things cleaned up, making sure everyone is okay." He said "the response [was] incredibly smooth ... Erica was phenomenal and the RAs were incredible."

Nadler also said that each resident who experienced property damage as a result of the fire or flooding was given a Tulane property loss form to fill out, which is then turned into risk management where the matter of compensation will be determined. Both Horn and Nadler said they do not know who will pay for the items lost or damaged.

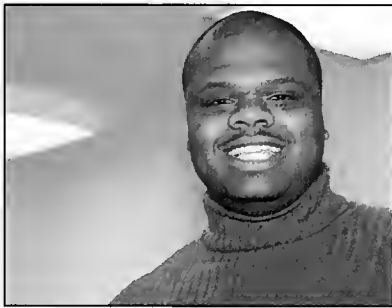

Nadler said, "we are trying to do everything we can for those students who were impacted ... we are trying to get them back to full speed so

SEE FIRE: PAGE 3

The New Orleans Fire Department responded to a fire in Butler last Friday started by a laptop computer. Only one room was affected by the flames, but water from the sprinklers flooded parts of the seventh floor.

Know Your Campus: Alex Miller

Alex Miller is the new director for campus programs and special projects. He recently left his position at Syracuse University.

Jaclyn Rosenson
editor-in-chief

Alex Miller, the new director for campus programs and special projects, started working in Student Programs Feb. 3 and is still getting settled in. Miller, a former administrator at Syracuse University, said one of the biggest adjustments he has had to make since coming to Tulane is getting used to the quick pace at the university and in New Orleans.

Miller cited many reasons for his decision to join the Tulane staff, among them the New Orleans climate and the school's "old and rich in tradition."

Miller said he was also interested in taking the position because his previous position incorporated Greek life and campus programs, and he was looking for the opportunity to specialize in one area.

The 27 year old found the job through a listing on a higher educa-

tion Web site but said there was a substantial lag time between his application submission and the interview period. Miller did not think he would get far in the process and was pleasantly surprised to hear from the department.

Miller said the student culture at Tulane is similar to Syracuse. He left Syracuse on amicable terms and is still in contact with students he advised there. Although Miller would have preferred to leave Syracuse at the end of the school year, he decided to take the opportunity to move to New Orleans during Mardi Gras when offered the job at Tulane. He said that he saw New Orleans at its worst, with the bad traffic and everything else, but also had the benefit of being thrown into the culture.

"So far, it has been a period of adjustment of how the office works, how the student organizations work. I have gotten the opportunity to get

Emily Jane Zukowski memorial

Emily Hohenwarter
staff writer

Tulane University mourned the loss of student Emily Jane Zukowski, age 24, at a memorial service Tuesday in Rogers Memorial Chapel.

Zukowski was a first-year law school student who died on Dec. 22. Zukowski was from Dallas and attended St. Edwards University for her undergraduate degree. Her obituary published in The Dallas Morning News stated that she died unexpectedly.

The service opened with remarks by Lawrence Ponoroff, dean of Tulane Law School, who taught Zukowski last semester.

"I have vivid memories of Emily

in class ... she was an excited, engaged, and interested student." Ponoroff offered his condolences to Emily's father and younger sister, who were present at the service and recently suffered the loss of their wife and mother as well.

Vice President for Student Affairs Cynthia Cherry also delivered remarks: "Our journey through life is a series of relationships ... some move souls to dance, like Emily."

A photomontage of Zukowski's life followed, accompanied by some of her favorite songs.

Three of her friends from Tulane also spoke. Aaron Hutchinson, a first-year law student, began the reflections with memories of being able to talk to Zukowski about anything

"She was so positive in life," he said. "We know someone for one semester, and we wake up and feel like we lost someone we knew for years. I'm grateful I knew her for one semester."

Gcoff Lund, another law student, also spoke. "Emily was a terrific person; everybody liked her," he said. "It makes me sad to know I won't make new memories with Emily, but I'll focus on the memories we have. I miss Emily and more than anything wish to see her again. But we have to step back and realize what we still have. Emily will continue to live when we are with the people we have left."

Fellow law student Andrew Pickett was the last to speak. "She touched

so many people in such a short amount of time ... so many people had such memories of time spent in her presence. That is the most fitting testament of her life," he said. Pickett also said that Zukowski will be remembered best for her "fearless optimism and unbridled enthusiasm."

"We will find it's not that we'll meet her again, it's that she never left us."

Emily Zukowski's father, John Zukowski, volunteered to speak as well. He left a message for her mourning friends, "She loved you all, but she was scared as hell of you. You're so smart, and she was used to being at the top of the class. But she knew how much you loved her."

Q&A: The University Center

Jingbuom Bae
staff writer

Behind the chain-link fence that has become quite the obstacle for many pedestrians, the daily workings of University Center construction can be seen. But what exactly is happening back there, and how long before it is finished? The "Hullabaloo" interviewed Mike Jester, the director of construction for the University Center, to get some insight into the progress and goals for the future.

"Hullabaloo: A lot has been going on around the old University Center. Can you tell us what phase of the construction has been completed?"

Jester: The basic construction of the new additions to the building are almost complete. The contractor will soon start closing in the additions and doing the interior build out.

"Hullabaloo: So, what is left?"

Jester: Preparatory work on the existing structure is currently in progress. After that work is com-

pleted, the contractor will start installation of the basic equipment and exterior walls. Following that will be the interior build out.

"Hullabaloo: We know that renovating a structure takes a long time, but some students worry that the UC will not be completed by the expected date. Is the expected completion date still valid?"

Jester: Some unforeseen conditions were discovered during the demolition phase of the work on the existing structure. This has resulted in additional preparatory work being required. This has impacted the original completion date of December '05. We are now looking at com-

Construction continues on the University Center and the expected completion date has been pushed back to June 2006.

pleting the work in June 2006.

"Hullabaloo: We are curious about the University Center. Who is the building going to be named after? What is the story behind it?"

Jester: The building will be named the Lavin-Bernick Center for Student Life. The Lavin and Bernick families were the lead donors in fund-

ing the renovation and expansion. "Hullabaloo: What is the exact cost of renovating the UC?"

Jester: The total project budget is \$37 million.

"Hullabaloo: By the way, what will happen to the Pavilion, or the 'bubble' after the UC will be completed?"

Jester: The University is currently leasing the Pavilion. While it is a temporary structure, we are considering using it for a short period after the UC opens to serve as a temporary home for departments displaced by the university's future renovations.

"Hullabaloo: Lastly, can you list some of the features of the new UC?"

Jester: The new UC will include an increase of 40,000 square feet of space and feature a water wall and natural lighting throughout the building. This new space will mean: 1). Additional meeting space; 2). Additional space for student organizations; 3). Additional areas for study and social activities; 4). Expanded bookstore and food service areas.

Baseball brings out campus spirit

Ben Eisenberg
Staff Writer

It's pretty amazing what a No. 1 ranking will do for a team.

In the days leading up to the Green Wave's home opener at Turchin Stadium against Southeast Missouri State, there was a buzz around campus.

The main question around Tulane Friday was, "Are you going to the game tonight?"

Whoa. What's this stunning development? People actually talking about going to a Tulane sporting event?

Sure enough, the stadium was packed last Friday night. There was actually a line to get tickets. I arrived at the scheduled start time of 6:30 and couldn't even find a decent seat (definitely a first for any Tulane game I've been to).

Granted, it was opening night. That will likely be one of the biggest crowds all year for a baseball game. But maybe it was more than that.

Tulane students are hungry for a winner. Now they finally have a team that not only has a shot but is favored to go to the College World

Series in Omaha, possibly to win it.

We're sick of being the school that's considered a battering ram for major state schools in the two most prominent college sports, football and basketball.

I mean, it's sort of fun to watch Louisville wreck us for one half in either sport, because you get to see a top 10 team and realize how great they are, but that gets old.

Tulane students may not care about sports as much as students at Big Ten or ACC schools, but we've never had the chance to compare. The culture of loving is so engrained in the psyche of the student body that people don't bother going to sporting events.

The baseball team has a chance to change all of that this season. In fact, judging by how they looked this weekend against a respectable Southeast Missouri State team, they definitely deserve their high ranking.

This team is absolutely loaded with guys who can mash the ball, and pitchers Brian Bogusevic and Micah Owings should prove to be

Men split weekend matches, Women top Arizona

Men now 6-3, Women 3-4

Lewis Lowe
Staff Writer

The Tulane tennis teams were busy last weekend with a slate of home matches.

The men defeated cross-town rival UNO, 5-2 Friday. Saturday afternoon the women beat Arizona 5-2.

The weekend ended on a sour note Sunday with the men falling to Mississippi St., 4-3.

Returning from a tough Pacific Northwest Shootout, the 29th-ranked Green Wave needed a win to keep confidence high. In the Shootout, the Tulane went 1-2 with two tough losses to ranked opponents. The Green Wave was able to hold off Ohio St., but took tough 4-3 losses to Washington and Minnesota.

Tulane returned to stride against UNO, sweeping the doubles point and winning the top four seeds in singles. Jacobo Hernandez and Alberto Sotocorno remained undefeated, winning handily at No. 3 and No. 4 singles,

respectively.

David Goulet, ranked No. 81, clinched the match with a 7-5, 6-4 victory over Patricio Rodriguez at No. 2 singles. Dmitry Koch, ranked 59th, won at No. 1 singles over Luka Bernard, 6-4, 6-7, 10-4 (super tiebreaker).

The men could not hold an early lead against No. 33 MSU Sunday. Tulane jumped out to an early 1-0 advantage by winning the doubles point. The No. 1 team of Koch and Sotocorno and the No. 3 team of Goulet and Jonah Kane-West led the way with victories.

In singles, the Green Wave won two of the first three matches to jump to a 3-1 advantage. Koch won easily at No. 1, defeating Luiz Carvalho 6-1, 6-2. Ted Angelinos won at No. 4, handing Pierre Moulton a 6-2, 6-4 loss.

Hernandez and Sotocorno could not continue their impressive winning streak, losing matches at No. 3 and No. 5 singles,

Dmitry Koch had wins in singles and doubles against UNO and Miss. State.

Top-ranked Wave baseball starts the season swinging

Wave tops
Southeast
Missouri State in
three game series

Suhay Subramanyam
Staff Writer

Tulane baseball had been surrounded by publicity leading up to Friday's series against Southeast Missouri State. The preseason honors included five all-Conference-USA players, two all-Americans and a No. 1 national ranking.

The Green Wave used outstanding pitching, defense and timely hitting to sweep the Redhawks by a combined score of 24-6 over three games.

Brian Bogusevic's stellar pitching led to a 9-0 thumping of SMS Friday, while the Green Wave swept Saturday's double-header 6-3, 9-3 thanks to clutch hitting by Bogusevic and Micah Owings.

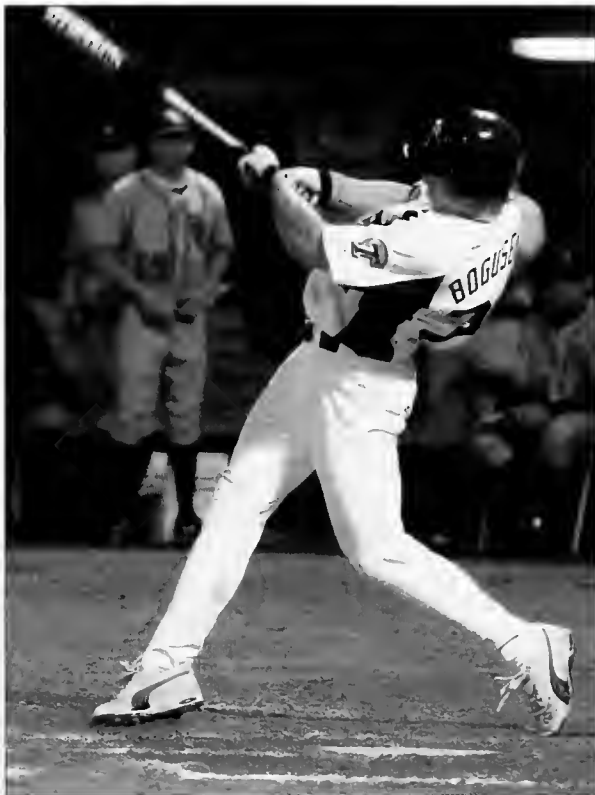

Bogusevic was named the Louisville Slugger Player of the Week by Collegiate Baseball and C-USA Pitcher of the Week after he gave up only two hits and struck out a career-high 13 batters in eight scoreless innings Friday.

Sophomore Mark Hamilton paced the Green Wave offense, going 5-for-8 with three home runs and seven RBIs. The Green Wave hit .300 in the series with a .556 slugging percentage and held the Redhawks to a meager .191 batting average.

"The pitchers threw really well," senior catcher Greg Dini said. "They consistently threw strikes. Also, our offense got a lot of hits in the clutch. I'd like to see us score more runs early in the game and jump out on teams a little more, [but overall] we just played really well as a team."

A crowd of 3,664, the third largest in Turchin Stadium history, came out to watch Bogusevic's overpowering performance on opening day. He did not walk a single hitter and never fell behind in the count.

"The scouting report said to pound [the Redhawks] with fastballs early in the game," Bogusevic said. "We waited for them to adjust, and then I started mixing things up. We prepared for

Junior Brian Bogusevic led the Green Wave to two wins against S.E. Missouri State pitching an eight inning shutout in game one and batting in the winning runs in game two.

this game for a long time, and it paid off."

Already ahead 4-0 in the seventh inning, seniors Tommy Manzella and Matt Barker singled to start the inning. After a pair of errors, Scott Madden walked to load the bases.

Hamilton followed with a grand slam to give the Green Wave an 8-

0 lead.

"I wasn't even looking to hit the ball out of the park," Hamilton said. "But I was getting really [hit-able] pitches because I have a lot of guys around me that can hit. You get better pitches when you have great hitters around you."

In the first game of Saturday's doubleheader, the score was tied 3-

3 until the eighth inning. After Tulane loaded the bases with one out, SMS inserted all-American closer Brad Smith into the game.

Smith recorded a strikeout before surrendering a pinch-hit, three-run double to Bogusevic.

Hornets

Rock Bottom: How the Hornets fell apart

New Orleans enters all-star break with just 11 wins

Jason Lieser
Sports Editor

While it does not mark the true halfway point of the NBA season (the Hornets have already played 54 of their 82 games), the All-Star Break is generally considered the regular season intermission.

Just one year ago, New Orleans was preparing to send Jamaal Magloire and Baron Davis to Los Angeles as reserves for the Eastern Conference All-Star team.

Conversely, no Hornets will be participating in Denver's All-Star game this weekend. However, rookie J.R. Smith and Chris Andersen will be participating in the Slam Dunk competition (Saturday, 6 p.m., TNT).

The team began the year 2-26 and owns the Western Conference's worst record (11-42) heading into the break. The Hornets are one of only seven teams that does not have a player averaging 20 points, 10 assists or 10 rebounds per game.

A variety of factors have contributed to the team's demise this season. While Hornets fans were energized by the hiring of Head Coach Byron Scott, a well-known and successful player and coach,

the team's inability to grow into his complicated offense resulted in an NBA-low 87.8 points per game through the first 53 games.

Many hailed the addition of Scott, who guided New Jersey to Eastern Conference championships in 2002 and 2003, as a milestone hiring for the Hornets.

When Scott was given the reins in New Jersey, the team was coming off a 31-51 season and had made the playoffs just once in the previous six seasons. Two years after his hiring, Scott had New Jersey in the NBA Finals for the first time in franchise history.

This, along with the appeal of a former NBA player with three championship rings, led the Hornets to believe that Scott could revitalize the team.

One of the immediate obstacles for Scott was getting players to overcome the complexity of his half-court motion offense.

The only player who understood Scott's game plan from the start was Rodney Rogers, who played under Scott with the Nets for two seasons. While the team struggled to learn the new system, Scott struggled with frustrations

SEE HORNETS PAGE 11

Former Wave QB named Bills starter

Jason Lieser
Sports Editor

The Buffalo Bills announced Wednesday they will release 12-year veteran Drew Bledsoe Tuesday.

The move will allow Bledsoe to pursue a job with a new team, but more importantly for Buffalo, it allows the Bills to move on with former Green Wave standout J.P. Losman.

"Our starting quarterback next year will be J.P. Losman," Head Coach Mike Mularkey said. "[Losman] has special skills that

we're trying to take advantage of [like] a strong arm, which is important in the conditions we play in here. The things he can do running the ball with his feet complements him throwing the ball."

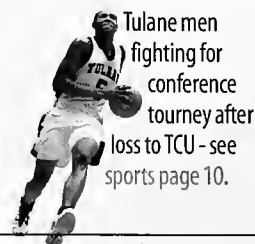

Losman missed most of last season after breaking his left leg during training camp, but the Bills are hopeful of the player they took with the 22nd pick of the 2004 NFL Draft.

"As a leader in the preseason games and in practice, he had the chance to display some leadership skills that I like," Mularkey said. "We designed some runs early in the preseason he took advantage of and made plays. He had a good pocket presence about him. He has a lot of things now that we are going to start to scratch the surface with."

Losman played just four games for Buffalo last season, and completed 3-of-5 passes for 32 yards. In his Tulane career, Losman completed 60 touchdown passes and threw for 6,754 yards from 2000-2003.

Tulane graduate Losman has stepped up to take the reins of the Bills.

Tulane men fighting for conference tourney after loss to TCU - see sports page 10.

Paint gives schools fresh start

Christina Le
assistant news editor

Volunteers from local universities and businesses were splashed with paint as they gave four New Orleans schools a fresh look Saturday. Tulane University helped sponsor the annual Paint Rally that called upon nearly 500 volunteers.

Joseph S. Clark Senior High School, John F. Kennedy Senior High School, John McDonogh Senior High School and Booker T. Washington Senior High School each received newly painted walls and repairs.

The schools had been in need of minor repairs for years. "Some of the buildings are in such disrepair, they are beyond needing just painting," Hamilton Simons-Jones, director of Community Services Coordination at Tulane, said. In response to these poor conditions, local students and alumni have donated their efforts to secure a healthy learning environment for public school students since 1998.

The labor, supplies and food are all donated from New Orleans universities, businesses and restaurants. "It is inspiring to see so many people come out to participate," Simons-Jones said. "It is always a lot of fun. And great things really emerge from these projects, beyond just paint on the walls."

Volunteers from Tulane helped repair and improve conditions at local schools.

manpower.

"I think all public school students know intuitively that society's expectations aren't high for them when society allows them to go to school in a place that is falling apart," Lucy Killen, volunteer and community relations vice chair for the Community Action Council of Tulane University Students, said. "I believe our efforts demonstrate

that we want to help create a school environment fitting for high achievement."

Simons-Jones also said the project is "about building our community's commitment to education and involving people in positive actions that will impact education. The students, parents, teachers and staff at the schools need to know they are supported. Raising money

doesn't ask people to really deal with the issue."

He feels actual volunteering at the school and working alongside its students "creates a strong relationship with the school."

Volunteer Sheena Gurwara, a Newcomb College junior and project coordinator for CACTUS,

Writer celebrates 70th birthday

Emily Hohenwarter
staff writer

Ellen Gilchrist celebrated her 70th birthday Sunday

with family, friends and fans. The renowned author of fiction, poetry and nonfiction commentaries read excerpts from some of her short stories to an eager audience in McAlister Auditorium.

Gilchrist, recipient of the 1985 National Book Award for "Victory over Japan," spoke at a kickoff event for the 20th anniversary of the Zale Writer-in-Residence program.

Beth Willinger, director of the Newcomb College Center for Research on Women, was the first to speak at the event.

Willinger explained how ideas for the 20th anniversary event developed two years ago, when the Women's Center staff tried to think of a way

to properly celebrate the occasion. "We had a faculty and student panel come together ... we wanted the writer to come for one semester, not one week, and teach

a full course, not just a class. We decided on a list of potentials, and Ellen won the unanimous vote," she said. Willinger also presented Gilchrist with 70 roses to celebrate her birthday.

Two Newcomb undergraduates, Jessica Leavitt and Sage Middleton, who are taking Gilchrist's writing course, introduced her to the audience.

"I'm delighted to be here. I'm so happy you've come to make my birthday a celebration. It is really a celebration for all of us," Gilchrist said. "Thanks to everyone from Tulane

Slow e-mail, virus affecting students

Jaclyn Rosenson
editor-in-chief

Relief may be on the way for Tulane e-mail users beleaguered by persistent slowdowns and network stoppages, according to university officials. At the time of print, Technology Services had not yet released an estimate of when the problem would be fully resolved.

All Uptown students received an e-mail Wednesday with the subject "E-mail Slowness," in which Dr. John Lawson, vice president for information technology and chief information officer, stated that TS has "isolated at least one part of the problem," and that they "understand the negative impact ... and [they] have taken steps to add extra, external resources to help [them] remedy this problem." TS is temporarily disabling IMAP access from off-campus internet networks due to evidence that there is a denial of service. Denial of service is a type of system attack caused by a virus.

The viruses suspected by TS and Director of End User Support Adam Krob are variants of the Mydoom virus which originated last year. There

are 57 known variants of this virus. "It's a typical practice of virus writers to adapt somebody else's code, particularly if it is a very successful virus ... which Mydoom was," Krob said.

Virus variants commonly change the text of the e-mail, which affected Tulane because the e-mail was signed "Tulane.edu technical support team." The most recent variants included a password to download the attachment and are therefore not recognized by virus scans.

Students who believed the e-mail was a legitimate message from TS felt compelled to follow the instructions of the message and unknowingly opened the file containing the virus on their computer.

"When we do send e-mails out, we do not attach files," Krob said. "If it's a mass e-mail, like the one from Dr. Lawson yesterday, a copy is posted on our website and you can go and look at that e-mail." Students can also call the Technology Services HelpDesk and ask about the validity of an e-mail.

AASU hosts cultural events

Kate Dearing
staff writer

The Asian American Students United held its annual Asian American Awareness Week, a series of social events, last week.

Shuttles provided by AASU took participants to Hoi Cho, a carnival to celebrate the Vietnamese Lunar New Year known as Tet, Feb. 12 to kick off AAA week. The huge celebration full of ethnic foods, arts, crafts and carnival games was held at a local Vietnamese church.

Other events included a game night Feb. 13 where members played board games like Mahjong and the popular Dance Dance Revolution. An "Asian Valentine's Day" was held on the night of Feb. 14 where singles went through a round of speed dating and enjoyed plenty of free food.

The Food Fest, the most popular event of the week, was held in the Boggs lounge Feb. 15. The event was free to members and \$5 for nonmembers. Local restaurants such as Mikimoto, China Orchid, Basil Leaf and Hana, among others, donated food for the event.

The highlight of the week was a Kung Fu

Performance and a speech by recording artist and former Playboy model Kaito Yu held in McAlister auditorium. Yu was flown in from her home in Los Angeles to speak at the event where she discussed her experiences as an Asian American in the entertainment industry. Siwan, an Asian indie band, also performed.

The week closed with a viewing of Yimou Zhang's newest film, "House of Flying Daggers." The viewing, free to the public, took place in Jones Hall Feb. 17.

The 200 member strong organization has nothing else planned for the semester, but after attending the East Coast Asian American Student Union Conference in Philadelphia last weekend, the club hopes to bring some of the speakers highlighted at the conference to campus in order to create more awareness of the Asian community.

"Though we've done AAA week over the years, this one was the most advertised and had the biggest events," AASU Social Vice President Stephanie Choy said, "but the purpose of AAA week has always been to raise awareness of the Asian community at Tulane, to unify minorities on campus, and to bring people together through our culture."

TSTV back on the air soon

Bryan Cole
senior staff writer

For the first time since the University Center closed in December 2003, Tulane Student Television will broadcast across campus beginning in March.

"I am excited by the prospect of TSTV coming back and am very happy to lend a hand to make that happen," Chief Engineer Julian Burgess said.

The station had started shrinking before the move and by its last semester, TSTV mainly served as a venue for showing movies.

"Interest in the station had been waning somewhat, and the prospect of moving all that equipment ... did not help member retention," Media Board Chair Ked Davon said.

When student organizations were moved out of the University Center, the station's wiring was removed and the station went off the air. Since TSTV no longer had anyone who knew how to rewire its equipment, the station stayed dormant.

"The station was not dismantled, packed and moved properly, which has made it very

difficult to return to broadcasting in the new location," Burgess said.

Still, some student interest remained. Before the end of the spring semester in 2004, the preliminary steps were taken to revive TSTV. The organization submitted a budget to the Undergraduate Student Government and aimed to resume operations during the fall.

"We had to hire a professional [to rewire the equipment]," Dixon said. "That hurt its ability to draw people in at the beginning of the school year."

Membership continued increasing, however, and students involved with TSTV recently chose Greg Starr, Tulane College junior, to be the station's general manager once

broadcasts resume.

"When I got an e-mail this semester indicating that the station was restarting, I knew I could make things happen and bring TSTV back," Starr said. "I feel very positive and hopeful about its revival."

With few members and limited space in Monk Simons, Starr knows TSTV must start slowly but still is optimistic for the future.

"I'd like to see the station back on the air for the end of February, but this is entirely dependent on our ability to get the broadcasting equipment wired and get our cable link-up with [Tulane University Cable Access Network]," he said.

"We've already got several promising show ideas for when we're ready to start production."

Women's basketball faces must-win

Suhas Subramanyam
staff writer

Looking for a Conference USA tournament berth, the Green Wave knew it would need to step up its play in order to steal a game on the road and pull off an upset at home.

However, woeful shooting and poor rebounding haunted the team all weekend, resulting in a 55-41 road loss to Cincinnati and a 70-51 loss to Louisville at home. Despite senior forward Lakethia Hampton becoming only the 17th player in school history to score 1,000 points, the Green Wave still shot well under 35 percent for the weekend while being out-rebounded 75-48.

The losses leave Tulane on the outside looking in for the 12th and final tournament spot. The current No. 12 seed, Southern Miss (3-11), visits Fogelman Arena in the season finale tomorrow to determine who will participate in this year's tournament. No team under Head Coach Lisa Stockton has missed out on the C-USA tournament.

At Cincinnati, although D'Aundra Henry scored 16 points and Hampton added 15, the Green Wave struggled with its outside shooting, going 0-for-12 from the three-point line and shooting 34 percent from the floor.

"We just couldn't buy a shot," Stockton said. "We had good looks, but we just rushed [our shots]."

The Bearcats controlled the game from start to finish, jumping out to a 29-16 first-half lead. All 16 of the Green Wave points came from inside the paint, while the Bearcats scored 15 points on outside jumpers alone.

Hampton joined the 1,000-point club

Women's tennis wins twice

Megan Repine
staff writer

After defeating Arizona 5-2, the women's tennis team followed up with two more solid performances against Florida State and Tulsa last weekend at Goldring Stadium.

The team defeated Florida State 4-3 Saturday and continued its momentum with a 4-3 victory over Tulsa Sunday. The wins mark the Green Wave's second straight victory against both the Seminoles, currently ranked 33rd, and the No. 61 Golden Hurricanes.

After the successful weekend, the Green Wave improves its record to 5-4 on the season and maintains the No. 15 ranking.

Tulane started the weekend strong against FSU, sweeping the doubles matches. Maria and Darya Ivanov, Julie Smekodub and Jenny Kuehn, and Dorotya Magas and Anna Saabi defeated the three FSU duos 8-6, 9-8 and 8-4, respectively.

The doubles point proved essential as the singles score ended in a 3-3 tie. The team lost the No. 1, No. 5 and No. 6 singles spots.

After falling to Roxanne Clark in the first set, Darya Ivanov persisted in the second set to win 6-2. Ivanov clinched the win in a nail-biting, third-set tiebreaker. Magas followed with another impressive performance in the No. 4 single's spot, defeating FSU's Miranda Foley, 6-2, 6-4.

Kuehn and Magas handled Pereira and Delport 8-5 at No. 2 doubles, but Tulane ended doubles play one point behind after losing both the No. 1 and No. 3 matches.

The Green Wave handled the resulting pressure in singles play. The team took two of the first four singles victories with Kuehn's and Magas' wins over Pereira and Greenly.

Anna Saabi then put the team ahead with a 6-7, 6-3, 6-4 win of Santi Delport. Freshman Gracie Glassmeyer sealed the win with her 2-6, 7-6, 6-4 defeat over Agostina Santoro.

The team heads back into action tonight in Las Vegas at the three-day UNLV Tournament.

SWEEPING STATEMENT

Top-ranked Green Wave dominates in sweep of No. 11 Arizona St.

Catcher Matt Barket follows through on a swing against Arizona State. Tulane swept the Sun Devils to improve to 7-0 on the year.

Ben Eisenberg
staff writer

Maintaining the No. 1 ranking in the nation is a heavy burden, but through its first seven games, the Green Wave appears up to the task. The team is off to a 7-0 start including a three-game sweep of No. 11 Arizona State last weekend.

Not only has the team won all seven of its games, it has done so in a dominating fashion. Tulane scored at least six runs in six of those games and has not allowed the opposition more than three runs in any contest.

The sweep of Arizona State was particularly impressive because the Sun Devils are a national college baseball powerhouse. The Green Wave won Friday's game 8-2, Saturday's game 7-2 and took the series finale 9-3.

"With all the media hype and everyone letting us know that we're No. 1 in the country, it was nice to be able to prove it to ourselves in this series," catcher Scott Madden said. "It's a confidence boost that lets us know we can play with the best of them."

The second largest crowd in the history of Turchin Stadium, 3,784, witnessed the Green Wave set the tone for the series in the first inning Friday. Centerfielder

Nathan Southard led off the game with a home run, and the Green Wave tacked on two more runs in the inning.

That was all the run support junior Brian Bogusevic would need. He struck out six in six innings of work to improve to 2-0 on the season. Billy Mohl then collected his first save of the season with three innings of relief.

Meach Dwiings was the story Saturday afternoon at Zephyr Field in front of a crowd of 7,435. The Georgia Tech transfer lived up to his reputation as one of the top two-way athletes in college baseball as he pitched eight innings and gave up just two runs.

After allowing two runs in the third inning, Dwiings faced just 16 hitters over his final five innings. He also broke a 2-2 tie in the sixth inning with a bases-loaded single and reached base in all four plate appearances.

"They had to deal with the crowds at our home, which were great," Head Coach Rick Jones said. "The crowd really made a difference, particularly at Zephyr Field."

Senior J.R. Crowell went five innings and allowed three runs Sunday to improve to 2-0 as the Green Wave offense once again did its part. The game was out of reach by the fifth inning after outfielder Matt Barket hit a grand slam in the third.

Tulane followed up with a two-run fourth inning in which Brad Emaus and Southard each had RBI singles.

Green Wave pitching did an exceptional job throughout the series in shutting down the Sun Devils' Travis Buck and Jeff Larish, two of the most feared hitters in college baseball. The pair had just six hits in 23 combined at bats (.261) with one RBI.

"Bogusevic and Owings were just able to overpower them by pounding the strike zone with low fastballs, and Crowell did a good job of throwing inside," Jones said. "Those three are elite pitchers and as usual, good pitching beat good hitting."

The Sun Devils had not been swept since 2002 when they were on the road at Florida State.

"We're playing really well as a team right now," sophomore infielder Mark Hamilton said. "We've been able to get good pitching and timely hitting, and that's what baseball is all about."

Today the Green Wave is scheduled to open a three-game series at Pepperdine (4 p.m., Malibu, Calif.), though Pepperdine's game Wednesday was cancelled due to the torrential downpours in Southern California. The Waves, the 1992 national champions, are 5-4 this year and won two out of three at Houston over the weekend.

Hornets

Davis to Warriors; Mashburn, Rogers traded to Sixers

Jason Lleser
sports editor

Just one day after Baron Davis told ESPN that he felt unwanted in New Orleans, the Hornets confirmed his feelings by trading him to Golden State in exchange for Speedy Claxton and Dale Davis yesterday.

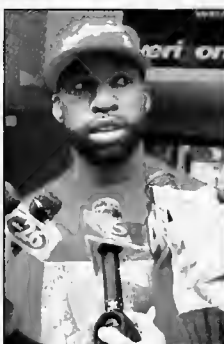

The deal also includes cash to be sent from the Warriors to New Orleans, reportedly near \$350,000.

"It was just time for us to part ways," Davis said. "You know it hurts, but at the same time I don't regret any decisions that I made. I don't think the Hornets regret any decisions that they made."

After the team finished practicing at the Alario Center, Davis met with Hornets General Manager Allan Bristow and emerged to confirm to reporters that he had been traded, pending NBA approval.

"For me it's sad because I consider this home and because of all the people I've

Plain and simple, Tulane has endured another long season from its men's basketball team.

The squad enters the final week of the regular season attempting to secure the last spot in the Conference USA tournament, the same No. 12 seed that it has held for three of the past four years. Unless a miracle occurs, there will be no postseason for the Green Wave past the conference tournament, for the fifth straight season, the entirety of the Shawn Finney era.

This squad has been ineffective in conference play, with all three wins coming by three points or less. Tulane has been even less successful on the road, sitting at 2-10 when forced to leave the cozy confines of Fogelman Arena.

For this team to ever succeed, it must be able to win games on the road, something they haven't been able to do much of since Finney took the helm, compiling a 12-55 record since he took over five years ago.

The biggest difference for the Green Wave between this season and last is the lack of an inside game with big men who can shoot and rebound effectively.

Men's basketball loses two home games by combined 33 points

Ross Hurwitz
staff writer

Guard Marcus Kinzer drives to the hoop in Tulane's 77-63 loss to TCU. Kinzer is averaging 10.4 points and 4.5 assists per game.

After another one-week break following the loss at Memphis, the Tulane men's basketball team was swept on its latest home stand, including a 19-point loss at home to No. 23 Charlotte and a crucial defeat to TCU.

The two losses leave the Green Wave (9-15, 3-10 C-USA) in 13th place in C-USA and in jeopardy of missing the C-USA tournament.

After Charlotte scored the first six points Saturday, the Green Wave went on a 12-4 run to grab a 12-10 lead with 14 minutes 22 seconds left in the first half. The Bobcats forced several Green Wave turnovers and used a lethal inside-outside attack to seize full control of the game by halftime. Charlotte scored 21 points off 14 first-half turnovers and had 14 second-chance points.

"We played well the first seven minutes, but it started to slip away piece by piece," Quincy Davis said. "Rebounding hurt us because it led to second-chance points. After that, it's very difficult to come back from a double-digit lead."

The Bobcats' Eddie Basden and Curtis Withers combined for 26 points and

14 rebounds in the first half alone, while Brendan Plavich connected on 4-of-7 three-pointers to take a 49-27 half-time lead.

However, the Green Wave continued to fight, managing to outscore Charlotte by three points in the second half. The solid second half was not nearly enough, though, to overcome the 22-point half-time deficit and the Green Wave ultimately fell 86-67.

Davis led the team with 14 points and seven rebounds while freshman Taylor Rochestie added 12 points and five assists.

After the blowout, the Green Wave returned home to face seventh-place TCU. After trailing by 12 with less than eight minutes left in the game, the Green Wave stormed back with an 11-1 run capped off by Rochestie's three-pointer with 6:01 left. Tulane did not get any closer however, as several miscues and ongoing foul problems down the stretch sealed Tulane's fate.

"We had to sit guys on the bench, and you can't be as effective offensively [with foul trouble]," Head Coach Shawn Finney said. "When we needed to defend harder,

Presidential runoff results nullified

Candidates will campaign again starting today

Meera Unnithan
main section editor

The Election Appeals Court of the Associated Student Body threw out the results of Tuesday's Undergraduate Student Government presidential runoff between Caroline Nabors and Peter Young at a meeting yesterday afternoon.

The EAC ruled that the Awards and Elections Committee of USG must reconduct the runoff March 9. The EAC convened at 3:30 p.m. yesterday after Nabors appealed the runoff results.

The EAC decided to nullify the results of Tuesday's runoff because neither candidate received 50 percent of the vote plus one as is required by AEC bylaws of the USG constitution.

"Given the number of votes received (627), a candidate must have received 314.5 (i.e. 315) votes in order to be elected," the EAC said in an official posting of its decision.

When polls for the USG presidential runoff closed at 10 p.m. Tuesday, there was a one-vote difference between candidates Nabors and Young. Nabors, a Newcomb College junior and USG parliamentarian, received 314 votes for 50.1 percent of the vote and Young, a sophomore and Tulane College whip, received 313 votes for 49.9 percent.

However, Young was posted as the official winner of the runoff at 10:15 p.m. Tuesday after the Awards and Elections Committee deducted .5 percent from Nabors' for an elections infraction. The final results posted Tuesday for the runoff had Young with 49.9 percent of the vote and Nabors with 49.6 percent.

The reason for Nabors' .5 percent infraction was because of an e-mail sent out to the listserve of Green Wave Ambassadors. GWA members had received an e-mail through the organiza-

nization's listserve encouraging them to vote for Nabors.

"This is an infraction in one of two ways," Katie Halley, executive vice president of USG and AEC chair, said. "[One is] sending the e-mail to the listserve without getting the endorsement of the entire executive board of that organization, which [Nabors] didn't have. [Two is] sending the e-mail to recipients who don't personally know the [sender]." Halley said at least four different students and members of GWA contacted USG with complaints about the e-mail. The e-mail to GWA was not sent out by Nabors, but by her friend Jessica Leavitt, a Newcomb College senior.

Halley said she informed Nabors at 6:45 p.m. Tuesday about the infraction hearing, which took place at 10:05 p.m. immediately after the polls closed. Nabors did not attend the hearing.

Incoming EVP Bryan Cole was shadowing Halley to gain experience about his new position, and attended the infraction hearing. Both Cole and Halley said the hearing was straightforward and lasted only minutes. All five members of the AEC voted unanimously to deduct .5 percent from Nabors for the e-mail infraction.

"[The deduction value] is some-

There will be another runoff election between USG presidential candidates Caroline Nabors (top) and Peter Young (bottom) March 9.

thing [the AEC] decides upon at the beginning of each election, in this case before the general election," Cole said.

"The AEC conducted itself in the manner that is expected of them," School of Architecture Senator and AEC member Will McLoughlin said of the infraction hearing.

The candidates were given 24 hours to appeal the results, which were officially posted at 10:15 p.m. Tuesday. Halley said Nabors appealed the results within two hours of the official posting in an e-mail to both Halley and ASB president and EAC chair Melody Baham.

"[The EAC of] ASB has final say

Professors run marathon for Bucket Brigade

Activists raise money, awareness for Louisiana environmental campaign

Jonathan Kim
staff writer

Three professors of the sociology department participated in the annual Mardi Gras Marathon as a way to raise funds and awareness among Tulane students for Louisiana Bucket Brigade, a nonprofit grassroots environmental health and justice organization.

Scott Frickel, professor in sociology Jocelyn Viterna, professor in the Latin American studies and sociology department and Mimi Schippers, professor in women's studies and sociology, all solicited monetary pledges from their friends and families to support them in their marathon run. Proceeds support the bucket brigades.

Frickel, Viterna and Schippers trained extensively for the past 16 weeks for the 26.3-mile run which took place Sunday; however, the central goal of their marathon run is to raise awareness for the bucket brigade.

"The real important thing is to help raise awareness among students about what is going on down here in terms of environmental health and the hazards and risks that low-income people are faced with," Frickel said. "Because they are sort of invisible to us, unless we talk about it and raise awareness nobody will know and nothing will change."

The Louisiana Bucket Brigade supports fence-line communities who border petrochemical production facilities to organize and train their members to test for high levels of chemical agents in the air due to their

proximity to the petrochemical facilities. These facilities, owned by huge multinational companies such as Exxon-Mobile and Shell, came into Louisiana around the 1940s and '50s, sometimes displacing communities that traced their ancestry back into the slavery era.

"[The bucket brigade] targets very specific communities, communities that are what we call fence-line communities. Those people who literally live, their backyards border oil refineries and petrochemical companies," Frickel said. "There is some where around 160 of these plants along about 100-mile stretch of the Mississippi. There is a vast concentration of this kind of industry around New Orleans."

If the members of a neighboring community smell a bad odor or just want to test the air, they can use a "bucket" which samples the air.

"The idea of the bucket brigade is a rather simple but elegant piece of technology. It is a bucket with a bag inside and a pump... They go out with their bucket and suck the air outside into the bucket, seal it up in a plastic bag, and send it off to a lab in California for testing. The lab will provide the results that they have," Viterna said.

If the test results come back showing a violation of air-quality standards under the Clean Air Act, it gives the fence-line communities a legal way to fight these powerful petrochemical companies. Under the threat of legal action the companies

Lefton: 'I'm staying'

Tulane provost no longer presidential candidate at College of William and Mary

Christopher Johnson
chief copy editor

Dr. Lester Lefton will remain as senior vice president for academic affairs and provost of Tulane University. He had been one of five finalists for president of the College of William and Mary.

Lefton visited Williamsburg, Va., to meet with faculty, students and staff Monday and Tuesday. Lefton told the "Hullabaloo" that he was no longer a candidate for the post yesterday.

"I love Tulane University and look forward to a long relationship with its students and alumni," Lefton wrote. The provost has been at the university since 2001 and oversees all aspects of the academic program for the uptown campus.

The College of William and Mary Presidential Search Committee announced Feb. 8 the names of five candidates who would visit the campus later that month. The committee will recommend two or three finalists to the school's board. A final decision is expected sometime this spring.

In his curriculum vitae submitted to William and Mary, Lefton highlighted his efforts to bring fiscal reform, increase grant funding and improve diversity. At both the George Washington University and Tulane, Lefton oversaw sweeping fiscal policy changes.

Lefton listed the five key goals that have guided his initiatives as provost as "enhancing the learning and research environment, increasing student retention and satisfaction, enhancing graduate national rankings, improving faculty and staff compensation and morale, and enhancing the revenue picture of the institution."

Lefton said he has done exactly that in his time at Tulane. "My team including associate provosts and deans has been successful in improving retention by five percentage points, developing TIDES, instituting the freshman summer reading project, and expanding the honors program," Lefton wrote in his e-mail to the "Hullabaloo."

The provost indicated he is already focused on his projects at Tulane. "I am here to stay and working 24/7 to move Tulane ahead with pride, promise and distinction," Lefton wrote, alluding to the Promise and Distinction Campaign for Tulane, the new fundraising drive established to increase the university's endowment.

The four other candidates for the post of president are Virginia L. McLaughlin, dean of the College of William and Mary School of Education; Roger H. Hull, president of Union College and chancellor of Union University; Gene R. Nichol, dean of the University of North Carolina Law School; and W. Taylor Revesly III, dean of the William and Mary Law School.

The College of William and Mary is supported by the Commonwealth of Virginia and has an enrollment of 5,700 undergraduates and 2,000 graduate students in the faculty of liberal arts and sciences as well as schools of business administration, education, law and maritime science. Founded in 1693, it is the second-oldest institution of higher education in the United States.

Hip Hop to Hip Hope

Karen Levit
staff writer

As part of the month-long Black Arts Festival, several local speakers participated in a panel discussion Feb. 22 entitled Hip Hop to Hip Hope. The panel discussed issues relating to hip-hop and African-American culture.

The first issue the panel tackled was whether hip-hop is a specifically African-American phenomenon, and the general consensus seemed to be that it is not. As Newcomb College sophomore Taneshia Straighter pointed out, hip-hop "constitutes not just race but anyone interested in hip-hop culture."

The panel speakers were Ray Smoove, a disk jockey and producer in the New Orleans area; Shonda Hawkins, a nurse at the Tulane University hospital and Alpha Kappa Alpha alumna; and Natasha Slack, a State Farm Junior Achievement counselor. The panel was organized and mediated by Ashley Mayes, a senior in the Business School and vice president of the Black Arts Festival.

Another major point of discussion was the commercialization of hip-hop. Smoove pointed out that there is a difference between culture and commercialization and that people get the two confused. Slack expanded on the theme, saying people would like to believe the image of commercial hip-hop artists is their personal reality, "because hip-hop is about presenting and expressing who you are."

This led the discussion to address the problem of how hip-hop is per-

ceived as negative and violent.

"When you look at reality in America and see hip-hop as an expression of self, mainstream America doesn't see it that way," Hawkins said.

"When you don't control your image, someone else will give you a label. It's on us to go out and show people that we will not allow you to put us in a box," Minister Willie Muhammad said.

The discussion ended on the topic of sexism in the hip-hop community.

"We as black women and men need to be accountable for if we're going to buy into that [negative image of women as objects]," Hawkins said. "Buy is the operative word," Smoove said. "Every dollar we spend is a vote for what we believe and want to see in the future. All these [major record] companies look at is the numbers, they don't care about the message."

While there was not always a consensus on the issues, there was a predominant idea that, as Mayes put it, "there can be no hip hop if we do not educate ourselves and pass it on."

Black Arts Fest is conducted by the African-American Congress of Tulane every year. This year's theme is "Preparing for Our Future by Celebrating Our Past." It kicked off with Hip Hop Night on the steps of McAlister Auditorium Feb. 11, followed by the Hip Hop to Hip Hope panel Feb. 22 and Spoken Word Night Feb. 24. Author Omar Tyree spoke on campus Feb. 17 and author Olympia Vernon spoke in the Newcomb Art Gallery yesterday. The Festival will culminate with author Michael Eric Dyson's visit to campus March 16.

Fair showcases programs from Argentina to Ghana

Sami Siddiq
staff writer

The Center for International Studies at Tulane University held its annual Study Abroad Fair at McAlister Auditorium Feb. 23 to showcase the different foreign exchange and study abroad programs available for next year and answer questions for students.

The event showcased the summer, semester and academic year international exchange and study abroad programs located in destinations all over the world.

According to Michelle Sadher, assistant director of the Center for International Studies, the most pop-

ular destination among Tulane students is the United Kingdom, because of the large number of universities to choose from.

Program coordinators, faculty members and students who participated in last year's programs were on hand to relate their experiences and answer questions for interested students about studying in places throughout Europe, Asia, Africa, South America and Australia.

Pierce Grogan, a Tulane college senior majoring in Spanish who spent last fall studying in Buenos Aires, Argentina, said he gained an appreciation for the local cuisine, which had "the best steak in the world."

Grogan, who was handing out

brochures for the program, said that in his travels throughout Argentina, he noticed that shopping was not as expensive as it may be in other tourist locations, "because the currency is so cheap, you triple your money and have more to spend."

Andrew Barr, anthropology major at Tulane College who spent last spring in Ghana, reflected on Accra, a city of two million people, as the "safest African capital as far as crime is concerned." Barr said that the feeling of security made it easy for him to travel around freely and experience the culture.

Trey Ralley, a Tulane College senior majoring in philosophy, spent last spring at studying in Hungary, at a time when the former communist country was debating its future as a member of the European Union. Ralley said he was intrigued with how all references to the Cold War era are now shunned, pointing out that Budapest University of Economic Sciences and Public Administration, where he attended classes at,

Faculty and students hand out literature and answer questions about international programs at the Study Abroad Fair Feb. 23.

Tennis teams win weekend tournaments

Men win C-USA shootout, women shine in UNLV Classic

Lewis Lowe

staff writer

The men's and women's tennis teams picked up impressive victories over the weekend, each winning mid-season tournaments.

The men (8-3) won the Conference USA tournament at the Goldring Tennis Complex in convincing fashion while the women (8-4) traveled west to capture the UNLV Lady Rebel Classic title.

The No. 26 Green Wave men were strongly favored to win the tournament, which factors heavily into C-USA tournament seedings, did not disappoint, defeating UAB (5-3) and South Florida (3-4) without dropping a match.

Despite a close doubles point, the men were able to dominate the lower-position matches against UAB Saturday. Ted Angelinos and Albeno Sotocorno won straight-set matches at No. 4 and No. 5 singles, respectively, while David Goulet won at No. 2 singles when his opponent was forced to retire in the second set. The rest of the matches were not finished as Tulane had already clinched the match.

Tulane carried momentum into its match Sunday against a strong South Florida squad. After winning the doubles point, the middle part of Tulane's lineup carried the men with straight-set victories. Goulet and Jacobo Hernandez won at No. 2 and No. 3 singles, while freshman Jonah Kane-West picked up a victory at No. 6 singles. The women racked up three victories en route to winning the UNLV Classic.

The Green Wave dominated Cal State Northridge with a 7-0 victory Friday. With the exception of Julie Snekodub's three-set victory at No. 3 singles, all matches were won in straight sets.

The 14th-ranked Green Wave women faced its toughest test of the weekend Saturday against No. 31 New Mexico (5-5).

Tulane dropped the doubles point to fall behind 1-0 early. The team of sisters Maria and Darya Ivanov came up just

short of upsetting the fifth-ranked doubles team in the country of Maja Kovacec and Iva Gersic, falling 9-7.

The Green Wave dominated the bottom four seeds in singles action, needing all four wins to capture the 4-3 victory. Ana Saabi held off a strong second set from Tiffany Robertson to win 6-2, 7-6 (7-4). Nancy Kockott easily defeated Michelle Heidbrink, 6-4, 6-2 at position No. 3 singles while Darya Ivanov downed Nora Quintal 6-1, 6-4 at No. 4 singles.

The clinching match came from sophomore Dorothy Magas at No. 5 singles. She defeated Lucy Scott 7-5, 7-5 for the win. "We're moving in the right direction," Head Coach David Schumacher said. "Every win we get is a good win. We've had a bunch of close matches

LESLIE FRANKL/STAFF PHOTOGRAPHER
Senior Dmitry Koch (above) and sophomore Alberto Sotocorno teamed to earn the doubles point against UAB.

and we've had a lot of different people contribute when they were needed."

Tulane ended up to a 4-0 victory Sunday over host No. 34 UNLV. Singles matches were played first, and Tulane took advantage winning the four matches in straight sets. The other matches were deemed unnecessary because the match had already been decided.

No. 55 Jenny Kuehn rebounded nicely from a loss Saturday by defeating Gyorgyi Zsuros 6-1, 6-2 at No. 2 singles.

The men and women are both in action this weekend with a pair of weekend matches against ranked teams. The men host Northwestern (1 p.m., tomorrow) while the women welcome No. 20 William and Mary (noon, Sunday).

Women's swimming and diving captures C-USA championship

Dan Jay

staff writer

A model of excellence, the Green Wave women's swimming and diving team captured the 2005 Conference USA title in only its second year of existence.

"The team is still extremely excited and they feel validated," Head Coach Daniela Irlie said. "At first there was excitement, and then satisfaction in knowing that they were rewarded for all of the hard work, dedication and sacrifice throughout the past year and a half."

Individual wins in the 100- and 1650-yard freestyles, as well as a first-place finish in the 400-free relay, jolted the Green Wave ahead of defending champion TCU 729.719.5.

"For the sophomores, this has been an 18-month journey. For the freshmen, their journey began the moment they committed to this program," Irlie said. "We all know what

Using a combination of heart and hustle, the women's swim and dive team captured the C-USA championship in Houston.

the goal was and that we all had a role to fill."

The title is a fitting end to a superb season by the Green Wave, which finished with 16 dual meet

wins and only three losses while fielding one of the smallest and most inexperienced teams in the conference.

"[In the off season] we got tough

and smart: mentally, physically, and emotionally," Irlie said. "These young ladies started over a year ago

Women top Southern Miss but miss tourney

Chris Burcham

assistant sports editor

One game too late, Tulane women's basketball team rolled to a 79-49 victory over Southern Miss (9-18, 3-11) at Fogelman Arena last Saturday afternoon. The Green Wave had its best game of the season.

However, the team had already been knocked out of any postseason activities, including the Conference USA tournament, because of its loss to Louisville Feb. 20. The Green Wave (11-16, 3-11 in C-USA) came into the game with nothing to play for, but played its best of the season.

Third team all-C-USA member and senior Lakethia Hampton dropped 23 on Southern Miss on Senior Day and junior guard D'Aundra Henry pulled down a double-double with 14 points and 10 rebounds.

The team started the game with a 16-2 run and never faced a deficit again. It was only the second time all year the women did not trail in a game. The lead was padded by five turnovers forced by Tulane during that run.

The Green Wave defense forced 23 Southern Miss turnovers, the 11th time that the Green Wave has

done so this season, and turned them into 28 points.

On the day the women racked up a 30-16 differential in points in the paint, a 16-8 difference on second-chance points and a 21-5 difference on fast-break points.

Southern Miss attempted a comeback late in the first, closing the gap to nine with 2:51 remaining in the half. But two consecutive baskets and a steal by Courtney Simmons gave the Green Wave an 11-point cushion going into the locker room.

The closest the Golden Eagles got was a 10-point difference at the start of the second half and the Green Wave maintained at least a 20-point lead for the last 16:32 of the game.

The 30-point victory was Tulane's most one-sided since stomping Southeastern Louisiana 86-43 Dec. 19, 2002.

NED DISHMAN/STAFF PHOTOGRAPHER
D'Aundra Henry hustled her way to the basket against Southern Miss.

The Golden Eagles made the conference tournament even though they split the season series with Tulane. Their win over Saint Louis (3-11) coupled with Tulane's loss to the Bilikens landed Southern Miss into the C-USA tournament, where Southern Miss lost 68-47 to South Florida in the first round.

the basement It's hard to side with Bonds

Suhas Subramanyam

staff writer

Two things separate Barry Bonds from other athletes: his ability to hit a baseball and his even more impressive ability to antagonize the national media.

In case you missed it, Bonds chastised the large media contingency during a Cactus League press conference Feb. 22 for its continuous coverage of his alleged steroid use. According to the San Francisco Chronicle, the reigning MVP admitted in grand jury testimony that he used a clear substance given to him by his trainer that may have been steroids.

Although Bonds couldn't field questions pertaining to his testimony due to legal constraints, the slugger expressed an array of opinions, all with the underlying theme that the media has little credibility because it lied. He demanded the media to stop pushing the steroid issue and even reflect on other issues in the world today.

Naturally, this propelled a small army of sports writers across the country to rush to their computers and abuse Bonds in every way imaginable. From articles entitled "Barry is the Real Liar" to "Barry has 'Roid Rage' during Press Conference," all the writers agreed Bonds was a little out of line with his comments.

I firmly believe in keeping an open mind and trying to understand Bonds' point of view. But sometimes, he simply makes it impossible.

First, Bonds attributed his tremendous muscle growth to hard work. Wow. He must have worked really hard. I don't know too many people who experience growth spurts, similar to the one Popeye the Sailor Man goes through after eating spinach, during their late 30s.

Then again, how many people's heads grow two hat sizes larger like Bonds' did after a few extra visits to the Reilly Center? I suppose he might have eaten a few extra protein

Baseball wins two of three at Pepperdine

Ben Eisenberg

staff writer

The Green Wave improved to 10-1 with two wins over Pepperdine and a win over University of New Orleans. The team earned two tough wins in their first road series of the season at Pepperdine last weekend.

The No. 1 Green Wave suffered its first loss to a Pepperdine team that proved to be tough competition.

"We had to scratch and claw for every run in Pepperdine," Head Coach Rick Jones said.

Brian Bogusevic (3-0) pitched a complete game shutout in Friday night's 3-0 victory and freshman third baseman Brad Emaus hit a grand slam Sunday to lead the Green Wave to a 7-6 victory. Micah Owings took the loss as Pepperdine topped the Green Wave Saturday, 5-2.

"We were able to win because we pitched very well and didn't

make any errors," Jones said.

Bogusevic's first complete game shutout Friday night earned him Conference USA pitcher of the week honors for the second time in three weeks. The Pepperdine offense had no answer for the winner lefty, who struck out eight and allowed just six men to reach base.

In the opener, the Green Wave offense collected 12 hits and scored three runs. Seniors Scott Madden and Joe Holland each contributed RBI singles and senior shortstop Tommy Manzella hit a solo home run to cap the scoring for Tulane.

Owings (1-1) struck out four in seven innings Saturday but could not overcome a five-run second inning by Pepperdine. He pitched strongly after the big inning, but the Green Wave could not rally back as Pepperdine starter Paul

Coleman effectively shut down the high-octane Tulane offense.

"Any time you go on the road it makes things really tough," senior Matt Barkett said. "We wouldn't mind the sweep but their pitching

made things difficult."

Coleman allowed just three singles through 7.1 innings to pick up his second win of the year in limiting the Green Wave to a season-low two runs.

Conference honors prof, student SOAR explores racism

Jonathan Kim
staff writer

Serving as an example of Tulane University's excellent research programs and faculty, professor of biomedical engineering Natalia Trayanova and graduate student Molly Malecker recently attended the prestigious Gordon Research Conference on Cardiac Arrhythmia Mechanisms in Santa Ynez Valley, Calif. At the conference, Trayanova was elected vice chair of next year's conference and Malecker won the Best Poster Presentation Award on the organ/tissue level.

The Gordon Research Conference, held Feb. 20-25, is a scientific organization that conducts conferences focusing on a particular subject of scientific study. The first conference was held in 2003 and future conferences are scheduled every two years. Unlike other conferences, Gordon Research Conferences are small in size, highly selective in attendance and based around constant discussion and interaction in order to spur innovation and ideas.

Malecker said the people who attended the conference are "actually the movers and shakers. That is what it is. They condense it down into people that are at the forefront of the field, they put them all together in a big pot and squeeze research out of them and talk about it."

"We are the only ones from Tulane to go to that one. It is by invitation. You have to be accepted... It is not like you can just go, even if you want to pay," Trayanova said.

The attendees are isolated in one building for five days in order to facilitate inter-

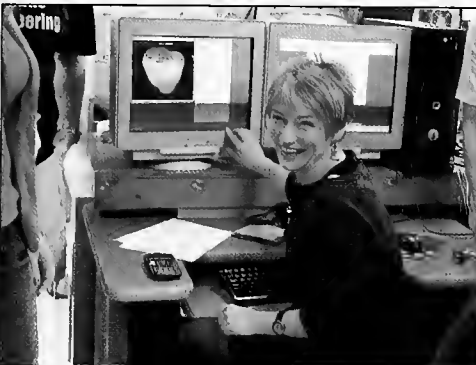

action. For example, when presenters lecture, they have plenty of time after the presentation to field questions and engage in critical dialogue. The format allows researchers and scientists to see new work done in other areas of specialty from the larger areas of organs and tissues to the smaller levels of the genome.

Cardiac arrhythmia, a serious health problem in the United States, refers to the development of an irregular heartbeat. Its cause is unknown.

"[It is] when your heart isn't beating right or contracting right. It is all these people [at the conference] who are trying to understand how sudden cardiac death occurs and what kind of therapy can be used to prevent that," Trayanova said.

Although she works with organs and tissues, Malecker said, "There are also people at the conference who do the genome or genetic component of the ion channel in the membrane of the cardiac cell. One of the reasons why I think [Trayanova's] platform for the election was so great was that she talked about integrating from a basic level, like a really molecular level, to an organ level, and I think that is very important."

At the conference, an election by her peers granted Trayanova the new position of vice chair for the following two conferences. The position is extremely prestigious and important, because the chairs choose the direction the conference shall take. In a male-dominated field, the elections demonstrate the importance and

Professor Natalia Trayanova was recently named vice chair of the Gordon Research Conference on Cardiac Arrhythmia Mechanisms.

impact of Trayanova's work in biomedical engineering in the study of cardiac arrhythmia.

Despite the highly respected reputation of her challenger, Trayanova won her position by a decent margin, partly due to her dynamic vision for the conference. "There are very few engineers at that conference. It is mostly M.D.s and people who have [a] more medical background. I am one of the very few who actually

teaches undergraduate classes as well. To me, student participation is very important so this is one of the things that I really want to emphasize," Trayanova said. "The other part of [my] platform is how you put the science program. I want to have a rigorous process of approving these scientific presentations to make sure they are not repeating old work. We work in

SOAR explores racism

Saml Siddiq
staff writer

In the spring, it is a common sight to see a Tulane student leading prospective students and their parents on a tour of the campus. One organization, Students Organized Against Racism, led a different kind of tour March 2.

"A Tour of Slavery and Segregation at Tulane," presented as an alternative campus tour, took more than 50 current students, faculty and staff members from Gibson Hall to Hebert Hall and ended in Newcomb quad.

SOAR organizers Newcomb College junior Cheryl Schmitz and philosophy graduate student Brian Walters spoke at the different stops to inform the crowd about the school's links with slavery and segregation. Schmitz and Walters specifically outlined the racist legacy of those individuals who are namesakes for some of the school's most prominent buildings.

"If Tulane wishes to see itself in the league of other nationally ranked institutions, it would only enhance its own prestige by being one of the first universities in the South to make this information available and provide an intellectual space for a dialogue that considers potential actions that could be taken," Schmitz said.

According to Schmitz, Paul Tulane, the university's primary donor, was heir to a fortune acquired

Engineers invent new game

Caroline Politz
contributing writer

Three Tulane University engineers are publicizing their newly invented board game, Deflexion. Engineering Professor Michael Larson and graduate students Luke Hooper and Del Segura created the game which has gained the praise of *BusinessWeek* magazine.

For board game fans who have grown weary of typical games like Candyland and Clue, Deflexion offers illuminated Egyptian-themed game pieces that shoot laser beams. With help from students, Larson renovated a classroom into a product-design studio. The studio is used mainly for the product-design and product-development courses taught by Larson in the mechanical engineering department.

The studio provides space for students to brainstorm collaboratively in order to ultimately develop their ideas. This setting is responsible for the birth of the toy industry's latest success: the electronic board game, Deflexion.

"After teaching product design for 12 years, I decided to finally put an idea into action," Larson said. Larson, Hooper and Segura worked together to produce a prototype of Deflexion, an idea concocted by Larson's product-design class.

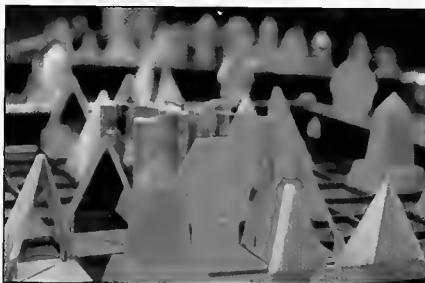

"Coming up with the concept is usually the easy part in the design process. Prototyping, funding and producing the idea is where all the real work lies," Hooper said. The end

result of this work was a two-player game, Deflexion—strategy at the speed of light.

"Welcome to the world of Deflexion, the game that combines lasers with classic strategy for an experience enjoyed by players of all ages," claims the game's Web site, www.deflexion.biz. "Players alternate turns moving Egyptian-themed, mirrored pieces around the playing field after which they fire their low-powered laser diode with the goal of illuminating their opponent's pieces to eliminate them from the game."

After careful design and test tactics, the trio made a Deflexion prototype to showcase in New York's International Toy Fair. "Stores from across the country immediately demanded shipment orders before we even knew Deflexion would sell," Larson said.

A generous grant from the National Collegiate Inventors and Innovators Alliance allowed the creators to produce 500 copies of the game. Their first production copies for the public will be on sale May 1. *BusinessWeek*'s Lauren Gard announced "the threesome get my vote" in reference to Tulane's genius trio. Plans for Deflexion Day are in the making. Tulane students will have the opportunity to grab a slice of pizza and try out Deflexion for themselves before the rest of America gets hold of it.

A new checkers game invented by Tulane professor and graduate students uses lasers to show which pieces have been eliminated.

Martin's legacy lives on

Tulane grants manager Susan Sarver participated in the 2005 Mardi Gras Marathon in February to call attention to cancer research. Sarver is a lupus disease survivor and also a coordinator of Bounce for Life, a relay event to benefit cancer research.

Sarver, grants manager in the section of hematology and medical oncology in the Tulane University Health Sciences Center, proudly displayed a pair of large gilded running shoes on her office desk. However, the shoes are unique because the toe portion is cut off.

"The reason why the toes are missing [is] they had to be chopped off; because, after so many hours [the runner's] toes were so swollen they had to

be cut out," Sarver said.

The running shoes once belonged to Dr. Tyler Curiel, professor of hematology and medical oncology at Tulane.

Curiel is the head professor of simonax undifferentiated carcinoma research and also an ultra-marathon runner. Curiel uses his running abilities to raise money for cancer research. He has also completed the Grand Slam of Ultramarathon Running in 1998 and set the course record in the 125-mile Mardi Gras Ultramarathon Classic in 2002.

Sarver is a coordinator of Bounce for Life, a 24-hour basketball dribble relay to benefit research on SNUC and for other rare cancers. Curiel broke the Guinness World Record Book by bouncing a basketball while running for over 24 hours as part of the Bounce for Life event at Tulane in 2003.

The program was originated for former Tulane medical student Andrew Martin who was diagnosed with SNUC. He wanted to study this rare form of cancer and devoted his medical school career to doing so. Martin died Nov. 19, 2004 from complications related to the disease.

"Andy told me we want to keep the momentum going when he made comments about Bounce for Life, so I feel a great responsibility to keep [it] going," Sarver said. "Andy also wanted me to get the shoes bronzed, so they are sort of symbolic."

After finishing in 469th place in the Mardi Gras Marathon, Sarver understood the pain long-distance runners experience. "Now I understand what

Ross talks business

Kate Dearing
staff writer

Executive Vice President and Senior Counsel for the Trump Organization George H. Ross gave a lecture on having successful negotiations March 4 to a packed room of the A.B. Freeman School of Business.

Ross' lecture, entitled "High Powered Negotiation Techniques and Tactics for Business, Law and Life," focused on how to develop negotiation skills in order to become successful in the competitive business world.

Ross claimed that a good personality is the most important trait a businessman can have, along with knowledge of the subject matter, ability to organize information and knowledge of human nature.

"You have to figure out what makes people do things," Ross said. "You've got to work, and it's tough. You've got to go through the shit to get to the

pony." Ross gave advice on how to develop these valuable traits and skills. Becoming comfortable around others, especially strangers who are new clients or associates, is crucial.

"First and foremost, you have to become a nice person," Ross said. Other points included becoming flexible and trustworthy and having a notebook at all times.

"You need to start writing down important information or sayings in order to remember little things about the business," Ross said. "I do it and so does Trump, so you know it works."

Ross spoke in detail about understanding human nature and how important it is to the negotiations process.

"People want what they can't have, so convince them that your product is exclusive or limited edition," Ross said. "Keep in mind that they also get overwhelmed when there are too many decisions to make at once."

Ross spoke of the human desire for satisfaction and the belief in the "Invested

Time Philosophy," the theory that the more time someone deals with something, the less he will want to give up on it in the end. He also discussed the "Principle of Least Effort," the theory that the path of least resistance is the one most likely to choose.

"All you have to do is fill in the gap," Ross said. "If they're not good at math, do all the numbers for them. It may seem like you're just being nice by doing what the other side doesn't want to do, but really the more you control the document the more control you have over the transaction."

Ross claimed that people tend to have what is known in the business world as "deadline syndrome." They tend to make a decision at the very last minute despite all time given to make it.

"Admit what you don't know; it's the first step to knowing what you don't know," Ross said. "People admire others who admit their mistakes, there's no arguing when that is the case."

George H. Ross, a regular on the show "The Apprentice," spoke March 4 about how to be successful.

Tulane cruises past Marist, LSU; faces CSF next

Baseball pounds Marist 43-11 over three-game sweep; Owings named Player of the Week

Suhas Subramanyam
assistant editor

Green Wave baseball has grown accustomed to winning at home this season. In fact, the question these days is not if the team will win, but how it will get the job done.

No. 1 Tulane used a walk-off grand slam Friday, a hit parade Saturday and a display of power Sunday to sweep the Marist Red Foxes 8-4, 24-2 and 11-5, respectively.

Senior Tommy Manzella led the weekend's 43-run attack, going 5-for-14 with eight RBIs and two homers, including Friday night's dramatic game-winner. Junior Micah Owings went 4-for-12 with four RBIs and two home runs.

"You're not going to win them all the same way," Head Coach Rick Jones said. "We're basically a pitching and defense club. Some days we're going to be able to hit the way we did [Saturday] and some days we're going to have to rely on the long ball."

Owings also pitched six shutout innings in Saturday's blowout. Combined with his effort against UNO last Tuesday, Owings became the second Tulane player to be named Louisville Slugger National Player of the Week by Collegiate Baseball magazine. Brian Bogusevic claimed the honor Feb. 14.

Manzella's heroics came in the bottom of the 10th inning Friday after Marist

PHOTOS BY LESLIE FRANKEL/ASST. PHOTOGRAPHY EDITOR

(Top) Senior Scott Madden collected six hits against Marist. (Right) Junior Billy Mohl tossed 1.1 innings of scoreless relief against Marist.

reliever Jonathan Scott struck out junior Nathan Southard. With the bases loaded and two outs, the senior shortstop sat on a curve ball and drilled it over the left-field fence, sending the crowd of 2,650 into a frenzy.

"It was one of those situations where you just try to keep the ball in play," Manzella said. "I knew from [Southard's A-ha] that he'd eventually come with a curve ball. So I just kind of sat on it."

The Green Wave trailed 4-0 until a two-out blast by Owings to left center in the bottom of the sixth. The homer sparked a two-out rally, including a two-run double

SEE BASEBALL: PAGE 10

Green Wave tames Tigers

Suhas Subramanyam
assistant editor

Clutch hits. Untouchable relief pitching. Tuesday was just another day at the ballpark for the Green Wave.

Despite being out-hit 12-10 and committing two errors, No. 1 Tulane ousted in-state rival No. 5 LSU 6-2 at Alex Box Stadium in Baton Rouge.

Relievers Dan Latham and Billy Mohl pitched four shutout innings, giving up only three hits and one walk. Senior Scott Madden went 2-for-5 with a two-run homer while starter Brandon Gomes (2-0) gave up two runs on nine hits to earn the win.

The Green Wave won the game with clutch hitting, scoring five of its six runs with two outs. On the other hand, while the Tigers left 13 runners stranded and hit 1-for-10 with runners in scoring position.

"We had some timely hits," Head Coach Rick Jones said. "[The win] was a combination of really good pitching and timely hits. It's not about who gets the most hits, it's about when."

Madden's home run, came with two outs in the third inning after senior Matt Barker drove in freshman Cat Everett with a sacrifice groundout to get Tulane (14-1) on the board. In 50 at bats this season, Madden is now hitting a scorching .460 with two homers and a .542 on-base percentage.

In the bottom half of the inning, Gomes pitched out of a bases-loaded jam to keep the Tigers off the board. The Tigers remained scoreless until designated hitter Blake Gill knocked a home run to right field to make the score 3-2.

But LSU (11-4) failed to plate any more runs for the rest of the game junior Brian Bogusevic and freshman Will Rice each added two-out RBIs to insure a victory in front of the crowd of 7,913. Mohl and Latham shut down the Tigers for the rest of the game, lowering the bullpen's ERA to a meager 0.48.

"We take a lot of pride in the fact that we know we can come in and shut the other team down," Latham said. "We have a lot of experience and that just pays dividends."

LESLIE FRANKEL/ASST. PHOTOGRAPHY EDITOR
Sophomore Ted Angelino dropped two close sets against Northwestern.

Men's tennis downs Northwestern 4-3

Team improves to 9-3; ranked 25th in nation

Lewis Lowe
sports writer

The Green Wave took down Northwestern in thrilling fashion Saturday, pushing their record to 9-3 on the season.

"I was very pleased with the victory," Head Coach Robert Klein said. "It was a good win against a very dangerous team."

As it has all but one time this year, the No. 25 Green Wave began the match by picking up the doubles point. All three Tulane teams won their matches. Particularly impressive was the No. 2 tandem of Jacobo Hernandez and Ted Angelino. They pulled out a 9-8 win over the Wildcat team of Tommy Hanus and Adam Schaeferle.

In singles, Tulane got off to a very quick start, but it came down a final deciding match. Alberto Sotocorno played an extremely strong third set at No. 5 singles, defeating Schaeferle 6-2, 5-7, 6-3 to clinch the match.

"We started off strong in singles, but I wish we could have finished it off,"

Klein said. "Alberto [Sotocorno] played a great third set to pull out the victory."

Also picking up singles victories for the Green Wave were David Goulet at No. 2 singles and Jonah Kane-West at No. 6 singles. Goulet defeated Chuck Perrin 6-1, 6-7, 7-5 and Kane-West took down Matt Christian in straight sets, 7-5, 7-5.

"I was happy to see Jonah play well. He's won his last two matches in straight sets and is playing a lot better," Klein said. "We haven't gotten much production out of the sixth spot before now."

Next up for Tulane is the Blue-Gray Invitational in Montgomery, AL, which starts this weekend. Some of the top teams from around the country will be at the tournament, including 15th-ranked Harvard who defeated Tulane in the second round of the NCAA tournament last year.

Next Saturday, Tulane welcomes Tulsa to the Goldring Tennis Center. The match is scheduled to start at 12:30, and free hot dogs will be available to all fans in attendance.

Women's tennis drops to No. 14

Loss bumps team out of No. 12 ranking

Megan Repine
staff writer

It has been almost a month since the defeat at the National Team Indoors in Madison, Wis. The team finally succumbed, dropping a close match to No. 20 William and Mary Sunday in Goldring Tennis Complex.

With the 5-2 loss to the visiting Tribe, Tulane drops from No. 12 to No. 14 in the ITA tennis rankings. The match marks the team's first loss in six matches.

"The deciding factor was really just a very good William and Mary team," Head Coach David Schumacher said. "[This is] a team stronger than its ranking that just upset the fifth-ranked team in the nation."

On the doubles side, the Green Wave started strong with sophomore Darya and senior Maria Ivanov's 9-7 win over William and Mary's top-seeded team. The

Tribe, however, persisted and clinched the next two doubles spots 8-4 and 8-5 over the lower-seeded Green Wave teams.

"We were disappointed to lose the doubles point," Schumacher said. "It is often the tipping point in matches, and I think we lost a bit of momentum going into the singles play."

Having lost the doubles point, Tulane looked for redemption in singles play. Junior Jenny Kuchin defeated No. 39 Megan Muth 6-3, 2-6, 6-1 in No. 2 singles. Darya Ivanov secured another win for the Green Wave in straight sets 7-6, 6-3 at No. 5 singles.

The Green Wave's wins in the second and fifth singles spots would not be enough. Maria Ivanov fell to William and Mary's Moulton-Levy 6-4, 6-1 at No. 1 singles. Julie Smeckdub lost in a close battle with Lena Sherbakov

SEE TENNIS: PAGE 10

the basement True student-athletes

Stephen Richer
staff writer

It's spring! Midterms are ending, T-shirt printing stores are thriving from the business provided by Tulane's intramural teams, scraps of eccentric architect projects fill the campus, overweight Green Wave backers once again are dancing at outdoor events and spring break is beckoning.

It's also that time of the year when the athletic department of Tulane awakens from its winter slumber, ready to destroy its spring opponents. This past weekend the baseball team best Marist all three games, including a 24-2 pounding Saturday (yes, 24, that's not a typo).

The basketball team salvaged some respect by defeating East Carolina in the last game of its regular season, thereby qualifying for a spot in the C-USA tournament.

The men's and women's tennis teams have a combined record of 17-8 and are ranked No. 28 and No. 14 in the country, respectively. The golf teams are com-

manding attention as well.

Tulane teams should also be praised for something that often goes unrecognized: academic achievements.

Starting next year, the NCAA A will use the Academic Performance Rates system, instead of a graduation rate system, as the athletic yardstick by which collegiate programs are judged. Whereas the old system was based solely on the percentage of student-athletes who graduated, the APR is based on eligibility, graduation and retention statistics.

The APR gives each team a rating out of 1,000 points. The school's rating is the average of all its teams' individual scores. A school that scores under 925 is considered a failing school and will be subject to penalties. Marginal failure would result in a reduction of the amount of scholarship money a school may offer.

If the offending school lags well behind the 925 standard, its number of scholarships will be reduced.

The University of Southern

FITTING END

Men's basketball closes another losing season with first-round exit

Ross Hurwitz
staff writer

After senior Ivan Pjeticovic gave the Fogelman Fanatics a career outing in his final home game (24 points on six three-pointers) Saturday, Tulane catapulted its way into the Conference USA tournament with a 77-71 win over East Carolina.

Unfortunately, the Green Wave earned the No. 12 seed and a matchup with the fifth-seeded DePaul Blue Demons, a team that topped Tulane 81-63 Jan. 15 at New Orleans Arena. This time the result was the same as the Green Wave's season ended in the first round Tuesday with a hard fought battle, 81-71.

DePaul opened the game on an 18-4 run over the first eight minutes, with Tulane starting out ice cold. The Green Wave missed its first six field goal attempts. To make matters worse, senior point guard Marcus Kinzer picked up his third foul at the 10:55 mark and was forced to sit on the bench for the majority of the remaining 11 minutes.

"The beginning of the first half was

critical," Quincy Davis said. "We can't come off against these tough teams and struggle the way we did. We have to come out as the aggressor and we didn't do that. We relied on the three too much. That's not something we usually do."

The Green Wave (10-18, 4-13 C-USA) eventually settled down after the run and outscored DePaul over the remaining 32 minutes.

The duo of Davis and freshman forward David Gomez kept Tulane within striking distance. Davis dominated the inside, scoring 12 first-half points, and Gomez came off the bench to contribute eight of his own.

A hook shot by Davis with just over two minutes remaining in the first half cut the DePaul lead to 37-30. However, the Blue Demons responded with three late treys, including consecutive ones from Drake Diener to push the lead back to double digits, 46-32, at the half.

Finney fired after another losing season for men's basketball

Ross Hurwitz
contributing writer

After four losing seasons in five years, Tulane Athletic Director Rick Dickson announced Sunday that men's basketball coach Shawn Finney will not be returning for the 2005-2006 season.

"We are certainly appreciative of the hard work Shawn and his staff have done on behalf of Tulane University over the last five years," Dickson said. "We have shown improvement and there has been progress made in many areas, including the academic performance in terms of graduation, APR and grade point average. Yet ultimately the program did not move forward enough in the areas of competitive success and support."

Dickson and Finney arranged a meeting in the home locker room at Fogelman Arena to break the news to the players. Dickson first stated that he and Finney both agreed it was time for him to step down. Finney spoke afterward, emphasizing the move was a mutu-

al agreement.

"I would like to thank Tulane University and Rick Dickson," Finney said. "I appreciate the opportunity they gave me. I have had a great experience, met some wonderful people and made some great friends. I wish Tulane the best of luck; now I am looking forward to my next coaching opportunity."

Many of the players were expecting a routine meeting and were shocked by the announcement.

"It was really surprising," junior forward Quincy Davis said. "I really wasn't expecting it. It was very emotional at the beginning, because he was actually part of our family. Whether or not he was doing his job, he was a part of the family. For us to lose him, it was obviously not a good situation that anybody on our team wanted to be in."

The team's perpetual struggles and the failure to produce results in the past two seasons sealed Finney's fate.

The Green Wave accumulated a 21-35 record over the last two years with a dismal

8-24 record in Conference USA. The team qualified as the 12th and final seed for the C-USA tournament both seasons, but was ousted in the first round, including a season ending 81-71 loss to DePaul last Wednesday.

This year's squad, which included eight freshmen and sophomores, finished with a 10-18 record and an RPI ranking of 267 out of 330 Division I teams. The RPI ranking is a numeric ratings percentage index that ranks teams according to several variables including record, strength of non-conference and conference schedules. This 267 ranking is fifth lowest in the nation among teams playing within the 10 major conferences.

"He's not out there playing, but coaching does play a part in [winning]. You have to stick in the right combination of players at any given moment, so some people might criticize him that he's not doing a good job with substitutions," Davis said. "Even if we

Greeks disrupt library

Christina Le
interim news co-editor

Each spring as fraternities and sororities open their doors to new pledges, the Howard Tilton Memorial library is congested with groups of students traveling en masse to partake in recommended group study. For the past five years, Lance Query, dean of the libraries, has received complaints of the noise level the groups cause and has been working with administrators to solve the problem. This year, the problem has worsened and the dean is moving to find a solution.

"The problem must be solved because it is our responsibility in the library to ensure that our students and faculty who wish to use the library for study/research, the use for which it is intended and for which students pay dearly, deserve no less," Query said. "If one can't study or do research in a research library, where can they expect to do it?"

Query has been collaborating with Dean of Newcomb College Cynthia Lowenthal and Associate Vice President for Student Affairs Dan Nadler to work out a solution.

"The closing of the UC for renovations has meant a shrinking number of spaces available to students to study, especially in the evenings," Lowenthal said. "So it is even more vital that the library remain a place where students can go and think, read and write without having to contend with the distractions that I now understand have become commonplace."

As of press time, Nadler was unavailable for comment.

She explained that Query is working with representatives from Student Affairs, Pan-Hellenic and Interfraternity Council and believes they will come to a conclusion soon.

"We've worked with Dan Nadler and Jacob Bolin, [director of Fraternity and Sorority Programs], and they have conveyed the nature and extent of the disruption problem with the various houses and explored alternatives with them," Query said.

Query suggests that "the most effective action would be for the fraternities and sororities not to send their pledge classes to [the library] on mouse." He believes that the noise is only a problem when the students study in large groups, encouraging what he called "herd mentality."

If the pledges are not encouraged to all study at the same time and place, Query said "there would not be the groups coming in and behaving in group fashion. That is, individual pledges would be welcome to come. We don't want to turn away any students and, as individuals, they would not behave in a disruptive fashion."

Chaire Bredlove, a member of Kappa Alpha Theta sorority, feels strongly about the issue. "As a sorority member, I'm really dismayed to see how some Greek organizations on this campus have displayed such blatant disrespect for their fellow students in the past few months."

Signs of 'Promise' emerge

Leah Barber
news co-editor

Tulane University President Scott Cowen hosted the public launch of "Promise and Distinction: The Campaign for Tulane" yesterday morning along with other events on and off campus Wednesday through Friday.

Since the beginning of its "silent phase" in 1998, the campaign has raised \$478 million of its \$700 million goal. Several newly received gifts were announced at the news conference yesterday, including \$6 million from Bertie Deming Smith and \$1 million from the Murphy Foundation to renovate Richardson Hall as the new home for the Murphy Institute for Political Economy.

The \$700 million goal, set to be reached in 2008, of the campaign includes different amounts to be used to raise Tulane endowment, to improve facilities, to fund research and education programs and to add to the university's annual fund.

"We hope the Promise and Distinction campaign will have a profound impact on our university and on our wider community," Cowen said.

Other activities to celebrate the launch of the Promise and Distinction campaign included the "Highlights of Tulane" which included an exhibit of blown glass by art professor Gene Koss at the Newcomb Art Gallery, a discussion with author and Newcomb Zale Writer-in-Residence Ellen Gilchrist themed "why we write," a lecture on the development of gene therapy research by Tulane geneticist Darwin Prockop and a presentation on Louisiana busi-

ness by Assistant Dean of A.B. Freeman School of Business Peter Ricchiuti.

The four events gave further depth to what the fundraising money will support. Prockop, the director of the Tulane Center for Gene Therapy, explained that the center is greatly advancing its progress, hoping to begin clinical research within the next year. With a current budget of \$5.2 million a year, he explains the center's "work is expanding and increasing. We're getting into the area where costs are going up dramatically." Prockop works with stem cells in hopes

of finding a cure for diseases such as Alzheimer's, chronic heart disease or brittle bone disease in infants.

As the largest university fundraising effort in Louisiana history, a goal of the Promise and Distinction campaign is not only to improve Tulane's standing, but benefit both New Orleans and Louisiana as well. At the news conference yesterday, Cowen spoke of Tulane as being an "economic engine for this city, this state and this region."

Mayor Ray Nagin spoke at the conference yesterday and voiced his support for the university. "When I think about economic development, when I think about the future of New Orleans, I think about

Tulane," Nagin said. "We will do everything in our power, in the city of New Orleans, to make sure that Tulane is a strong university, continues to be a strong economic driver in the community and continues to be part of the fabric of the city."

Lieutenant Governor Mitch Landrieu also spoke about the goals of Tulane in relation to the goals and principles of Louisiana. "Tulane constantly tries to find ways to create new jobs and new businesses," he said. Landrieu also discussed the importance of building intellectual capital and making sure Louisiana can add value to the resources it has.

Yesterday's conference was just one of this week's campaign events meant to highlight major gifts given to Tulane, give an opportunity for alumni involvement, inform people of the progress and plans of Tulane and increase the sense of pride and willingness to support Tulane, Michael Strecker, director of Public Relations, said.

The "Big Splash" today in Gibson Quad from 3-5 p.m. will give students an opportunity to learn more about the Promise and Distinction campaign.

"The whole purpose of the campaign is to provide funds to invest in faculty, student scholarships and facilities—all the things students care about. So the more successful we are, the more we're going to be able to provide those kinds of resources to our people and to the community at large," Cowen said.

Interim news co-editor Christina Le contributed to this report

Tax returns for Mid-City

Bryan Cole
senior staff writer

Most Americans dread April 15 as they turn their attention to filing their tax returns. But for a group of Tulane students, the looming deadline means an opportunity to serve people throughout the city.

"It's nice to see the look on someone's face when you tell them how much money the government is returning to them," volunteer Jennifer Gatz said. "They are usually pretty excited."

Gatz is one of over 60 students who contribute over 500 hours to the Volunteer Income Tax Assistance program to help Mid-City residents file their returns.

Neill Goslin, program manager for the Levy-Rosenblum Institute for Entrepreneurship and program director for the Central City Asset Building Coalition, first got involved four years ago in the national program.

"Tulane played an instrumental role," he said, "primarily in supplying volunteer labor, which has been primarily students from the business school."

While several students in the law school volunteer in a similar on-campus program, Goslin's volunteers work off campus and help bring money back into the Mid-City district of New Orleans, which it has done with increasing success since its founding.

"The first year we did 250 tax returns

and brought back a little less than \$400,000," Goslin said. "Last year, we did close to 1,200 returns and brought about \$2.3 million back into the community."

Goslin explained that these figures were based on how much each person's refund was, as well as savings over using a paid services like H&R Block or Jackson Hewitt.

But for the students that volunteer, the program's appeal is more than just dollars and cents.

"It is amazing to see how grateful people are after getting their taxes completed," Kerry Gear, a senior in the A.B. Freeman School of Business who also volunteered with the program last year, said. "Some people can't thank you enough. They continue to come back year after year and recommend this service to friends. This is proof of the program's success."

The program has been so successful that its economic impact is beginning to expand beyond Mid-City.

"Our target area is Central City, and we were starting to attract people from Harahan, from Harvey, from the West Bank," Goslin said. "We never turn anybody away, but at the same time, it impedes our ability to provide the level of service we want to provide if we're

Suspected suicide

Jaclyn Rosenson
editor-in-chief

Jason Kyeey, a Tulane College senior from Mesa, Ariz., was found unresponsive in his off-campus apartment early Saturday morning by his roommate. New Orleans Police Department officers responded to a 911 call placed by Kyeey's roommate. According to a message from Assistant Vice President Kevin Bailey, suicide is the suspected cause of death. An official cause of death has not been determined by the Orleans Parish Coroner's office. Kyeey was 21.

Vice President for Student Affairs

Cynthia Cherry, Associate Vice President for Student Affairs Dan Nadler and Counseling Center staff members Jill Rovaris and Marshall Lee were on scene to provide support and counseling to Kyeey's roommate and friends.

Cherry spoke with Kyeey's parents, and met with Kyeey's family when they arrived in New Orleans. The parents also met with President Scott Cowen. The Student Health Center and Counseling Center will be offering ongoing counseling and support. The university plans to hold a memorial celebrating Kyeey's life after spring break.

Jaclyn Rosenson
editor-in-chief

Just call him Bailey. Although the suit and the Ph.D. may convey an all-business attitude, new Assistant Vice President for Student Affairs Dr. Kevin Bailey is concerned about the students and making Tulane a better place.

Before coming to Tulane Feb. 28, Bailey was the assistant vice president, Student Affairs, at Millersville, a well-respected public school of about 8,000 students in Lancaster, Penn. At Millersville he oversaw student programs, leadership, orientation, Greeks, student organizations, the wellness and women's center, community service, career services and the student center.

At Tulane, Bailey reports to Dr. Cynthia Cherry, vice president for

student affairs and oversees orientation, leadership, parent and family programs, and judicial matters.

While Bailey said he is up for the challenge, he also said he is still trying to figure out what those challenges are.

Bailey was attracted to Tulane by the warm New Orleans weather, the school's international reputation and a genuine feeling that he could contribute.

Bailey was nominated for the job at Tulane by both a mutual colleague of his and Cherry. He then met Cherry at a conference and they discussed the position more, which motivated him to apply for the job.

Bailey looks forward to getting Tulane students involved in and connected to the university during orientation. Although Millersville recently changed their orientation to a full-

only program, Bailey has worked at other institutions where the push has been to do part of orientation over summer. "Given the Tulane population, it makes sense to take the show where [they] are," Bailey said.

His goals are fairly generic at the moment since he has yet to learn the ins and outs of Tulane, but he did speculate on what he would like to achieve with the judicial and leadership aspects of his position.

In judicial matters, Bailey would like to see the process streamlined. He feels that collegiate judicial proceedings should be a way for students to make mistakes and have the opportunity to learn in an educational, rather than punitive, environment.

Bailey would like to have students learn more about themselves and student organizations through leadership positions that may be applica-

ble to their post-Tulane lives. Bailey noted that quality of "leadership has been called into question, most particularly after the whole WorldCom/Enron debacle ... three years ago now, when the whole thing was big ...". He hopes to help "people remember those and other things that can help them be better contributing members of society."

In general Bailey would like to "leave Tulane, and the student body, better off than before he got here." He acknowledges that in order to do this he must "[spend] time, meeting people, learning about programs—this is where we need to spend our energy."

Bailey said the administrative aspects of his job would not mean as much if it were not for contact with

Baseball wins sloppy contest

Wave off to running start at UNO Invite

Freshman infielder Cat Everett's defensive gem of a grab secured the final out and the win against Texas Southern Wednesday night.

Chris Burcham
assistant sports editor

A sparse crowd braved strong winds and cold weather Wednesday to watch the No. 3 Green Wave top the Texas Southern Tigers 8-4.

The Green Wave (16-3) was out-hit 10-7 by the scrappy Tigers (6-6-1), but Tulane capitalized on five walks, four errors and a hit batter to score five of their runs.

"It was an ugly game. Offensively we were not very good, and I was very disappointed," Head Coach Rick Jones said. "Defensively I thought we were very good and that saved us."

Junior center fielder Nathan Southard led the anemic Green Wave offense, tallying three hits and one of the four Green Wave RBIs. His second-inning pop-up scored junior Micah Owings on one of the three Tiger errors in the inning.

"We were just trying to get something going," Southard said. "We didn't get too many hits tonight and we could have done better. We got a few hits that got us some runs."

Southard also scored in the fifth on a wild

pitch, and his insurance RBI in the eighth inning was one of the stranger plays of the evening. With freshman Brad Emaus sitting on second after he stole it, Southard cracked his next pitch into the outfield. Unfortunately, he held up between first and second bases to watch if Emaus scored. Emaus did, but Southard was caught flat-footed and looking confused and tagged out on a rundown when the relay throw in from the outfield reached the infield.

"We've got to get better if we're going to have the kind of club that we want to," Jones said. "I know that we are working very hard but tonight we didn't have a very good night."

Texas Southern got on the board first as lead-off man Andre Nevels reached on a walk, then stole second and scored on an RBI-single by first baseman Herman Coachmen. The Tigers batters were pushed on all night long by churning coming from the visitor's dugout during each Tigers at bat.

"They had a lot of intensity, and you can admire that they can get together as a team and put out that intensity," Southard said about the

champs.

Junior right-hander Billy Mohl struck out a season-best seven and walked just one while giving up three runs on six hits in six innings of work to improve to the win.

"I haven't started for like a year," Mohl said. "My nerves were acting up a bit in the first, but I settled down. They put a few hits together in the third, fourth. I calmed down and shut them down the rest of the way."

Coachmen was the Tiger's offensive leader on the night, going 2 for 5 with a run and two RBIs. Tulane countered with three runs in the bottom of the second all scored on errors. In the innings the Tigers had three errors, a balk and numerous throwing errors.

"They didn't handle the ball very well and we were able to capitalize on that," Jones said. "They swung the bat well and played very aggressively."

Texas Southern tied it up in the fourth at four with three consecutive hits, a single, triple and

The Green Wave kicked off its outdoor track season this past weekend at the UNO Invitational in Tad Gormley Stadium. For the women, it was a familiar transition from the indoor to the outdoor season. For the men, it marked their first performance since the program was temporarily cut two years ago.

While there were not any spectacular performances by the Green Wave, Assistant Coach Mike Com was quick to point out that it was still very early in the outdoor season.

"It was fairly typical of what the first outdoor meet should be," Com said. "I didn't have high expectations for the meet. It was primarily to begin the transition to the outdoor season."

The women were led by senior Angel Dooley, who finished second in the 200-meter dash, and junior Lisa Green, who posted a third place finish in the 800-meter race. Also finishing in the top five was freshman Aubrey Phillips, who placed fourth in the 1500.

In the field events, the women

were led by sophomore Christina Tegbe, who finished second in the triple jump and eighth in the long jump. Senior Lysie Mir and junior Marilyn Sady also placed in the triple jump, pulling down third and fourth place respectively.

On the men's side, Jimmie Heath finished in a tie for first in the pole vault to lead the Green Wave. The men's distance runners also did fairly well, with sophomores Taylor Chapman and Mike Moore finishing ninth and 10th respectively.

When asked of his expectations for the remainder of the season, Com was optimistic and hopeful.

"Our women's team should be able to finish in the top four or five in Conference USA," Com said. "As for the men, we're simply trying to get the team going again after the two-year absence from competition."

Com also said the meets to watch for this season were at Georgia Tech and Miami.

"Those two meets are our big meets for the season," he said.

All in all, it was a successful first outing for the Green Wave, which kept everyone healthy and ready to go for the rest of the season.

WANTED:

HEAD COACH, prior experience, success, leadership abilities

Blake Roter
staff writer

There was joy Uptown when men's basketball coach Shawn Finney got the boot Sunday. Finally, after five long seasons, Tulane basketball will get a fresh start. The start of next season will herald a new look for Conference USA, a more mature and improved squad, and now, a new head coach minding the bench.

As the search for a new coach begins, Tulane must not make the same mistakes as before. Prior to his hiring, Shawn Finney was an assistant coach, plucked off Tubby Smith's staff at Kentucky, never having been a head coach in his career. The Green Wave cannot afford another young assistant coach coming in and trying to learn to lead on the fly.

The solution must be a current college head coach who has shown that he can motivate his team to victory. The best options are low-major Division I head coaches who have been able to win with mediocre talent and small budgets.

Names that should head the list of candidates include Ron Everhart, a former Tulane assistant under Perry Clark, who has revived the programs at McNeese St. and Northeastern; Gregg Marshall, who has led Winthrop to five NCAA tournament appearances in his first seven seasons; and Billy Kennedy, another former Tulane assistant, who just guided Southeastern Louisiana to its first tournament bid ever.

Head coaches who have had success in small conferences with average players should prove to have the ability to take Tulane to the next level. This squad has the talent to succeed in next year's weaker C-USA. They simply need a leader to take them to the next level, and this opportunity to revive Tulane basketball must not be taken lightly.

Blake Roter is a Tulane College senior majoring in political science. Blake insists his coaching experience in ESPN College Hoops should make him a candidate to coach Tulane. Blake can be reached at broter@tulane.edu.

Wave baseball falls to No. 3 after dropping two of three to defending champs Cal State Fullerton

Lack of offense, timely bitting by strong Fullerton squad lead to tough Green Wave losses

Ben Eisenberg
staff writer

After dropping the first two games of last weekend's three-game series to the defending national champions Cal State Fullerton, the Tulane offense finally came alive in Game Three to earn a 13-9 victory and a little respect.

The much-hyped series pitted the No. 1 Green Wave (15-3) against the No. 3 Titans (14-3), who eliminated the Green Wave in last season's Super Regionals en route to winning the NCAA title.

Friday's 15-1 loss at Turchin was the worst suffered by Tulane since April 19, 2000, when the Green Wave was routed 21-6 by LSU at Zephyr Stadium. Fullerton had a much tougher task Saturday as it held off a furious Green Wave comeback for a 9-8 win.

The Green Wave then earned its first-ever win against Fullerton in Sunday's 13-9 victory.

Friday's contest featured a matchup of two left-handed aces

on the mound in Tulane's Brian Bogusevic and Fullerton's Ricky Romero. Both were pre-season all-Americans and entered the game with ERA under 2.00.

While Romero turned in a brilliant performance, Bogusevic was roughed up by the Titans' offense. Bogusevic racked up nine strikeouts but was tagged with six earned runs through six innings of work. Meanwhile, Romero surrendered just one earned run and three hits over 6 1/3 innings.

"Ricky has a good fastball, good changeup and good breaking ball that he mixes up," senior outfielder Matt Barkett said. "When he's throwing all three of them for strikes like he did Friday, he's one of the better guys in the country."

The game was still within reach for the Green Wave through six innings as the Titans led 3-0. However, things started to get out of hand in the seventh when the Titans posted three runs against Bogusevic and two against junior reliever Ricky Fairchild, who allowed nine earned runs in 22

innings. Senior catcher Greg Dini was amazed at how well the Titans hit Green Wave pitching.

"Our pitchers didn't even miss spots," Dini said. "But it seemed like they hit every single pitch, just fouling tough pitches off with two strikes."

Junior transfer Micah Owings started Saturday's contest at Zephyr Stadium against Fullerton's Ryan Schreppel, who entered the game with a 1.29 ERA.

The Titans appeared to be well on their way to coasting to another victory after Owings left the game after five innings, giving up seven earned runs. Tulane was in a 9-3 hole by the bottom of sixth inning.

"I actually thought I had some of the best stuff I've ever had in my career Saturday," Owings said. "Their two-strike hitting is just incredible. They're a great hitting team."

The Green Wave battled back to knock in five runs in the bottom of the seventh inning, highlighted by Dini's controversial

Baseball

The standard baseball rule that good pitching beats good hitting didn't apply in last weekend's series.

	Tulane	Cal State Fullerton
ERA before series	2.53	3.01
Series ERA	10.33	6.3
Batting avg. before series	.320	.373
Runs before Series	127	115
Hits In Series	29	37
Runs in Series	22	33

three-run blast to left field. The ball sailed just over the wall and bounced back onto the field and was originally ruled a double. However, the umpires conferred and ruled it a home run after a lengthy delay.

"There's no question that Greg [Dini's] home run energized us," Head Coach Rick Jones said. "I think the momentum carried over into the next game."

Titans closer Vinny Pestano came in and led the Green Wave offense over the eighth and ninth innings to earn a seven-out save.

"We've just got to tip our caps to Vinny Pestano for shutting us down," Jones said. "But we could've won that game if we did

some of the little things better."

Junior centerfielder Nathan Southard and senior infielder Tommy Manzella each had 3 RBIs Sunday as the Green Wave came alive and earned a 13-9 victory. Southpaw J.R. Crowell (4-0) earned the victory.

"I think this is a big win for us, beating the defending national champions," Dini said. "I think now we're going to get on a nice, long winning streak after this."

The Green Wave gave Crowell all the support he needed in the first two innings, scoring eight runs off Titans starter Scott Sarver (3-2).

Junior pitcher Brandon Gomes came on in relief of Crowell in the

sixth inning and limited the vaunted Titans offense to just one earned run in 3 2/3 innings.

"We kept trying to stretch the lead late, getting more and more runs which helped a lot," Jones said. "Their offense can empty at any time, so no lead was safe."

On a down note for the Green Wave, Bogusevic aggravated a hamstring injury that has plagued him all season while trying to beat out a ground ball.

"I wouldn't anticipate seeing him hitting for a while," Jones said. "It may be a few weeks. We'll have to see how bad it is."

The weekend series drew 17,000 fans, a record for Tulane baseball.

TULANE SATIRE EDITION

Ripped Tide

Tulane mascot admits steroid use

By Jose Condrogas
Staff writer

WASHINGTON, D.C. - Sitting beside his lawyer, Tulane General Counsel Victoria Johnson, Green Wave mascot Riptide braved potential legal repercussions and admitted under oath at Congressional hearings last Friday to using steroids to improve his performance.

Riptide's testimony, which followed vigorous denials of similar use of performance enhancing drugs by an emaciated, gray-haired Mr. Commodore from Vanderbilt and a newly buff Brutus the Buckeye from Ohio State, generated audible gasps in the committee hearing room.

"When we were in the 'upgrade stage' as they called it, I was given pills and injections by Mr. Dickson," Riptide told the House Committee for Governmental Reform.

The substances, later identified as the "rip" and the "tide" allowed the mascot to enhance his hat size, fundraising swing and ability to hype up the crowds.

Tulane President Scott Cowen, who bragged during the Promise and Distinction weekend of a "new and improved" Riptide "that you'll just have to see to believe," issued a blanket denial yesterday of the university's involvement in any steroid-related matters.

Athletic Director Rick Dickson, however, acknowledged the university's role in funding Riptide's training regimen, though he disputed Riptide's allegations of illegal drug use.

"I think everything about the new mascot is great, except maybe his memory," Dickson said. "He was never injected with anything; he only spent hours at the gym every day working out trying to pump himself up so he could better pump up Wave fans."

Visual evidence suggests otherwise. In Riptide's recent public appearances, he was shown to be sporting more feath-

BEFORE

AFTER

ers, believed by many to be a "cover" for the increased muscle mass.

"I don't get it, how did he go from a scrawny little pelican to the new 'super pelican' in only a few months," Tulane college freshman Geoff Oppenheimer said. "I guess this must be the 'big splash' that the athletic director and Cowen promised all of us."

In a Topical Wave e-mail to the Tulane student body, Cowen said his statements were taken out of context and questioned the logic of a pelican using substances such as Human Growth Hormone.

"Why would he need to use steroids anyway, he isn't that vital part of the fundraising events for the athletic department," Cowen wrote. "If there is anyone there taking steroids, it would be the women's swimming team. Seriously, you expect us to believe a Tulane team can win a conference championship in just two years of existence?"

Following his testimony, Riptide declined interview requests but issued a statement through Tulane athletics marketing director Steve Walsh.

"I have never knowingly taken illegal steroids," Walsh read. "Mr. Dickson said everything we were doing was legal, but I began to question this. I have feather growth everywhere but shrinkage elsewhere... The kids don't even call me Pecker any more."

Dickson denied Riptide's allegations, pointing to the mascot's absence from most football and basketball games this season. "The change really hasn't been that dramatic, but few people ever saw Riptide, especially at Fogelman," Dickson said. Dickson added that with a new head basketball coach, he hopes more students will take advantage of attending a game where a mascot dance would not be considered a highlight.

Critics love Tulane as Harvard

Possible Oscar nomination in the cards

By Frank Abagnale
Film critic

Well, if you can't join them, play them in a movie. That's the attitude Tulane University administrators have taken, and it's starting to pay off. Tulane has received much critical acclaim for its portrayal of Harvard University in "The Brooke Ellison Story" and the media is abuzz with rumors of a possible Oscar nod for the performance.

"We have been working for so many years and poured so much money into trying to improve our rankings in academic surveys like U.S. News and World Report," President Cowen said. "Then we realized Hollywood is a much easier critic to win over. So we decided to focus on being 'Harvard of the Screen' instead of 'Harvard of the South.'"

Cowen cited several reasons playing the Ivy League in a movie is easier than actually ascending to the ranks of an elite university. There's "not all this emphasis on improving quality of course offerings and more selective admissions requirements. And acting is pretty much second nature on this campus. The computer labs and libraries, for instance, have been pretending to be up-to-date and pertinent for years."

Among the standout performances of Tulane's turn as Harvard are Woldenberg Art Center for its dual role as both a classroom and a Harvard dorm room.

"That kind of range from an inanimate object is really rare," film critic P. Ompous said.

While most film critics generally agree that Tulane's performance was convincing, there is some disagreement over whether it is deserving of Academy Award recognition.

"The thing is, there are people who don't think it was really that much of a stretch for Tulane to play a part of the Ivy League. I mean, they have all of the basic components, at least on the surface: a privileged student body, weak sports programs and inflated tuition rates," Ompous said. "The general rule of thumb is that if you want to win an Oscar, you have to go 'slumming' for the role. I mean, look at the examples - Halle Berry in 'Monster's Ball' and Hilary Swank in 'Boys Don't Cry.'"

"For Tulane to really be a shoo-in for an Oscar, the school needs to take on a role that requires them to get ugly. Like playing LSU," he said.

Though there are no plans to play LSU or any other state school in the near future - "flying in a spirited student body and athletic teams that actually win are not expenses we're prepared to take on right now," Cowen said - other offers are popping up.

"We've had a lot of calls for Tulane to play Stanford, Emory and Duke, among others. So it could really be the start of a new career for the school," Casting Director Ben Scrood said. "I mean, this is definitely going to add clout to the routine fund-raising drives that Cowen goes on, trying to drum up pity donations from the alumni. Now he's really going to have something to sell - making the transition from just another money-grubbin' ho to high-class Hollywood madam, so to speak."

Worm attacks Tulane ... again

Students can't access AIM

By Poline Dexter
Computer geek

A highly advanced worm worked its way through Tulane's network last week, wreaking havoc on Tulane's systems. The worm, dubbed "Win69.HIGHFIVE" by security experts, spreads itself via e-mail with the subject line "THIS IS A VIRUS. DO NOT OPEN."

Confused by the ambiguous nature of the e-mail, several students and the majority of the administration opened the e-mail, causing further infections. "I thought it might have been a virus, but I couldn't risk missing secret information about Paris Hilton's night life!" Vice President of Student Affairs Cynthia Cherrey said.

"This is gay, man, that e-mail said it had pictures of the Olsen twins in a threesome with Rob Sargent, now all I get is pop-ups of giant cocks all the time," exclaimed freshman Clark Edwards.

The virus also spreads to Bluetooth enabled phones and PDAs, allowing the worm to jump on to any device within 30 feet. After 50 cent night at The Boot, the worm

quickly worked its way through the intricate network of sorority girls, raising the level of campus infections to 98 percent.

Once the virus is installed on the system, it quickly assumes total control. Whenever a user attempts to execute a command, the system simply replies "Fuck you, do your own damn work!" The virus also takes control of popular communication protocols like AIM, sending out embarrassing pictures and phrases such as "I'm pregnant ... again," and "Dude, what did I do last night and why is my ass bleeding?"

Technology Services quickly responded to the disaster by pelting students with anti-virus CD's as they walked to classes. "This is about the only way we can get through to people, a good knock upside the head," commented Adam Krob, director of End User Support Services. Tulane Chief Information Officer John Lawson also sent out an e-mail warning students of the virus. No one received it because Webmail was down.

New regulations are being put into place to avert another crippling attack on Tulane's systems. Users caught spreading the virus will have their computer remotely detonated.

BREAK IN

Vandals break into 'Hullabaloo' office, cause misspellings

By McGuff
Crime dog

"Hullabaloo" Editor-in-Chief Jaclyn Rosenson filed a formal complaint with Tulane University Police Department Wednesday concerning a rash of vandalism that has plagued the newspaper with errors and misspellings for most of this year.

Though sightings of the vandals were infrequent, the officers responding to the complaint were shown much evidence of the vandals' activity. In the last 21 issues, according to Rosenson, there are at least as many as 40 to 50 errors.

"It would be different if this were an isolated event," Rosenson said. "But the volume of incidents here shows that the 'Hullabaloo' is the target of a massive, and extremely well organized scheme."

Chief Copy Editor Christopher Johnson added, "When you look at the Sept. 24 issue, we say that Election Day is Nov. 3 instead of Nov. 2 and that's just wrong. There's no way that could have resulted from anything short of extreme malice on the part of these hoodlums."

YOU'RE HIRED!

The new sheriff of Tulane men's basketball is eight-year-old Tyler Powell

By Jacobin Mugatu
Special Coverage

When Shawn Finney was relieved of his head coaching duties last month, it was widely expected that Athletic Director Rick Dickson would set his sights on an older, more experienced candidate.

However, the new face of Tulane men's basketball bears no signs of aging. No gray hairs, no grizzled beard. That is because Dickson and Tulane announced Wednesday that eight-year-old Tyler Powell has signed a five-year contract to coach the Green Wave.

"We know there will be some eyebrows raised on this one," Dickson admitted. "I don't want people to think that we hired an eight-year-old just because head coach of Tulane men's basketball is a job that nobody wanted."

"While that may be true, I don't want people to think it."

Powell was not in attendance at the press conference as it took place after his standard bedtime of 8:30 p.m., but he was available to the "Hullabaloo" the following morning — after he finished his Rice Krispies.

"One thing about Rice Krispies is that they snap, crackle and pop when they hit milk," Powell said. "Plus they only have three grams of sugar, so I guess it's healthy."

Powell has lived his entire life in Louisiana and spent the last five years living here in New Orleans where he has frequently visited Tulane's campus.

"I play basketball with my friend Jason at the Rely Center. I've gone swimming in the pool and I've eaten in the Bubble," Powell said. "I like the food at the Bubble. The spaghetti is good, but not as good as my mom's. And neither is the salad."

During the contract negotiations, Powell's parents, Jeff and Jane, indicated that they would not push back their son's curfew just because of the demands of his new job. Because of this, Dickson agreed

to move games times up to a 3 p.m. start for the entire length of Powell's contract.

"I'm not going to lie to you, it wasn't easy to call up schools like Memphis and Central Florida and convince them to play men's basketball games at 3 p.m. when we traveled to their campuses," Dickson said. "But we were willing to make some concessions."

"They might have more energy in the afternoon than at night anyway," Powell said.

Included among the concessions Dickson referred to is an agreement that Tulane will play the first eight minutes of every conference game with only four players.

Additionally, the Green Wave will have to shoot free throws underhanded and recruit at least one player from the state of Idaho every year.

"I don't really know anything about Idaho really," Powell said. "I just know where it is."

Despite all of the compromises Dickson had to make to get game times moved up, he remains confident that Tulane basketball is headed in the right direction. Well, sort of confident anyway.

"Uh-huh," Dickson said. "Well, the program really has nowhere to go but up after last season."

Not only is Powell better with the media and generally more likeable than Finney, he is also better dressed — an often underrated quality in college coaches.

"While superior coaches like Rick Pitino and John Callapari always dress with dignity, Finney couldn't match clothes very well," fashion guru Lyle LeBlanc noted. "Finney always had the look of a five-year-old whose mom picked out his clothes."

Powell, meanwhile, has the look of an eight-year-old whose mom picked out his clothes.

"I always pick out my own clothes unless it's a special occasion or I can't find things that match, then my mom helps me," Powell

As the new head coach of men's basketball, Tyler Powell hopes to ring the victory bell often during his five-year contract. He is also determined to lose all his baby teeth.

said. "I think it's just fun to dress nice."

While this will be Powell's first head coaching job, it would be errant to say he is not experienced in basketball. He has attended three professional basketball games in the last 16 months.

"One thing I've learned is that good teams need teamwork and

practice," Powell said. "I've also learned a lot of good moves to try on the hoop in my room."

He also has quite a few tricks up his sleeve.

"I don't know how to coach really, but I can come up with some good strategies," Powell said. "One time my sister left her tea party toys out and I filled one of the cups

with water when no one was looking. When my mom went to pick up the toys, the water spilled all over the carpet. It was really funny to see her face."

This is not the first time Powell has considered a head coaching position. After the New Orleans Hornets fired Tim Floyd at the end of the 2003-04 season, Powell was

on the short list for the job, but said, "I don't have a car yet, so I don't think I could make it to the games."

Powell and the Green Wave begin practicing Sept. 20 and open the 2005-06 campaign with an exhibition game against De La Salle High School Sept. 29. De La Salle is a 10-point favorite

Tulane football to move home field to Scelfo backyard

By Uncle Jim Scelfo
Special Coverage

Tulane Athletics has finally appeased Green Wave fans' desire to see home football games played outside while simultaneously appeasing Head Coach Chris Scelfo's desire to save on gas money.

The Green Wave has terminated its lease with the Super-

dome and signed a new one with the Scelfos to play all home games in their backyard.

"The reasoning behind this is not purely financial," Athletic Director Rick Dickson said. "We already have a Scelfo as head coach, offensive coordinator and at back-up quarterback, so this will really cut down commuting time for a good portion of the team."

Students seemed supportive of the move.

"Well, I never liked seeing

the games played indoors, but I always figured they'd move to Tad Gormley Stadium," Tulane junior Brittanie Ingram said. "Nonetheless, I hear Grandpa Scelfo sometimes forgets to check ID."

The move also has certain aesthetic benefits. "The kids all seemed really tired of playing in an enormous empty stadium," Scelfo said. "The Superdome seats about 70,000, but my backyard has a far more intimate capacity of around 16.

I think that should really make the games seem more packed."

The Scelfo's plan to accommodate rival teams "I can't wait to get the barbeque fired up for UAB; their head coach has been bragging about his chicken for years," Scelfo said. "I'm really excited to see the look on his face when I whip out my legendary bratwurst."

Centenary spurns C-USA

By Robert E. Lee
Confederate general/
USA basketball coach

Centenary College turned down an invitation to join a revamped Conference USA, the school announced Wednesday. Athletic Director Taylor F. Moore indicated that Centenary, the smallest Division I school in the nation, could do better. "I just didn't think C-USA

would present enough of a challenge," Moore said.

Conference USA Commissioner Britton Banowsky disappointed by the decision. "I really thought they would be a good match," Banowsky said. "They certainly fit the mold of most C-USA teams: private, Southern, and with sporadic athletic performance."

Though he couldn't really say where Centenary was located, Tulane Ath-

letic Director Rick Dickson regretted the move. "I saw it as an opportunity to promote in-state rivalries — that is, if Centenary is actually in Louisiana," he said.

Moore, however, said that the decision to stay out of C-USA would allow the Ladies and the Gents to pursue more favorable matchups. "I think we have a shot at the SEC, where we could play LSU several times a year," he said.

Championing for children

Medical School professor receives award for work in child psychiatry

Emily Hohenwarter
staff writer

Professor Charles Zeanah was awarded the "Champion for Children" prize from Prevent Child Abuse Louisiana last month. Zeanah was honored with the Professional Champion award for his selfless work in child psychiatry at the organization's 19th annual "Kids Are Worth It" conference Feb. 28 in Baton Rouge.

Zeanah is vice chair of the Department of Psychiatry and Neurology at Tulane University School of Medicine, executive director of the Tulane Institute of Infant and Early Childhood Mental Health and founder of the Jefferson Parish Infant Team, a group that aids young foster children and their families with mental health issues. The Infant Team has expanded to include a second group in Orleans Parish.

"In Louisiana, we are working actively with various departments in state government to try to improve things for young children," Zeanah said.

Zeanah has helped take the issue of infant mental health into the

national spotlight. "We have activities in New Orleans, throughout Louisiana, in collaboration with other groups in this country and even some international collaboration," he said.

However, he does not take all the credit for the success of the mental health programs he is part of. "I have reached a point in my career when I begin to be credited with the work of many deserving people who keep a somewhat lower profile than me but really do the heavy lifting. We have a number of faculty in child and adolescent psychiatry at Tulane who have together created an Institute of Infant and Early Childhood Mental Health. I could go down the list of our wonderful faculty and their many accolades, but you get the idea," Zeanah said.

Zeanah also acknowledged last year's recipient of the "Champion for Children" award, Dr. Geoff Nagle, the director of the Tulane Institute of Infant and Early Childhood Mental Health. "[Nagle] chairs the Advisory Board of the Gov-

Professor featured on Discovery Channel Canada

Tabitha Edgens
staff writer

The Discovery Channel Canada's "Daily Planet" featured Tulane Professor Raj Pandian and his development of playground equipment that harnesses the energy generated by children and converts it into a usable power source. The program aired March 28.

Pandian, a professor of robotics in the School of Engineering, along with his colleagues, graduate students, and even neighbors, started the project in 2003, using Pandian's own backyard as a lab for developing the equipment. The project originally focused

on traditional outdoor play equipment like merry-go-rounds, teeter-totters and swing sets, but has since expanded indoors with exercise bikes that appeal to children by incorporating video games. The energy that is harnessed by the equipment can then be used as a backup source of energy or as a power source for household objects like fans and lighting.

"It is not an expensive or difficult system to develop," Pandian said. He sees such equipment as potentially useful especially in developing countries where hydroelectric power is the main source of energy, but often fails due to droughts or other malfunctions.

"The first source of power people had was muscle power," Pandian said about the idea behind his project. "We can already use the power generated by humans to power small devices," he added, referring to the GPS system used by the military that is powered by special shoes that convert the energy created by soldiers' footsteps into energy that can power the device.

However, the equipment offers more than just a cheap, easy and reliable source of power. Pandian has worked with the Tulane School of Medicine to research the potential health benefits of the equipment.

Research has suggested that encouraging children to play on the equipment can positively affect the child obesity epidemic in the United States. "We have talked to the [St. Tammany Parish] School Board and they are interested in purchasing the equipment for schools," Pandian said.

Fortier fencers are 'en garde'

Team teaches high schoolers about making healthy lifestyle choices

Christina Le
news co-editor

Each week this semester, the Tulane University Fencing Club has taught high school students how to fence as part of "Fortierworks," a program at Alcee Fortier High School aimed at improving the life choices of students.

Fortierworks was an existing program at Alcee Fortier when the TUCF was asked by program director John Wyszynski to complete the "healthy lifestyle" component of the program. The program as a whole includes various programs and activities involved with improving students' academics, public speaking skills, personal finance skills, teen pregnancy prevention and community service.

The fencing component, added in January, is aimed not only at teaching the students how to fence, but also how to properly exercise and lead a healthy lifestyle.

Dorothy Contiguglia, a Newcomb College junior and president of TUCF, has been volunteering to teach fencing to the high school students all semester.

"Our goal is to get the students fencing at a competition level by the end of each semester. Once they can fence in competition, they will be able to interact with individuals outside of their community and experience the fruits of their training," Contiguglia writes on her fencing website.

Lecture series highlights evolution

Chris Burcham
staff writer

Dr. H. Allen Orr of the University of Rochester held a discussion on the origin of species yesterday. Orr was invited to Tulane as the 17th annual Edward Sturtevant Hathaway lecture series.

Hathaway, a former professor of zoology at Tulane, took initiatives in mosquito control, worked with William Penfold and published papers on the ecology of Louisiana and lower Mississippi River basin wetlands.

The discussion centered around the topics of species and adaptation.

"The origin of species from Ernst Mayr offered the Biological Species Concept," Orr said. "Basically when push comes to shove, scientists are pragmatists and want to get things done. One of the things that [the Biological Species Concept] has done is to inspire a great deal of work in the real world."

His lecture also touched on barriers to reproduction, reproductive isolation and ways in which marine species mate. Orr discussed "Speciation," a book that he co-authored about both plant and animal speciation.

His talk also explained how speciation happens through adaptation

and other ways in which species move from their original type.

"The genetics of speciation remains a black box for geneticists," Orr said. "It's not because we're stupid or particularly lazy. Doing genetics in the case of speciation is basically just not able to be done. It's doing work between things that do not share genes."

In response to adaptation and speciation, he cited studies of very particular flower species in which the flowers adapted to the way that they are pollinated. One flower is pollinated by a hummingbird, the other by the bumblebee.

"There are a whole number of dif-

ferent adaptations for these two that prevent cross-breeding," Orr said. "The data was painstakingly taken and the bumblebees always move the pollen to the right species, hummingbirds never move pollen to the wrong species, this is amazing."

The crowd of about 80 was mostly students, with a few staff and faculty members.

"It's good that [Tulane] has lectures like this available for people who have this as their field of study," Lisa Gold, a Newcomb College sophomore, said.

"It was ... interesting for people who aren't majors," Liz Kraus, a Newcomb College freshman, said.

TUCP says Cho-time

Comedians deliver political message in humorous light

Jonathan Kim
staff writer

Tulane students had the chance to see comedian Margaret Cho perform live at McAlister Auditorium as a part of her Assassin tour Wednesday. Tulane University Campus Programming sponsored the event.

Cho and her opening act, Bruce Daniels, addressed many social issues facing America today, particularly gay and lesbian rights as well as a variety of other issues ranging from women's rights and sexuality to the American political situation, media sensationalism and acceptance for all people.

Bruce Daniels discussed experiences regarding the gay community and parodied the Bush administration's policies towards blacks and gays. However, Daniels said he refuses to be intimidated, "I

COMEDIAN MARGARET CHO, KNOWN FOR HER UNIQUE BRAND OF ABUSIVE HUMOR, TAKES THE STAGE IN McALISTER.

am not going to let any administration scare me back into the closet." After Daniels, Cho came in with a similar message regarding gay and

lesbian rights, though she broadened her social critique to women's rights, sexuality and the political climate, using sexually charged, provocative language to get her message across.

"The conservatives know they are in a serious group of people who they pander to. [Conservatives] can get the votes if they appeal to their homophobia, and their prejudice, and their hatred." They get them all riled up and they send them into a maelstrom," Cho said about gay and lesbian rights and marriage.

When talking about women's

U.N. historian speaks

Discussion centered around post-9/11 development, evaluation of organization's political future

Chris Burcham
staff writer

About 50 faculty members and students attended the Murphy Institute of Political Economy's eighth annual Mary C. Parker Yates Lecture by Craig N. Murphy, historian for the United Nations Development Program yesterday in Norman Mayer Hall.

"I was hired one year ago to write an independent evaluative history of UNDP and its predecessors ... going back to 1940," Murphy said.

His lecture titled "The Marshall Plan and the U.N. Development Model after 9/11" provided attendees insight into the basics of the organization.

"UNDP is a weighty organization, it is large with an office in 174 countries over its existence and it is trying to do something really difficult. They are trying to coordinate

activities by organizations who they do not have direct authority over," Murphy said.

Murphy is the Margaret Ball Professor of International Relations at Wellesley College, and his research focuses on international institutions and the political economy of inequality.

"For those of us who are extremely privileged, we have a lot of influence on those who are not."

CRAIG N. MURPHY
HISTORIAN FOR U.N.
DEVELOPMENT PROGRAM

ity across lines of gender, class, ethnicity, race and geography. "For those of us who are extremely privileged, we have a lot of influ-

ence on those who are not as privileged," Murphy said. "We cannot be expected to be thinking all the time of those of East Timor or Bulgaria."

He discussed the foundations of the organization which lie in World War II and Norman Churchill.

"They were the first U.N. agency concerned with development. It is the coordinator of all the other organizations in all developing countries. There is an U.N. coordinator whose job is to coordinate all of the U.N. activities within a country," Murphy said.

The United Nations grew out of an anti-fascist alliance of 1942, it agreed to pay for reconstruction by countries not directly attacked in the war by giving one percent of national income to help the people reconstruct. This eventually led to a com-

Runners qualify for regionals

Asumnu barely misses school record in 100-meter dash at LSU

Benny Powell
staff writer

After transitioning to the outdoor season at the UNO Invitational, Green Wave track and field managed to find its niche at the LSU Relays this past weekend. The women had one runner with a school record threatening performance, along with two others that qualified for the NCAA Regionals, among other feats.

"It was one of those meets that we put in extra practice for," Head Coach Heather Van Norman said. "I'm really excited."

Sophomore Gloria Asumnu's 11.67-second, second-place finish in the 100-meter dash was off Angel Dooley's 2003 performance at the Conference USA Track Championship by one hundredth of a second to place second all-time in Green Wave 100-meter dash history.

"I'm pretty excited," Asumnu said. "It's an accomplishment in itself, but my goal is to have the school record in the 100-meter dash, so that means I need to run better than 11.66."

Asumnu's time, which also topped her previous career best of 11.72 seconds at last season's LSU Relays, qualified her for a second consecutive trip to the NCAA Regionals.

Also qualifying for the NCAA Regionals was Helmi Leppanen in the shot put and Lisse Mo in the long jump.

"I'm happy for them, because now they have that out of the way, and now they can focus on some other things," Head Coach Van Norman said.

Leppanen, Tulane's shot put and javelin record-holder, qualified for her second consecutive trip to the NCAA Regionals for her performance in the shot put competition, with a throw of 47 feet, 4 1/4 inches, good for second place.

Leppanen's throw of 123 feet placed her 10th overall in the javelin competition.

Gloria Asumnu's 11.67 second 100-meter dash was the second fastest in Tulane history.

Mo, also qualifying for her second consecutive NCAA regional, exhibited a 19-foot, 11 1/2 inch jump to land third in the long jump competition.

Competing in the 100-meter dash, Mo

topped her 12.44-second finish at the UNO Invitational, to record her best finish of the season with a 12.35-second, 15th place long jump competition.

Dickerson named new coach for men's basketball

Press conference takes place today

Ross Hurwitz
staff writer

Only two weeks after the dismissal of former men's basketball coach Shawn Finney, Maryland Senior Associate Head Coach Dave Dickerson, will be announced as his replacement. A press conference to formally introduce Dickerson will take place at 2:30 p.m. today in the James Wilson Center after he meets with the team at 1 p.m.

Dickerson spent the last eight years at Maryland, helping the Terrapins to the 2002 Division I NCAA national championship. Dickerson also played for the Terrapins as an undergraduate and was a part of head coach Gary Williams' staff since 1996. Dickerson considered offers at College of Charleston, Clemson and South Florida, before deciding on Tulane for his first head coaching position. He has received the honors of AFLAC Assistant Coach of the Year in 2003 and the ACC's No. 1 Assistant Coach of the Year

from Basketball News.

Tulane Athletic Director Rick Dickson and Senior Associate Athletic Director Maria Ochoa, have reportedly contacted several coaches about becoming the new Green Wave men's basketball head coach since Finney left.

According to the Times-Picayune, Samford University Athletic Director Bob Roller confirmed last Tuesday that Ochoa had contacted him Monday to speak with Samford Head Coach Jimmy Tillotte. Tillotte, a New Orleans native, has a 129-102 record during eight years at Samford University in Birmingham, Ala.

Among other rumored candidates for the position were former Georgetown head coach Craig Esherick and Northeastern coach (and former Green Wave assistant coach) Ron Everhart, who was on campus this week.

The athletic department is currently declining comment.

-Editor-in-Chief, Jaclyn Rosenson, contributed to this article.

Baseball tops Nicholls St.

Chris Burcham
assistant editor

In game statistically even (five hits, one error each), one single play mattered more than all the others combined.

Designated hitter Scott Madden's sacrifice fly with one out in the top of the eighth inning scored freshman Brad Emaus, the winning run, and gave the Green Wave a 2-0 lead with an inning and a half left. Tulane held on for a final 3-1 victory.

"It was a tough game for us. One thing I know our team can do is play in close games because we've played in so many this year," Head Coach Rick Jones said. "Fortunately we had [a great effort by J.R. Crowell and good defense] and that kept us in it and we got big hits."

No. 3 Tulane (22-5) was taken deep into the game on the back of strong pitching by J.R. Crowell and consistent defense by Nicholls State (14-12) but in the end the last two frames decided it with Tulane coming out on top.

"[Crowell] was outstanding," Jones said. "He's not usually the type of pitcher who gets better as he goes along but he has shown in his last two outings that he was better than he had been earlier."

His five strike-out, five men on base effort over 6.2 innings was not enough as he was matched by Justin Beaus, who allowed five base runners in 6.1 innings of work.

"We just struggled with a left-handed pitcher who had not had strong outings before but was on top of his game," Jones said.

Freshman Sean Morgan came on in the seventh with two on and then loaded the bases with a walk. He struck out the next batter he faced ending the Nicholls State threat and left the score tied at zero. In all, he faced five batters, allowing one run on two hits and two walks but picked up his fourth win of the year.

Tulane had a great chance to break it open in the seventh as senior second baseman Joe Holland ripped a ball to center field with two

Hornets

Hornets blow big lead against Cavs

New Orleans self-destructs with fourth quarter turnovers, poor shooting down stretch

Jason Lieser
sports editor

LeBron James and the Cavaliers came into New Orleans with an 11-game losing streak on the road as they approached the end of what has been a miserable March for Cleveland.

At first, the Hornets refused to be the cure for Cleveland's road woes as it shot 52.8 percent (28-of-53) from the floor through the first three quarters and held a 78-63 lead going into the final period. The lead got as high as 17 points early in the fourth quarter, but Cleveland charged back into the game, forced overtime and eventually escaped with a 109-108 victory Monday night.

"[We] cut down a 17-point lead and then we were ahead and I thought that was a big story in the game," Cleveland Head Coach Brendan Malone said. "We never gave up. I hope it's a springboard for what we have coming up."

"Collectively I think we just relaxed and thought it was over with. In the NBA, the game is never over," forward P.J. Brown said. "Until that clock hits zero, those guys are paid to play. When you have a team down, I don't care if you're up 20 or 30, you take it up to 30 or 40 if you can in the NBA because a 17-point lead in this league is nothing."

James tallied 44 points, the second-highest point total of his career, on 16-of-29 shooting, with 17 coming in the fourth quarter.

"It was time for me to shoot the ball and I feel like every time I shoot the ball, it's going in," James said. "We were down and I just wanted to go in and be aggressive to put us in the position to win."

As James' game elevated in the fourth quarter, the Hornets' collective effort plummeted. Cleveland stormed back into the game with a 25-7 run over a five-minute span in the fourth quarter to take a 92-91 lead with 4:42 left.

"You're up 17 points, you play good basketball for three quarters and you come into the fourth quarter and you don't play the game the way you did for the first 30 minutes," Brown said. "All the good things that we had done for three quarters went out the window in the fourth quarter."

"LeBron took that team on his back and really got them going, but I was more concerned about the way we approached the game."

The Cavaliers scored an opponents'

season-high 38 fourth quarter points (also a Cleveland season-best) with 5-of-7 three-point shooting, while New Orleans shot 10-of-23 in the fourth period and had four turnovers — none bigger than Lee Nailon's with 9.3 seconds left.

With 25.2 seconds left and trailing 100-99, Dan Dickau (11 points, 12 assists) drove in for a layup and was blocked. As James brought the ball up the floor, J.R. Smith poked it loose to Nailon and the Hornets were on a transition attack that could have given them the lead.

Unfortunately for New Orleans, Nailon immediately threw the ball over Dickau's head on the fastbreak.

"It was a terrible pass," Head Coach Byron Scott said. "We had two guys that were ahead of the pack. I don't know what [Nailon] was thinking or what was on his mind, but he just threw it way too hard. There was no way that anybody was going to catch up to it."

"That was tough," Brown said. "It just hurt man. To play so well and then have it come to those types of possessions, you hate that."

After the turnover, James, who played all 53 minutes of the game, received the inbound pass and was fouled, but only made one-of-two free throws. The Hornets called timeout with 8.3 seconds left and Cleveland leading 101-99.

Coming out of the timeout, Brown handed the ball off to Boston Nachbar (17 points) who drove to the right side of the hoop and appeared to lose his dribble just a few feet from the basket, but he recovered the ball and hit a turnaround jumper to tie the game with 2.4 seconds remaining.

In overtime, the Hornets went ahead 108-106 when Brown (11 points, 11 rebounds) hit a 17-foot jump shot with 24.4 seconds left.

That left Cleveland with one final pos-

Cavaliers guard LeBron James slams in two of his 44 points against the Hornets Wednesday night.

session and the ball was in James' hands. His layup rimmed out, but Drew Gooden (11 points, 11 rebounds) corralled the rebound and got the put-back to tie it at 108 with 6.4 seconds left. Gooden was fouled on the play by Dickau and made the free throw to give the Cavaliers the

lead.

"Their confidence got up, they made a bunch of shots in a row, and the game seemed to change in an instant," Nachbar said. "Not to take anything away from

Engineer election in question

Chris Burcham
main section editor

The Engineering Student Council has been accused of irregularities in electoral procedures in their April 8 election for Undergraduate Student Government Senate positions.

Engineering school sophomore Robert Murrell filed two protests in reference to decisions made by ESC President Jonathan Bakke. Murrell alleges that Bakke and the ESC broke their own bylaws by extending the deadline to file candidacy papers and by allowing candidates who had not completed the necessary paperwork to run. "I did not campaign heavily until reading the ballot on April 8 around 4 pm and finding four other names," Murrell said. "I was the only candidate to turn in all needed paperwork by the [March 18] deadline."

According to Murrell, the ESC extended the deadline to April 1 and did not meet to approve the extension until they had already announced it.

"Bakke allowed two study abroad students to send in paperwork to run," Murrell said. "The only problem with that was that they didn't have the 25 signatures required by the constitution. They were invalid but still put on the ballot." Murrell said that he e-mailed his protest to Bakke after seeing the names on the ballot when he voted.

According to the ESC constitution, "To run for the position of senator, the candidates must have filed a petition signed by 25 members of the engineering student body in a place and by a date fixed by the council."

Outgoing treasurer and new ESC senior representative Robert Dolin believed that two articles of the constitution allowed for the council to extend the deadline. These articles stated that "All matters of interpretation of this constitution shall be decided by a majority of the council," and "in all questions arising before the council, the simple majority of the votes cast shall decide the issue, except where otherwise stated."

"To me this says that we can address things not stated in the constitution," Dolin said. "Our council had agreed to change the date the packets were to be turned in. We discussed extending the deadline before the election and the majority of the council agreed to do so. One person had intended to run and we needed four."

In e-mails obtained by the "Hullabaloo," Bakke, who refused to comment, defended his decision to Murrell.

"It has been decided by the Engineering Student Council, that we have an obligation to fulfill to USG and to the engineering student body to fill the senator position," Bakke said in his e-mail. "To meet this requirement the ESC reserves the right to do as necessary to make sure that enough people will hold these positions."

According to the e-mail, in a meeting on the Monday before the election "it was agreed upon by a quorum of [council] that the deadline should be extended to allow our obligations to the student body to be fulfilled."

The e-mail also said that at the most recent ESC meeting

U.S. News ups grad school rankings

The Tulane University School of Law rose in rankings according to the U.S. News & World Report released April 1. The Environmental Law program was ranked fifth best in the nation.

Sami Siddiqui
assistant news editor

In a statement to Tulane's ever increasing academic success, U.S. News and World Reports recently upped the rankings of the graduate Law and Business schools. The increases came on the heels of the rise from No. 47 to No. 43 for the

Undergraduate school in rankings released earlier this year.

The A.B. Freeman Law school rose 15 places in the 2005 rankings which surpassed last year's 11 spot drop, something that still astounds the administration.

We are a better law school this year than last, and we went up 15 places," said

Lawrence Ponoroff, Dean of the Law School. "But we were also stronger as an institution last year than we were the year before when we went down 11 places."

According to Ponoroff, this suggests that the U.S. News and Rankings are not a suitable substitute for prospective student's individual research of Tulane's institutions.

"I think that most legal academics feel these rankings get way too much attention and are not particularly reliable or valid. To say 'wow' we went up and say it means something is nothing. When you go down you don't say it means something," said Admissions Dean Susan Krenke.

"This suggests that anyone who substitutes U.S. News rankings for their own investigation and judgment about the suitability of a school's programs to their particular educational objectives does themselves a great disservice," said Ponoroff.

Brian Testa, a third year law student agreed that while the rise of Tulane's Law School ranking brings it into a respectable position among the nation's top law schools it also demonstrates the instability of the rankings.

"Tulane Law School has tremendous faculty, students and facilities, Testa said, and "to be declared a second-tier law school by U.S. News was wholly inaccurate, and unfair to the faculty and students here."

In a message to faculty and staff about the recently announced rankings, President Scott Cowen acknowledged the improvement but reminds students to take the rankings with a grain of salt.

"As I have stated many times before, these rankings are by no means the final word on a university's quality," Cowen said. "However, we are always glad that in this, and other rankings, Tulane is consistently counted among the top universities in the nation."

Bok shares story of human trafficking

Chris Burcham
main section editor

Slavery is generally associated with the antebellum South, but many people forget it still exists throughout the world.

The World Affairs Forum at Tulane presented Francis Bok, a former slave in Sudan since age seven. His discussion of the effects of slavery on the citizens of Sudan and the horrors he experienced was insightful to the hundreds in attendance on April 7. "I thought Francis Bok was an incredibly gracious man and a riveting speaker, especially considering that he is only 26 years old and has only been speaking English for a few years," Newcomb College freshman Leah Weston said. "As an American, it is especially shocking to hear first-hand

about a practice most Westerners think has been eradicated."

Bok's freedom ended the day rebel horsemen stampeded through a market as he and his mother shopped.

"One of the horsemen grabbed my hand and put me with the people who had been captured," Bok said.

Slavery has been a persistent problem in Sudan ever since the breakout of the 15-year-old civil war. The abduction of citizens is mostly conducted by the government-backed militia of the Baggara Tribe and aimed at the Dinka tribe, which has ties to the Sudanese People's Liberation Army, a guerrilla faction from the Southern regions of Sudan.

Pope passes

Students mourn passing of John Paul II

A huge crowd of mourners packs St. Peter's Square at the Vatican for the funeral mass for Pope John Paul II, Friday, April 8, 2005.

Sami Siddiqui
assistant news editor

For many students at Tulane, Pope John Paul II, who led the world's nearly one billion Catholics for 26 years, is the only pope they have ever known.

As news of the 84-year-old pontiff's death spread all over the world, Catholic students gathered on campus in Myra Rogers Chapel for a special Saturday evening Mass in his honor. Members of the Tulane community were quick to contribute their thoughts and feelings on John Paul's papacy.

"As he traveled to so many countries, this pope frequently had huge meetings with university people, especially the students," Rev. Carl Trutter, director of the Tulane Catholic Center, said.

"[The pope] had a youthful spirit which radiated to young people and university students," Trutter said, recalling how 88,000 young men and women packed the Superdome when John Paul II visited the city in 1987.

The Very Rev. Val McInnes, founder and chair of Judeo-Christian studies at Tulane, said that John Paul II was "affable and jovial" in conversations with people and enthusiastic about them as individuals.

McInnes also noted the pope's "gift of using overtures" in creating dialogue with other faiths, including establishing diplomatic ties with Israel, visiting Auschwitz, denounc-

ing anti-Semitism as a sin, and emphasizing that Muslims and Christians shared the same God and the same values.

Catholics and non-Catholics grieved John Paul II's death largely due to appreciation for the pope's advocacy for tolerance and respect.

Paige Nathan, executive director of the New Orleans Hillel at Tulane, expressed sadness and said that "the pope's outreach to the Jewish community, including his visit to Israel, was one of many unique and touching aspects of his life."

Pope John Paul II is often credited as being one of the most influential personalities in the campaign that brought about the fall of communism in Europe and an end to the Cold War.

Brian Horowitz, director of Jewish studies and associate professor in the department of Germanic and Slavic studies at Tulane, said that the pope, whose given name was Karol Wojtyla, was among the most brilliant intellectuals to come out of Poland. He was able to inspire the people of that country and help them reject communism.

Raymond Taras, a professor of political science at Tulane whose area of expertise is Cold War politics, said that although John Paul II backed anti-communist efforts in his own country, "he needed to be persuaded that the United States had good intentions because he did-

KIDsmART is a huge success

Emily Hohenwarter
assistant news editor

Tulane College seniors Justin Oumet and Danny Hertzberg hosted the first Unite for a Night Give Back Bash at the Twiropa night club April 7. All profits from the benefit party were donated to KIDsmART, a New Orleans-based organization dedicated to enriching the lives of public school children through immersion in the arts.

"We figured the best way to do a charity event in New Orleans was to throw a party," Oumet said.

"Justin and I just started talking one day. We were thinking about what we could do for New Orleans. We thought about the public schools here and looked into KIDsmART. Then

we thought about the venue and looked into Twiropa," Hertzberg said.

Oumet and Hertzberg chose to donate to KIDsmART after looking at many different options.

"We chose KIDsmART because it is local and the money we made would stay in New Orleans and help our public schools, which really need help. They are 50th in the nation for education," Oumet said.

The seniors went to KIDsmART board meetings and got to know the charity's mission before getting their idea for a benefit party approved.

"Our original goal was to raise \$3,000. We ended up with \$4,700, and people are talking about donating more," Hertzberg said.

Many Greek organizations on campus co-sponsored the benefit, includ-

ing Alpha Epsilon Phi, Chi Omega, Kappa Alpha Theta, Kappa Kappa Gamma, Pi Beta Phi and Sigma Delta Tau.

"We contacted the sororities first. We got in touch with the heads of all the sororities and gave them tickets to sell. We wanted the girls to get into it because we knew the guys would follow, and we didn't want a frat feel at the party," Oumet said. "They did a great job. AEPH sold the most and got their entire pledge class to come, and Pi Phi sold a lot too."

Local business owners, particularly Twiropa owner Adam Sabroff, also helped make the event a success.

"Adam was a [Sigma Alpha Mu] at Tulane, and he thought the idea was really cool. He waived the \$2,500 rental fee, which was a big help,"

Oumet said.

Other sponsors included the Sake Cafe, Jacques-Imo, and Abita. Twiropa was decorated with artwork from students in the program.

"There were interesting pictures on the wall done by the kids. It was nice to see the work of young kids," Newcomb College freshman Caitlin Williams said.

The student-created decorations were a hit with attendees.

"I liked the decorations. They went with the building very well. They matched the theme of the party," Newcomb College freshman Katie Champagne said.

The hosts tried to make their benefit the best place to be on Thursday

Owings, Green Wave offense overpowers 49ers in sweep

Suhas Subramanyam
assistant editor

Scoring line drives and blasting home runs are nothing new to the Green Wave. As a team, Tulane is hitting well over .300 with more than 40 home runs this season.

But even the players and Head Coach Rick Jones had to be impressed with the way the Green Wave hit the ball against Charlotte over the weekend.

Freshman Brad Emaus went 6-for-13, with two of homers and six RBIs, while junior Micah Owings dominated Charlotte (20-12, 5-7) on the mound and behind the plate as the Green Wave swept a three-game series with the 49ers 13-0, 6-5 and 8-3.

The sweep propelled the Green Wave (30-5, 10-2) to a No. 1 ranking in the latest Collegiate Baseball poll.

"We swung the bats really well Friday through Sunday," Jones said. "Our offense was the best it has been for three consecutive games [this season]. We've got a good club, and if you keep playing, you'll eventually have [offensive outputs] like this."

Friday's 13-run blowout came courtesy of Owings' eight shutout innings. The versatile right-hander struck out a career-high 12 while scattering four hits in his best performance of the season.

"I think I was getting ahead early in the counts," Owings said. "They were fouling off a lot of pitches, and the book that we had on them said they were going to swing away. So once I got ahead in the counts, they were forced to start swinging at any of my pitches."

Junior Brian Bogusevic struck out nine Charlotte hitters in eight innings of work Sunday at Charlotte.

Although he did not need it, the offense provided Owings with a wealth of run support. Emaus ripped a pair of three-run homers in the third and eighth innings, both part of five-run innings. Meanwhile, only three 49ers were able to muster hits off

Owings and red shirt freshman Chris Worster. The 49ers also committed four errors while the Green Wave committed none.

"We played great defense all weekend," Jones said. "Owings set the tone for the pitching staff, but the

defense was outstanding. We committed only two errors all weekend."

Owings decided to show off his bat Saturday, going a perfect 4-for-4, including a two-run homer in the

Mixed results for men's tennis season

Lewis Lowe
staff writer

The Tulane men's tennis wrapped up its season with a pair of matches against in-state rivals. On Sunday, the 18th-ranked Green Wave blanked the No. 41 Louisiana-Lafayette 4-0 in its last home match of the season. Three days later, Tulane could not finish out the regular season with a win, as No. 15 LSU defeated the Green Wave 6-1 in Baton Rouge.

Sunday was senior day for Tulane's lone senior, Dmitry Koch, a three-year starter for the Green Wave. He has played one singles all year. An all-Conference USA selection in 2004, Koch is likely to repeat that honor after another stellar season.

Koch did not disappoint. Though he and his partner Alberto Sotomayor lost at number one doubles, Koch dominated in singles, blanking ULL's Evghenii Corduneanu 6-0, 6-0 at the one spot.

"Dmitry [Koch] is playing fantastic. You're seeing one of the best players in the country out there right now," Head Coach Robert Klein

said.

Luckily for Koch, Tulane's two and three doubles teams earned victories to take the overall doubles point. The teams of Ted Angelinos and Jacobo Hernandez and David Goulet and Jonah Kane-West held on for 8-6 and 9-8 victories, respectively.

"Lafayette is a tough opponent. They really tested us in doubles, but we handled the singles play very well," Klein said.

In singles, the match was called off after Tulane reached the required four victories. In addition to Koch's victory, Goulet defeated Amanjit Singh 6-4, 6-4 at No. 3 singles. Closing out the match for Tulane was Sotomayor's 6-3, 6-2 victory over Shaun Ellison at No. 5 singles.

Wednesday afternoon, the Tigers used close doubles victories to propel themselves to an overall match win, capturing the men's portion of the annual Goldring-Jacobs Challenge.

"That was a great college tennis match. The match was

Track records fall

Benny Powell
staff writer

Led by Gloria Assumma's historic performance, the Green Wave track and field team as it topped its previous performance of 14 personal records at the Yellow Jacket Invitational April 2 with 19 personal bests at the Ole Miss Invitational last Saturday.

The Green Wave hosted the Tulane Invitational Wednesday to gear up for the Gatorade Invitational tomorrow in Miami.

"I think that they came out there with a lot of energy and determination," Head Coach Heather Van Norman said of the team's performance at the Ole Miss Invite. "I'm really really excited for them."

Assumma, who is determined to run the fastest 100-meter dash in school history, missed the record by a hundredth of a second. Her NCAA Regional qualifying 11.64 second, third-place was the second fastest 100-meter dash time recorded by a Green Wave sprinter.

"I just have to work harder," Assumma said. "I have a lot more chances of running that race, and I'm sure I'll get [the school record in the 100-meter

dash] next time."

Assumma also qualified for the NCAA Regional and flirted with the school record in the 200-meter dash, with a personal best 23.72 seconds for a fourth-place finish, enough to rank third fastest in Green Wave 200-meter dash history.

These performances earned Assumma Conference USA player of the week for track and field.

Also making their mark in Green Wave Track and Field history, was the women's 4 x 100 relay team, composed of Assumma, senior Angel Dooley, senior Lissie Mo and junior Marilyn Sauls.

The women managed to top their season-best performance from last week with a 45.50-second, fourth-place finish to finish second in school history and qualify for the NCAA Regional.

"It's a huge accomplishment to run it one time with two handoffs and qualify," Van Norman said. "They are four women that have put differences aside and just went out there and ran like a team."

The Men's Track and Field team managed to post 12 of the 19 personal records.

Among them were sopho-

more Jeremy Foreman's six feet, four inch ninth-place finish in the high jump and freshman Joe Gooshy's eighth-place finish in the triple jump with a jump of 46 feet.

At Danny Thiel Track, the Green Wave looked to take advantage of playing at home as they hosted Southeastern Louisiana, Southern (NO) and UNO.

"It's like a daily routine," Van Norman said about competing at home. "When you can keep someone in their daily routine they have a tendency to perform a little bit better."

Tulane freshman Aubrey Phillips clocked in at 4:50.98 in the 1,500-meter run to finish first ahead of teammate and fellow freshman Rachel Bryan, who finished second with a time of 4:54.17.

"I think this is good preparation for the meet in Miami," Phillips said.

"Our main goal [at the Gatorade Invitational] is to get Angel Dooley qualified [and] to get Marilyn Sauls qualified in the long jump," Van Norman said. "These are all stepping stones to the national championship, [and] these are all stepping stones to our conference championship."

Women's tennis wins

Megan Repine
staff writer

Going on the road to face off against two top-20 teams is not easy, but the Green Wave women's tennis team was able to pull off both close wins in Texas last weekend.

Underdogs in both matches, the Green Wave defeated both opponents. Tulane upset No. 17 TCU by a score of 4-3 and ended the weekend victoriously with a 4-3 win against No. 15 Baylor. The wins extend a nine-game winning streak for the No. 19 Green Wave.

"The girls have been playing very well and have been able to stay focused," Head Coach David Schumacher. "When we battle hard we have a chance against anyone."

Against TCU, the Green Wave fought successfully for the doubles point with wins at the No. 2 and No. 3 spots by Junior Jenni Kuehn and Junior Julie Smekodub, and Senior Nancy Kockott and Sophomore Dorotyya Magas. After losing the first three singles points, Tulane came from behind with wins from Sophomore Darya Ivanov, Kockott and Magas.

With one upset in the bag, the Green Wave moved on to Baylor Sunday afternoon. The Green Wave started off strong, sweeping all three doubles matches.

The waves momentum carried over to singles play where Kuehn and

Darya Ivanov secured wins at the No. 2 and No. 4 spots. With the score tied 3-3, Magas' victory at the No. 6 spot decided the match.

"The doubles points were key against both TCU and Baylor," Schumacher said. "When you win the doubles point you only have to split the singles matches, and we were able to do that against two very strong teams."

With two singles victories against Baylor's Klara Zravsota and TCU's Ana Cetnik, Darya Ivanov was named Conference USA player of the week.

"Darya has been extremely focused over the last few weeks," Schumacher said. "She is beginning to make better shot decisions. Her patience has

Sophomore Dorotyya Magas and the Green Wave women's tennis team defeats No. 17 TCU and No. 15 Baylor.

allowed her to attack when the opportunity presents itself. She has had some quality wins for us."

Brown saves Hornets from landmark misery

Jason Lieser
sports editor

In a season that seems to plod along from one disappointing loss to the next, many Hornets players have found motivation in playing for their chance to stay in the league.

Dan Dickau, for instance, has jump-started his career by completing one of the most impressive turnarounds in recent memory. In the two and a half seasons before joining the Hornets, Dickau scored 283 points and handed out 124 assists. He eclipsed his scoring sum just 24 games into his New Orleans career and his assist total in 30 games.

Likewise, Lee Nailon, who was

cut by the Hornets during training camp in 2002, is also having a season that will guarantee him at least one or two more in the NBA. The same player who started just four games last year between stints in Atlanta, Cleveland and Orlando has scored in double figures in 48 of the 62 games he's played this season, including 11 20-point performances.

Neither of their contract values is affected by whether or not the team wins. Their value, along with the rest of New Orleans' unproven players, is directly tied to their individual numbers.

P.J. Brown, however, is a completely different case. He bases his own value as a basketball player on whether or not he can

help the team win. In the three years the Hornets have been in New Orleans, no player has taken more pride in the team and felt so indebted to the fans as Brown. No player has taken the losses harder this year than he has.

"I just hurt," Brown said. "I love the game, I love to compete, I love to win; so that hurt is always going to be inside of you [when you lose]."

Brown's statement about losing hurting may not sound particularly revolutionary or profound, but the truth is, many veteran players on losing teams do slack off. I'm not going to name names, but then again, I don't really have to because you can always pick out the guys who get frustrated

and start playing for themselves instead of the team.

"I don't know [why players do that]," Brown said. "To be considered one of the best 400 or so players in the world is an honor and a privilege. I'm just thankful for the opportunity to be here. I just don't take for granted what we do for a living."

After watching so many veterans on bad teams just pack it up and take it easy, especially after the all-star break, the way Brown's nonstop hustle for a lottery-bound team like the Hornets is unusual.

"That's just the way I am," he said. "It's my job to come out and play and play hard. That's what I've always done in my career

from day one, when I first got here. That's not going to change until the day I leave."

At least early in the year he had some amigos to suffer along with him. But in December, Darrell Armstrong and David Wesley were granted their liberation in trades to Dallas and Houston, respectively. This left Brown as the lone veteran on a struggling squad.

But he didn't whine, pout, sulk or demand a trade. Instead, Brown assumed the role of teacher. While he had always been a stabilizing factor in the locker room and a strong leader, now his job is to teach a bunch of castoffs desperate to stay in the league how to come together as a team.

"I think guys are playing hard and trying to give their best. I think they're giving their effort, it's just a lack of experience that's hurting them," Brown said. "It doesn't come easy. I don't care where you came from in college or where you came from overseas, to be in the NBA, to be a cohesive unit and win night in and night out is very, very hard."

"It just doesn't happen overnight."

While the other players' goals are to play well enough to make an NBA roster next season, Brown's goal is to train the Hornets' young players into a championship squad.

Dean finally hired

Three-year search for A.B. Freeman School leader over

Chris Burcham
main section editor

After almost three years of searching, the A.B. Freeman School of Business has a new leader.

University President Scott Cowen announced Monday that Angelo DeNisi, department chairman of management at Texas A&M University, has been named the new dean.

"During [most students'] time at Tulane there has been a search ongoing for a new dean," DeNisi said.

"Professor DeNisi is an extremely well-respected scholar, indeed a star, among business school faculty," Cowen said. "He is the perfect choice to lead our nationally acclaimed business school to ever greater heights."

DeNisi is set to replace James McFarland, who has served as dean since 1988. McFarland will remain on staff as a professor.

"The entire Tulane community is indebted to Dean McFarland for his many years of service to the university," Cowen said. "His tireless efforts have increased both the physical size and national standing of the A.B. Freeman School of Business, making it one of the top business programs in the country."

After an extensive nationwide search and multiple extensions of the interview process, Tulane resorted to headhunting to find candidates. DeNisi was contacted by one and began the application and interview process.

"I've gotten a number of these calls and for the most part I [was] not interested," DeNisi said. "A lot of the time I thought why would I want to be a dean there. Some of the 'there's' are good schools, but places I wouldn't want to live."

DeNisi said that the opportunity to run a school as nationally prominent and in a location such as New Orleans was too good to pass up.

"I came here and had a wonderful interview," DeNisi said. "Plus it's in New Orleans, somewhere I want to live. For me this was worth saying 'OK' to the interview."

DeNisi navigated through the multiple steps of the application process, which included a meeting with faculty, staff, students, Cowen and Provost Lester Leflon.

"I met with a group of undergrad and MBA students," DeNisi said. "I was impressed by both groups of stu-

Engineers win canoe competition

Kim Borneman
news co-editor

The work of eight Tulane University civil engineering students paid off April 9 when they placed first at the American Society of Civil Engineers Deep South Regional Concrete Canoe Competition.

Team members Jonna Addis, Joel Dixon, Bart Grasso, Bridget Kelly, Courtney Miller, Kristen Moan, Josh Moore and Reilly Thompson spent the past year designing, performing analysis on and building a cement canoe.

"None of us really expected to do that well," senior Joel Dixon said. "I still don't think it's sunk in that we're regional champions and going on to the national competition."

Seventy-five percent of the total score is judged on engineering design and construction, the written report and oratory skills.

The rest of the score comes from each canoe's performance in multiple races that test the canoe's speed and agility. The competition aims to challenge each team's mastery of engineering concepts they've learned in the classroom, their ability to manage a large project and the ability to work together as a team.

Although the teams do all of the work themselves, each is permitted to consult with a professional engineering firm or professor from their university.

"Tulane doesn't have a naval engineering school, so the design process was difficult. We had to use an outside source," senior Bart Grasso said.

The Tulane team asked Bennett & Associates, L.L.C., a naval engineering firm located in New Orleans, for assistance.

"As far as consulting was concerned, they helped us do the analysis and plan the outline design. Once we got that straightened out, the building was up to us," Dixon said.

The team experienced a few minor problems in design and construction while actually building the canoe, but the majority of problems occurred before the building even began.

"Trying to coordinate the acquisition of materials with our sponsor all across the city [was] extremely difficult," Grasso said. "It caused delays in the project."

The use of cement to build canoes dates back to the early 1800s, and cement-canoe competitions in association with the American Society of Civil Engineers began in the early 1960s. Competitions at the national level began in 1988.

"It's great being able to get out there and see all the different designs and boats from the other schools, to get out there and not just show off our boat but our team skill. This wasn't something that one person pulled off, it was everyone working together," Dixon said.

The winner of the national competition receives \$5,000 in academic scholarships that go toward the school's civil engineering program, but the students are happy to do the work regardless of the outcome.

"I look at [the competition] as something fun that we were doing and if we did well, great," Grasso said. "It's always nice to see your work succeed."

The national competition will be held June 25 through 27 at Clemson University in South Carolina.

always nice to see your work succeed."

Tsunami relief effort

Kim Borneman
news co-editor

Tulane's students have joined together in an effort to raise money to aid in the cleanup of Southeast Asia following this winter's deadly tsunami.

The Tulane Student Tsunami Funds Committee has worked for the past few months to raise over \$3,000 to pay for water testing supplies and provide immediate relief with food and medical supplies. By the end of the fund-raiser, they hope to have over \$5,000 and they are trying to convince the Graduate and Professional Student Association to contribute an extra \$5,000 to the total.

Under the guidance of Carolyn Barber-Pierre, student leaders from nearly every school at Tulane formed a committee and laid out a fund-raising plan.

"Student leaders from a number of schools have hosted small scale fund-raisers that have included tabling, selling green ribbons and bake sales. Café Arabesque donated 10 percent of one day's revenue to the fund. At [the] International Festival uptown we will have a tsunami table with info and photos collecting donations," Sara King, a chair of the Tulane Student Tsunami Funds Committee, said.

According to King, the goal of the fund-raiser is not only to gather money but also to generate awareness of the disaster and its long- and short-term needs and work together as a school to respond to international needs.

"I knew that Tulane has a number of experts in related fields and that some work in the affected region," King said. "We were hopeful that by pulling together the expertise, care and resources of our faculty, students and alumni we might have some positive influence."

Other Tulane students and staff are carrying out relief efforts that are mostly based in Sri Lanka.

"There are a bunch of Tulane people involved, and then also the former president of Tulane, Professor Kelly, is now a professor in the Payson Center," Professor Sam Samarsingh said. "He visited Sri Lanka in late January, early February, and he helped world vision to set up its program."

Dr. Samarsingh is currently working as a director of a research institute in Sri Lanka.

"I would say that Tulane actually, as far as the Sri Lanka program [goes], has done quite a bit and of course on the more scholarly research side [of relief]," Samarsingh said.

One of the alumni who is working in Sri Lanka is Jason Smith, who went to set up a tsunami collection center to protect the district surrounding Trincomalee. Brenda Barrett is now the programs manager for the USAID project in Trincomalee. She has been working to raise funds for the tsunami relief programs with USAID.

Ryan Sinclair, a School of Public Health and Tropical Medicine doctoral student, worked in the area doing water quality research using solar water purification methods.

Dr. Engleland, professor of environmental health sciences, and alumna Dr. Lisa Pratt worked in Thailand after the tsunami to perform water quality assessments, carry out testing and train individuals in water testing and data collection.

The students contacted these and other expert Tulane staff, students and alumni, mainly from the School of Public Health and Tropical Medicine. Although the funds gathered by the Tulane Student Tsunami Funds Committee have not yet been distributed, they will certainly be going to one of these Tulane-based efforts.

"Rather than write a check to a huge aid organization, one through which the funds may not go entirely and directly to serve affected people, we have contacted Tulane... faculty, alumni and students that have been doing work in the area," King said.

King became interested in the tsunami relief effort after seeing the media surge following the event.

Tulane College student dies at 19

Kate Schafer
editor-in-chief

Timothy Marshall Rosencrans, a Tulane student died Tuesday, April 14. He was 19 years old.

He was found dead on the 7400 block of Calfield Street when the police arrived, according to the New Orleans Police Department. The cause of death is pending the results of a toxicology report and is currently unclassified according to NOPD.

The New Orleans resident was a 2003 graduate

from St. Martin's Episcopal School in Metairie, where he excelled at wrestling.

"The Tim I will always remember was a totally unique, interesting individual," friend Liz Elliott said.

"Conversations with him were never dull and were quite the opposite. He was insanely intelligent and kind-hearted."

Rosencrans is survived by parents Nancy and Steven, along with brother Robert and sister Margaret Eleanor.

A private memorial service was held April 16 at St. Andrew's Episcopal Church.

Conclave chooses new pope

Announcement of College of Cardinals' decision on new conservative German as next pope may be controversial

Cardinal Joseph Ratzinger took the name Pope Benedict XVI.

Tom Hundley and Steve Kloehn
Chicago Tribune (KRT)

Seventy-eight-year-old Cardinal Joseph Ratzinger, a doctrinal conservative who emerged as a pivotal figure in the days following Pope John Paul II's death, was elected pope Tuesday.

The German will be the Roman Catholic's 264th successor to St. Peter. He will be known as Pope Benedict XVI.

Although the announcement was greeted by delirious cheers from the multitudes gathered in St. Peter's Square, the choice is certain to be a controversial one.

"Dear brothers and sisters, after the great Pope John Paul II, the cardinals have elected me - a simple, humble worker in the vineyard of the Lord," he said from the balcony of St. Peter's Basilica.

"The fact that the Lord can work and act even with insufficient means consoles me, and above all I entrust myself to your prayers," Ratzinger said.

As head of the Congregation for the Doctrine of the Faith, Ratzinger served as Pope John Paul's theological enforcer. Many who know him personally describe him as shy and reserved, but his strict enforcement of John Paul's conservative views and his harsh silencing of several prominent theologians established his reputation as a somewhat divisive figure.

COMEBACK

Women's golf overcomes nine-stroke deficit to take C-USA title

Megan Repine
Staff writer

The stakes were high for the women's golf team Wednesday as they entered the final day of the Conference USA tournament. Nine strokes behind after two rounds, the Green Wave needed to rally to keep the championship at Tulane.

The final round of the C-USA tournament marked the greatest comeback in team history as the Green Wave shot a 294, its lowest score of the three days. After firing a third round 71, Alison Walshe clinched the individual title while Lihana Alvarez finished third overall.

"We had a great day," Head Coach Sue Bower said. "This is what competition is all about. I challenged our girls, and to have two of them shoot under par in the final round is outstanding. The girls came to play, there's no question about it. It was all business from the time they stepped on the first tee. They know TCU is a great team, and they had to take a stand early."

The tournament was held at the Germantown, Tenn., Country Club's par-72 golf course. The Green Wave finished the first two rounds strong, falling behind only TCU. With only one round left, the team trailed TCU by nine strokes with a total score of 604 (298, 306). TCU's two-day total stood at 595 (294, 301).

Tulane began the tournament strong with a score of 298, just 10 over par. USF also ended the day at 298, creating a tie for second place behind TCU. Walshe carried the Green Wave with a 1-over-par finish

Sophomore Allison Walshe won the individual C-USA title with a 214.

that tied for fourth place in the individual standings. Alvarez and Mary Ellen Jacobs finished seventh overall

with a 74, 2 over par.

Baseball sweeps season series with LSU

Green Wave blasts LSU with seven-run fourth for win

Blake Roter
Staff writer

Chants of "Roll Wave Roll" echoed throughout Zephyr Stadium Tuesday night as the Green Wave celebrated an 11-8 victory and season sweep of in-state rival LSU.

A record crowd of 12,069 looked on as top-ranked Tulane

(33-6) used a seven-run fourth inning to top the Tigers (26-13).

The decisive fourth inning began tied 4-4 after LSU relinquished an early 4-1 lead. Tigers starting pitcher Brandon Nall was pulled after beaming centerfielder Nathan Southard to start the frame. A hit and a walk later, the bases were loaded for first baseman Mich

Owings, who rapped a line drive into the left field corner for a bases-clearing triple.

Left fielder Matt Barker then singled in Owings and designated hitter Scott Madden doubled, setting the stage for second baseman Joe Holland's three-run homer to make it 11-4. Holland would finish the day with three hits, five RBIs and two runs scored.

Green Wave starting pitcher J.R. Crowel settled down after giving up four runs in the first two innings to complete five frames, earn the win and move to 8-0 on the season. Billy Mohl pitched 4.2 relief innings before Daniel Latham came on to strike out Clay Harris to end the game.

Head Coach Rick Jones was delighted about his team's success and collected his 500th career victory at Tulane.

"Tonight was a great win for us," he said. "We really put together some great at bats. We haven't had an inning like [the seven-run fourth] this season."

The season sweep of LSU could be a good omen for Tulane. The last time the Green Wave swept the Tigers was in 2001 — Tulane's only trip to the College World Series.

The Green Wave travels to Hattiesburg, Miss., to take on Southern Miss to begin a three-game Conference USA series with the Golden Eagles.

Junior Nathan Southard is batting .348 (8-for-23) during his current six-game hitting streak.

Men's golf takes bronze at C-USA

Wheeler named to All-Decade team

Stephen Richter
Staff writer

With three days of solid play, the Tulane men's golf team finished a best-ever third place at the Conference USA Championships. The team posted a combined 8 over par on the 7,093-yard Grand Bear Golf Course in Gulfport, Miss.

"It's a great accomplishment to get our best finish ever in the conference tournament," Head Coach Tom Shaw said.

"I'm proud of the guys. Up and down the lineup, everyone contributed."

Leading the Green Wave was senior Chris Wheeler. Wheeler finished the first day at even par. The second day he shot a 1-over-par 73 and on the final day he shot 2 under par, allowing him to tie for sixth place at 1 under par.

Another major factor in the Green Wave's solid start was sophomore Michael Thompson. Thompson finished the first day with a 69, placing him fifth individually. Thompson then shot 74 on the second day and 75 on the third. His 2-over-par finish put him second place on the team and tied for eleventh overall.

Going into the final day of the tournament, Tulane trailed UAB by one stroke for third place, but a clutch performance advanced the Green Wave into third place, five strokes ahead of the Blazers.

The whole team contributed to the last day's heroics, especially freshman Michael Britel. After shooting 81 the first day, Britel settled down and took eight strokes off his score the second day. On the final day, Britel

improved even more and posted a 69.

Also shaving off a stroke on the final day was senior Bill Roach, Jr. Roach got better as the tournament progressed, firing a 76 on the first day, a 75 on the second and a 74 on the third.

Nonetheless, the tournament was dominated by defending champion TCU. The Horned Frogs finished 23 under par as a team, 26 strokes ahead of second place Charlotte.

"We knew TCU was going to be the team to beat, and they certainly showed that today with the scores they put up," Shaw said.

After the championship was given to TCU, individual awards were given out. Tulane's top golfers both managed to grab accolades. Thompson was named all-C-USA, while Wheeler made the all-conference second team. Additionally, prior to the tournament, Wheeler was named to the 10-man C-USA All-Decade team.

"I've got two of the best players in the country on this team in Michael Thompson and Chris Wheeler," Shaw said. "All year long, I've been trying to get them some help, and we got it this week, and you see what our team was able to do."

Thompson and Wheeler will find out in early May if they are invited to the NCAA Regionals. For the rest of the team, the season ends on this impressive third place finish. With both TCU and Charlotte leaving C-USA, Tulane is poised to make a run at the conference championship next year.

the basement

Can't beat the Heat in 2005

Jason Lieser
Sports editor

There are two major themes around the NBA this year.

First, there were some stunning coaching jobs this year. Highlighted by Phoenix's 32-game and Chicago's 23-game improvement, six NBA teams have at least 14 more wins this season than last. Add Rick Carlisle's Pacers overcoming the DeBiele in Detroit to make the postseason and George Karl transforming the Nuggets and this season has the deepest Coach of Year candidate field in recent memory.

Second, some unique and dynamic 1-2 punches emerged. Interestingly enough, among the best 1-2 punches are those put together within the last year: Philadelphia, Washington, Phoenix, Boston (somewhat), Houston and New Jersey. Over the last 20 years or so, the formula for a title has been a strong 1-2 punch surrounded by reliable role players.

But the one team not mentioned is the leader in both fields.

The Miami Heat boasts not only one of the NBA's top coaches in Stan Van Gundy, who has masterminded the seamless cohesion of a very diverse group, but they also bring the most formidable 1-2 punch in almost a decade.

"By far the best 1-2 punch in the league," 12-year NBA veteran P.J. Brown said. "The closest thing I've seen in the NBA, since I've been playing, was Michael Jordan and Scottie Pippen. [Wade and O'Neal] are just unstoppable, and they put so much pressure on you that there's not much you can do."

"The only way that I think you can contend with what they have is to have a couple other guys who

match their intensity at the offensive end."

The problem for the rest of the league, however, is that no team has the talent to matchup with O'Neal and Wade. Back in Los Angeles, when it was O'Neal and Kobe Bryant, no other team had a tandem that could keep up with the Lakers either. That being said, the O'Neal and Wade duo is even better than the pairing that won three straight championships in L.A.

Wade may not possess Bryant's scoring repertoire, but he is a better all-around player. His ability to work within the framework of the team concept and his unselfishness are what set him above Bryant.

"[Wade] is a fabulous player," O'Neal said. "We take our time on the court. We look at each other. That's what being a great 1-2 punch is about."

Additionally, this is a different O'Neal than the world has ever seen. Although his scoring average (22.9 points per game) is the second-lowest of his career, the true hallmark of O'Neal's season has been bolstering his teammates.

"Both of us have the same goal in mind, and that's to help our teammates get better," Wade said. "We know every night that we both have to bring something on the offensive and defensive ends. We both want to win. When you've got two guys that want to do [win] and want to make other guys better, to me,

The indomitable tandem of Shaquille O'Neal and Dwyane Wade is averaging 47 points per game.

[blending] is the easiest thing to do."

When Miami, fresh off an appearance in the Eastern Conference semifinals, gave up Lamar Odom, Caron Butler and Brian Grant for O'Neal, skeptics said that the Heat would have Wade and O'Neal but nobody else. Although those three players could not mesh with Bryant and make the playoffs, they did give Miami 35.0 points and 21.4 rebounds per game in 2003-04 — more than O'Neal alone is capable of.

At that time, Miami's critics were right. However, as the season has progressed, O'Neal showed that he has an invaluable asset: leadership. Miami really didn't have a strong supporting cast when they acquired O'Neal, but O'Neal has personally developed one — as well as helping Wade jump from good to great.

With the new and improved roster, it took the Heat only 75 games to clinch the top seed in the Eastern Conference playoffs, and because Miami spent the rest of the regular season preparing for the post-season, this study will only include those first 75 games.

"We'll be focused when it comes time to be focused," O'Neal said.

Good enough for me. In those first 75 games, Miami played five times without

SEE BASEMENT: PAGE 13

The Experts Agree

The "Hullabaloo" assembled an expert panel of six writers and two photographers who covered the NBA this season, as well as 12-year NBA veteran P.J. Brown, to predict the winner of this year's playoffs. The majority of the panel agrees that the Miami Heat will celebrate its first championship in franchise history this summer.

Tulane Students Travel to Georgia to Protest

Tulane University Amnesty International co-presidents Andrea Schklar (so., Newcomb) and Sarah Miller (jr., Newcomb) organized a trip to Fort Benning, Ga. for the School of the Americas protest.

The School of the Americas (SOA), renamed the "Western Hemisphere Institute for Security Cooperation" in 2001, is a combat training school for Latin American soldiers, located at Fort Benning. According to protestors, the SOA, frequently dubbed the "School of Assassins," has left a trail of blood and suffering in every country where its graduates have returned.

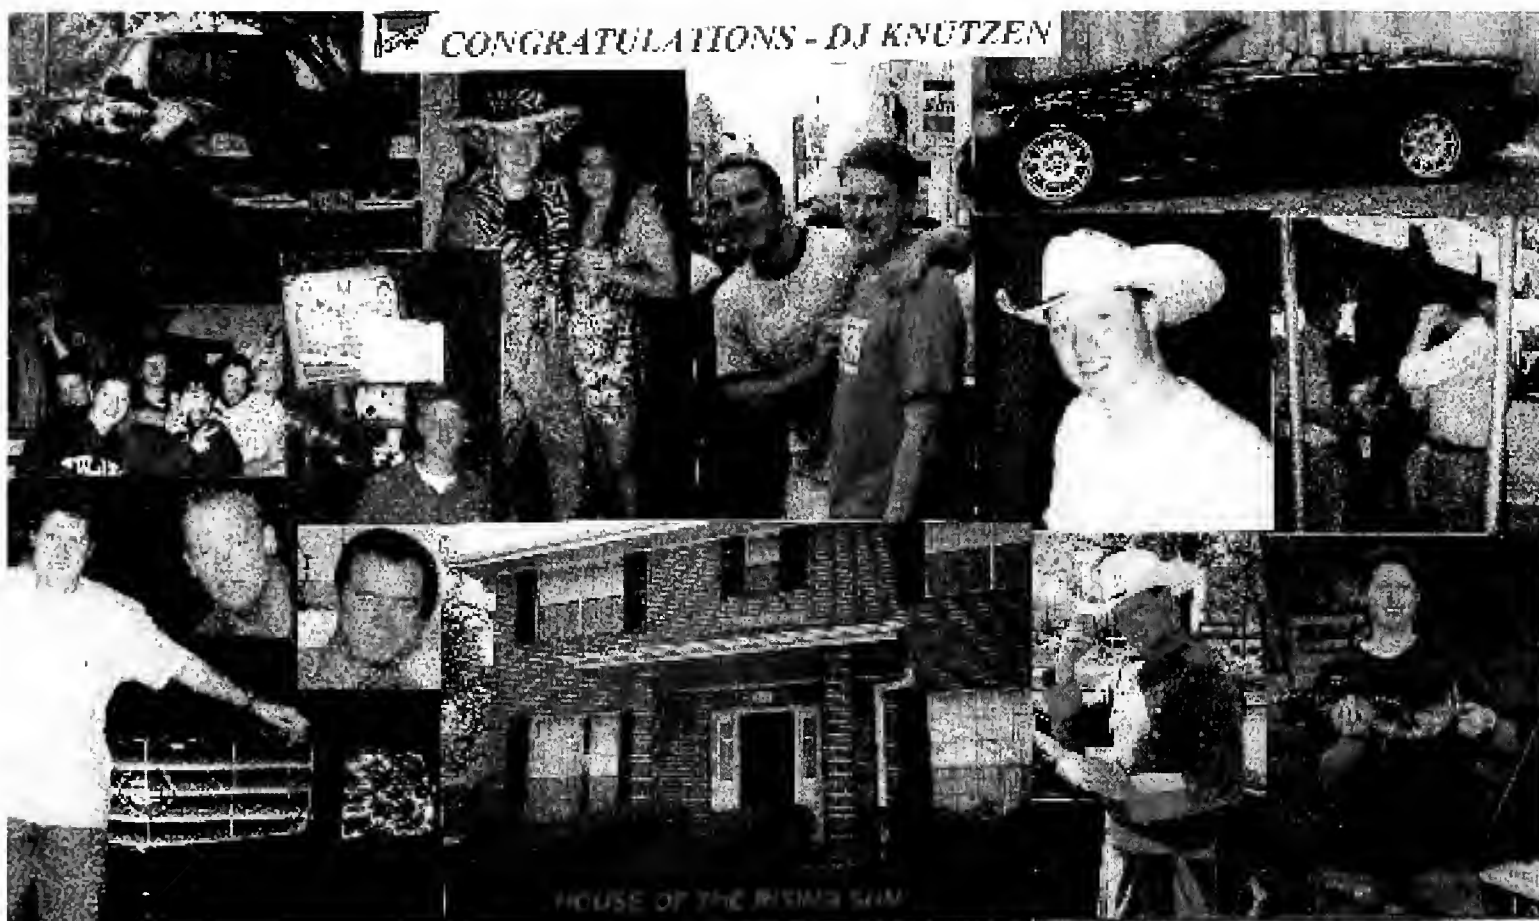

Protestors state that over its 56 years, the SOA has trained over 60,000 Latin American soldiers in counterinsurgency

techniques, sniper training, commando and psychological warfare, military intelligence and interrogation tactics. These graduates have consistently used their skills to wage a war against their own people. Among those targeted by SOA graduates are educators, union organizers, religious workers, student leaders, and others who work for the rights of the poor. Hundreds of thousands of Latin Americans have been tortured, raped, assassinated, "disappeared," massacred, and forced into refugee by those trained at the School of Assassins.

(Reisterstown, MD)
Sophomore, Undecided

Kwasman, Adam Charles
(Tucson, AZ)
Senior, Polit-Econ/Law, Econ, Policy
Graduating w/ Honors, Tulane College
Republicans, Hillel Student Board Of
Directors

Kwiatkowski, Ashley Michele
(Harahan, LA)
Sophomore, Public Relations

Kwiatkowski, Jeffrey Thomas
(Harahan, LA)
Sophomore, Chemical Engineering

Kwiatkowski, Jessica M.
(Harahan, LA)
Freshman, Undecided

Kwiatkowski, Megan Lynn
(Harahan, LA)
Senior, Classical Studies

Kwilu Nappa, Fulbert
(Kinshasa, CF)
GD, International Development

Kwitman, Elizabeth Anna
(Scarsdale, NY)
Junior, Marketing

Kwok, Loong-Shen Jason
(Deridder, LA)
Junior, Finance

Kwon, Cheol-Woong
(Yongin, Kyungji)
GD, Environmental Health Sciences

Kwon, Edward
(Poughkeepsie, NY)
MD4, Medicine

Kycey, Jason Anton
(Mesa, AZ)
Senior, Political Science

Kyokhvayants, Shushanik
(Armavir Regio, AM)
GM, Busn/Finance

La Borde, Gary J.
(New Orleans, LA)
Senior, Computer Info Systems

La Croix, Thomas M
(Sells, AZ)
GM, Environmental Health Sciences

La Grange, Todd David
(Metairie, LA)
Post Baccalaure, Computer Info Systems

Labadie, Anna
(Portland, OR)
Freshman, Sociology
Kappa Kappa Gamma

Labadie, Courtney
(New Orleans, LA)
Sophomore, Social Sciences

Labadorf, Steven
(Madisonville, LA)
Freshman, Undecided

Labens, Leila Craig
(Baton Rouge, LA)
Junior, Management, Psychology
GWA, BSM Ambassadors, Orientation
Planning Team

Labetic, Ivan
(Santiago, CI)
GM, Executive Mba

Labit, Matthew Molene
(Los Altos, CA)
Freshman, Biomedical Engineering,
Business
Intramural Water Polo, Drummer
*We are all so proud of you! Love, Mom, Dad,
Ericka and Stephen.*

Labordia, Juan Carlos
(Santiago, CI)
GM, Executive Mba

Laborda, Luis
(Kenner, LA)
Freshman, Organizational Info Technology

Laborde, Marc
(New Orleans, LA)
GM, Business

Labruyere, Samuel John
(Kenner, LA)
Freshman, Mechanical Engineering

Labruzzo, Amanda Leigh
(Marrero, LA)
Senior, Exercise Science, Psychology
Intramural Sports, Student Athletic Trainer
*Love & best wishes for you & your future!
Mom & Dad*

Lacayo Abreu, Eugenio Xavier
(Managua, NU)
Junior, Communication

Lacey, Colleen L

(Metairie, LA)
3L, Law

Lacorte, William St.John
(Metairie, LA)
GM, Public Health, General

Lacoste, Michael Henry
(Kenner, LA)
Senior, Computer Info Systems

Lacour, Cliff A
(Moreauville, LA)
2L, Law, MBA

Lacour, Jualila Patrice
(New Orleans, LA)
Junior, Undecided

Lacour, Michelle J
(Laporte, TX)
GM, Epidemiology

Lacroix, Maxime Adrien
(Auch, FR)
Graduate, Marketing, Finance

Lacy, Sarah A.
(Houston, TX)
Sophomore, Mathematical Economics,
German

Laczowski, Marina Jean
(Sebastopol, CA)
Sophomore, Communication, Film
Kappa Alpha Theta, Dodgeball, RHA

Ladas, James M
(New Orleans, LA)
2L, Law

Ladd, Benjamin Jordan
(Austin, TX)
Junior, Mechanical Engineering,
Mathematics
Tulane Climbing Club, Xa Christian
Fellowship

Ladd, David C.
(Houma, LA)
Freshman, Biomedical Engineering
Sigma Alpha Epsilon

Lader, Jacob H.
(Wynnewood, PA)
Freshman, Undecided

Ladra, Matthew M
(Atherton, CA)
MD3, Medicine

Ladson, Mitchell B
(Richmond Hill, GA)
2L, Law

Laegeler, Molly Theresa
(Houston, TX)
GM, Executive Mba

Lafayette, Daniel P.
(Burlington, VT)
Sophomore, Undecided

Lafferty, Christopher Shawn
(Holly Springs, NC)
GM, Environmental Health Sciences

Lafontaine, Ryan Joseph
(Pass Christia, MS)
Sophomore, Journalism

Laforce, Peg Anna
(Jefferson, LA)
Junior, Social Sciences

Lafreniere, Justin P
(Oxford, ME)
MD2, Medicine

Lagarde, Julie Anne
(Thibodaux, LA)
Freshman, Undecided

Lagrange, Zakiya
(New Orleans, LA)
Post Baccalaure, Paralegal Studies

Lagrone, Libra Marie
(New Orleans, LA)
GM, Liberal Arts

Lahasky, Samuel Henry
(Atlanta, GA)

**Chi Omega, Pre-Medical Society, TUNA,
College Republicans, Water Safety**
Instructor

Pujadas, Javier
(Balcelona, SP)
Masters, Finance

Corporate Finance, Golf, Soccer

Pullen, Valinda Kay
(Biloxi, MS)
Sophomore, Social Sciences

Pulwer, Robert
(Saint Louis, MO)
Freshman, Linguistics

Pumilia, Anthony
(New Orleans, LA)
GM, Business

Punyon, Amy Frances E.
(Rye, NY)
Sophomore, Communication, Political
Science

Purbrick, Natalie F.
(Chapel Hill, NC)
Junior, American Studies, Advertising

Purcell, James Michael
(Driftwood, TX)
Junior, Finance

Purchner, Michelle C
2L, Law

Purdy, Kristen Jane
(Bayport, NY)
Senior, Theatre Design

Purvis, Maria Mae
(Mandeville, LA)
Senior, History, English

**Vice President Of The Newcomb Student
Body, Newcomb Mortar Board**

Puschett, Diane B
(New Orleans, LA)
GM, Liberal Arts

Putterman, Rebecca
(Houston, TX)
Freshman, Undecided

Kappa Kappa Gamma

Putty, Christy L
(Ocean Springs, MS)
2L, Law

Pynes, Sarah A.
(Dothan, AL)
Junior, Theatre

Qadir, Nida
(Bloomfield Hills, MI)
MD4, Medicine

Qi, Lixin
(Taiyuan, CH)
GD, Biological Chemistry

Qian, Li
GM, Executive Mba

Qiu, Julie May
(Collierville, TN)
Sophomore, English

Qualls, Devin L.
(Mexico, MO)
Sophomore, Neuroscience

President of Volleyball Club

Quattlebaum, Sarah Gail
(Columbia, SC)
Sophomore, Pol Sci/International Relation

Quevedo, Reinaldo James
(Stony Point, NY)
GM, Pharmacology

Quinlan, Jennie
(New Orleans, LA)
GM, Maternal And Child Health

Quinn, Daniel Luke
(Prattville, AL)
Freshman, Architecture

Monster Trucks, Cross Country, Painting

Quinn, Devlyn A.
(Slidell, LA)
Senior, Exercise Science

Quinn, Gene R.
(Petaluma, CA)
GM, Cell & Molecular Biology

Quinn, Maureen
(Cape Coral, FL)

Rabinowitz, Geoffrey
(Coral Springs, FL)
Sophomore, Architecture

Rabinowitz, Jacob Zachary
(New York, NY)
Senior, Marketing

Rabon, Lyndsey Ingrid
(Katy, TX)
Sophomore, Undecided

Race, John Dudley, Jr
(Winter Park, FL)
Senior, Finance

Racherbaumer, Ry W
(New Orleans, LA)
Junior, Media Arts

Radcliffe, Brian L
(Metairie, LA)
2L, Law

Rader, Stefanie K.
(New City, NY)
Senior, Neuroscience

**Tulane Emergency Medical Services
(TEMS), Women In Science- President**

Radicke, Joshua Levi
(Carthage, TX)
Senior, Neuroscience, Linguistics

**Tulane College Bowl Team Secretary '04-
'05**

Radke, Eric Jonathan
(Newtown, PA)
Junior, Management

Radler, Anthony John
(Albuquerque, NM)
Junior, Computer Science

Computers

Rafalowicz, Jeremy Borys
(Key Biscayne, FL)
Freshman, Business

*We are so proud of you! You made it! Love
Mom & Dad*

Raffa, Nicole Rebecca
(Potomac, MD)
Sophomore, Psychology

Rafferty, Danielle C.
(New Orleans, LA)
Sophomore, Undecided

Rafferty, Darla D
(Gulfport, MS)
Sophomore, Assoc. Marketing

Rafferty, Katherine Barkley
(New Orleans, LA)
Freshman, History, Art History

Chi Omega

Ragan, Vanessa
(Mandeville, LA)
Freshman, Undecided

Ragland, Emily Beth
(Overland Park, KS)
3L, Law

Rahlf, Nils Volker
(Frankfurt, GM)
LD, Law

Rahman, Happy J
(San Angelo, TX)
1L, Law

Rahman, Mohammad Mamun-Ur
(Dhaka, BG)
GD, International Health

Rahman, Ryan S.
(Friendswood, TX)
Sophomore, Undecided

Rai, Sandeep Kumar
(Madison, MS)
Junior, Undecided

Railton, Alejandra
(Santaigo, CI)
GM, Executive Mba

Raimondi, Brian J.
(Old Tappan, NJ)
Senior, Business

**Basketball, Stock Market, Traveling
Congratulations Brian! We love you very
much. Love, Mom, Ken, Kim, & Ali**

Rainey, Chamblee Hayne
(Marion, AR)
Senior, Management

Sigma Alpha Epsilon

Rainey, Shannon
(Washington, DC)
Senior, Art Studio, History

Ruth, Lauren Katharine
(Wheaton, IL)
Freshman, Psychology, Pre-Medicine
Kappa Alpha Theta, Tulane Review Poetry,
Psychology I.O. Research

Ruth, Patrick Lawrence
(Metairie, LA)
Freshman, Civil Engineering

Rutherford, John S.
(Punta Gorda, FL)
Senior, Mechanical Engineering

Rutherford, Mary Kathleen
(Little Rock, AR)
Junior, Polit-Econ/Law, Econ, Policy

Ruthizer, Robin Anne
(New York, NY)
Senior, Psychology
We are so proud of you! Love Mom & Dad

Rutman, Vanessa Susann
(La Jolla, CA)
Freshman, Undecided

Rutta, Edmund Rugayamanzi, Dr
(Dar-Es-Salaam, TZ)
Graduate, International Health, Complex
Emergencies & Disaster Management

Ruxer, Matthew David
(Fairfax, VA)
Junior, Cell & Molecular Biology

Ryan, Elizabeth
(Houston, TX)
GM, Busn/Management

Ryan, Jennifer M.
(Biloxi, MS)
Senior, Organizational Info Technology,
Website Development

Ryan, Kendall Michelle
(San Ramon, CA)
Sophomore, English / Writing

Ryan, Mark William
(Austin, TX)
Senior, Finance

Ryan, Melissa Celeste
(Des Moines, IA)
GM, International Health

Ryan, Robert Nevin, III
(The Woodlands, TX)
Junior, Electrical Engineering
Navy ROTC

Ryan, Romy
(Albany, NY)
Junior, English / Writing, Psychology
Chi Omega, Running, College Democrats

Ryan, Sean Charles
(Smyrna, GA)
Junior, Finance

Ryan, Suzanne M.
(Skokie, IL)
Junior, Finance, Marketing
Kappa Alpha Theta, Vice President Of
Membership Of Kappa Alpha Theta,
Orientation Coordinator, Dance, Dean's
List, National Society Of Collegiate
Scholars
*Congratulations on your many achieve-
ments! Love you, Mom & Dad*

Ryba, Andrew E.
(Palatine, IL)
Junior, Chemical Engineering, Business

Sigma Alpha Epsilon

Ryder Jr., Gerard
(New Orleans, LA)
Freshman, Undecided

Ryland, William
(Atlanta, GA)
Sophomore, English

Rylee, Shannon M
(Newark, DE)
MD3, Medicine

S, Jerry

Saadat, Mina Alijani
(New Orleans, LA)
Sophomore, Undecided

Saaihi, Ana Maria
(Bucaramanga S, CO)
Senior, Mechanical Engineering

Saaidi, Christopher M.
(New Orleans, LA)
Freshman, Computer Engineering
Congratulations on the great work!

Saarlus, Kristin Nicholson
(Lilburn, GA)
GD, Health Systems Management

Saba, Matthew Kaleal
(Norcross, GA)
Sophomore, Undecided

Sabahi, Ali
(New Orleans, LA)
GD, Molecular & Cellular Biology

Sabartinelli, Alecia Lynn
(Co Springs, CO)
GM, Cell & Molecular Biology

Sabatier, Terri A.
(New Orleans, LA)
Freshman, Paralegal Studies

Sabatini, Michael Andrew
(Huntsville, AL)
GM, Chemical Engineering

Sabourian, Deyan
(Los Angeles, CA)
Freshman, Undecided

Sabur, Aleema Kamillah
(Pittsburgh, PA)
GM, Tropical Medicine

Sacco, Justine Marie
(Los Angeles, CA)
Junior, Philosophy

Sachitano, Gerald
(Metairie, LA)
GM, Business

Sachs, Jordan Brett
(Paradise Valley, AZ)
Sophomore, General Studies / Humanities
